“Most” Everything* I Say About The iPhone Applies To The iPad!

*Equals

This Class Is:

Not sponsored by the library.

No one is making any \$.

We do it because we love this device.

The Real Warning!

Beware!

Unsolicited popups, emails, telephone calls, free offers and people wanting to give you \$ are most likely scams.

The IRS won't call you.

You probably don't owe any student loans.

You won't be "hailed off" to jail because of a failure to show up for jury duty.

Apple support won't call you.

There is no suspicious activity in your Microsoft account.

It never
hurts
to
change
your
password!

No person of
royalty
from Nigeria
is wanting
to fall in
love with me!

We Default To Truth!

Why is it hard to spot a lie or can we be deceived?

Do you mean that people actually give \$ to scammers?

Why is it so hard to spot a lie?
The Madoff scandal holds a clue,
according to Malcolm Gladwell....
apple.news

EXCLUSIVE BOOK EXCERPT

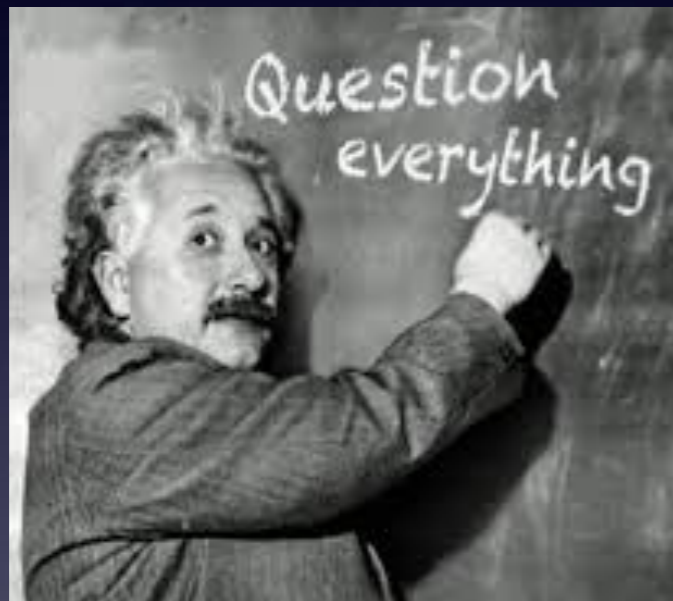

Malcolm Gladwell Explains Why It's So Hard to Spot a Lie

In his upcoming book, *Talking to Strangers*, the author examines some of the most famous liars in history — and what they can teach us about human behavior.

Talking to Strangers
What We Should Know About the People We Don't Know
Malcolm Gladwell

It's Time To Question Everything!

A Reception For Barbara Kelly

A reception for Barbara Kelly

A reception honoring Barbara will be at 2 PM

on September 8th at First Central Presbyterian church

at the corner of North 4th and Beech streets.

Everyone is invited.

A special thanks to Barbara Kelly! She has worked diligently and tirelessly to make the iPhone class a meaningful event. Along with all of us, she has learned so much and taught so much! Numerous times someone has said that they were surprised how much she knew and how she helped them.

Questions To Ask!

Will I get anything out of this class?

Will I return...this is boring?

Will I return...this is over my head?

Will I ever learn how to use my iPhone?

Do I need a new iPhone/iPad?

Can “I” Find Answers To My Questions?

Older iPhone vs. New iPhone

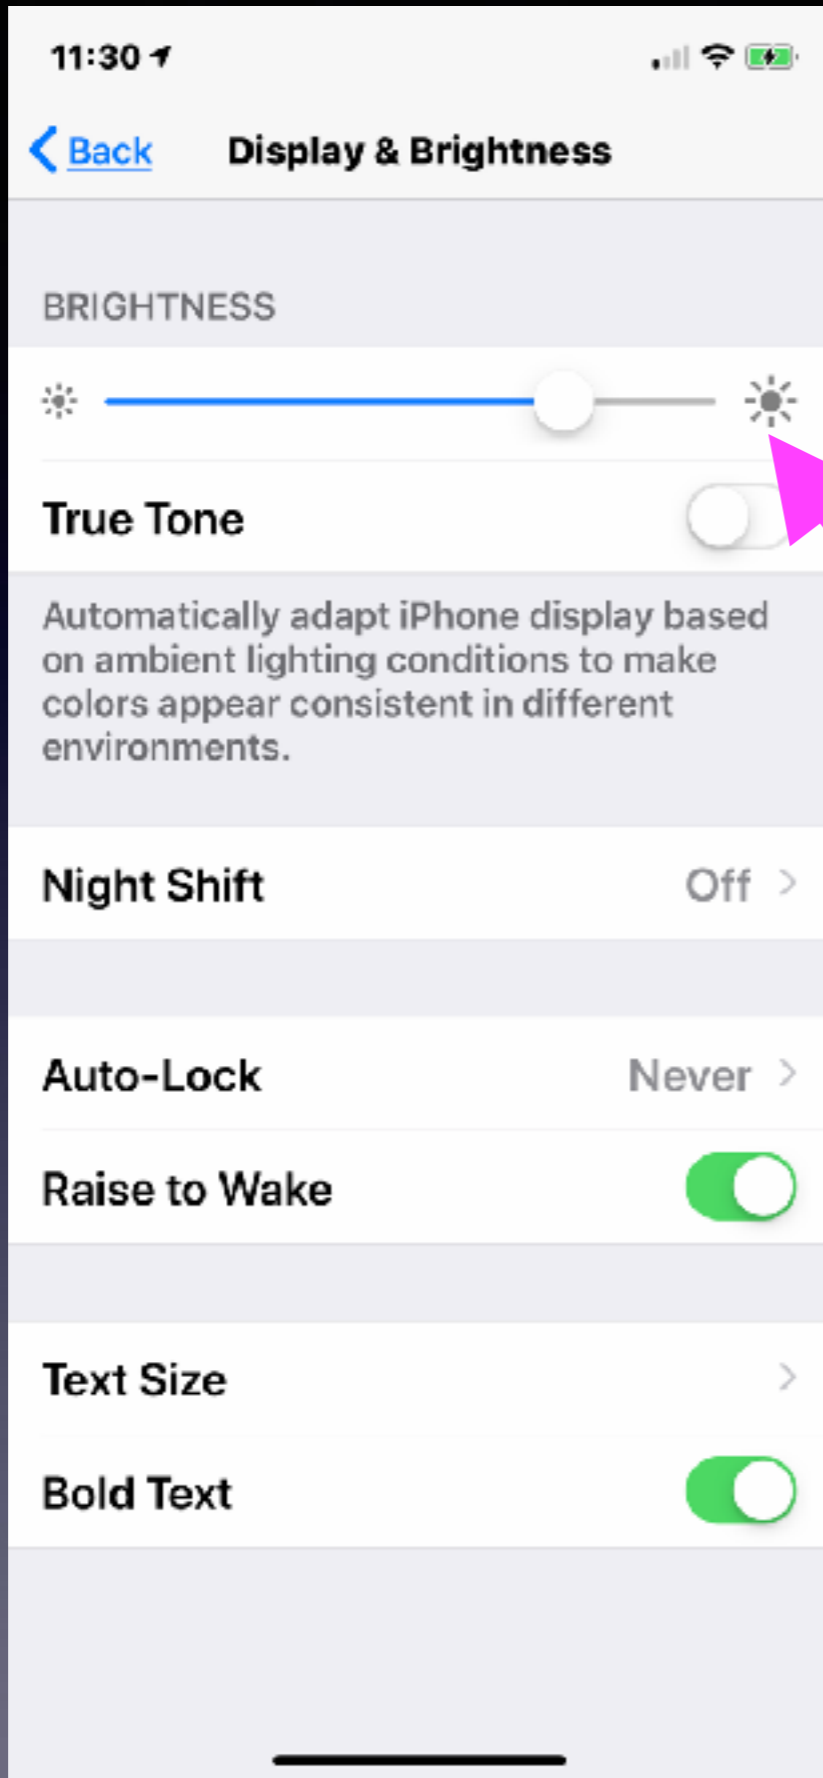

There's no Home Button on the iPhone Xs.

Newer iPhones Without A Home Button Use Face ID.

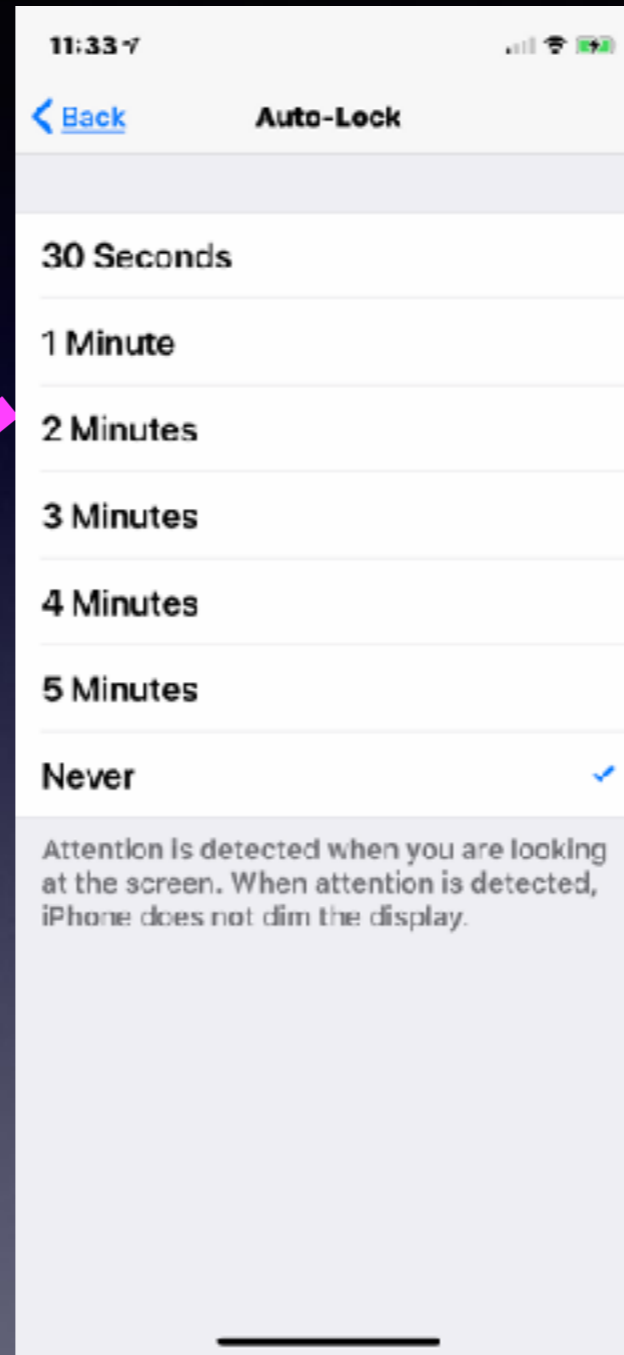

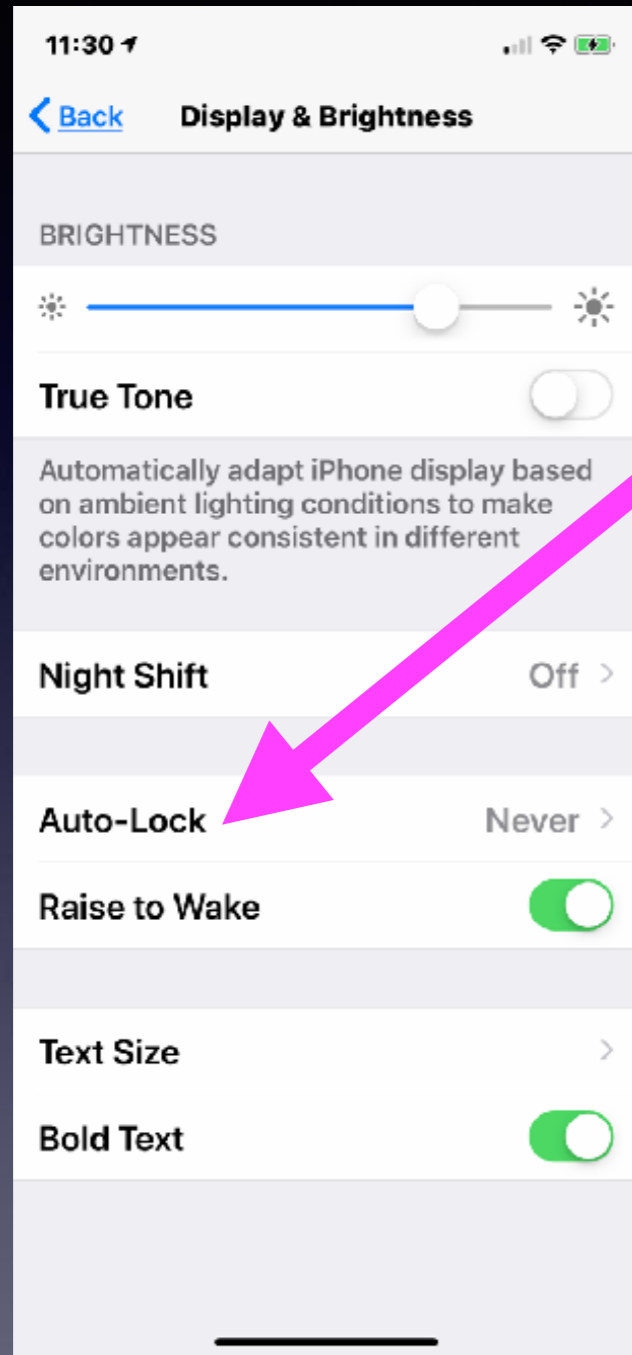

All iPhones use a “passcode” and Face ID or Touch ID is available to whomever wants to use it.

Display & Brightness

My iPhone/iPad Go Blacks...

Problems:

Battery drain.

Phone can heat
Shirt pocket.

If you loose phone:
it is essentially unlocked.

You must manually
set iPhone to sleep.

It is easy to forget
where this setting is!

Locking your phone will save battery life and lets your iPhone go to sleep.

I Like The “Raise To Wake” Feature!
