Apple Followers = iSheep

Why do people call Apple fans iSheep?

Glyn Williams, acolyte of the cult of the bitten fruit. 1.4k Views • Glyn is a Most Viewed Writer in Apple Evangelists.

People often defend decisions they make.

When people have the choice of either XBoxOne or PS4, the PS4 deciders will often go on to mock the XBone buyers. This is a form of tribalism.

Apple products often have a different set of design choices than the rest of the PC market. The products are often more costly, they look better, the software is incompatible.

Those decisions are incomprehensible to some. So they come to the conclusion that the Apple buyers are foolish. They have been glamoured in some way, and are simply following others like dumb sheep.

I am a big fan of the BBC Horizon show. It's a documentary series which covers science. They feature cosmology one week, subatomic physics the next, the Pluto mission, the science going on at Antarctica.

It's always interesting to me how many of the worlds top scientists are iSheep.
