I am well aware [redacted] of your pass. Lets get straight to the point. You don't know me and you're most likely thinking why you are getting this e-mail? There is no one who has paid me to investigate about you.

In fact, I placed a malware on the X vids (pornography) web-site and do you know what, you visited this website to have fun (you know what I mean). While you were viewing video clips, your internet browser initiated functioning as a Remote control Desktop having a keylogger which provided me access to your display screen as well as webcam. Immediately after that, my software collected your complete contacts from your Messenger, Facebook, and e-mailaccount. After that I made a video. First part shows the video you were watching (you've got a nice taste lol), and next part shows the view of your webcam, and its you.

You have not one but two alternatives. We will analyze the choices in particulars:

Very first option is to disregard this email. In that case, I will send your video clip to almost all of your personal contacts and visualize regarding the embarrassment you will definitely get. Moreover if you happen to be in a romance, exactly how it is going to affect?

In the second place alternative is to pay me \$7000. I will name it as a donation. Consequently, I will promptly discard your video footage. You can continue on your way of life like this never happened and you will never hear back again from me.

You'll make the payment by Bitcoin (if you don't know this, search for "how to buy bitcoin" in Google).

BTC Address: 1MLj6VaB3DDuVtVTgAqNnhNZbPShZWPvyq  
[case SENSITIVE so copy and paste it]

If you are looking at going to the authorities, okay, this mail can not be traced back to me. I have covered my actions. I am just not trying to ask you for money so much, I simply want to be paid for. I have a specific pixel within this e mail, and now I know that you have read through this e mail. You have one day in order to pay. If I don't receive the BitCoins, I definitely will send out your video to all of your contacts including friends and family, colleagues, and so on. Having said that, if I receive the payment, I will erase the video right away. It's a non-negotiable offer thus don't waste mine time and yours by replying to this email message. If you want proof, reply with Yea! then I will certainly send out your video to your 8 contacts.
