He is wanting me to reply!

--

Dear-friend,

I am Magnus Pettersson, I am a banker with Danske Bank here in Sweden.
can you handle \$6.2M business deal with me, Although this may be difficult for you to believe.
I need you to assist me in executing this Business deal from Sweden to your country.
our ratio will be 50/50 of the total amount, if interested do reply for more details.

Please grant me the benefit of the doubt and hear me out.

Regards
Magnus.

iPhone, iPad & Mac Basics

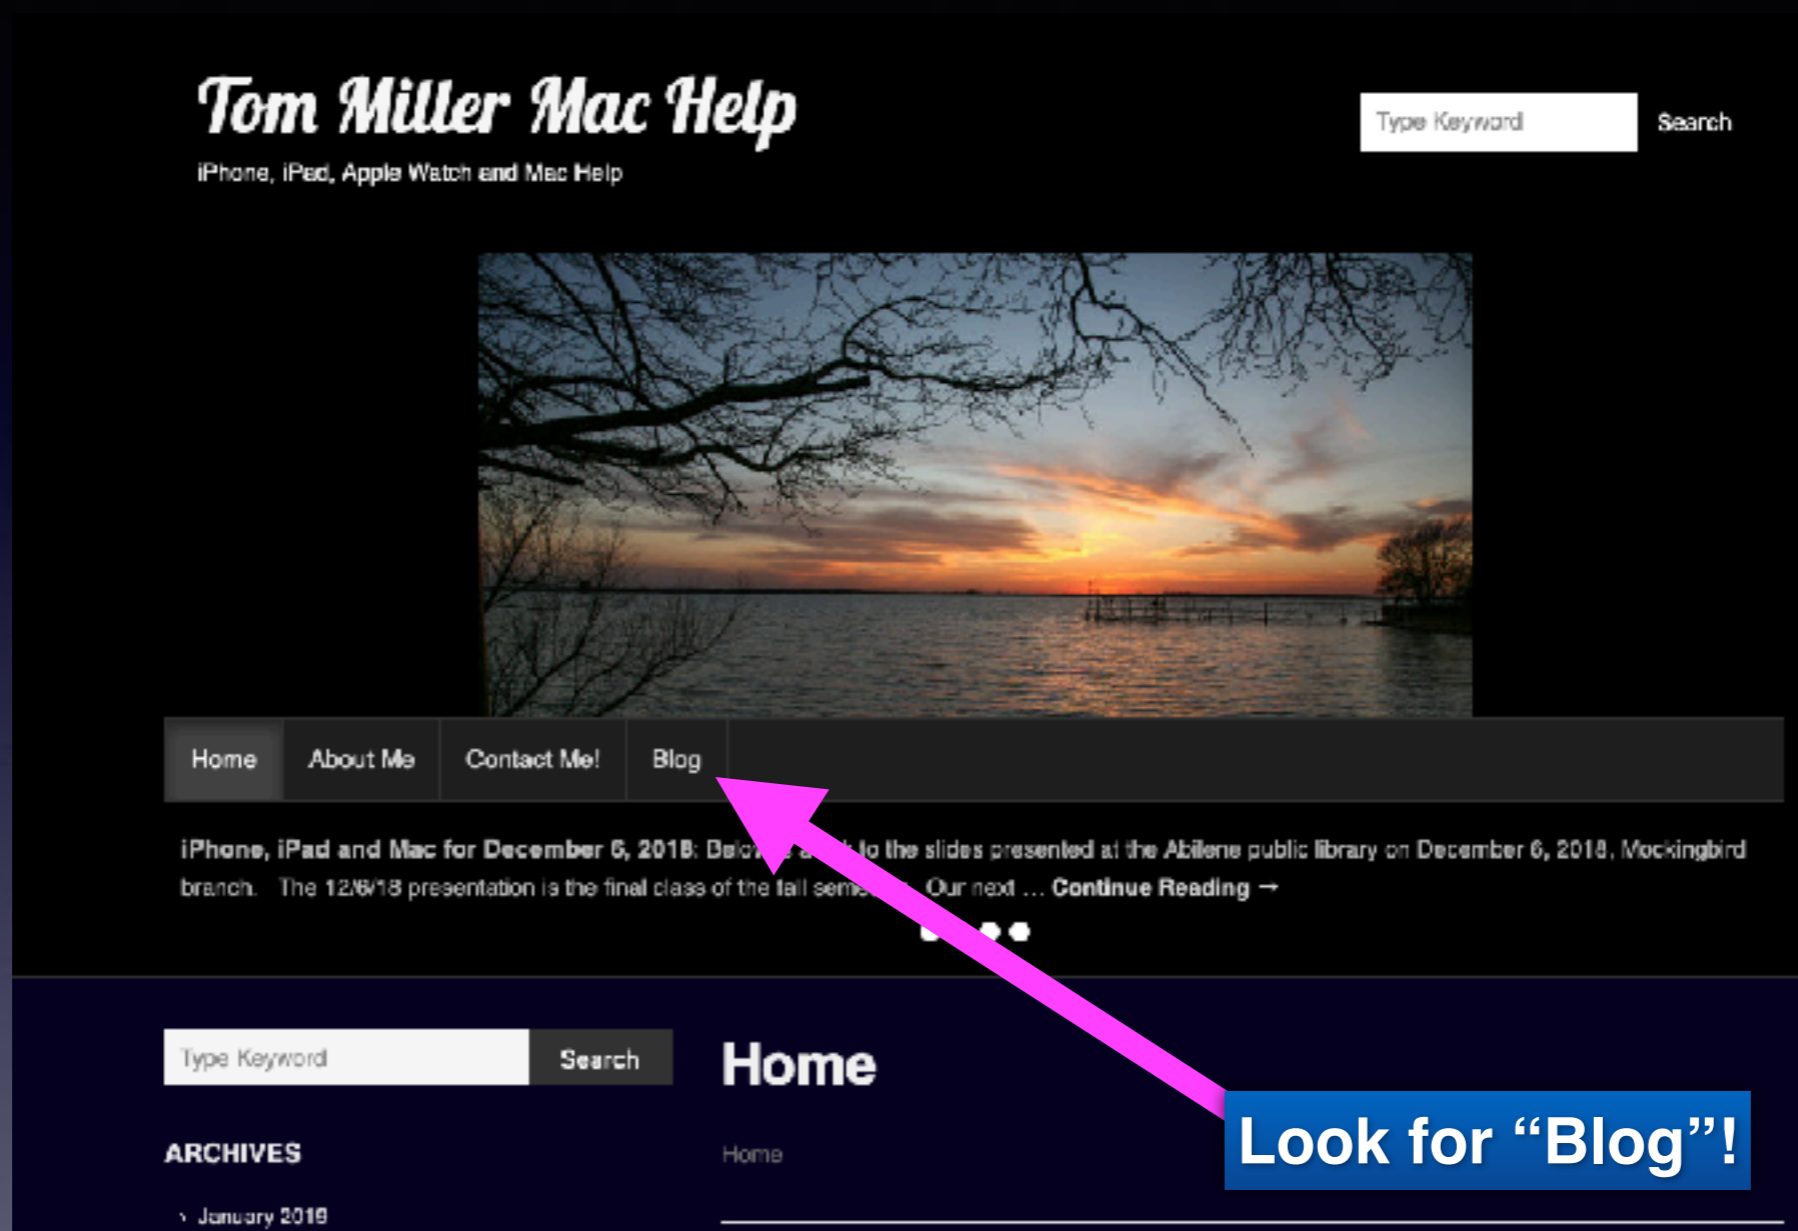

Feb. 6th & 20th, 2020

Welcome
to the
Abilene Mac Users Group!

A class for all levels of understanding!

My Slides Are Pathway To Learning...

**This is a learning class...somethings may be new to you.
Learning (a foreign language) is not easy.**

Call, Text, Email Me Don't Hesitate!!!!!!

My web site is on the top of my business card. Use the web address to see the slides that I present today!

How The iPhone Has Impacted Social Events!

18. Leisure with children

15. Visiting grandfather

11. Women at the art exhibition

10. These girls love to spend time together

8. Friends Enjoy The Priceless Hours Of Summer Vacation

6. Touching Thanksgiving Dinner

3. High school students enjoy a walk after school

1. Bachelorette party in full swing

2. First date

The Cause of Rear End Collisions!

According to a report from the National Highway Transportation Safety Administration, **rear-end** crashes are the most frequently occurring type of **collision**. About 29 percent of all car crashes are **rear-end collisions**. ... In fact, roughly 1.7 million **rear-end collisions** take place in the United States each year. Jul 11, 2019

"Fear" is the preferred
tool of choice!

Robo Calls Prey On Seniors Using Intimidation and Fear!

Don't answer!
Don't click!
Don't respond!
Don't lose sleep!
Don't divulge personal info!
Don't forget!

Robo Calls Are Up!

Kim Komando shared

Komando.com

58.5 billion robocalls were made in 2019 - up 22% since 2018

The robocall epidemic is getting worse. Even with carriers and the U.S. government stepping in, it seems nothing can ...

Why are
Robo calls
up?

They work!

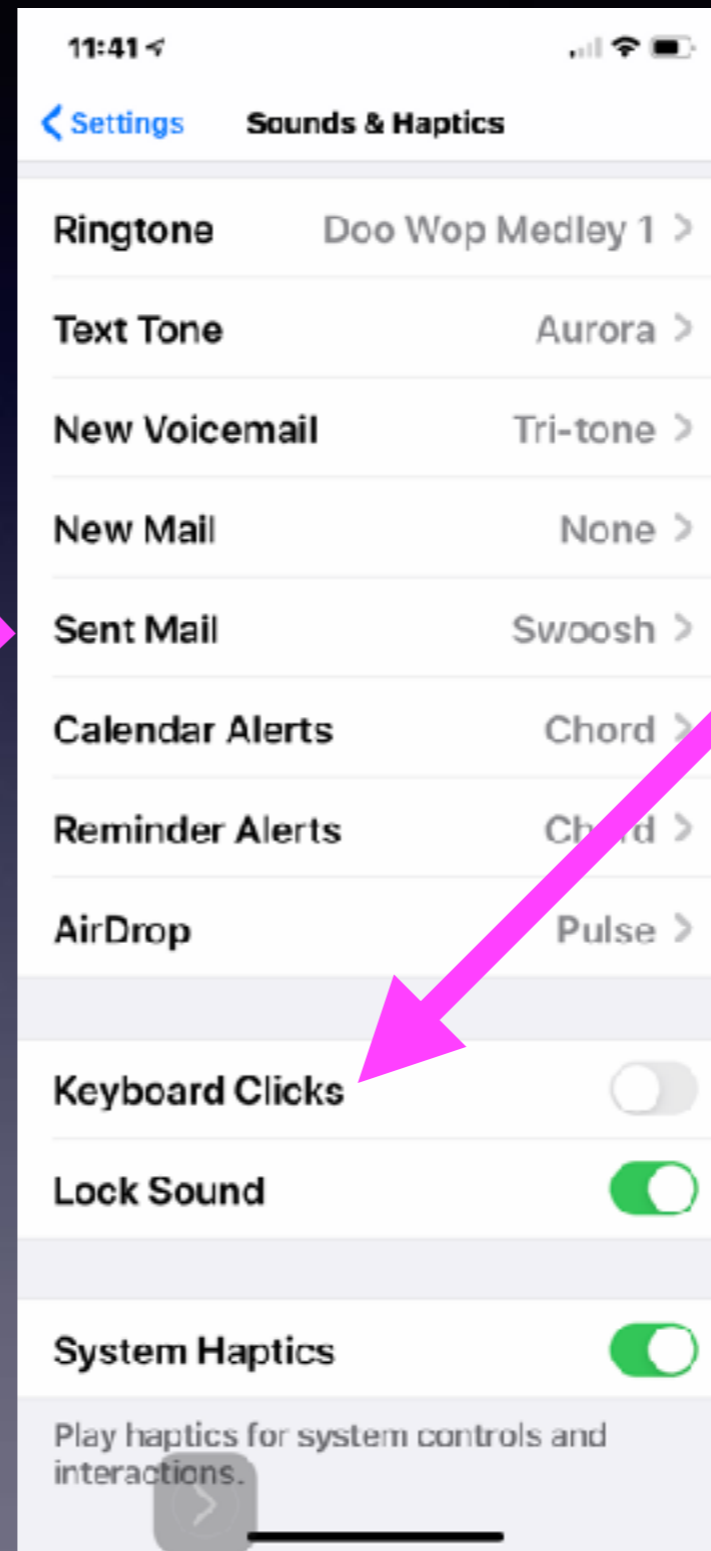

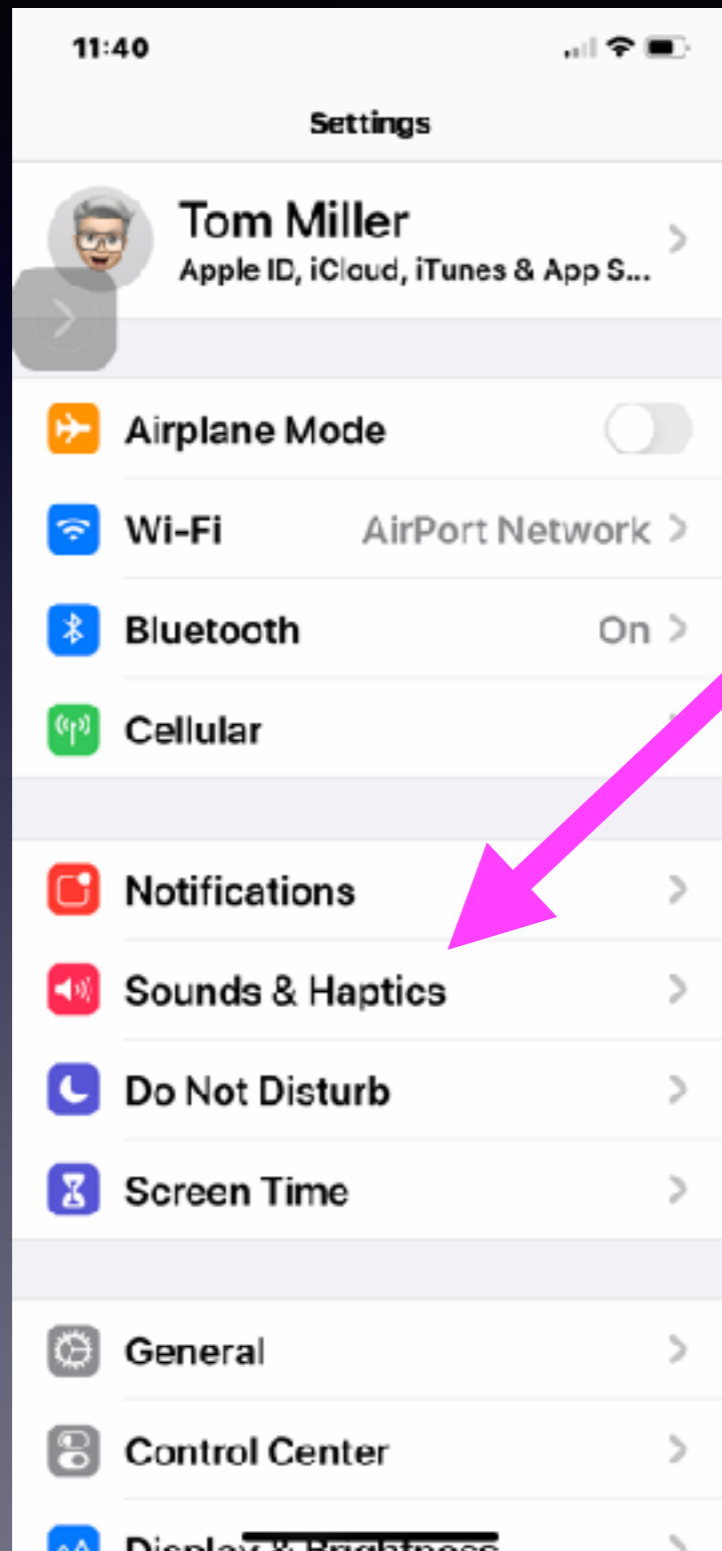

Teller
approached
by a
senior citizen
wanting to
withdraw
\$60,000!

These Are The People Trying To Scam You!

And they are very "devious"!

Be A “Quiet” Typer!

Silence
keyboard
clicking!
Be
sensitive
to those
around
you!

iCloud Is An Abstract “Concept”!

Flying through clouds!

Canned air!

iCloud Is A Service That Apple Provides Its Users!

iCloud backs up your data so that you will have a copy in the event that you lose your iPhone, etc.!

iCloud shares your data among (or with) all of your other devices.

iCloud keeps a copy of your data so that you can retrieve in anywhere is the world. You must connect to the Internet with your Apple ID and password.

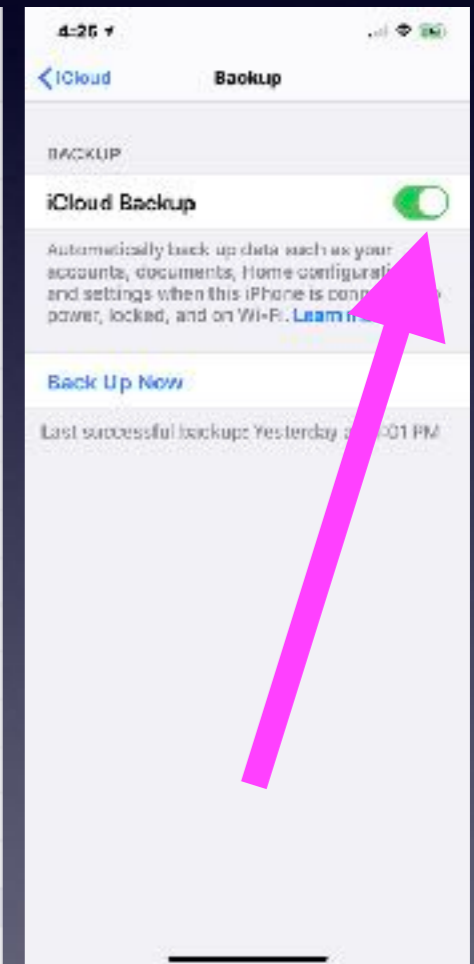

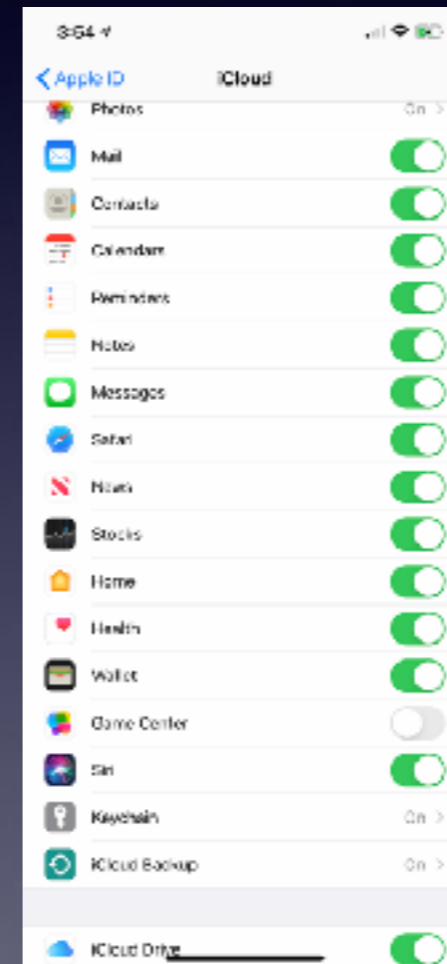

There Are Two Types Of Storage That You Use!

You make a Note, you take a Photo or Video, or add a Contact; these take up space ("Storage") on your device!

Good news!
Apple has built the iPhone to store these things!
(iPad and Apple computer)

And

Good news!
Apple saves a copy in case you lose your iPhone!

iCloud back up saves your data!

Let's Talk About Storage & How Much Digital Data You Use!

This is the hard drive!
It stores your pics, messages,
passwords, contacts, notes,
calendars, Safari favorites, etc.

You can't change the size of
your hard drive storage on your
iPhone or iPad!

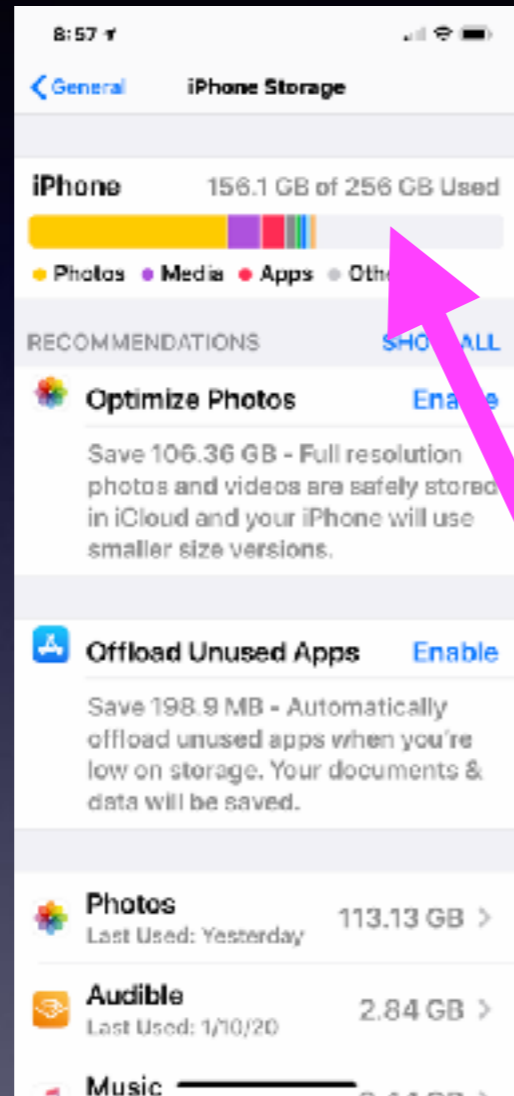

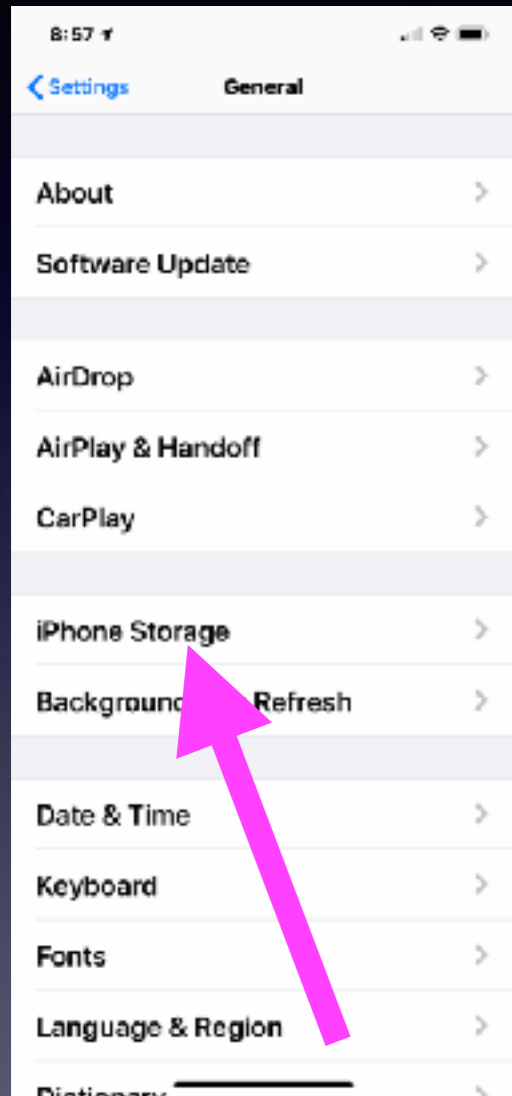

How Much Stuff Do You Have? (on your iPhone)

Let's compare your iPhone or iPad to a tool box!

Some only make telephone calls!
Quote: there's nothing on my phone!
"I don't need a big iPhone!"

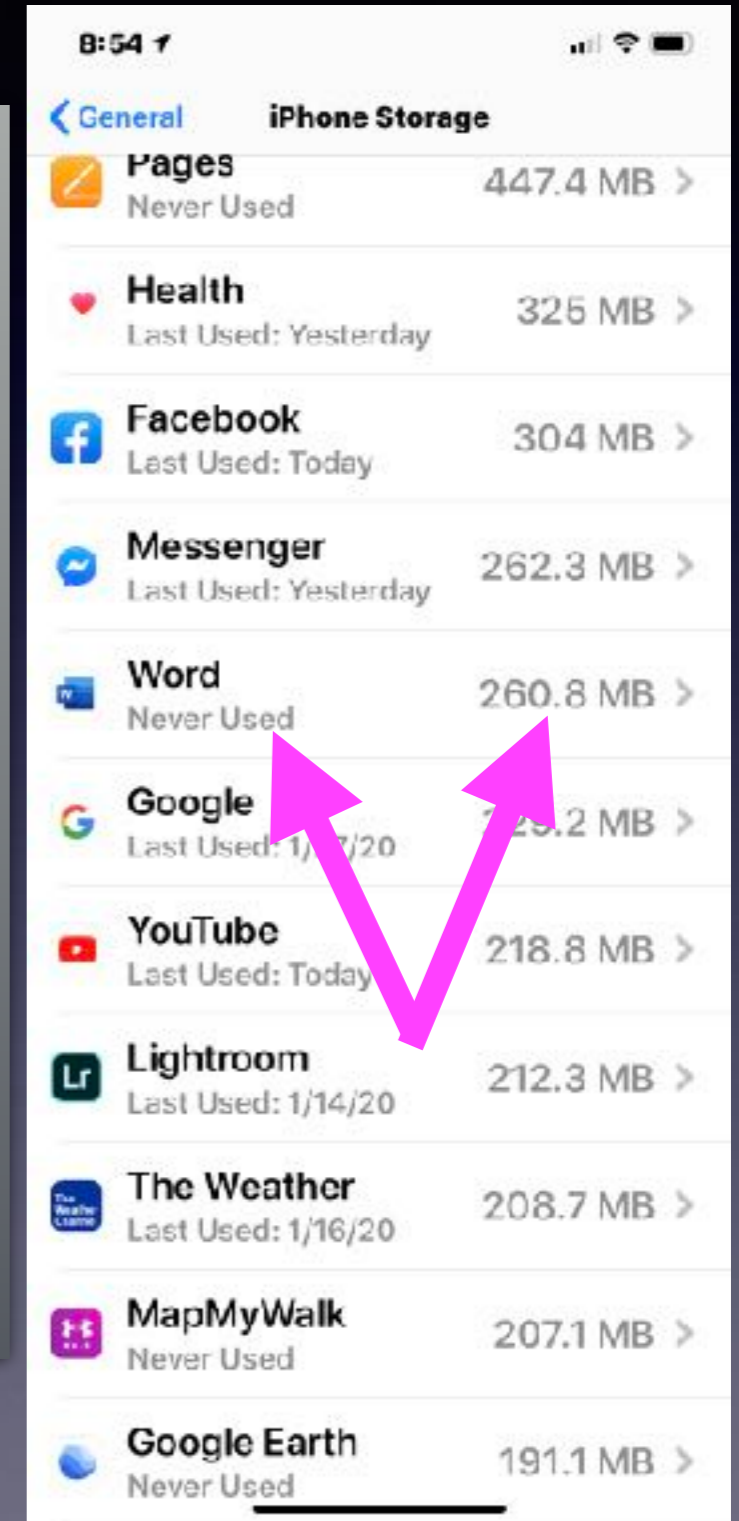

Do I Really “Do Nothing” On My iPhone?

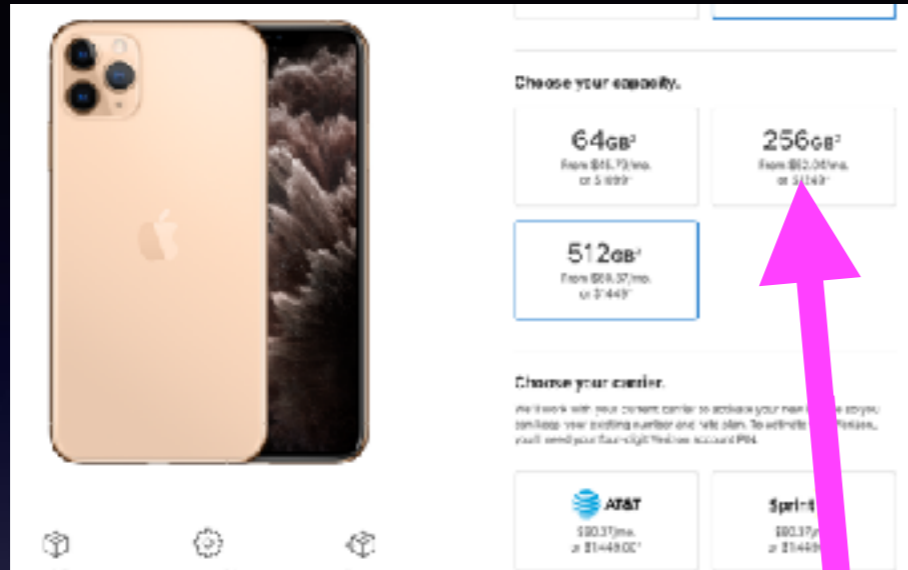

Can I see what I am putting on my iPhone or iPad?

Keep in mind; every app accumulates some data.

For example: I have not used MS Word.

Big iPhone Users! And Little iPhone Users!

MacBook Pro
has a 250gb hard drive!
My iPhone is capable of storing
more stuff than my computer!

“I Can’t Lose My Contacts & I Can’t Lose My Photos, etc!

Have you ever said...

How many of you know someone who left their iPhone on a car and drove off?

How many of you know someone who dropped their iPhone in the ocean?

How many of you know someone who ran over their iPhone?

How many of you know someone who had their purse stolen and in turn lost their iPhone?

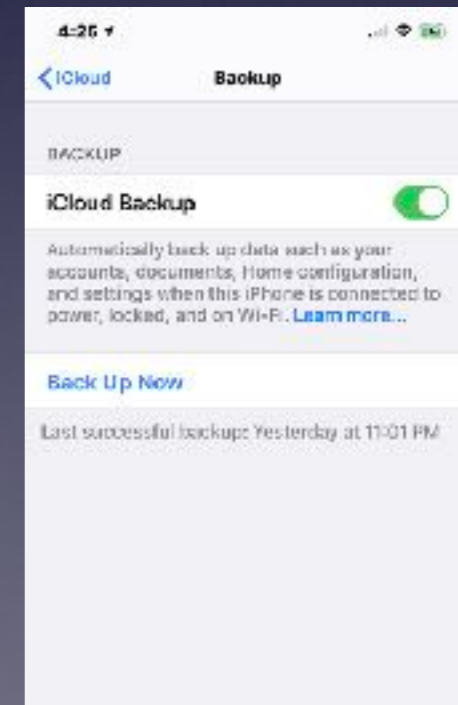

iCloud answers one very important question:
Can I afford to lose my iPhone and in turn lose all my Notes, Pictures, Contacts, on my iPhone etc.?

The “Nuts & Bolts” Of iCloud!

iCloud stores & “backs up” my pics, notes, contacts in a separate place outside my iPhone!

Apple takes your “stuff” & makes a copy and puts it in your little “iCloud house”!

How Big Is My “Storage House” In My iCloud Subdivision?

We all have different size houses!

Good News, Especially, If You Have Received A Message: “You Are About To Run Out Of Storage!”

You may need to move and you can get a bigger house!
A condo can hold a mother and father and two children but if they have another two...

Apple lets you get the house that fits your needs!

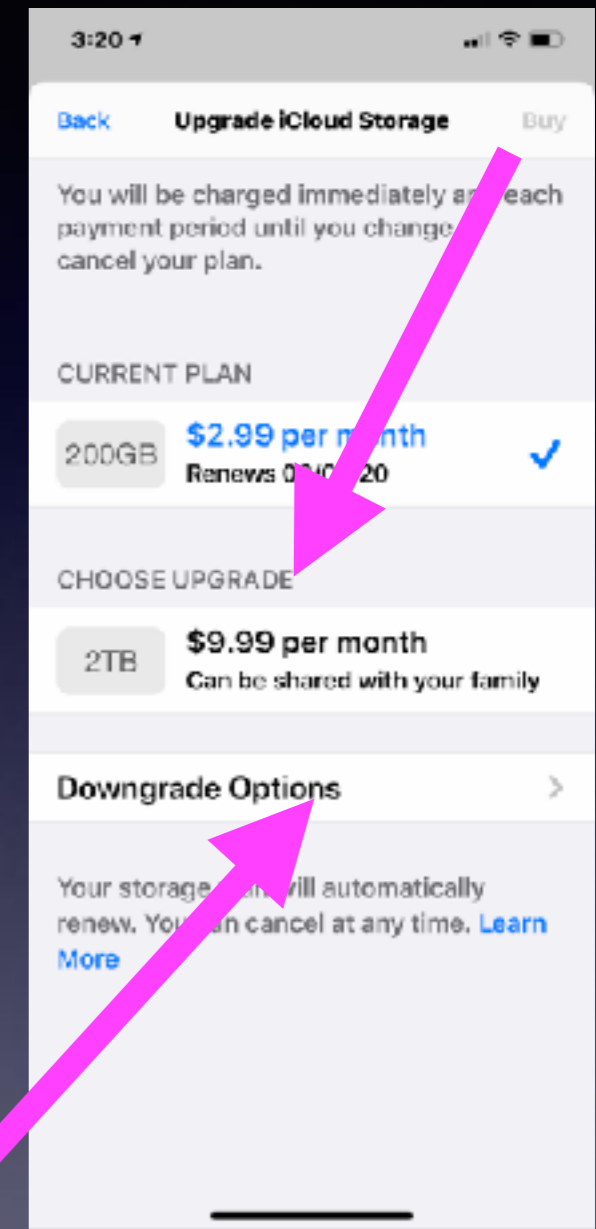

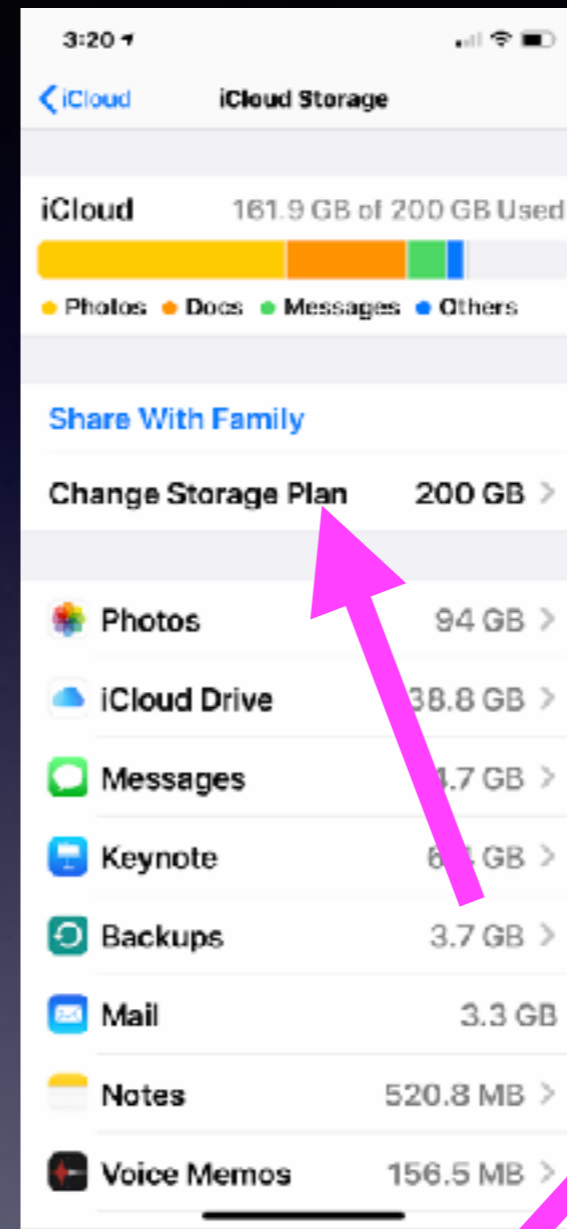

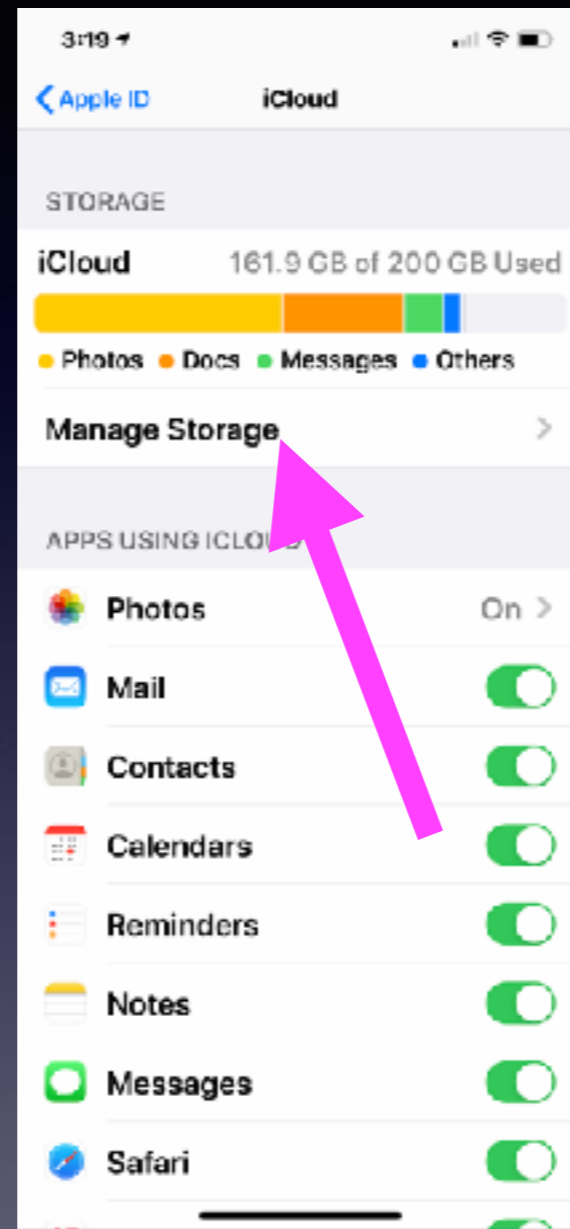

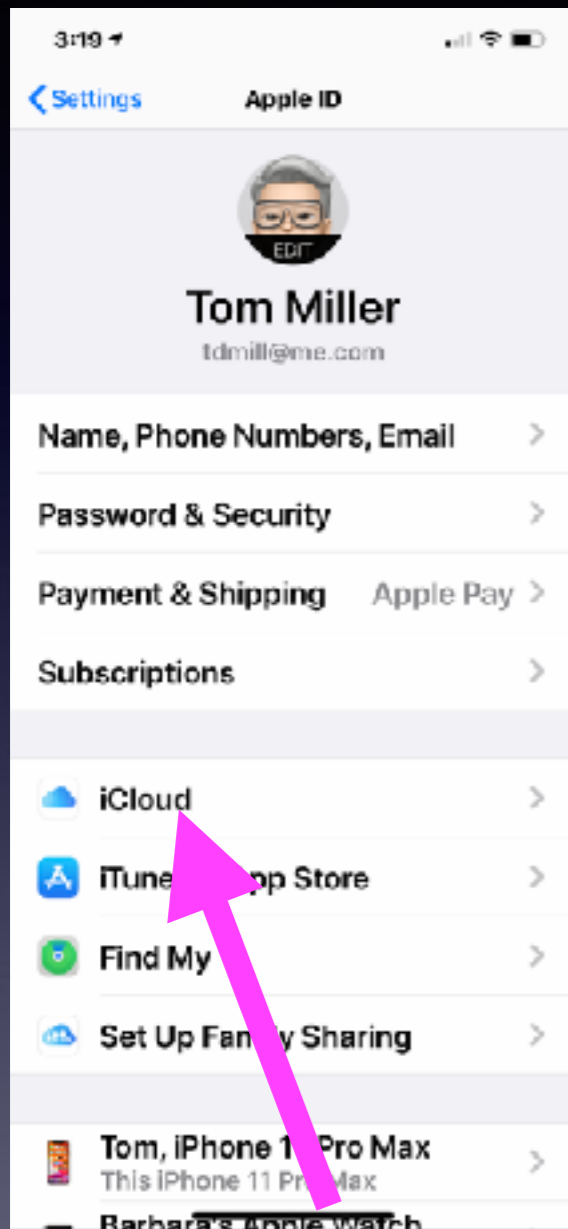

Actually, Apple makes three houses...you choose!

Do I Need More Storage!

I need a bigger iCloud "house".

Get The Right Size House!

You can even get a smaller house "Downgrade Options" when the kids leave home!

What Stuff Goes Into My iCloud Storage “House”?

Any Apple device signed into iCloud!
And each device sends its own “stuff” to my iCloud house!

The Subdivision!

Should I Put On An Addition Or Own Two Houses?

You don't have to put all of your stuff in the "Apple" iCloud house!

Apple is not the only backup cloud storage!
Google has Google Drive
Microsoft has One Drive
Dropbox is virtual storage
Carbonite

Google Drive

iCloud

Google Storage

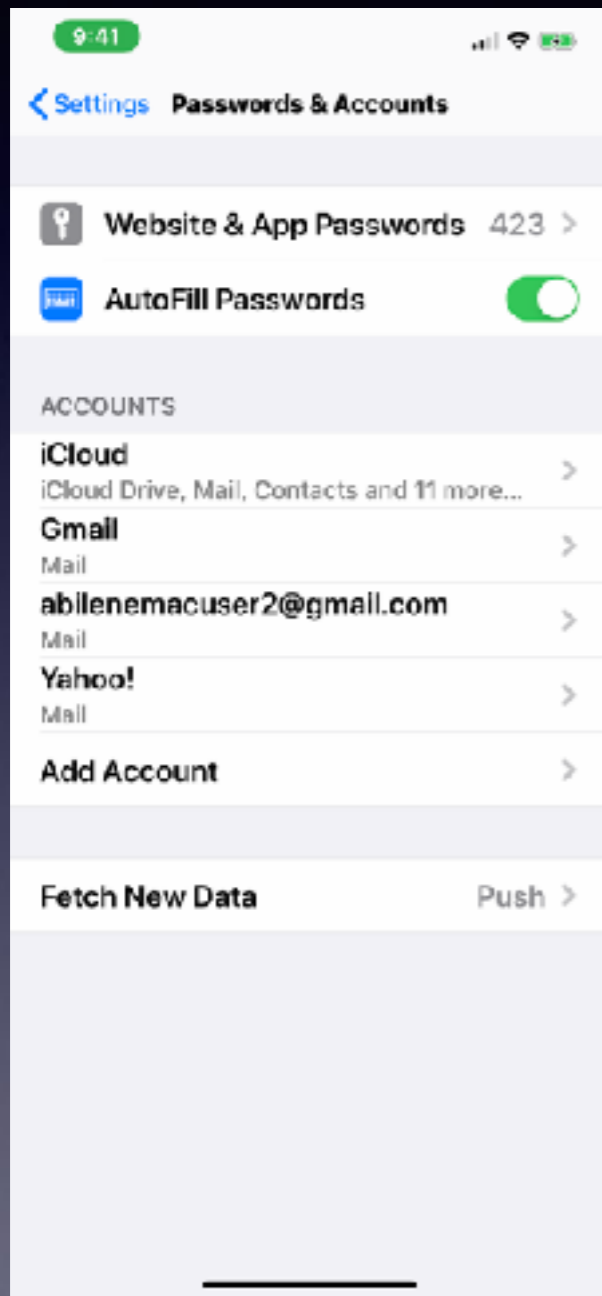

Dropbox

OneDrive

Couch, Bed, Table In iCloud! Toilet, Sink, And Bathtub In Google!

“Accounts” are your houses where you “put” store your data!

Some Of You Decided To Purchase Another House Not In The iCloud Subdivision!

Apple's iCloud subdivision!

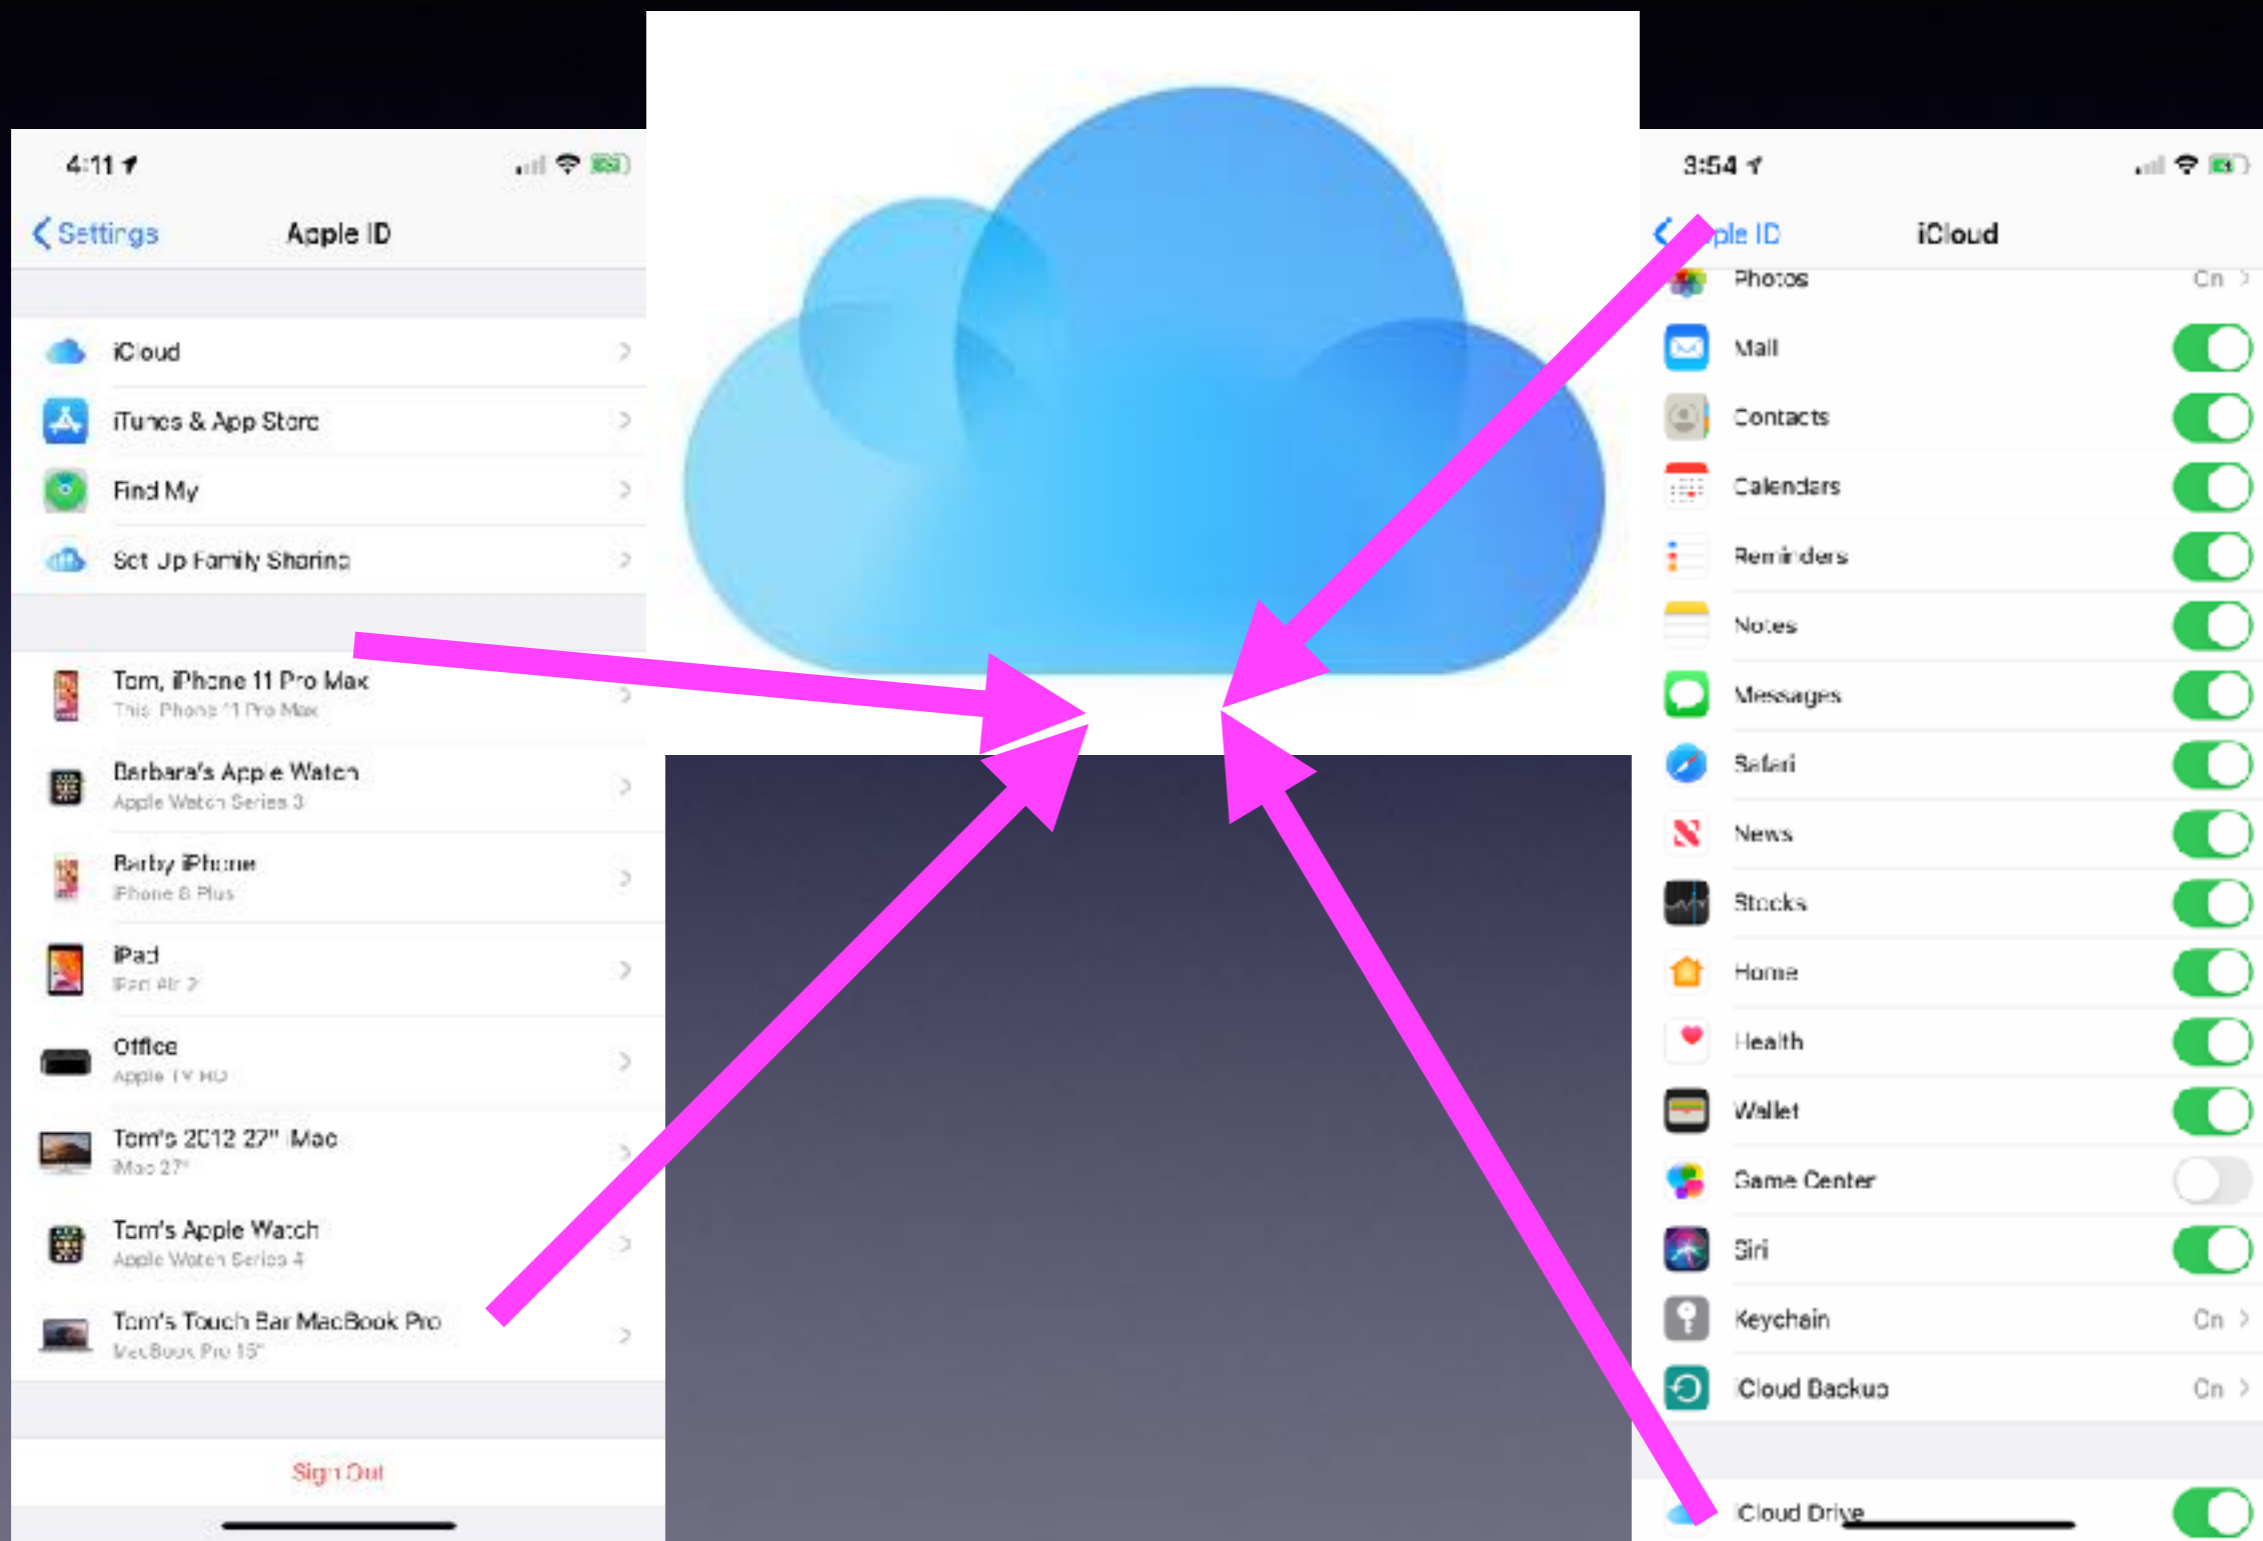

Using iCloud Photo library

But would you want some of your furniture in in one house and maybe a couch in one and tv in another?

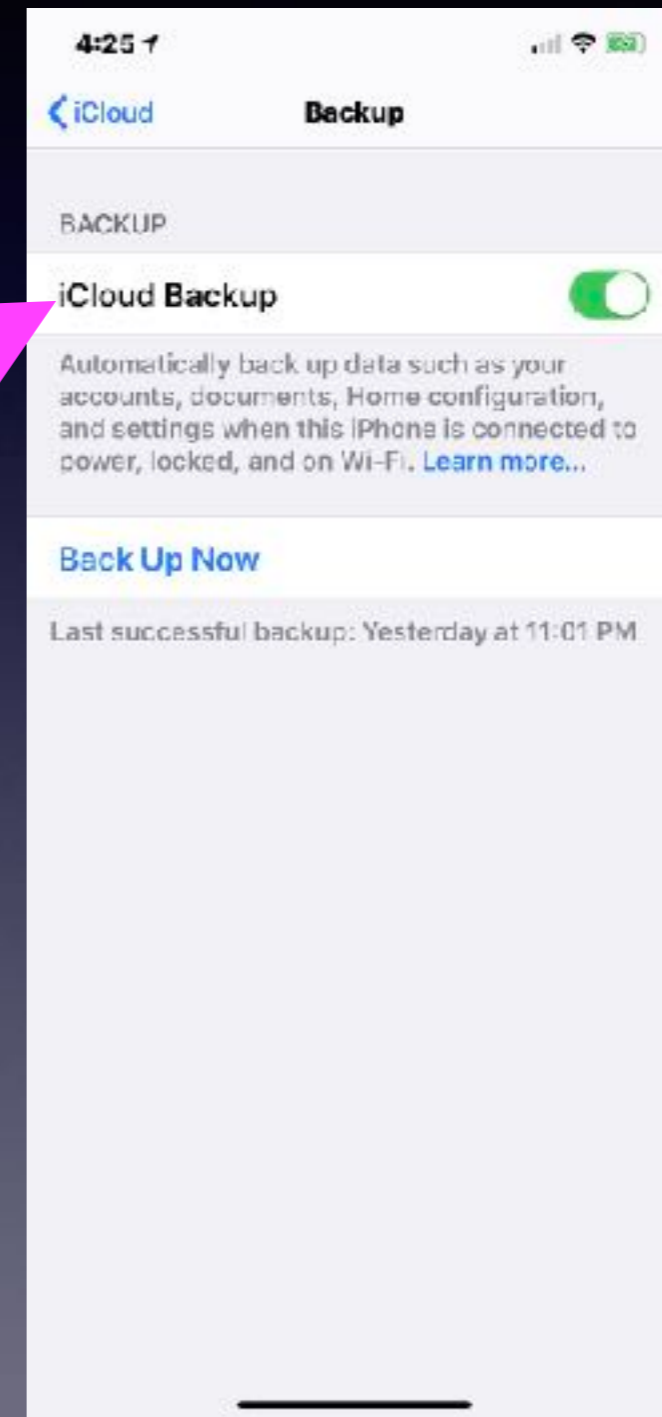

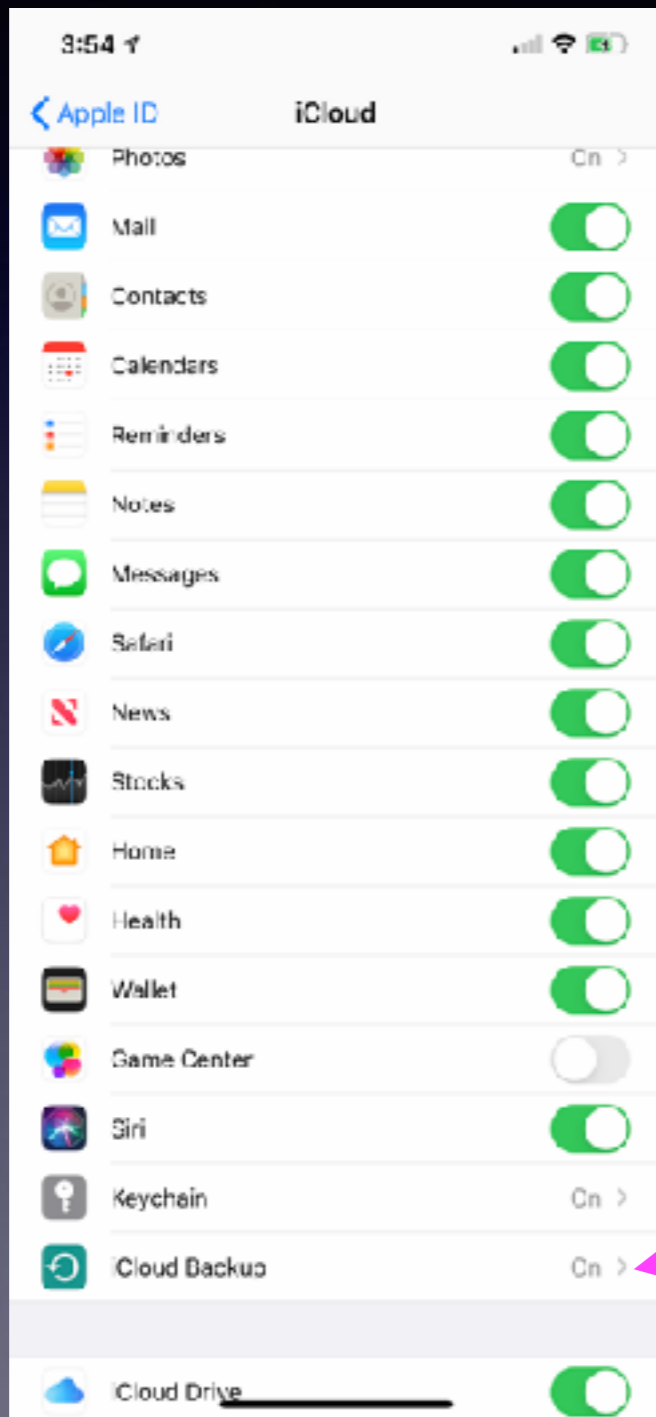

Google's subdivision!

What Am I Sending Up To iCloud!

How Does My Stuff (Things I Do Or Create On My Devices) Get Into iCloud?

What Am I Syncing?

Syncing and backing up are device specific.

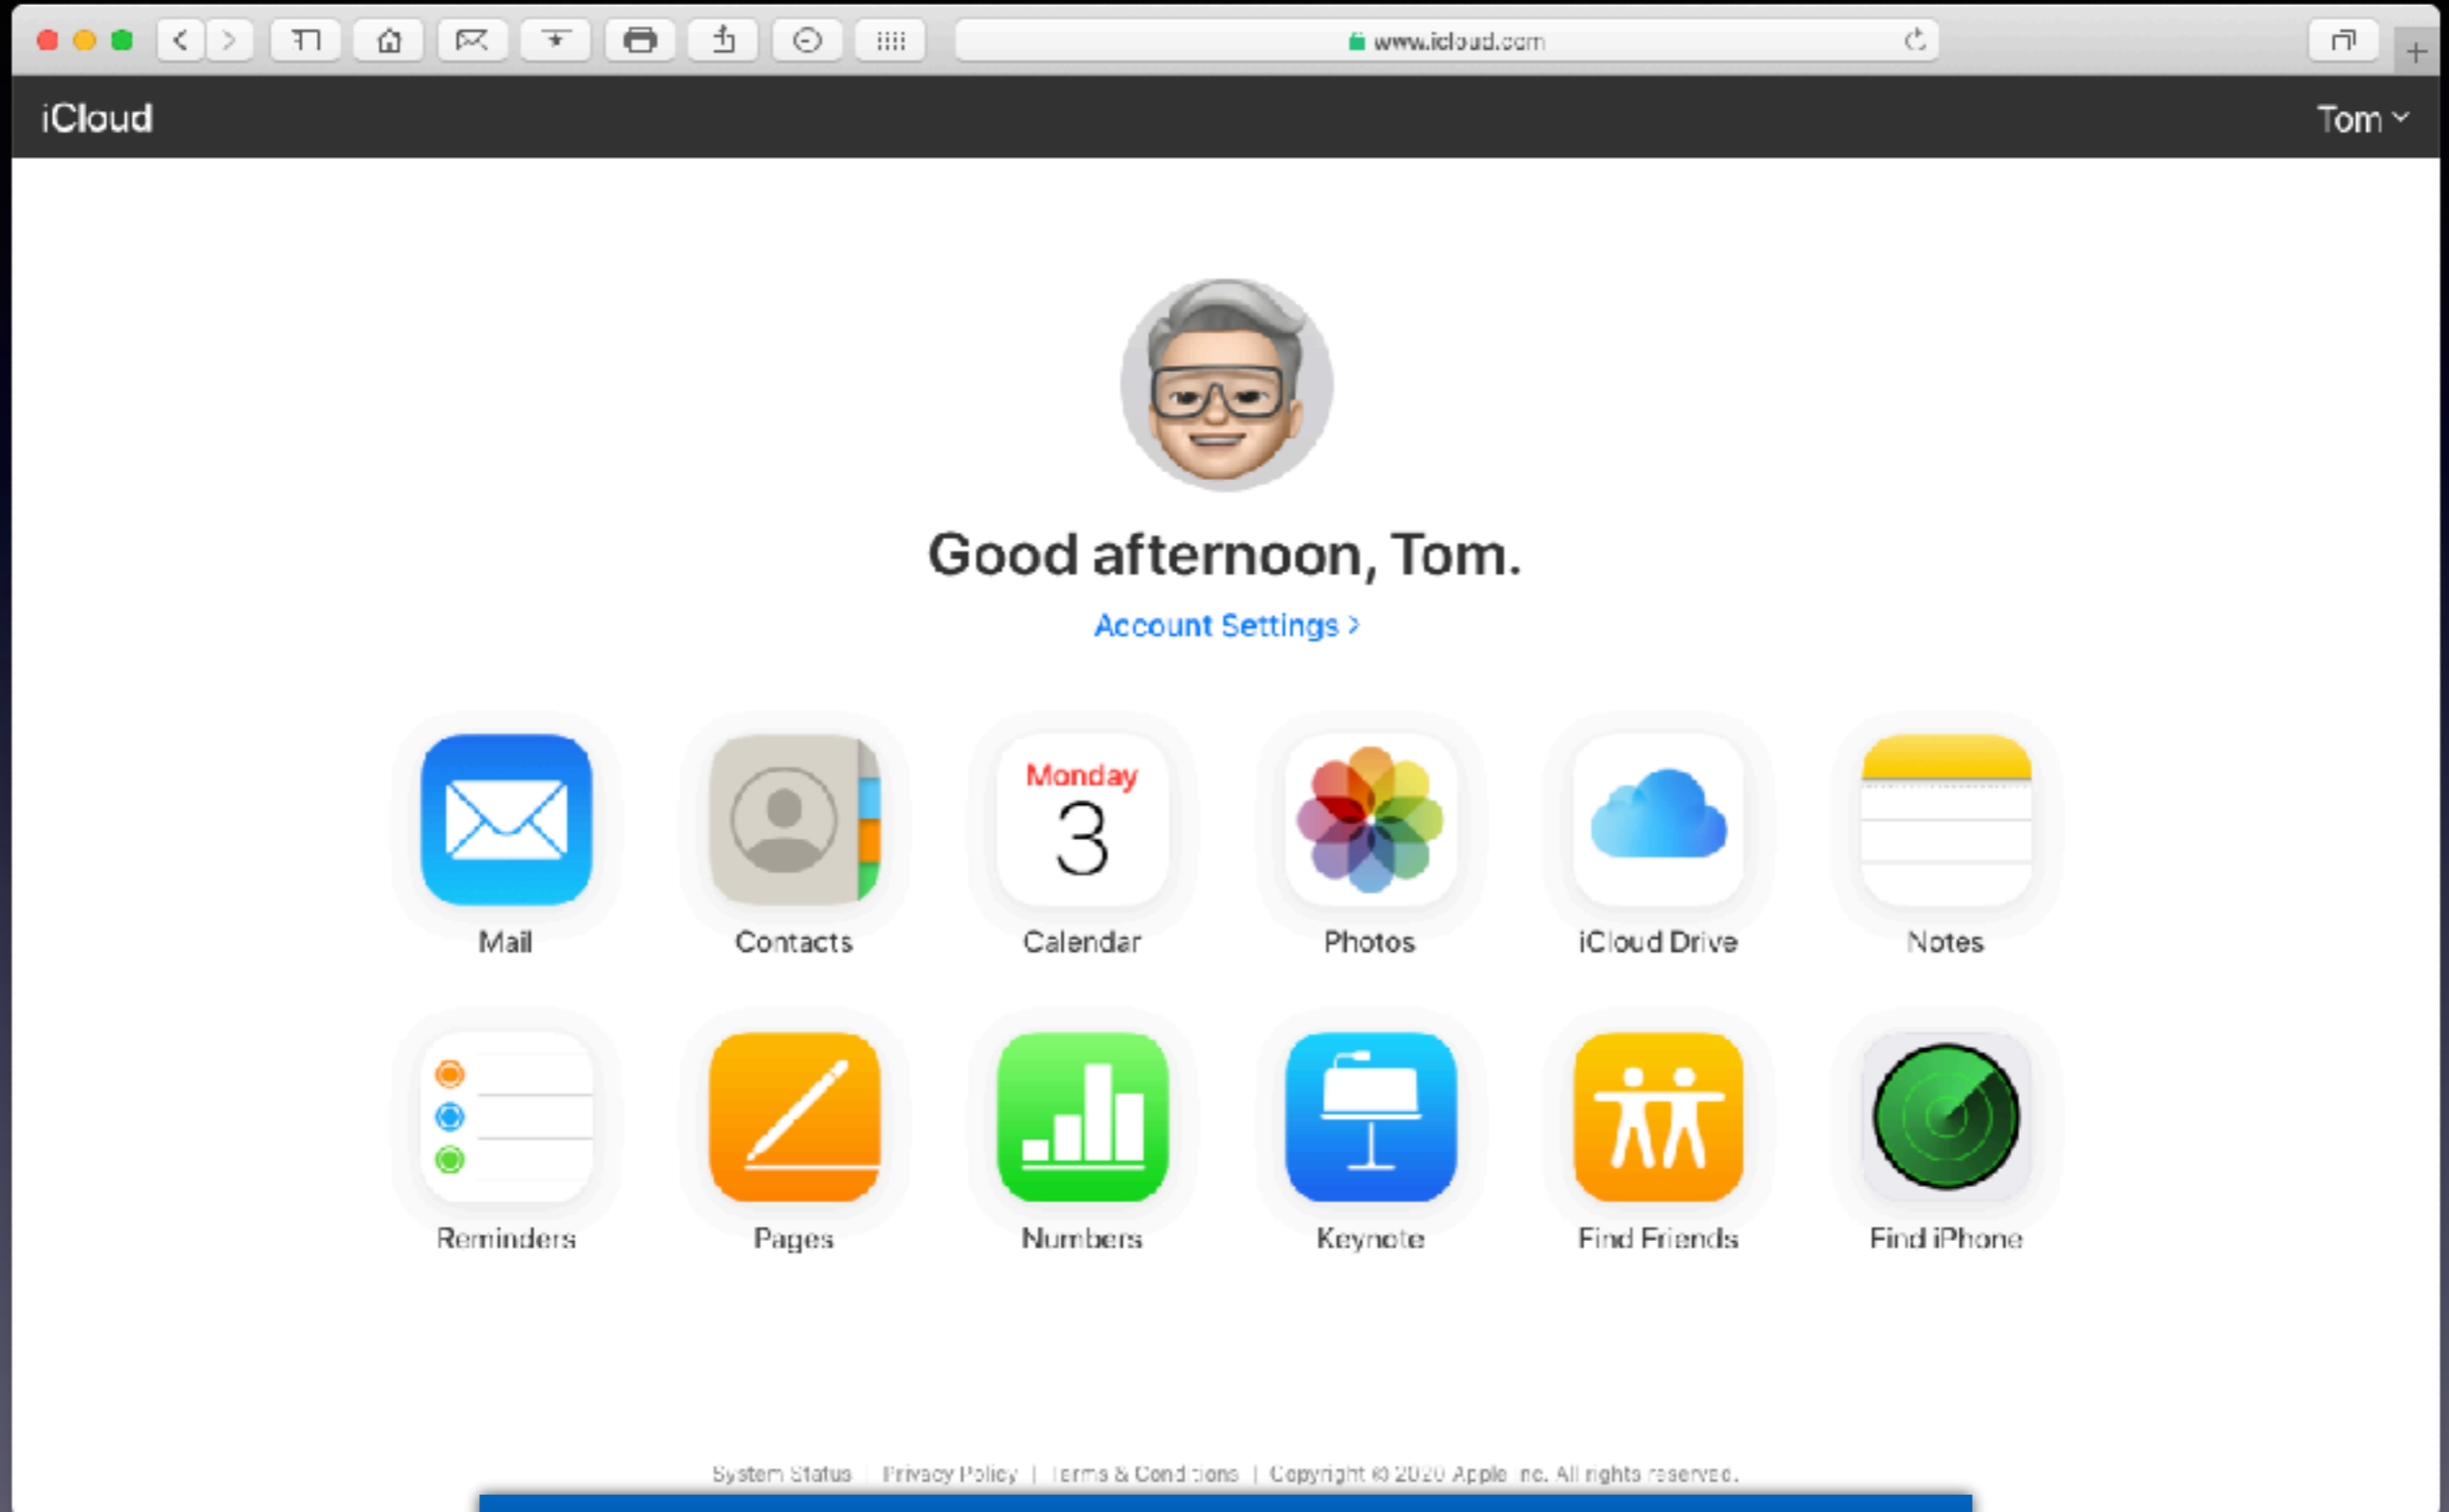

What I do on my iPhone can be different than what I do on my iPad and different than what I do on my computer! And I may have two computers.

Can I Lose All My Apple Devices and Still See “Stuff” That Is On My Devices?

How do I get into my house and see what I have, i.e. my Contacts, Note, Calendar, etc.?

What Am I Putting In iCloud?

Some things in my iCloud account are not visible!

You Don't Have To Remember Passwords!

In order for
this to work...
When asked by
Safari;
you must save
the
password!
