The Special iPad Air 2

[The Apple](#) iPad Air 2 might not be chock-full of surprises, but the little surprises it has are quite pleasant. The only one you probably didn't hear much about is that the Wi-Fi + [Cellular](#) version will sell with a special Apple-branded SIM card. What's so special about it? Well, it gives US and UK customers carrier freedom! Since the cellular iPad is not sold with your typical two-year contract, its owners could juggle multiple cellular data accounts from a single menu in the [tablet's](#) settings.

Difference Between iPad and iPhone

1. It hurts more to drop your iPad on your head than an iPhone.
2. iPad & iPhone do not share the same size factor.
3. iPhones always connect to the Internet! You have a plan and a bill every month!
4. iPads can be purchased without a plan or bill every month!
5. Assuming you pay your bill...you can always make a call on an iPhone.

The Web IS Dangerous

DANGEROUS LIAISONS

OCT 04 2014

If you're about to Google Jimmy Kimmel, beware.

Computer security company McAfee says the talk show host is the most dangerous celebrity to search for online.

The company said Tuesday a search for Kimmel carries a 19-percent chance of landing on a website that has tested positive for spyware, viruses or malware. The company has used its own site ratings to make the determination for the past eight years.

Other celebrities McAfee deems dangerous this year include Ciara, Flo Rida, Bruce Springsteen, Chelsea Handler and Christina Aguilera.
