# What Device Do I Have?

# Is My iPad And iPhone Up To Date?

The current software is IOS 14.4.2.

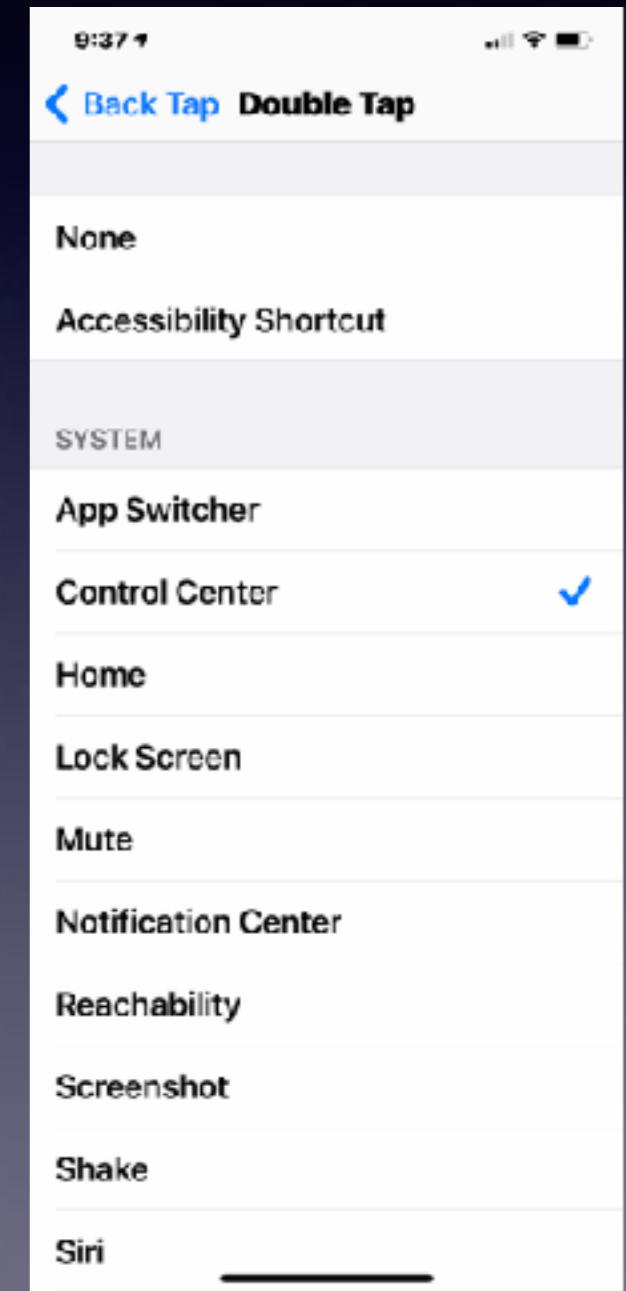

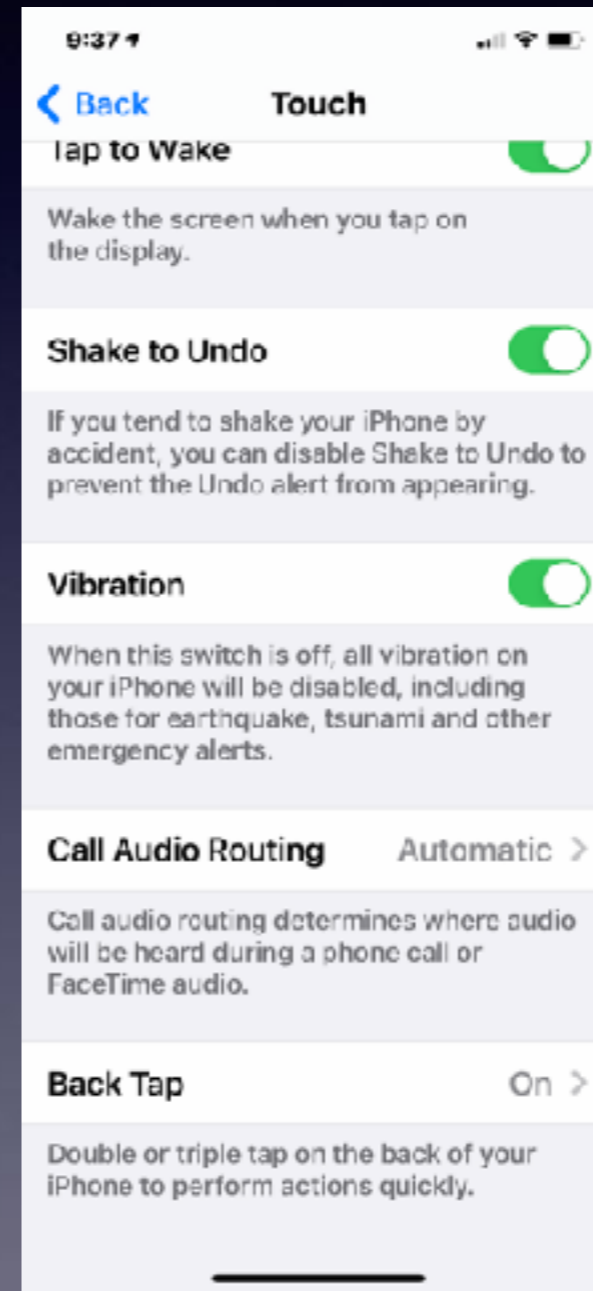

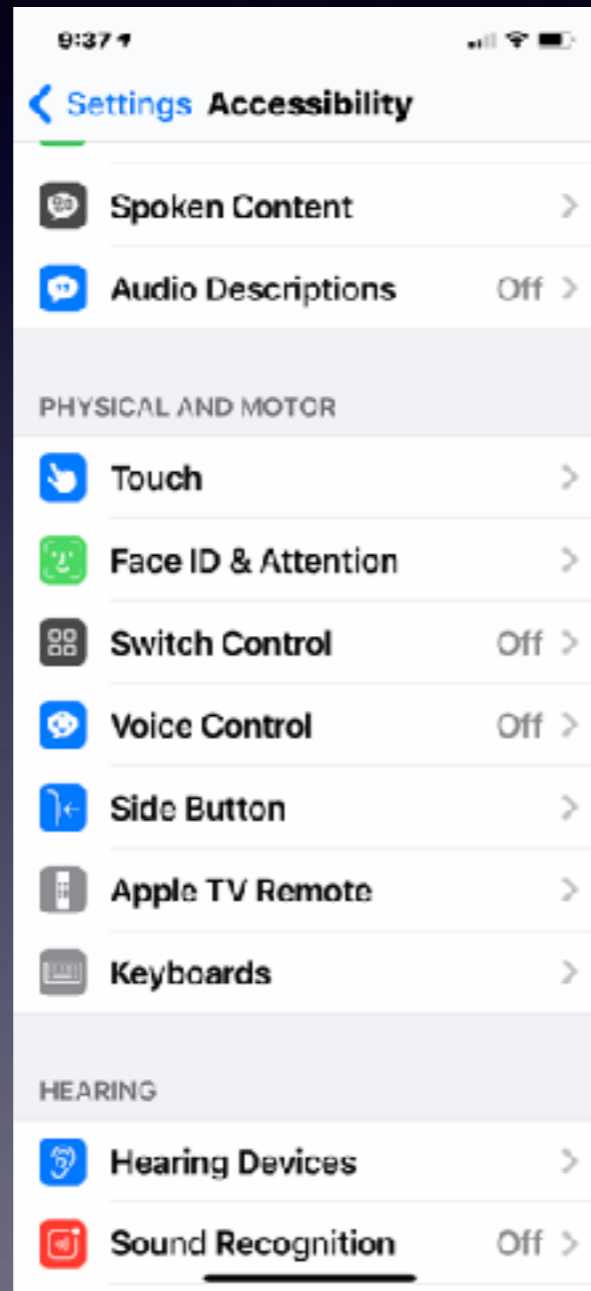

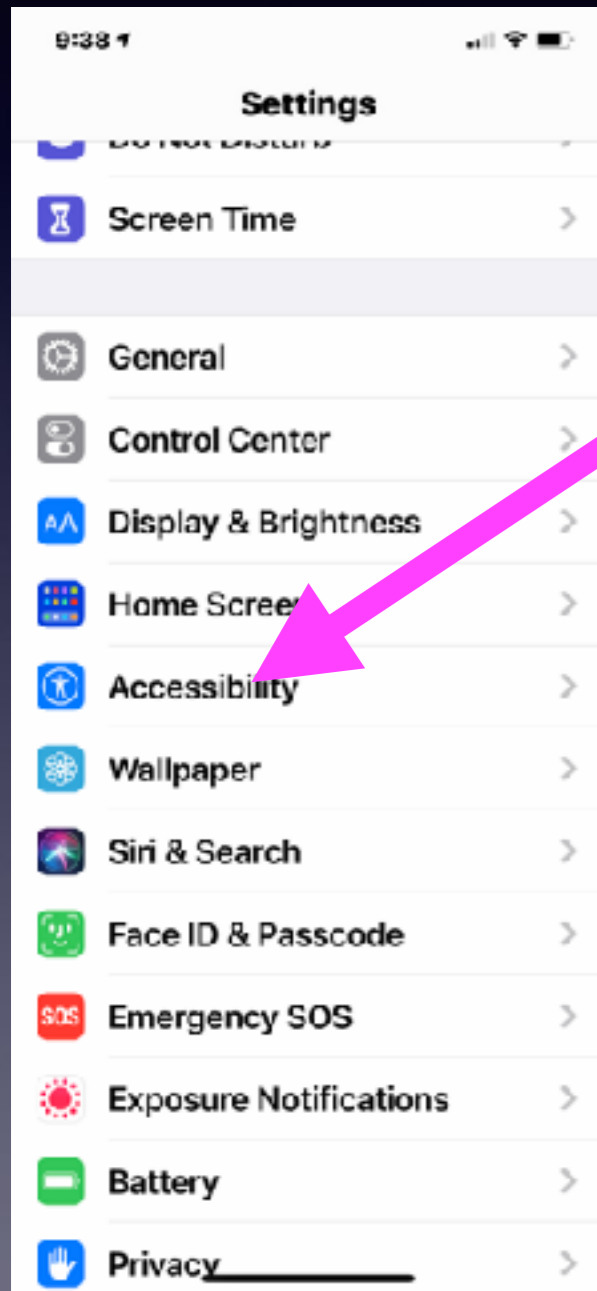

My iPhone says it is up to date but I don't have IOS 14.4.2. (How come?)

A good working "older model" iPhone will only "update" so far.

The most current updates come with the latest features, bug fixes, & the most security.

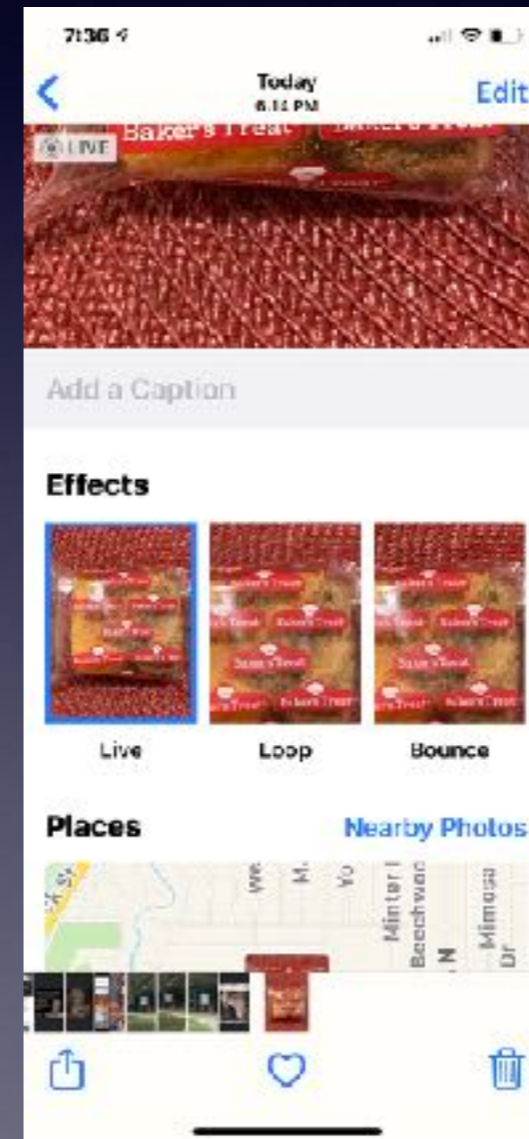

# A Most Interesting Feature!

## “Back Tap”

# Add A Caption To A Photo!

Select an image from the Photo App.  
Open the image.  
Slide up to add a caption.

# Home Screen Features In IOS 14.4.1!

Tap & hold the blank area makes all apps "wobble"!

Moving finger across home screens is fast and easy.

Tapping plus adds a widget to your home screen.

FaceTime allows "picture" in window.

Thank you so much for your kind response, I need you to get a Google play gift card for a friend who is down with cancer of the Liver, it's her birthday today and I promised to get it for her, but I can't do this now because I'm currently out of town and all my effort purchasing it online proved abortive.. Can you get it from any store around you for me? I'll reimburse you upon my arrival. Please let me know if you can handle this so I can tell you the amount and how to get them to me.

Thanks

Do you know where I could purchase a gift card such as you want? Also, how much would I be spending? Since I get requests like this, i.e. scam, would you call me to verify that this is not a scam.

Thank you so much for your willingness to help, the amount needed is \$200 (\$100 each). All I need you to do is scratch the back of the card to reveal the pin, then take a snapshot of the back showing the scratched pin, include a birthday wish on the card with a marker, then have the photo of the gift card sent to my email or easily write out the scratched code and email it to me. Please let me know how soon you can get this done

Once again thanks
