Assalamu Alaikum,

Permit me to inform you of my desire of going into business relationship with you, I know this message will sounds very strange to you, but I have no choice than to risk my life to choose a stranger like you I have never seen before. We leave in a global world today, and with the help of internet technology one can easily communicate with one another all around the world without knowing him or she in person, what matters will be the trust and the Information's you got about the person. In this case we can understand our self and work like one family.

My Name is Dr. Lassine Diawara, the senior Auditor In charge of Foreign Remittance Unit, Bank of Africa (BOA). I'm from Ouagadougou, Burkina Faso, West Africa. My reason for contacting you is to transfer an abandoned \$15.5M to your account.

The owner of this fund died since 2003 with his Next Of Kin. I want to present you to the bank as the Next of Kin/beneficiary of this fund.

Further details of the transaction shall be forwarded to you as soon as I receive your return mail indicating your interest.

I will like you to provide immediately the below information's, to enable me use it and get you next of kin application form from my bank.

1. Full Name:.....
- 2.Full Address:.....
- 3.Telephone Number:.....
- 4.Country:.....
- 5.Occupation:.....
- 6.Age:.....

The image shows a screenshot of a web browser displaying the website `smcfancontrol.soft32.com`. The page features the `soft32` logo and a navigation menu. The main content area is titled `smcFanControl for Mac OS X` and includes a `Free Download` button with a download icon. Below the button, there is a section for `More download options` with a link to `smcFanControl (Producer Mirror)`. A `McAfee SECURE` badge is also visible. The page includes a disclaimer: "Free downloads via Soft32 Downloader. Additional commercial offers might be offered during the download process. This website is not directly affiliated with Hendrik Hofmann. smcFanControl may be also available for download for free on the publisher's website."

Below the main content, there is a table with the following information:

How Good is the iPhone and iPad Camera?

<http://www.macrumors.com/2015/02/17/modern-family-iphone-ipad/?partner=skygrid>

The screenshot shows the MacRumors website interface. At the top left is the MacRumors logo with the tagline "news and rumors you care about". To the right, there is a link "Got a tip for us?". Below the logo is a navigation menu with items: "Front Page", "Mac Blog", "iOS Blog", "Roundups" (with a dropdown arrow), "Buyer's Guide", and "Forums". A secondary navigation bar contains "Apple Car", "Apple Watch", "iPad Pro", "Retina MacBook Air", and "'Steve Jobs' Movie".

The main article has a red header with the title "Upcoming 'Modern Family' Episode Shot Entirely on iPhone and iPad Cameras". Below the header, the date and author are listed: "Tuesday February 17, 2015 6:51 am PST by Mitchel Broussard".

The article text reads: "The upcoming February 25 episode of ABC's multiple Emmy-winning sitcom 'Modern Family' will take place solely on a MacBook screen (via *The Verge*). The episode, being shot by director and series co-creator Steve Levitan, used an iPhone 6 and iPad Air 2 to shoot every scene."

The second paragraph states: "The episode's story focuses on Claire Dunphy's (Julie Bowen) attempt to reach her daughter Haley (Sarah Hyland) by contacting various other members of the Dunphy/Pritchett clan via multiple forms of MacBook apps, all while stuck in an airport."

At the bottom of the article is a large image showing a composite of scenes from the show. On the left, a close-up of a man with glasses. In the center, a MacBook screen displaying a video call with a man. On the right, a woman looking at a smartphone. The background is a purple wall.

Anything is a **free iOS app** that lets you convert a spare iPod Touch, iPad, or iPhone into a video surveillance camera. The next part is up to you: either use a second device to view footage remotely and receive alerts and Cloud-saved clips based on motion activity, or simply track what's happening on the Anything Web app. Basically, it works like an IP camera *without* requiring a separate purchase.
