Get Your iPhone & iPad Ready for IOS 9.3.

All iPhones going back to iPhone 4s and iPads going back to the original iPad mini will be able to accept IOS 9.3.

Determine which model iPad or iPhone you have.

Settings > General > About > Model.

https://support.apple.com/en-us/HT201296

Your model is not located in the top left corner of the screen. Notice that most iPad don't have anything at the top left side of the screen.

Model of iPhone?

This area does not tell what model or kind of iPhone you have!

They tell

Signal Strength.

Who is selling your service.

What kind of signal you are getting.

Backup Your Device

Do Spring Cleaning!

Clean detritus; apps, pictures, movies, etc.

When you delete an app; you delete the data created by the app. [Map my walk]

You will not be able to delete apps installed by Apple when you purchased your iPhone!

Update Your Apps

Do not install a new IOS when you have apps that need to be updates. Best to have no Badge App Icons.

> Go to the App Store App and update!

Make Sure Your Photos are in iCloud!

Log into your iCloud acct. on any computer! Use your Apple ID and Apple ID password.

Much of what is only your iPhone & iPad can be replaced or is not significant. Not so with photos.

Remember that Apple give you 5GBs of free space. You may have to purchase more space.

Know Your Passwords

There are two really significant passwords [passcodes]. 1. Enter Passcode 2. Apple ID Passcode

You will not be able to call Apple and have them locate your passwords.
