Be Safe

The screenshot shows an email client window with the title "Inbox (5242 messages, 297 unread)". The interface includes a top toolbar with icons for Delete, Junk, Reply, Reply All, Forward, New Message, Sidebar, Get Mail, Print, Hide Related Messages, and Flag. Below the toolbar is a "Mailboxes" section with a dropdown menu showing "Inbox (297)", "Sent (109)", "Flagged", and "Drafts (7)".

The left sidebar lists mailboxes: "Inbox", "tdmill@...", "Google", "Yahoo!", "abilenemacu...", "Flagged", "Drafts", "Sent", "Junk", "Trash", and "Archive".

The main content area shows a list of emails. The selected email is from "craigslist reply 7a17" dated "February 18, 2015 at 2:19 PM". The sender is "nqhsx-4884294238@sale.craigslist.org" and the subject is "Large rollcut paper cutter".

The email body contains the following text:

I promised to meet you yesterday but i didnt show up because i had some family issues to handle i will like to know if we could still meet later today here is my email carnesbruce@gmail.com

Should I Cover the Camera [web cam] On My Mac?

The image shows a screenshot of a web browser displaying search results for the query "should i cover my macbook camera". The browser's address bar shows the search term. The search results list several articles and forum posts from various sources, including Slate, Amazon, Apple Support Communities, and CNET, all discussing the security implications of covering the built-in iSight camera on a MacBook. The text is partially obscured by a large blue overlay on the right side of the page.
