Google: How do I clean my iPhone microphone?

The screenshot shows a Google search interface. The search bar contains the text "how do i clean my iPhone microphone". Below the search bar, there are navigation tabs for "All", "Shopping", "Videos", "News", "Images", "More", "Settings", and "Tools". The "All" tab is selected. Below the tabs, it says "About 2,150,000 results (0.65 seconds)". The main search result is a snippet from a blog post titled "Definitive Guide On How To Clean Every Part Of Your iPhone" with the URL www.padandquill.com/blog/?p=2970. The snippet text reads: "Your iPhone speakers and microphone holes can collect dust, lint, and all sorts of undesirable stuff. The best way to clean these is with a super soft bristle toothbrush. Gently brush the speaker ports and microphone opening to remove any debris that has accumulated. Apr 1, 2016". To the right of the text is a small image of a red basket filled with cleaning supplies, including brushes, sprays, and cloths, with the text "How to Clean Every Part Of Your iPhone" overlaid on it.
