# Stop App Naps

To prevent battery drain Apple!

Apple implemented App Nap in Mavericks to further lengthen your Mac's battery life by temporary slowing down apps that are not doing anything in the background. However, this slightly reduces the start up time of the app.

# Turn Off Start Up Chime

#### **Disable Start Up Chime by Using The Terminal**

If you find the Mac <u>startup</u> sound obnoxiously loud and want to **permanently disable** it, you can enter the following command into Terminal:

sudo nvram SystemAudioVolume=%80

You can return it to its default state by entering the following command into Terminal:

sudo nvram -d SystemAudioVolume

### sudo nvram SystemAudioVolume=%80 sudo nvram -d SystemAudioVolume

### **Mavericks Hidden Wallpapers**

#### Use Spotlight to Search for "Default Collections" Drop them in to System Prefs in Desktop
