Your Apple ID was used to sign in to iCloud via a web browser. To: Tom Miller

Dear Tom Miller,

Your Apple ID (tdmill@me.com) was used to sign in to iCloud via a web browser.

Date and Time: February 6, 2019, 3:10 PM PST

If the information above looks familiar, you can ignore this message.

If you have not signed in to iCloud recently and believe someone may have accessed your account, go to Apple ID (https://appleid.apple.com) and change your password as soon as possible.

## How Much Ink Is In A Printer Cartridge?

Answer: Not much!

### Cleaning A Printer's Clogged Printhead?

## Can Someone (Anyone) Access Your iPhone Data?

Yes, without a passcode.

Difficult with a four digit passcode.

Much more difficult with a six digit passcode.

Many times more difficult with an Alpha Numeric Passcode.

Use a fingerprint with touch ID on the home button.

Face ID with iPhone X and later.

### Set Up A Passcode! Keep Everyone Out!

I don't think any one of you would go on vacation and leave your front door open or door unlocked!

I always use a password.

I don't use the same password for everything.

When asked, I always save passwords.

I use Safari and Safari Saves passwords.

The good and bad of passwords: I can't remember them. Safari and iCloud stores them for me.

### Why And How Are My Passwords Saved?

Turning on "Keychain" tells your Apple ID and iCloud account to save passwords...so you don't have to remember or type them.

### Set Up An Account That Requires A Password!

Use theirs or choose yours! Which shall it be?
