Apple to Hold iPhone 6 Media Event on September 9

The five-week countdown is on, as it looks like Apple will be holding its annual [iPhone media event on September 9](#). While Apple hasn't officially confirmed the date yet, the news comes from *Re/code*, which has a perfect track record with such reports, and is being corroborated by *The Wall Street Journal* and *Bloomberg*. If past history is any indication, the [iPhone 6](#) should become available in the first wave of countries around September 19, with [iOS 8](#) launching to the public for existing devices a few days earlier.

These updates are for my computer but Apple does the same for all devices!

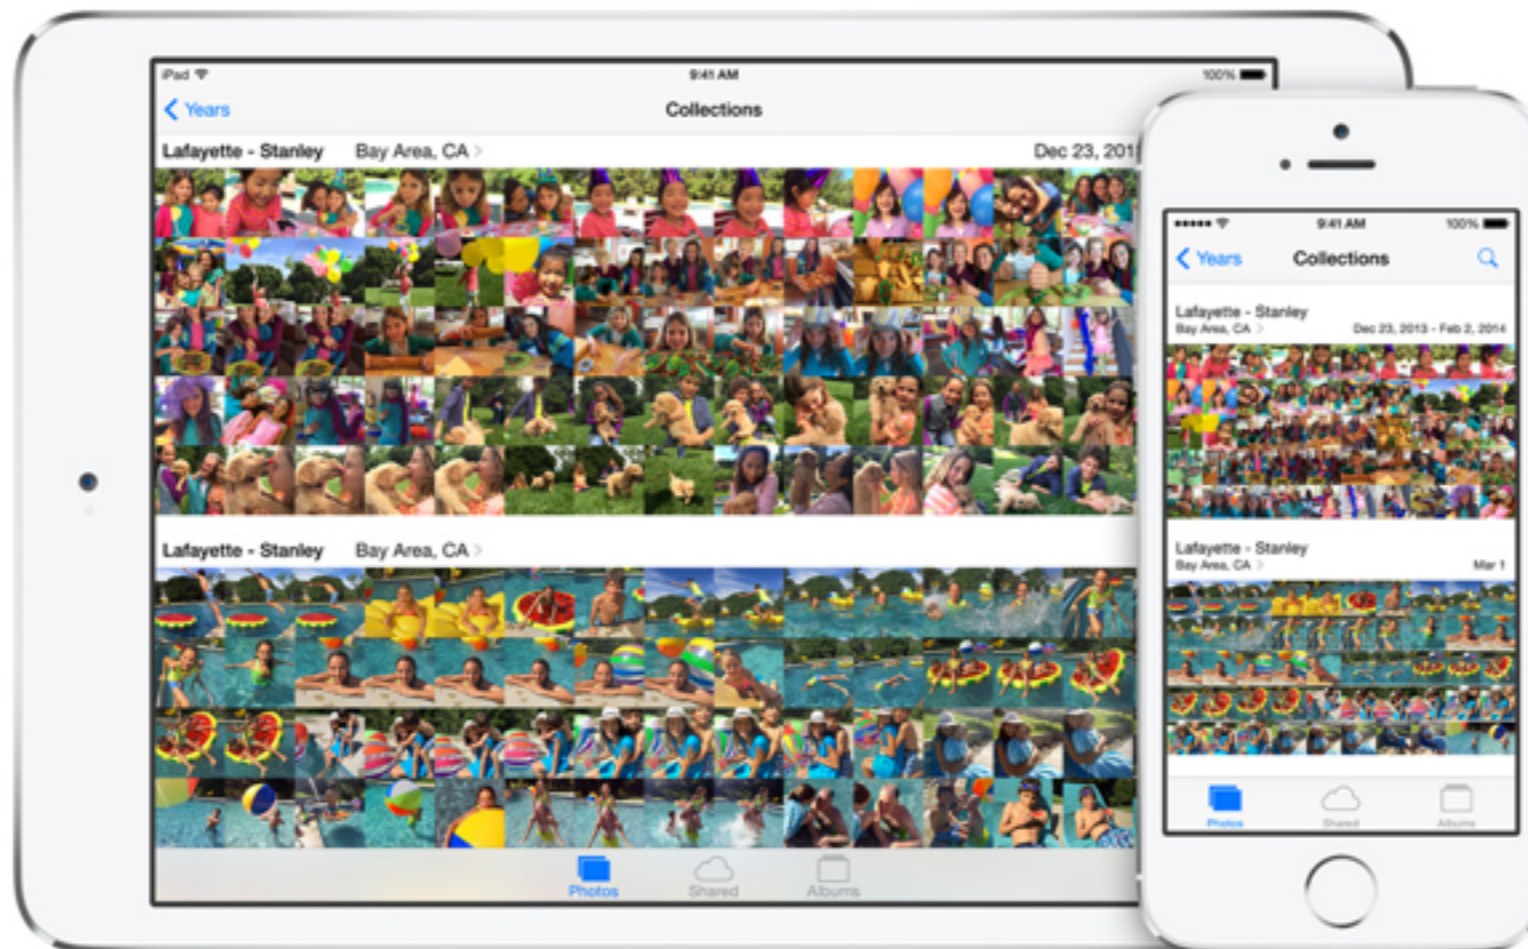

iCloud Drive

<http://www.apple.com/icloud/preview/>

iCloud Photo Library.

You're never without your camera.
Now you'll never be without your photos.

Every photo and video you take now lives in iCloud — giving you the freedom to access your library from any device, anytime you want. So you can view a photo from last week or last year no matter where you are.

Be Careful of “Wiggling” Apps

If you delete an app; you can “re” download it.

If you paid for an app; it is free again to download.

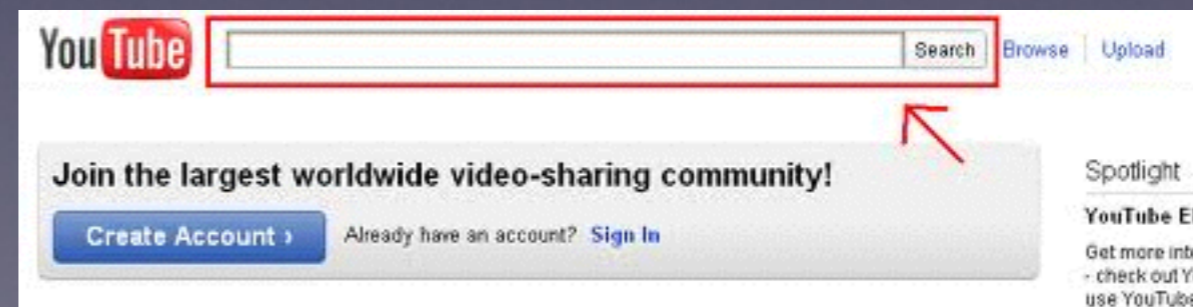

**If you have synced your iPhone/iPad ... apps are
there.**

**No computer....you can check you Apple ID for
downloads.**

New Apple ID Password Requirements

The screenshot shows the Apple ID password reset interface. The browser address bar displays 'Apple Inc. iforgot.apple.com/password/reset'. The page title is 'My Apple ID'. The main heading is 'Reset your password', with a sub-heading 'Create a new password.' and instructions: 'Enter a new password for herbstokes2@me.com below. Your password must be at least eight characters long. It must contain at least one number and two letters, one upper case and one lower case. It cannot include more than two consecutive and identical characters. It cannot be the same as your Apple ID or be any password you have used in the past year.'

There are two input fields: 'New Password' (containing seven dots) and 'Confirm Password' (containing the text 'must be at least eight characters'). Both fields have a red exclamation mark icon to their right. Below the 'New Password' field, it says 'Please fill in the field marked in red.' and 'Password strength : moderate'. Below the 'Confirm Password' field, it says 'Please fill in the field marked in red.' There are 'Cancel' and 'Reset Password' buttons at the bottom.

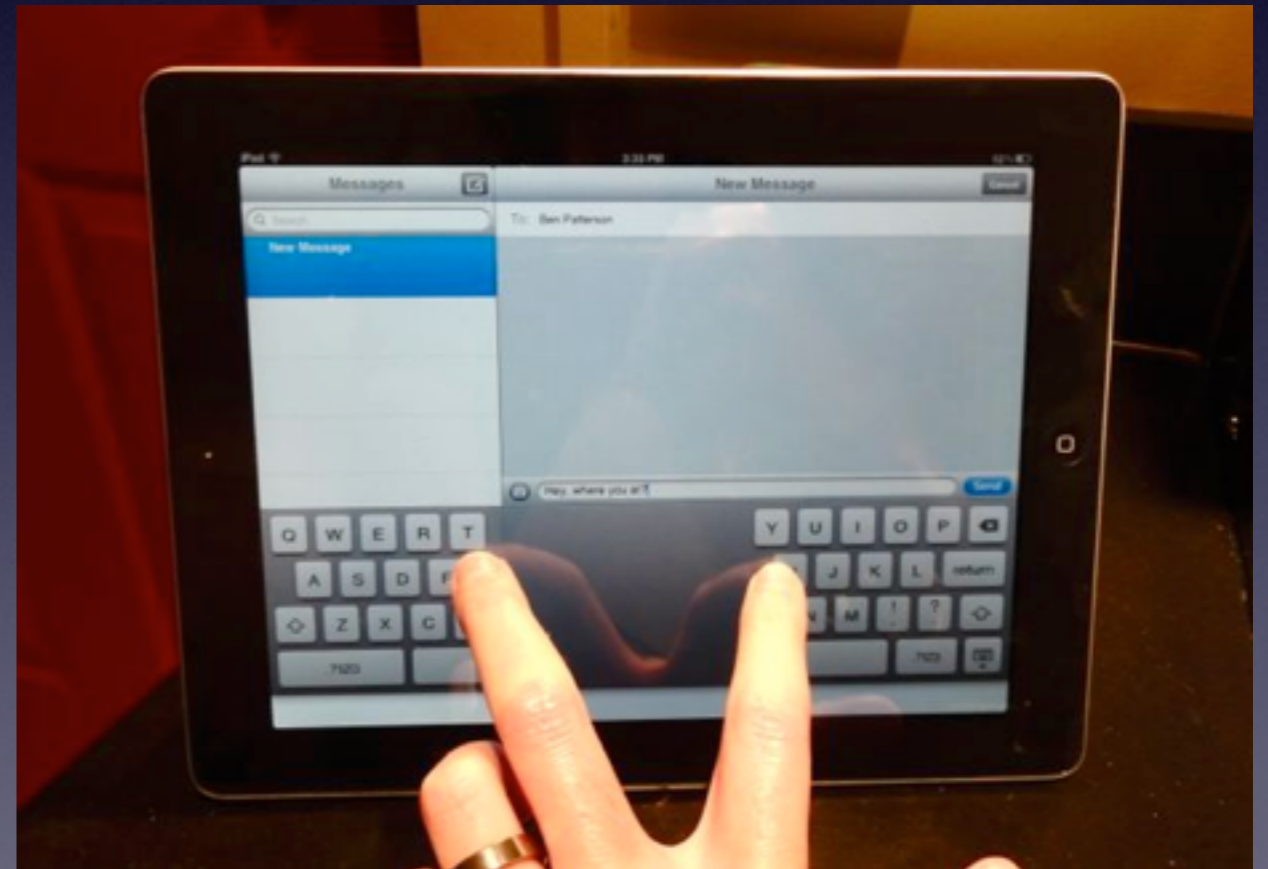

A callout box on the right lists the password requirements:

- Have at least one lower case character
- Have at least one capital letter
- Have at least one number
- Not contain multiple identical consecutive characters
- Not be the same as the account name
- Be at least 8 characters
- Not be a common password
- Not be used in past year

At the bottom of the page, there is a breadcrumb trail: 'My Apple ID > Reset your password'. The footer contains copyright information: 'Copyright © 2014 Apple Inc. All rights reserved. Terms of Use | Privacy Policy' and a link to 'Choose your country or region' with a US flag icon.

Get alerted when the free App of the Week is posted in the App Store

Each week Apple posts a free App of the Week in the iOS App Store. Here's how you can get an alert when it's posted.

by Jason Cipriani  @MrClippy / June 8, 2012 1:35 PM PDT

 2 /  0 /  0 /  0 /  /  more +

A few weeks ago Apple started offering an app in the iOS App Store as a free App of the Week. The initial app was **Cut the Rope: Experiments HD**, followed by **Snapseed**, and this week it's **Monsters Ate My Condo**.

All three have been great apps, with plenty more sure to come. Missing out on a chance to grab an app for free can be frustrating, and remembering to check the App Store each week isn't always going to happen. Instead of trying to remember, or setting a weekly reminder, let an **IfThisThenThat** (ifttt) task alert you once it's posted. The App Store Twitter account **sends a tweet** with the hash tag of #FreeAppoftheWeek once the latest app is posted, making an easy trigger for Ifttt.

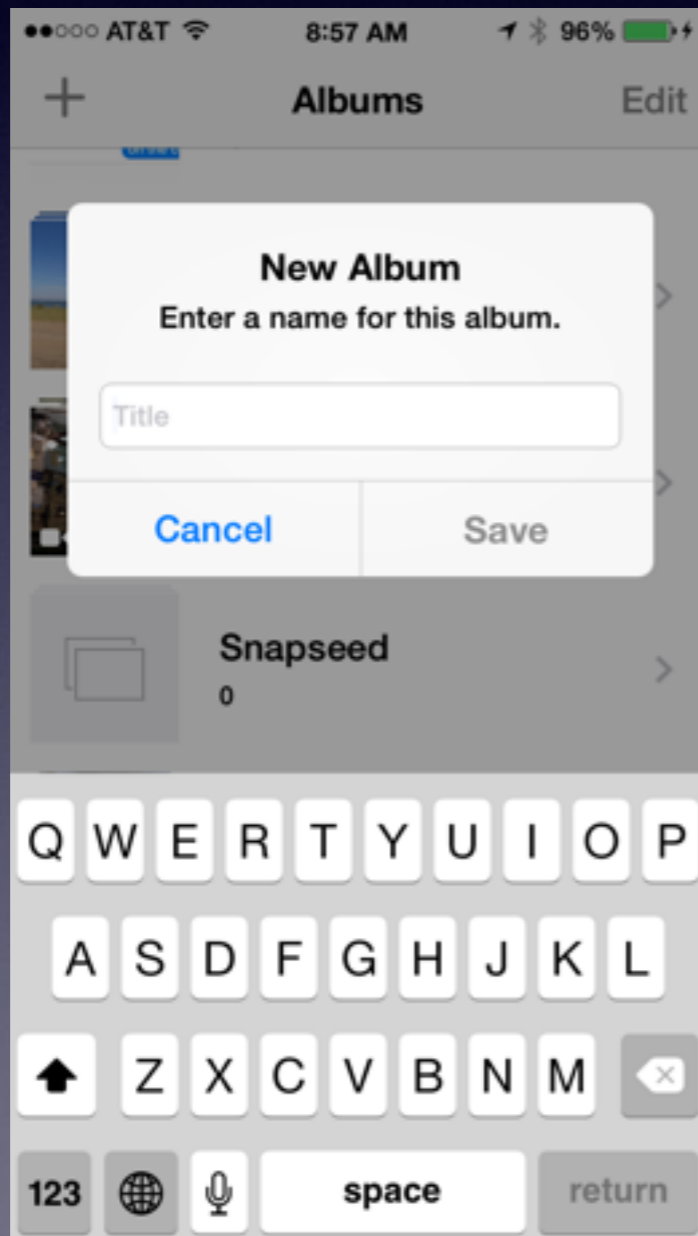

#FreeAppoftheWeek! The quirky and delectable puzzler Monsters Ate My Condo is the #FreeAppoftheWeek. <http://bit.ly/KmoxWN> Add Label +

Battery Replacement for iPhone 5

<https://ssl.apple.com/support/iphone5-battery/>

iPhone 5 Battery Replacement Program

Please select a Country ↕

Apple has determined that a very small percentage of iPhone 5 devices may suddenly experience shorter battery life or need to be charged more frequently. The affected iPhone 5 devices were sold between September 2012 and January 2013 and fall within a limited serial number range.

If your iPhone 5 is experiencing these symptoms and meets the eligibility requirements noted below, Apple will replace your iPhone 5 battery, free of charge.

Eligibility

If your iPhone is in working order and exhibits the symptoms noted above, use the serial number checker below to see if it is eligible for this program.

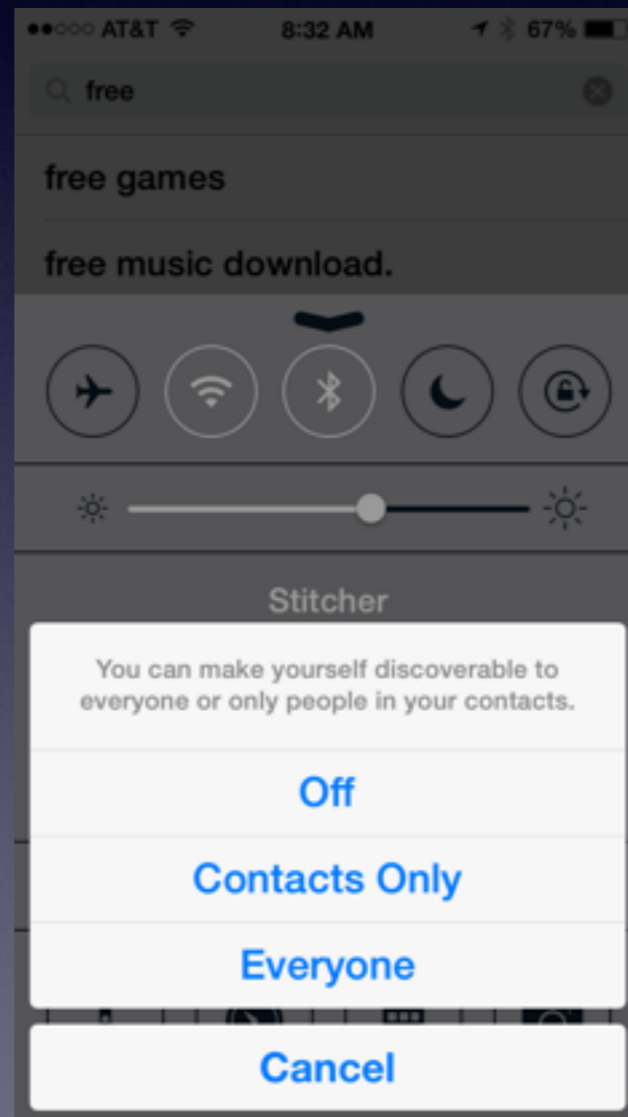

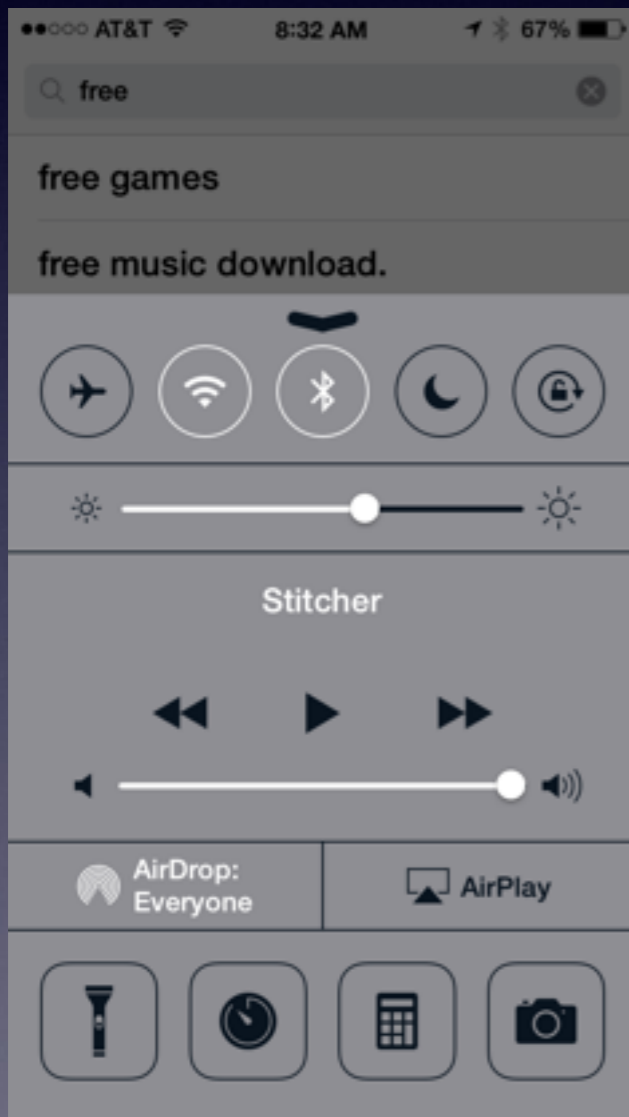

Submit

Finding your iPhone serial number is easy. [See how.](#)

You will have to
Back up your iPhone with iTunes
You will have to turn off “Find my iPhone”
Go to settings and erase all content and settings.

AirDrop

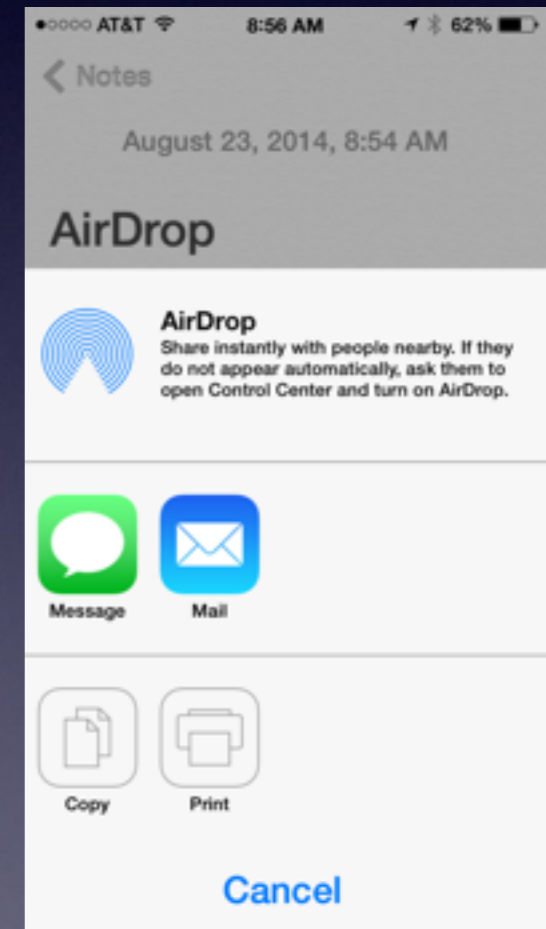

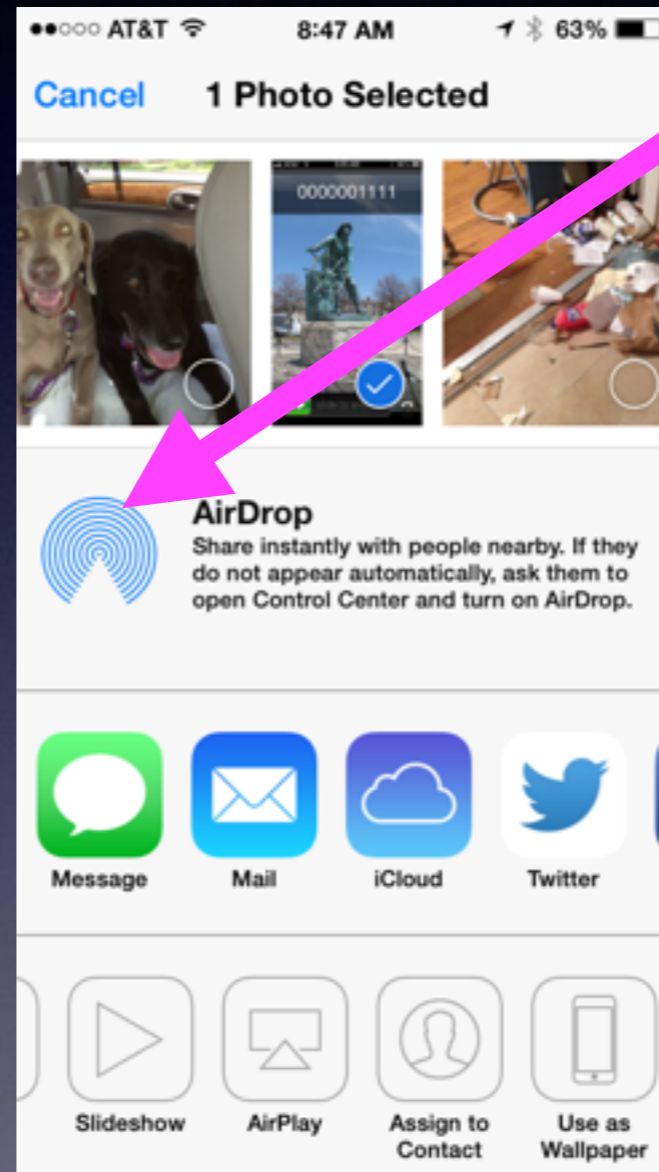

Find The Settings in the Control Center!

AirDrop Cont.

Share Files or Data

Access an application that is capable of sharing. These include, but are not limited to, Safari, Photos, Maps, Notes, Pages, Keynote, Numbers, iPhoto, iMovie, GarageBand, Photo Booth, and Contacts. Select the files you want to share. For example in Maps, bring up a location or directions. In Contacts, select a card to share. In Photos, use the Select button and choose one or more photos or videos. Once you've picked the file you want to share, tap the Share icon. On the sharing menu a round icon will be displayed for each device that has AirDrop turned on and is within AirDrop range of you. Tap the icon of the device you want to send to.

Printing / eMailing Messages

Printing from an iPhone requires an AirPrint Printer
or
purchasing an app such as Printopia.
