Is An “Important” Message Genuine?

Don't do it through the email link!

Go to Citi Bank and login and make changes to your account.

Citi® / AAdvantage® Card Inbox - Google November 5, 2018

Thomas, please verify your mobile number

To: Tom Miller

Put fraud protection at the top of your holiday list.

citi | **AAdvantage** American Airlines Cardmember since [redacted]

Citi® / AAdvantage® Platinum Select® card

Wrap up account protection with fraud text messages.

Having your mobile number on file lets us **notify you right away** if we suspect fraud. With fraud texts, you can easily confirm authorized charges, or quickly take action against fraudulent ones. That's even more important when you're using your card during the holiday season.

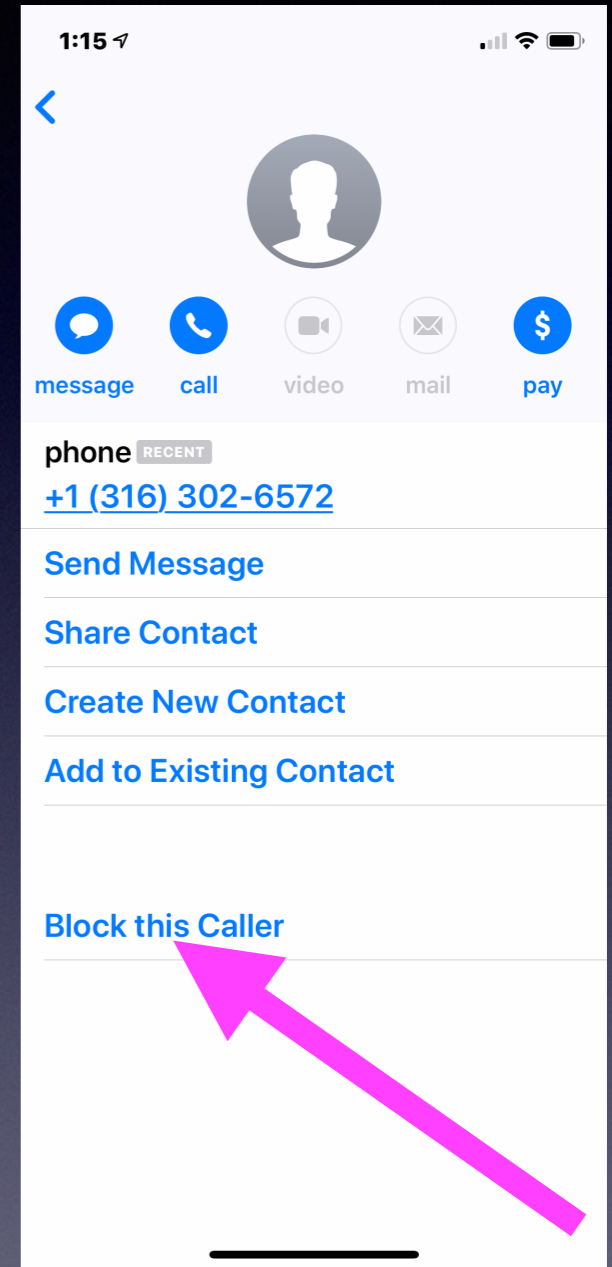

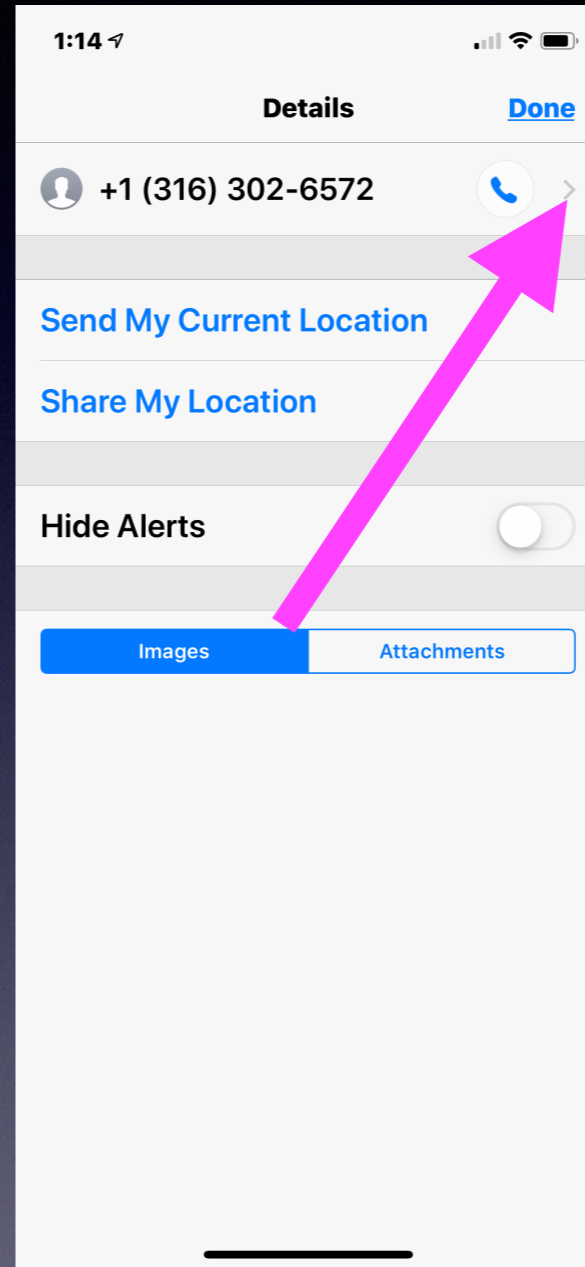

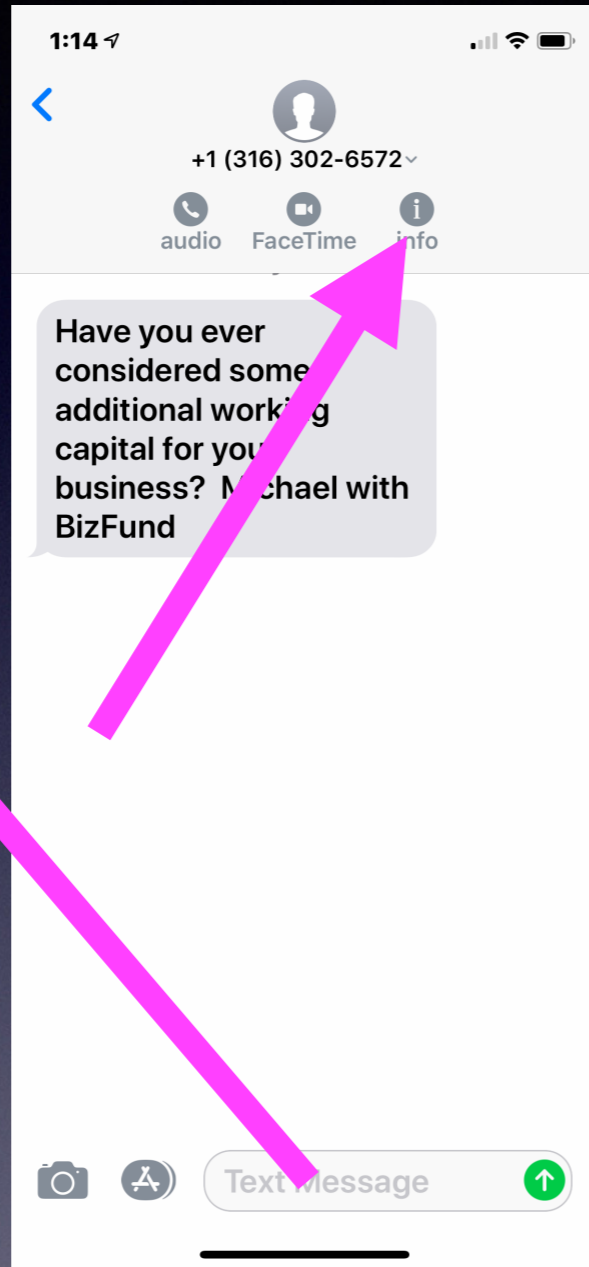

Make sure your mobile number is up to date to help keep your account secure.

[Verify my mobile number ▶](#)

Here's a quick reminder of other security steps you can take to help protect your account:

Block Unsolicited Messages!

Call me!*

Text me!

Email me!

***Call me anytime as long as you do not begin the conversation with, "I know this may be a dumb question..."**

SERIOUS

Some asked me if I were serious! Yes, yes, yes, yes!

Who Speaks Back To You!

Let The iPhone & iPad Speak To You!

Who Owns Your Data?

https://www.cbs.com/shows/60_minutes/video/IAw6Ut5rvijlYrFqVzT4wcN8SJW8tG90/your-data-ultra-deep-the-pact/

The screenshot shows a web browser displaying a CBS 60 Minutes video player. The video is titled "Your Data, Ultra Deep, The Pact" and is from Season 51, Episode 7, with a duration of 43:08. The video content shows a man with white hair and glasses, wearing a dark suit and tie, speaking at a podium. The CBS eye logo and "60 MINUTES" text are visible in the top left corner of the video frame. The video player interface includes a progress bar, volume control, and a "CC" (Closed Captions) button. Below the video player, the title "60 Minutes" is displayed, followed by the episode title "Your Data, Ultra Deep, The Pact | S51 E7 | 43:08". A short description follows: "The law that lets Europeans take back their data from big tech companies; then, what lies at the bottom of one of the deepest holes ever dug by man?; and, the Griffin brothers' journey to the NFL." Social media sharing icons for Facebook, Twitter, and Google+ are visible at the bottom of the video player.

No matter what you do...your iPhone / iPad / and computer are collecting your data.

“Critical Reminders”

Forget what you knew about batteries!

Charge anytime, charge all the time.

Do not be caught with a dead iPhone.

Batteries work best when electrons flow.

Protect it with a case.

You can and should “Google” any question or ask Siri.

Remember SOS and 911.

Don't let it too hot or too cold.

Keep it updated.

Please don't touch your iPhone while driving.

Do I have the latest software (IOS)?

Have a good passcode on it.

It is not a toy for children.

Use the Notes app to store info you can't remember.

Stay as close to the current model, as possible.

Force yourself to learn!

Constantly, ask what will the iPhone do for me.

Back it up to iCloud.

Use Keychain. It stores your passwords.

Be very careful what you search for or share!

Don't click. Let calls from unknown callers go to voicemail.

If you have the least bit of suspicion; do not proceed. Stop!

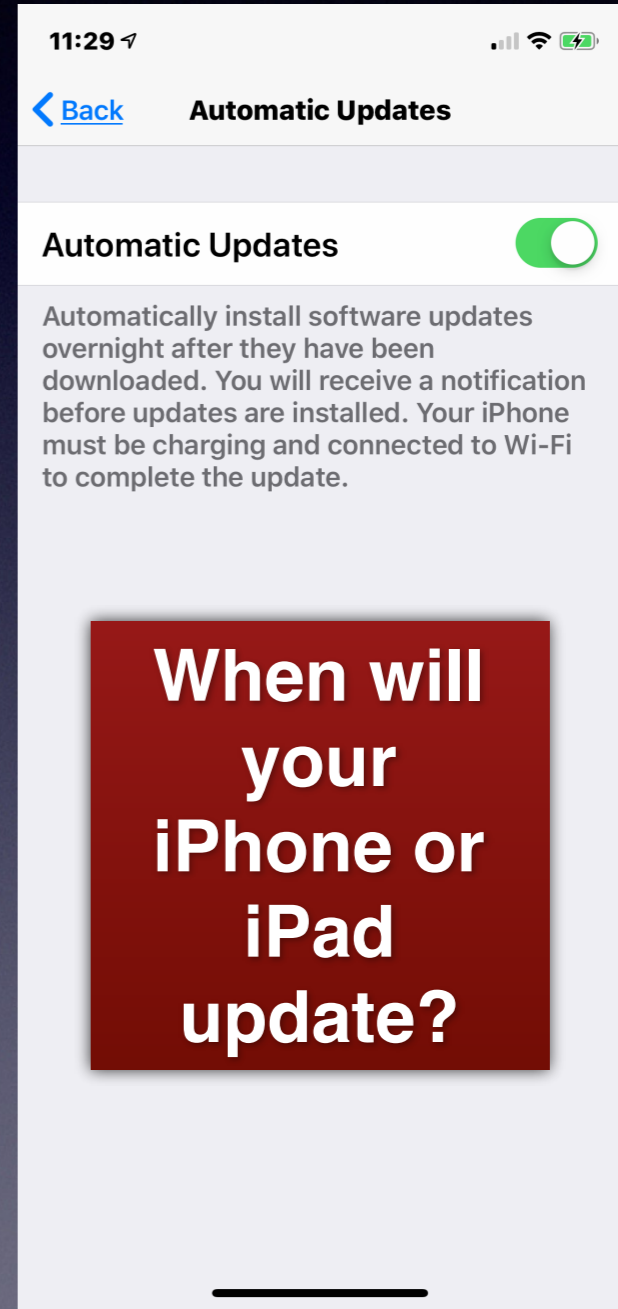

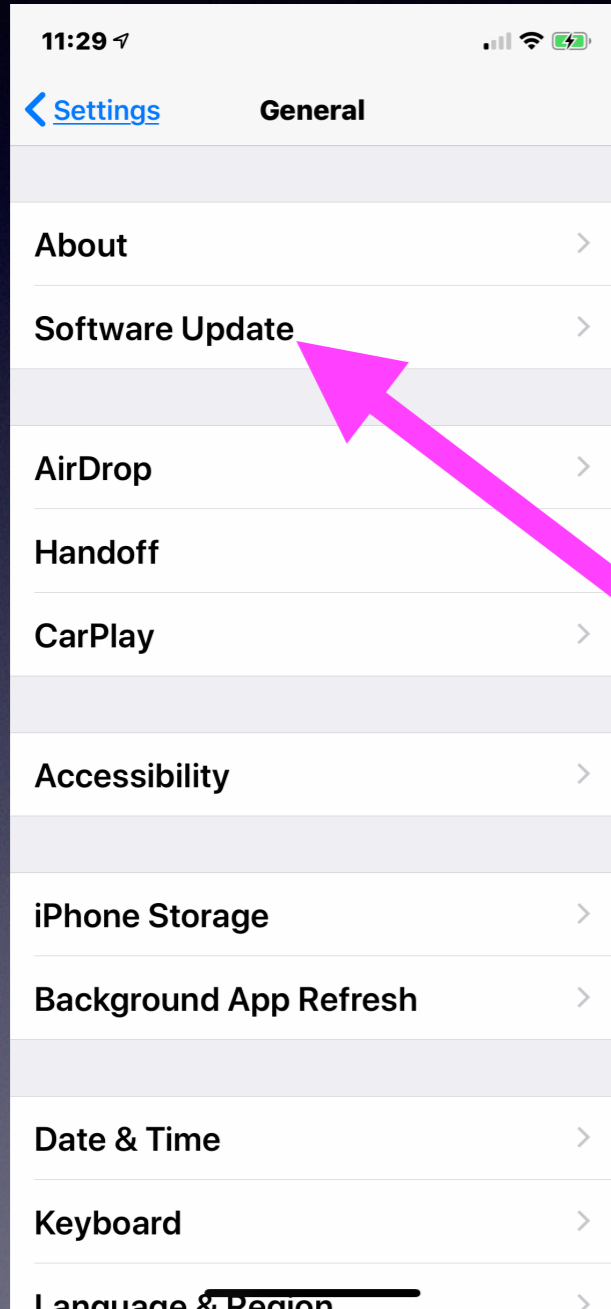

Fake emails, fraudulent callers, and malicious websites are everywhere.

Do You Have The Latest IOS Update?

Are you tired of seeing this? Red Badge app icon.

Update?

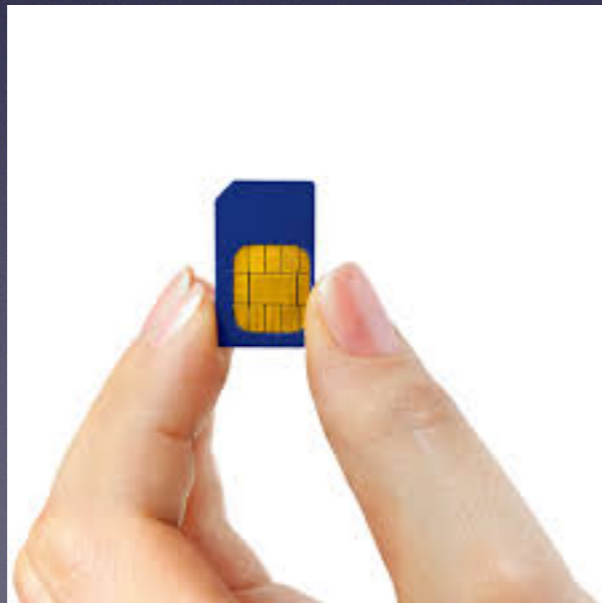

How Much “Stuff” Can I Put On My Device?

Maybe not as much as you think?
You cannot add space (to hold more stuff).
If you get a message stating that you are running out of storage...
You can't buy more storage!
You make room by deleting “stuff” you don't need.

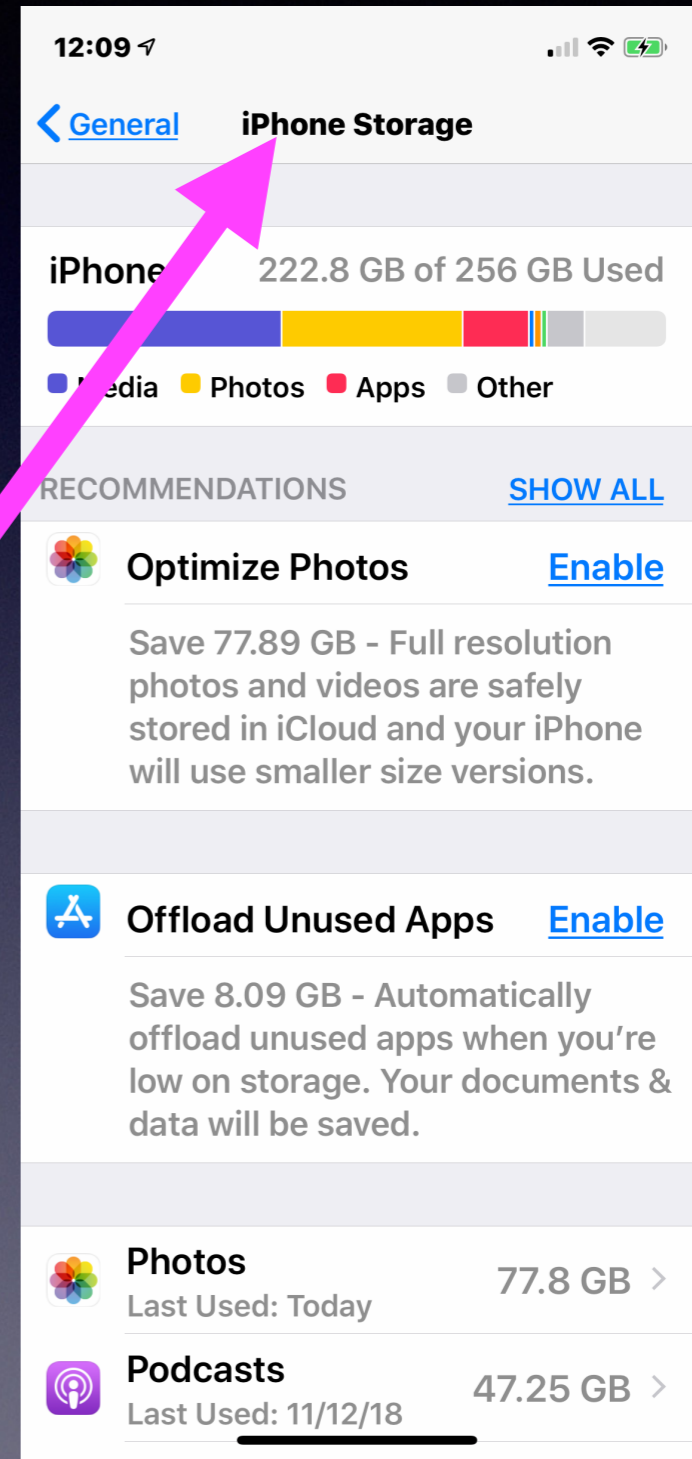

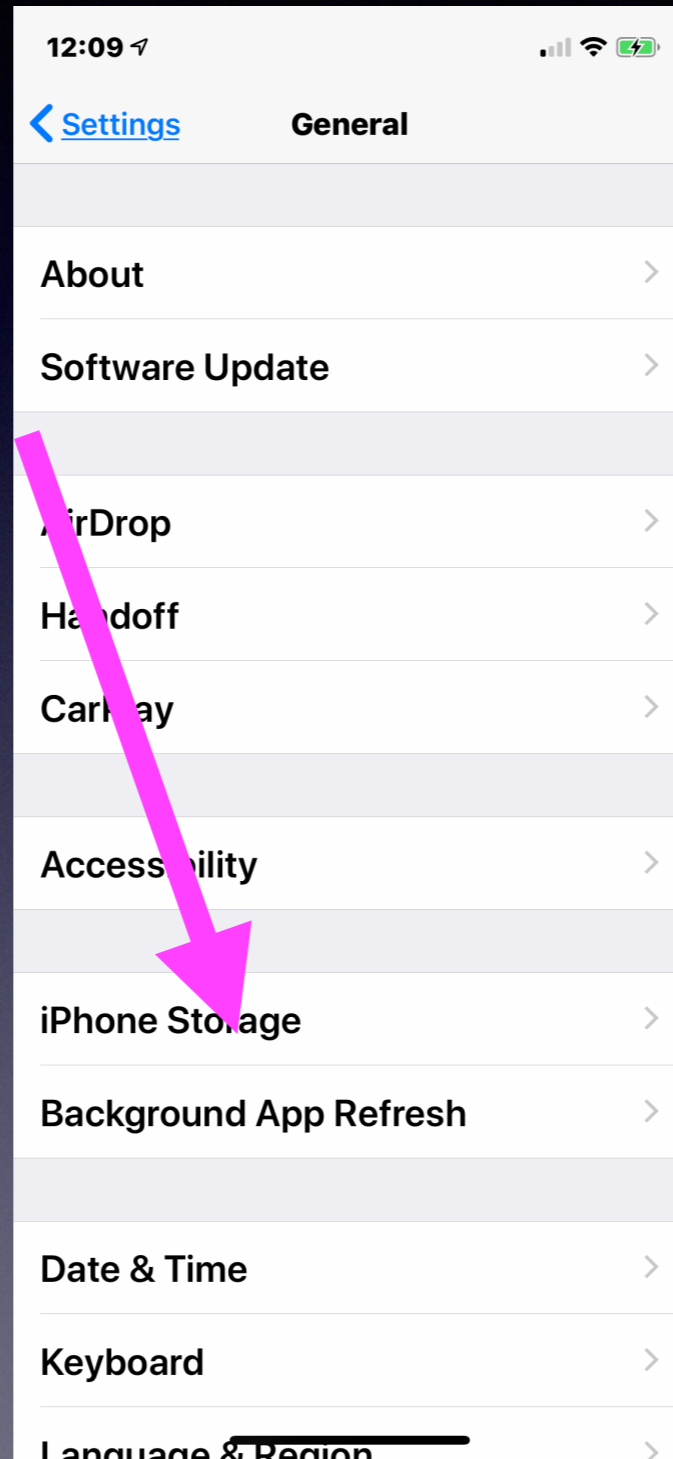

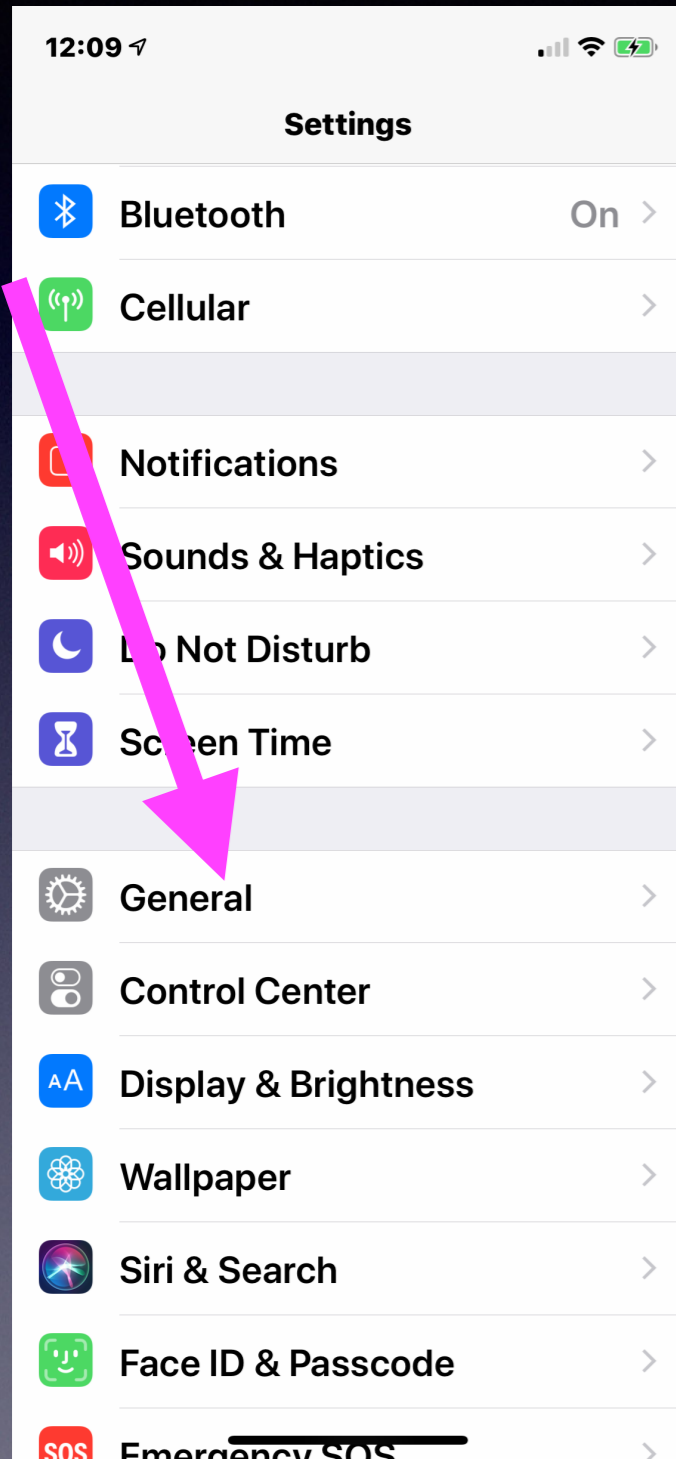

Sim Card vs. SD Card

Sim Cards have your telephone Number and not data.
Android phones have an SD card which is purchasable and can hold additional data and a Sim Card.

How Can I See How Much Available Space I Have On My iPhone or iPad?

How Much Free Storage Must I Have On My Devices?

Texas Mac Man

Level 8 (46,748 points)

Feb 3, 2009 11:07 AM in response to Karen Simmons

Your Mac needs adequate hard drive space to operate normally. How full can a drive be before it's too full? There is no hard and fast rule that says "X" amount or "%" of free drive space is needed. A low amount of RAM requires more drive space for Virtual Memory's swap files.

Problems from insufficient RAM and free hard disk space are discussed in this link
<http://www.thexlab.com/faqs/lackofram.html>

Here's some general guidelines for minimum hard drive free space:

1. As a general rule, your available space should be 5GB as an absolute minimum as it generally requires that much free space to perform an Archive and Install of Mac OS X and still preserve some free space for VM swap files.
2. Some say that your hard drive should have at least 5% of it's capacity available for use. Still others say 10% to 15%. If you routinely process complex graphics and videos, even more space is required.

With your 19.7GB of free space, you should be OK. Usually it's best to not state a percentage, but state an amount of free space. There's a big difference in having 10% free space (20GB) on a 200GB hard drive compared 10% (4GB) to a 40GB hard drive.

On My Mac, Can I Free Up Space?

Go to
Apple logo >
About this Mac >
Storage

Click the Manage button to see recommendations for optimizing your storage. You'll see fewer options if some of them are already turned on.

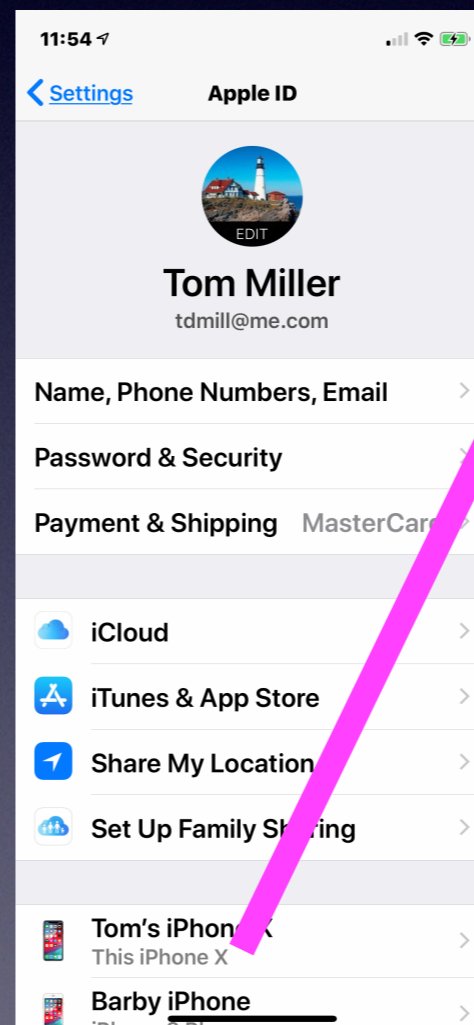

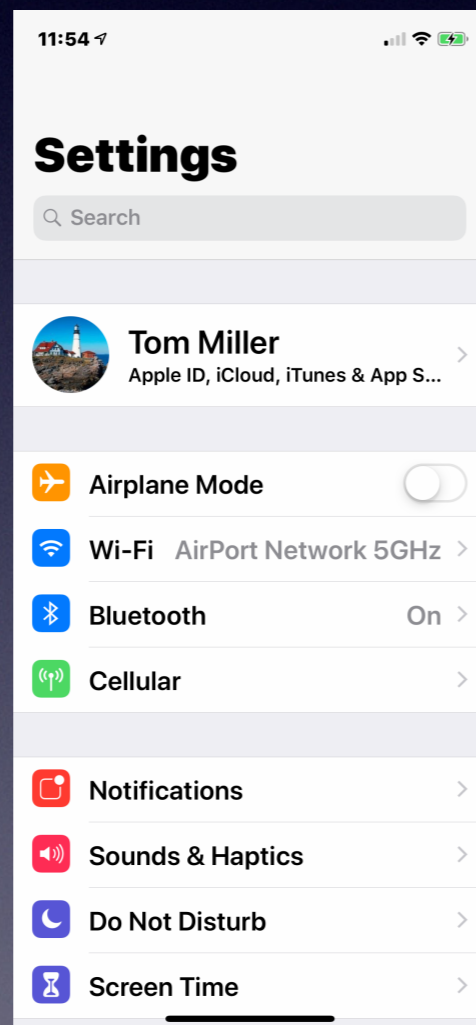

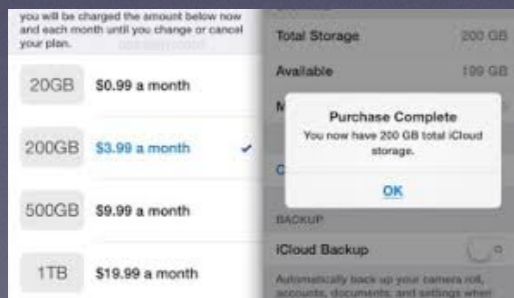

iCloud Storage

Don't forget: you have two types of storage. You have the physical storage on your iPhone and you have iCloud storage not on the iPhone!

You can buy more iCloud Storage!

Manage Notifications

Some of you show Notifications all the time, when locked or never!

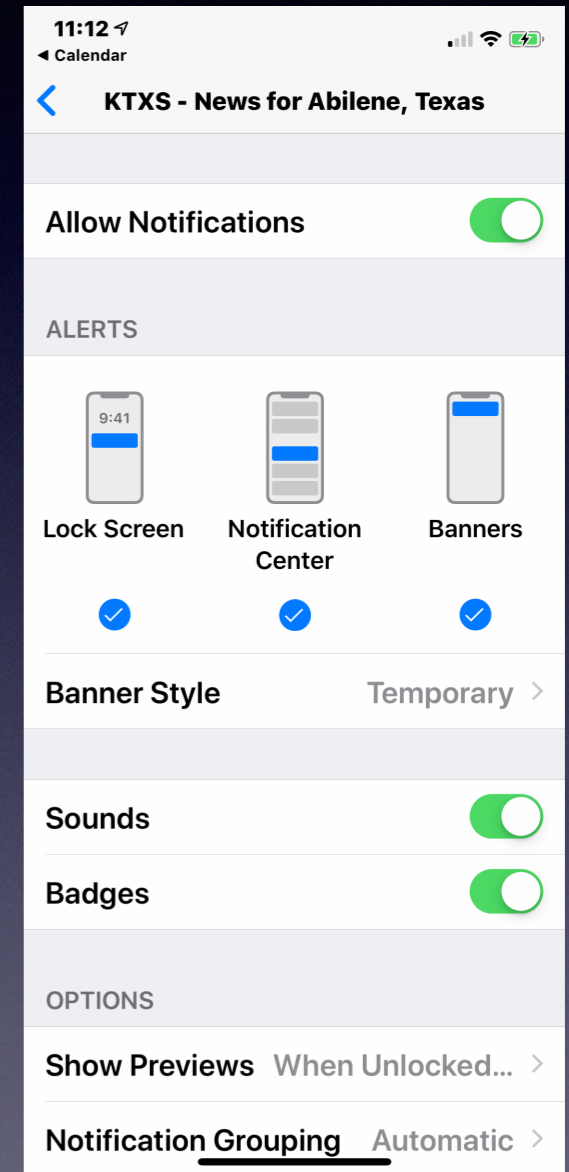

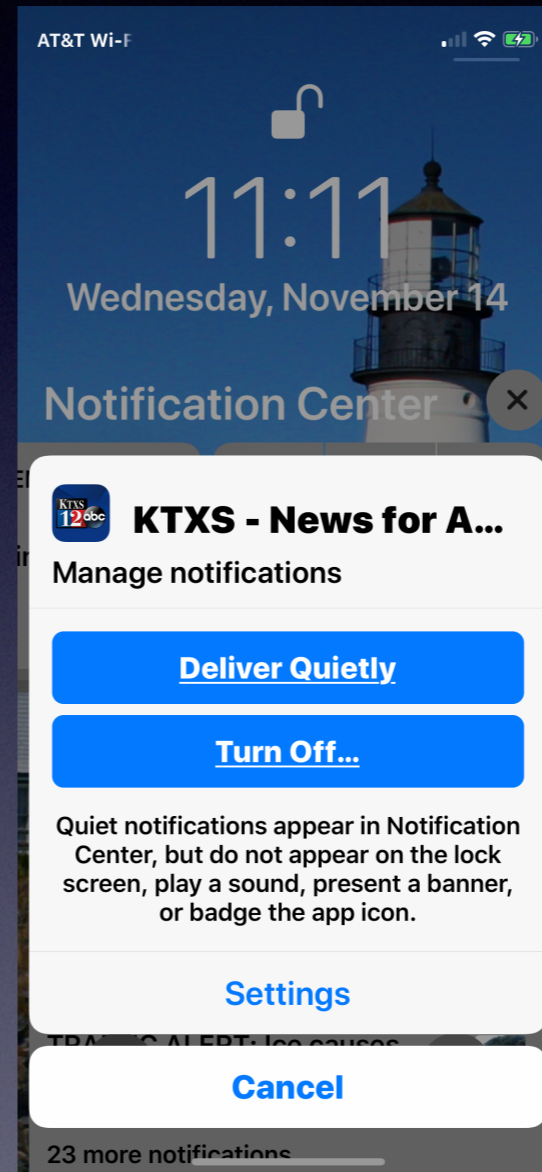

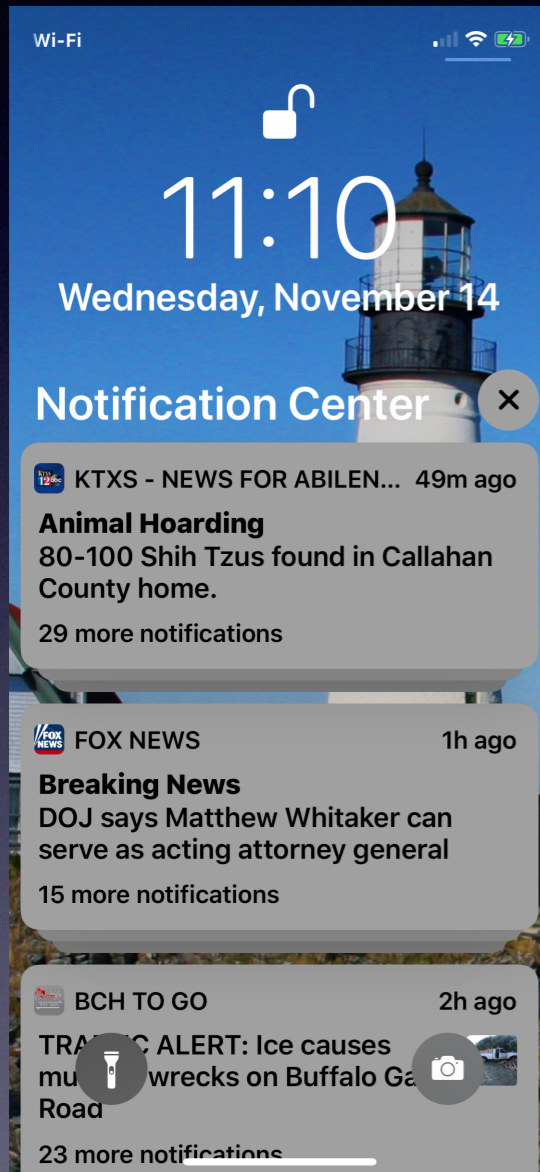

Here's a feature that should be more prominently placed. When you swipe left from a notification, you'll see a new Manage option. From here, you can turn off notifications for the app instantly, or use the new Delivery Quietly feature. This feature will send the notification directly to the Notification [Center](#) (bypassing the Lock screen), and won't make a sound.

Manage Notifications

Pull down from the top of your iPhone / iPad.

How To Remove Notifications?
