Apple to Hold iPhone 6 Media Event on September 9

The five-week countdown is on, as it looks like Apple will be holding its annual [iPhone media event on September 9](#). While Apple hasn't officially confirmed the date yet, the news comes from *Re/code*, which has a perfect track record with such reports, and is being corroborated by *The Wall Street Journal* and *Bloomberg*. If past history is any indication, the [iPhone 6](#) should become available in the first wave of countries around September 19, with [iOS 8](#) launching to the public for existing devices a few days earlier.

Make a Custom Ringtone

The screenshot shows the iSkysoft website's product page for 'iSkysoft iPhone Ringtone Maker for Mac'. The page features a navigation bar with links for Store, Mac, Windows, Freeware, Support, How-To, and Blog. A search bar is located on the right. The main heading is 'iSkysoft iPhone Ringtone Maker for Mac'. Below the heading are navigation tabs for Features, User Guide, Reference, What's new, and Reviews (5) with a 5-star rating. The product image shows the software box. The main text describes the software's capabilities: creating ringtones from music, extracting audio from videos, making unlimited ringtones, and transferring them to iPhones. A note indicates the product is incompatible with iOS 5 and Mac OS X 10.7 or newer. On the right, there are buttons for 'Free Trial' (Version: 1.6) and 'Buy Now' (\$19.00).

iPhone 5 Battery Replacement

<https://ssl.apple.com/support/iphone5-battery/>

iPhone 5 Battery Replacement Program

Please select a Country ↕

Apple has determined that a very small percentage of iPhone 5 devices may suddenly experience shorter battery life or need to be charged more frequently. The affected iPhone 5 devices were sold between September 2012 and January 2013 and fall within a limited serial number range.

If your iPhone 5 is experiencing these symptoms and meets the eligibility requirements noted below, Apple will replace your iPhone 5 battery, free of charge.

Eligibility

If your iPhone is in working order and exhibits the symptoms noted above, use the serial number checker below to see if it is eligible for this program.

Submit

Finding your iPhone serial number is easy. [See how.](#)

**Let's Plan On
Losing
My
iPhone**

**Ways
to
Lose
My
iPhone!**

Dropped in Toilet.

Walk into the Guadalupe.

Left it on toilet paper holder in Country Club.

Left it on toilet paper holder in Lowes.

Student stole it.

Left it on a table in a restaurant.

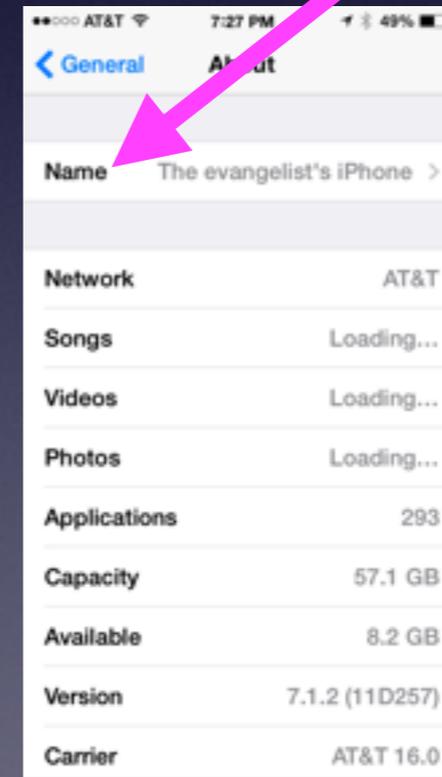

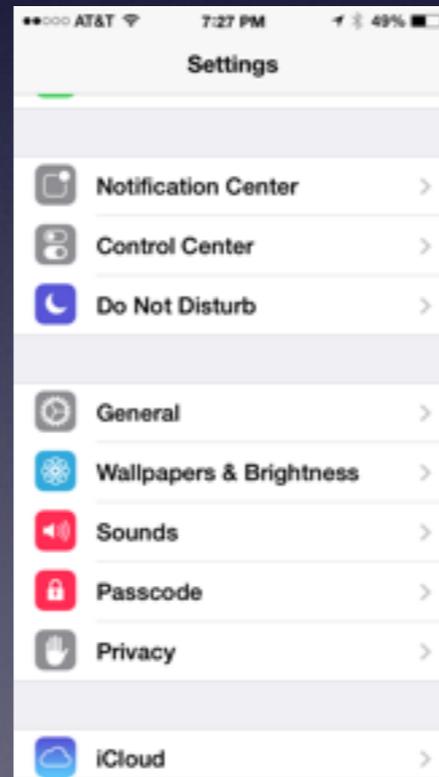

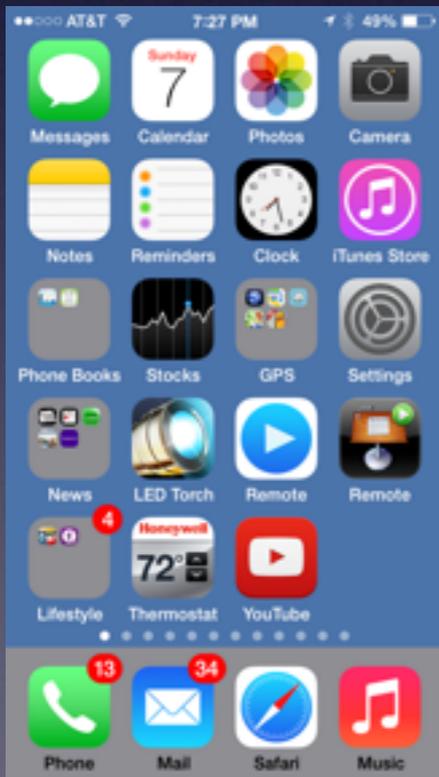

Who Loses an iPhone?

<http://www.tomsguide.com/us/smartphone-security-lost-found-phone,news-14547.html>

- In the U.S. people lose a smartphone about once a year.
- People in Manchester, England have the highest likelihood of losing their phone out of any other population in the world.
- Phones are more often lost at night. Two-thirds of phone loss happens between the hours of 9 p.m. and 2 a.m. local time. And one of the top places to lose your phone at is a bar or pub – we'll let you draw your own conclusion as to why!
- Coffee shops, offices, bars and restaurants top the list as the most common venues to lose your phone in the U.S.
- Unsurprisingly, more phones are lost during festivals and celebrations. During Christmas, more than \$11 million dollars worth of phones were lost.
- During the week of Carnival (aka Mardi Gras), more phones were lost around the world than during your average parade-less, bead-less week. Party-goers in Cologne lost 30% more phones and in Paris, 72% more phones were lost.
- The top U.S. cities for phone loss include (Interestingly, many of the cities with highest rates of lost phones also were in the top ranks for the FBI's most recent crime stats):
 1. Philadelphia
 2. Seattle
 3. Oakland
 4. Long Beach
 5. Newark
 6. Detroit
 7. Cleveland
 8. Baltimore
 9. New York
 10. Boston

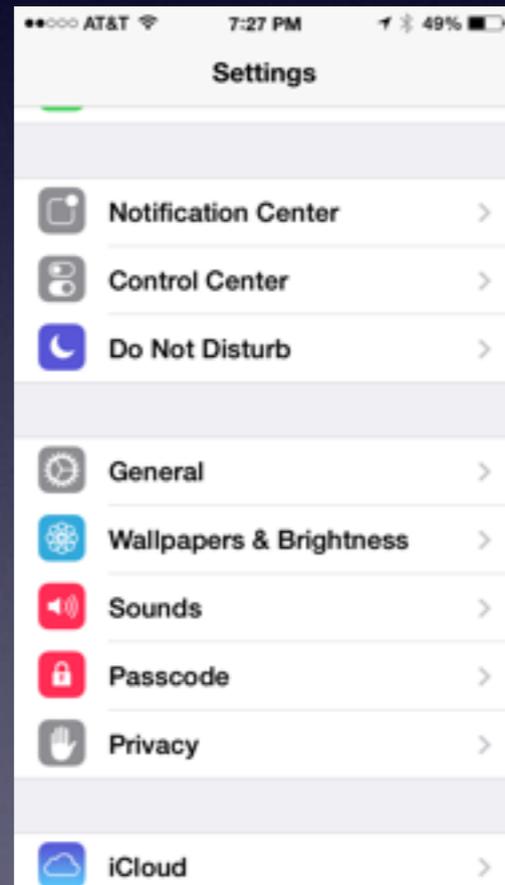

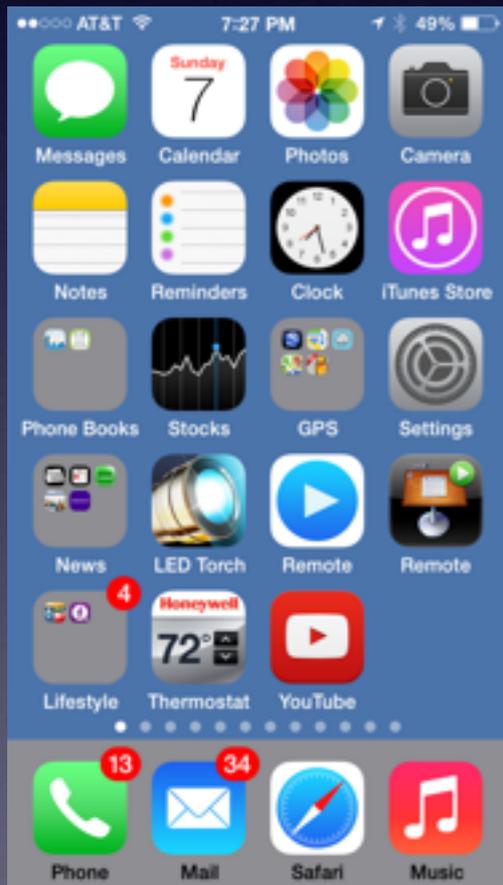

Don't go to a restaurant during Christmas in Philadelphia between 9 p.m. and 2 a.m.
