This Is The Best Device of Its Kind!

Don't leave here frustrated. You will get it.

> Don't forget about the "Tips" App.

Will An iPad Substitute For a Computer?

How much storage do you need? Are you into photos or graphics? Do you need access to an optical drive? Can't connect to multiple monitors. Can't use a mouse. Can't play DvDs or Blu-Ray Discs. Can't be upgraded.

Making A Photo Better With One Click!

Can I Print From An iPhone or iPad?

You will be printing "Wirelessly."

HP Ink is the most expensive ink! Look at Brother, Canon, and Epson printers. You must purchase an "AirPrint" Printer.

My iPad and iPhone Work but are "sluggish."

Reset the Ram! Make your iPhone and iPad faster with one simple trick!

Hold power button until you see "slide to power off."

Let go of the power button.

Hold down the home button approx. five seconds.

Ram has been reset!

I Just Purchased My iPad or iPhone!

What are the first things I should do?

Make Text More Readable!

It is done through "accessibility" features
