Content on iPhone/iPad is limitless!
You must use a password and must remember it!

The iPhone and iPad can open a child to a world of hurt!

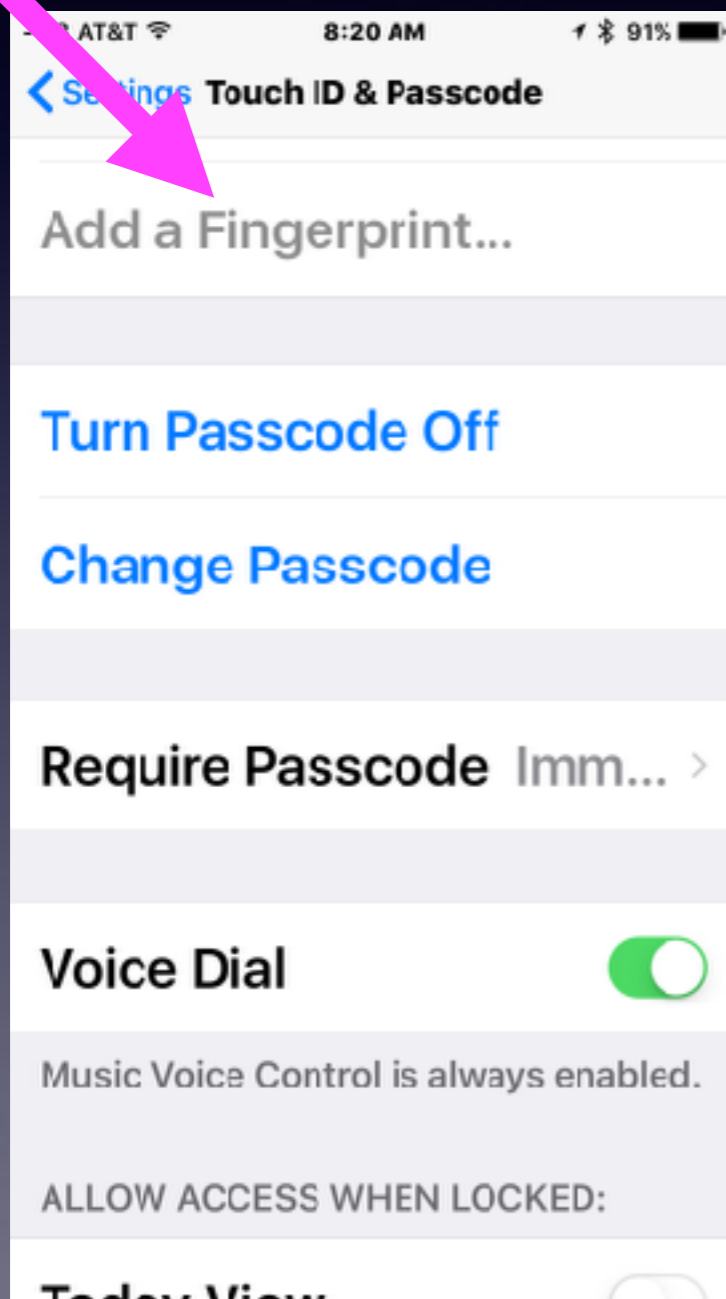

Why Is It Important To Use A Fingerprint!

You must have a passcode!

Unlock With A Fingerprint!

Add the same fingerprint two or three times if the iPhone or iPad has difficulty reading your fingerprint!

It is really important to have a fingerprint on your iPad and iPhone!

Look what your fingerprint can do!

Who Else Will [or has] Access To Your Device?

iPhone/iPad Security

Change to a more secure passcode!

Your iPhone & iPad data is at risk if:

You don't use a passcode.

You use 1234

You use 5555

Share your passcode with kids, family, friends & the general public.

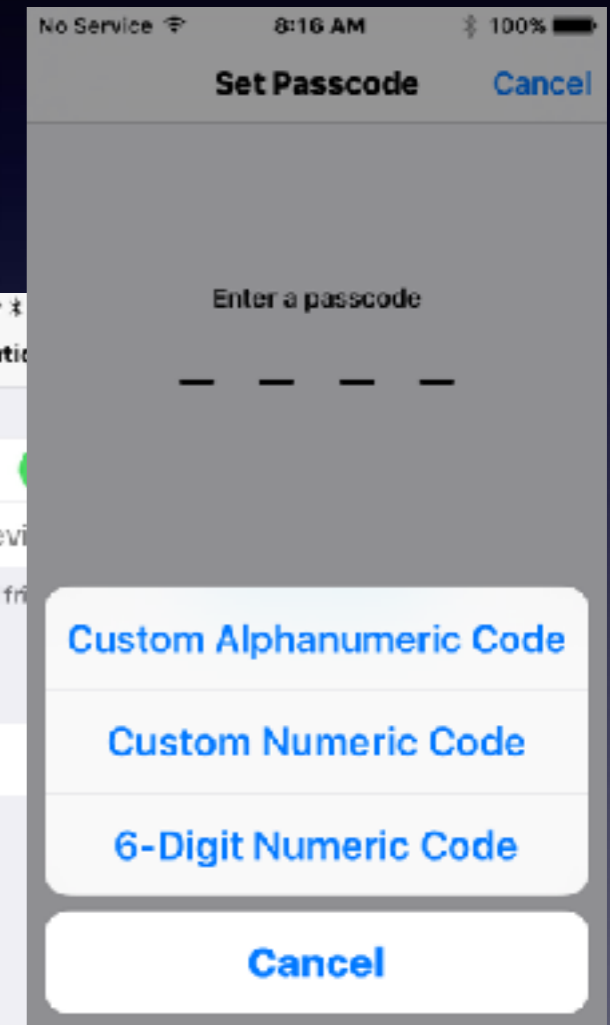

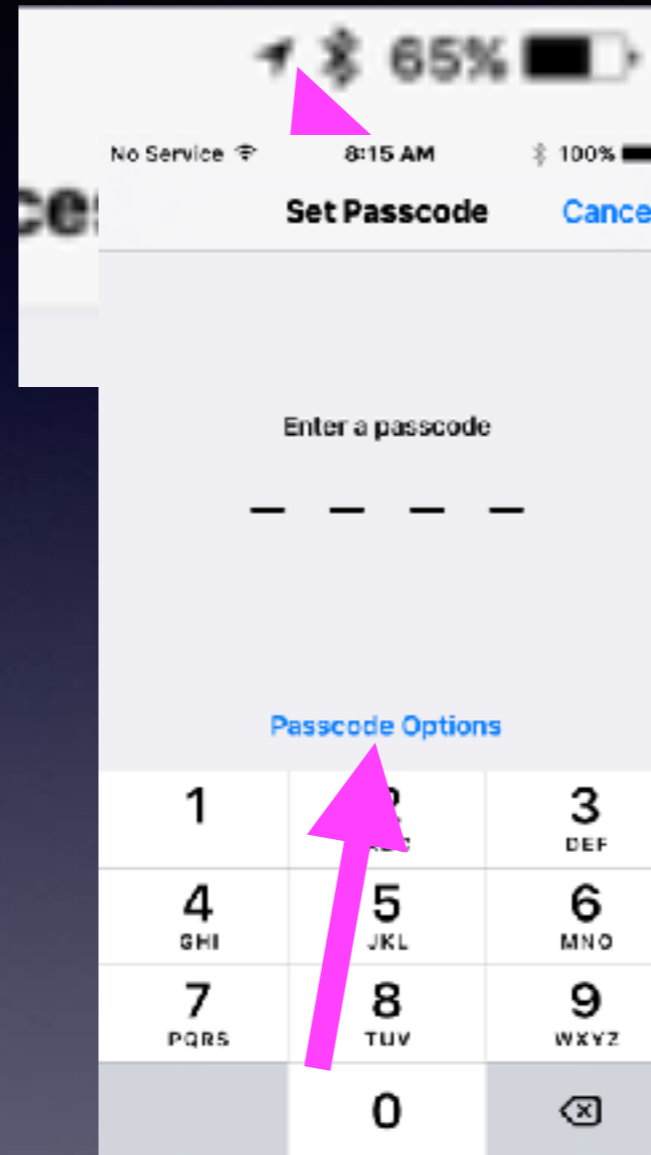

Put the passcode on the back of the phone.

We have been using the iPhone/iPad as
a “fun and games” toy!

If you, seniors or adults especially, are asked, “Can I play with your phone....?”

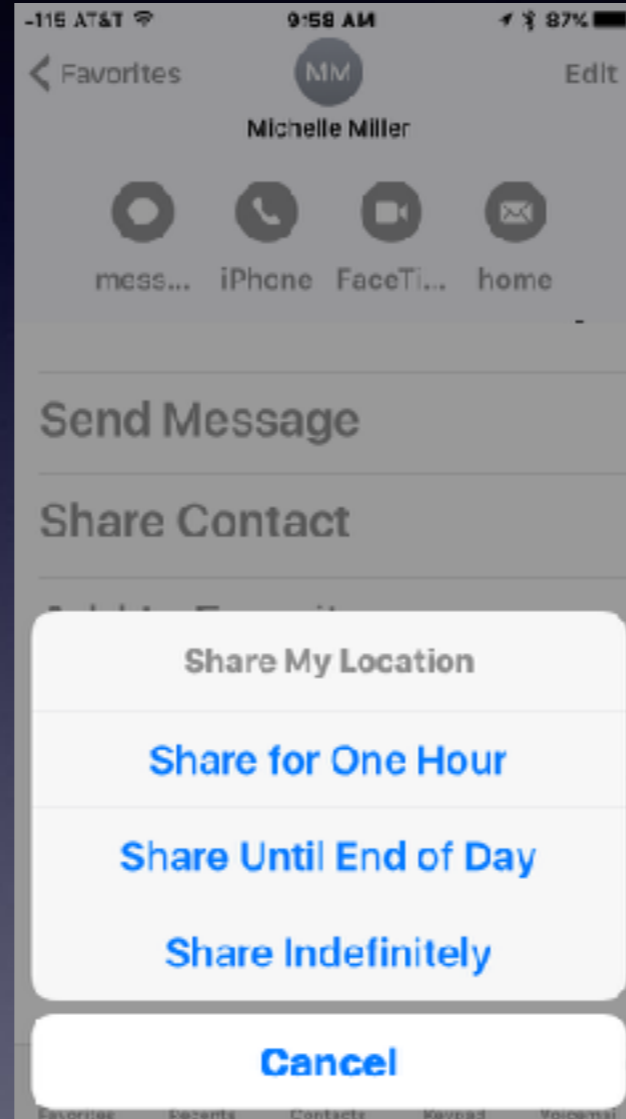

Share My Location

Can spouse, child, parent, friend find me?

Share Your Location: How to!

Find a contact with whom you wish to “share your location.”

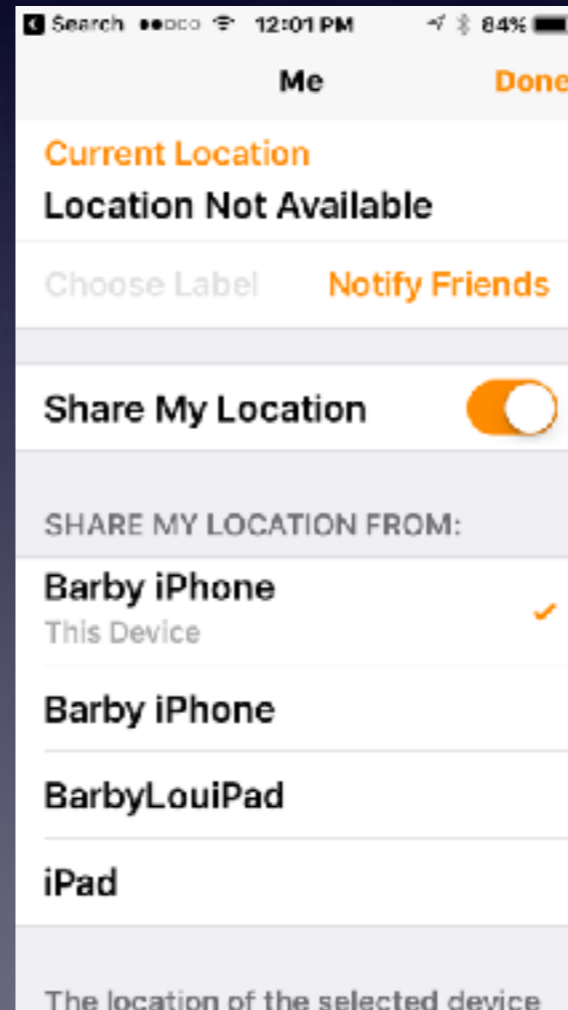

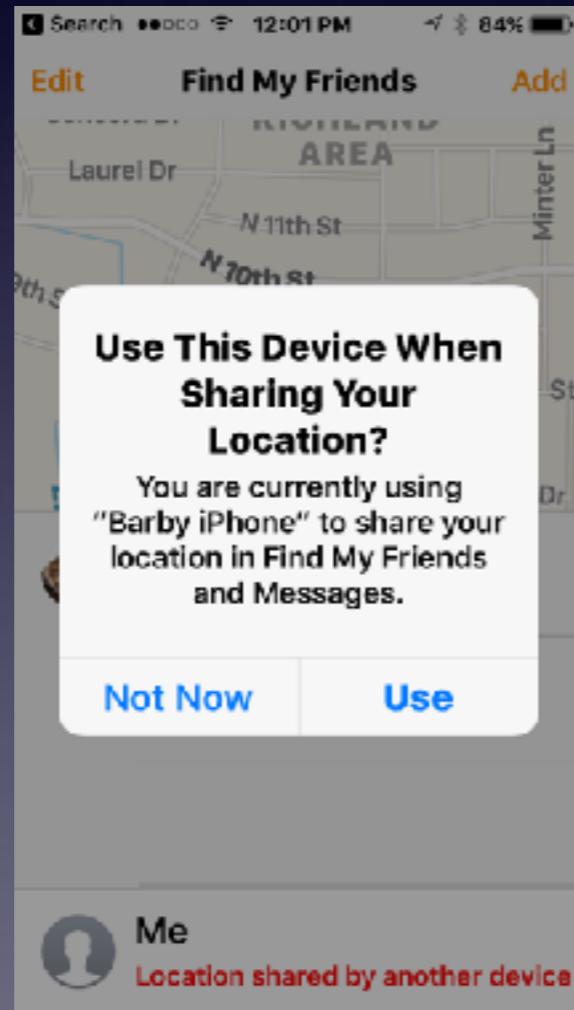

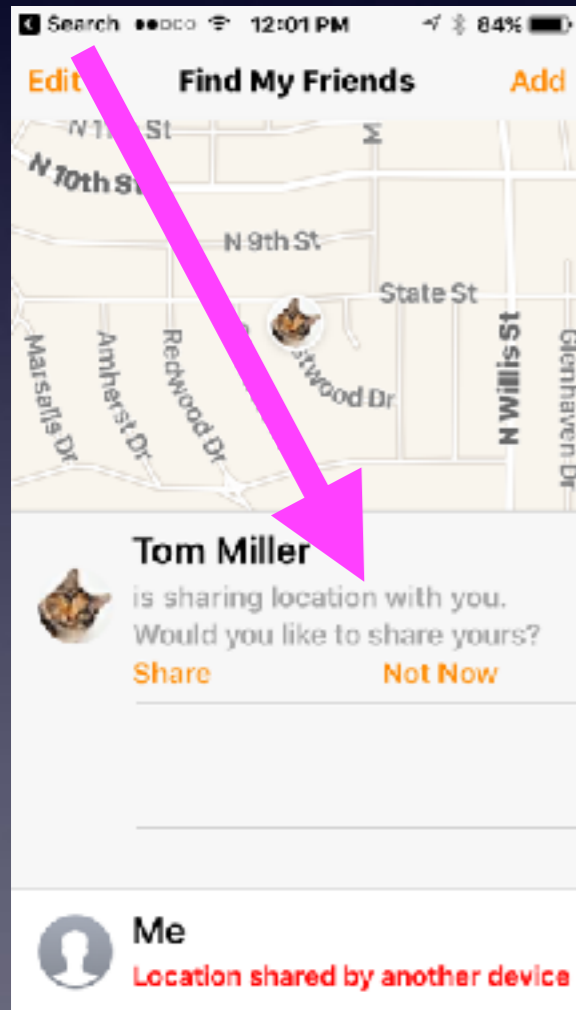

What if I am on a secret mission? I don't want anyone to know where I am?

**Find My Friends
Is Very
Similar to
Find My iPhone!**

Find A Friend

Location services must always be turned on!

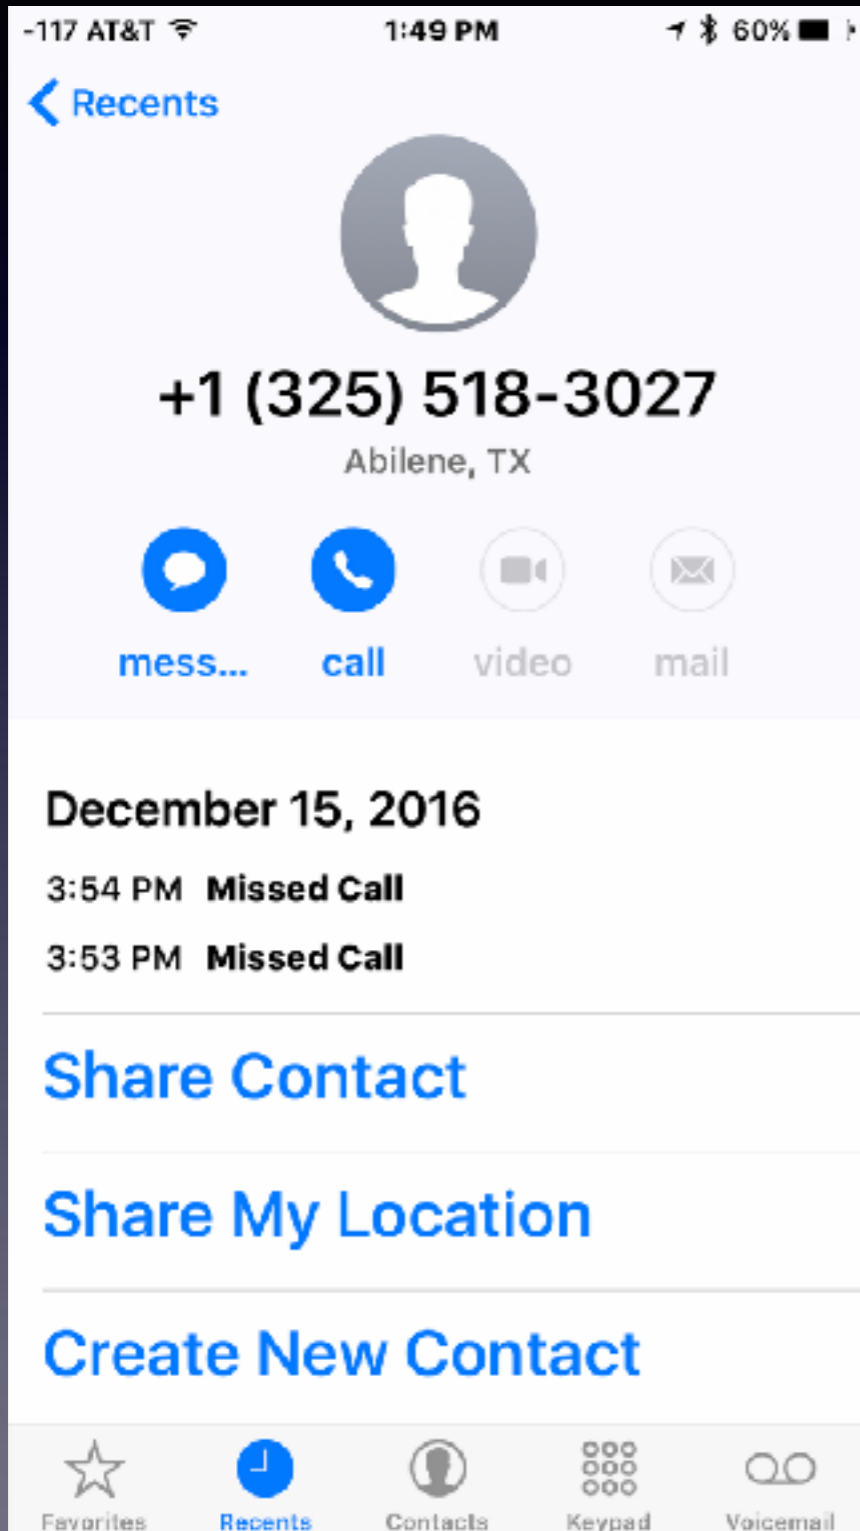

You Called Me???

Someone calls and says, "You called me....?"
