There are no stupid [or dumb] questions!
We learn by “asking!”

Serious problems with passwords and accts. Or how to use
your device...

The screenshot shows the homepage of the website "Tom Miller-Mac Help". The site has a clean, white layout with a blue header. The main content area is divided into a "Home" section on the left and a sidebar on the right. The "Home" section features four images: a white iPhone and iPad, a blue abstract background, a black iPhone, and a Mac OS desktop. The sidebar contains a search bar, a "RECENT POSTS" section with five links, and an "ARCHIVES" section with a list of months from February 2014 to March 2015. A pink arrow points from the top right of the image to the search bar in the sidebar.

Where is the best place to keep passwords and notes?

The Notes app is the best!

Well, you ask, “How can I be sure my notes are secure”?

Are My Notes Secure?

Ask yourself one question, “If I loose or if someone gets my iPhone; can that person get at my Notes”?

Security Passcode

The biggest threat to iPhone and iPad security

I don't need a passcode
I don't have anything on my iPhone or iPad.

You may be your own biggest security threat!
