

**Following Are The  
Slides That Were  
To Be Presented On  
May 26, 2022  
At Rose Park!**

# Our Goal Today:

What I consider to be impt. considerations.

**“Wrap Up The Year  
By Discussing The Major  
Talking Points”!**

# Two Year Old Buys 31 Cheeseburgers From McDs Using mom's Cell Phone!

And has them delivered using DoorDash!

Golden's youngest son, 2-year-old Barrett, had been playing with his mother's phone.

"He usually likes to take pictures of himself, and so he was doing that," said Golden.

Instead of snapping selfies, Barrett was placing an order for 31 McDonald's cheeseburgers to be delivered to his house. Total price? \$91.70. Barrett had even given the driver a \$16 tip.

KINGSVILLE

## Order Up! Texas 2-Year-Old Buys Dozens of Cheeseburgers Using Mom's Phone

Barrett's mom thought he was using her phone to take pics, but he had other plans

By **Holley Ford** • Published May 17, 2022 • Updated 5 mins ago

The Texas toddler placed the order using his mother's phone.

# It's A Tool, Not A Toy!

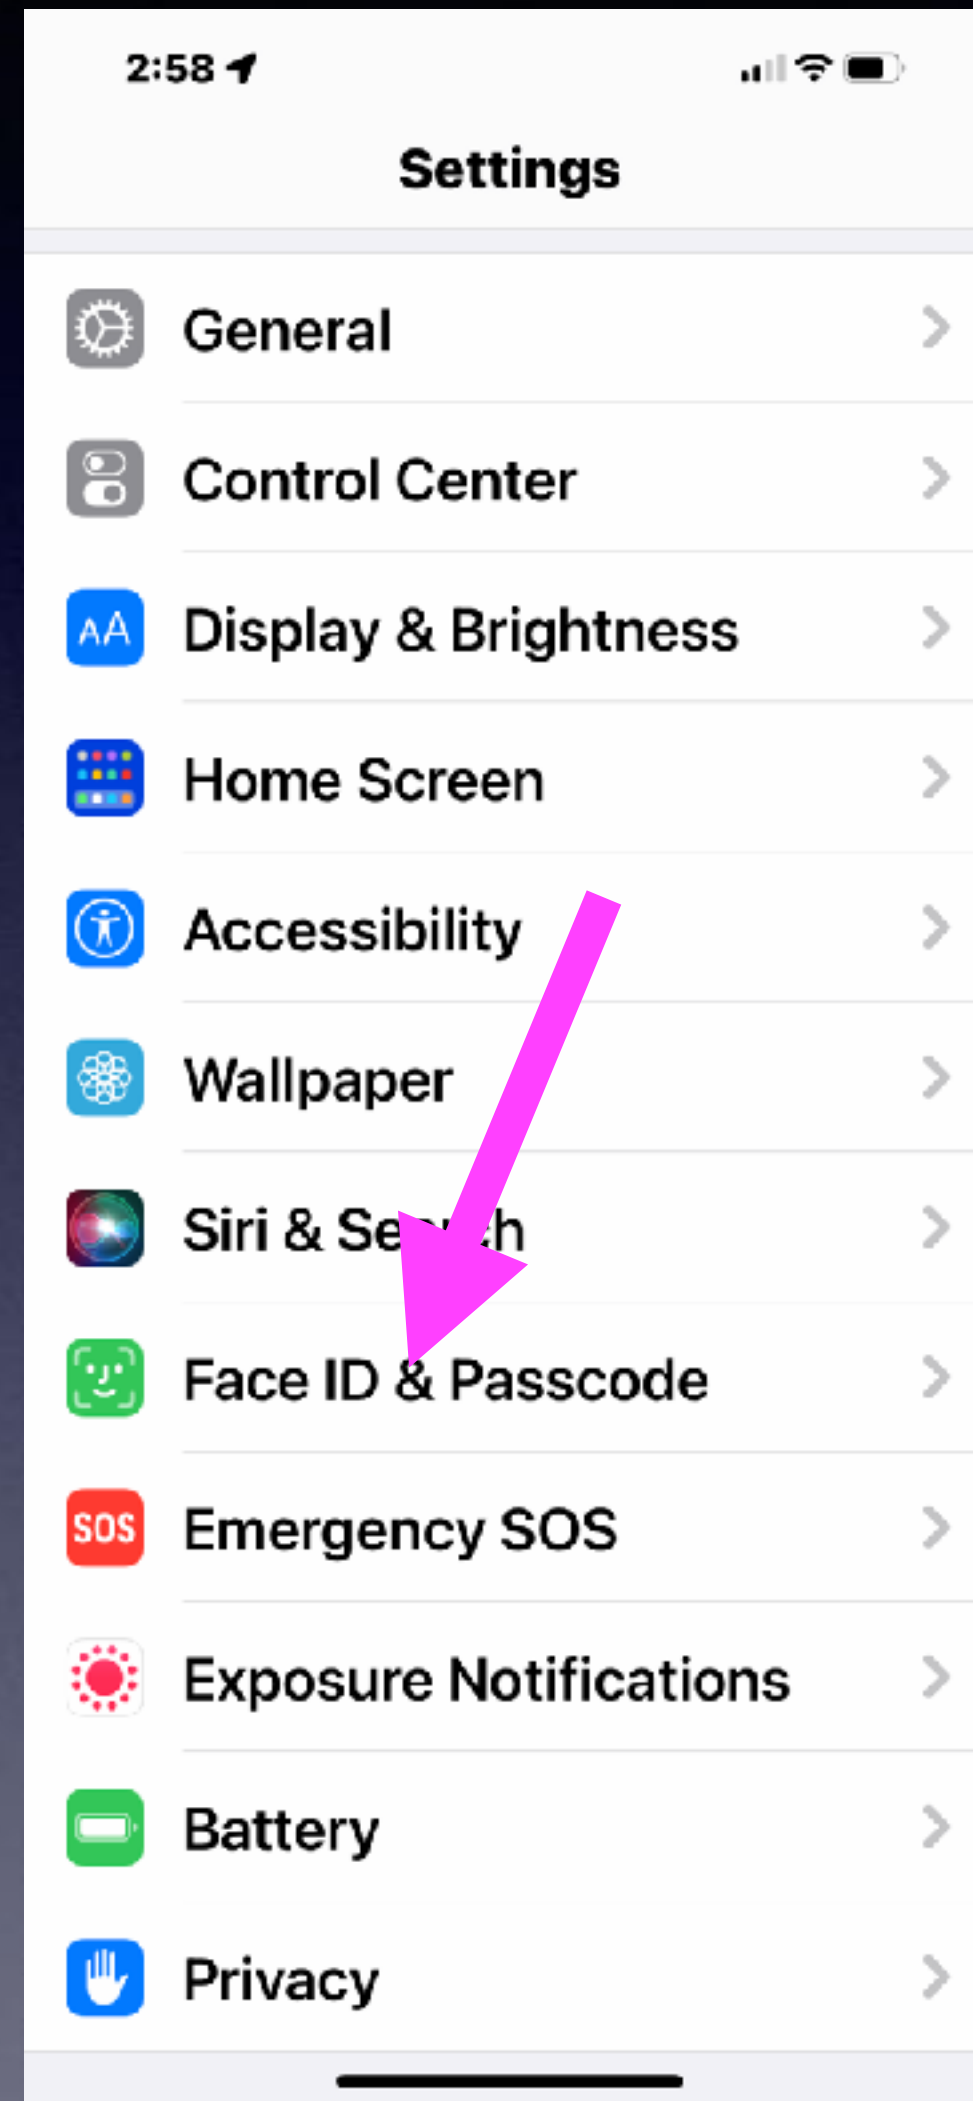

For small children, it can be  
Christmas!  
Yet, for others, it can be  
an  
avenue for learning.

# Erase My Data After 10 Failed Attempts!

Reconsider letting a child use (or play) with your iPhone!

What happens when a child tries but fails to login?

# At Times I Don't Like Owning An iPhone!

What don't you like about the iPhone?

How tempted are you to pick up your iPhone while driving?

I don't like getting robo calls.

I don't like getting junk emails.

I don't like seeing the trash that is now available.

Especially when children are allowed to "play" with one.

I don't like the expense of purchasing one.

I don't like the cost of owning one. (monthly charges)

I don't like the difficulty some have using one.

I don't like it being a path to dangerous web sites.

I don't like how easy it is for people to be duped.

I don't like the preoccupation with it.

I don't like the influence social media has over us.

Someone is always trying to sell me something.

Too many people are talking and texting while driving.

The moment I learn how to use it...Apple upgrades the iOS!

# iPhone & iPad Basics\*

May 26, 2022

Welcome  
to  
Rose Park\*

It's our last  
class at the library  
until September.

→ A class for all levels of understanding!\*

# Call, Text, Email Me Don't Hesitate!!!!!!

My web site is on the top of my business card. Use the **web** address to see the slides that I present today!

\*Call me anytime as long as you do not begin the conversation with, "I know this may be a dumb question..."

# Contact Me During The Summer Break!

Note:

I would encourage you to refer to the slides related to "Emergency" features!

From week of  
(April 14, 2022)

My Slides Are Available. Go to [tommillermachelp.com](http://tommillermachelp.com) and click on "Blog".

[tommillermachelp.com](http://tommillermachelp.com)

Look for "Blog"!

This is a learning class...some things may be new to you. Learning (a foreign language) is not easy.

# Important “Takeaways” From September 2021 To May 2022

# 1. Someone Is “Working” Diligently To Scam You!

You can be caught off guard..

Making fake emails look legitimate.

Clicking on links that are fraudulent.

Phone calls that intimidate intended to:

Get your personal info.

Take your money.

Hack your Facebook account!

Your computer has been sending bad viruses.

The IRS says you behind in your payments.

Social security agency says you have taken too much.

You have a fraudulent charge on your bank statement.

Whatever you do, don't call the number.  
Call the bank or credit card company.

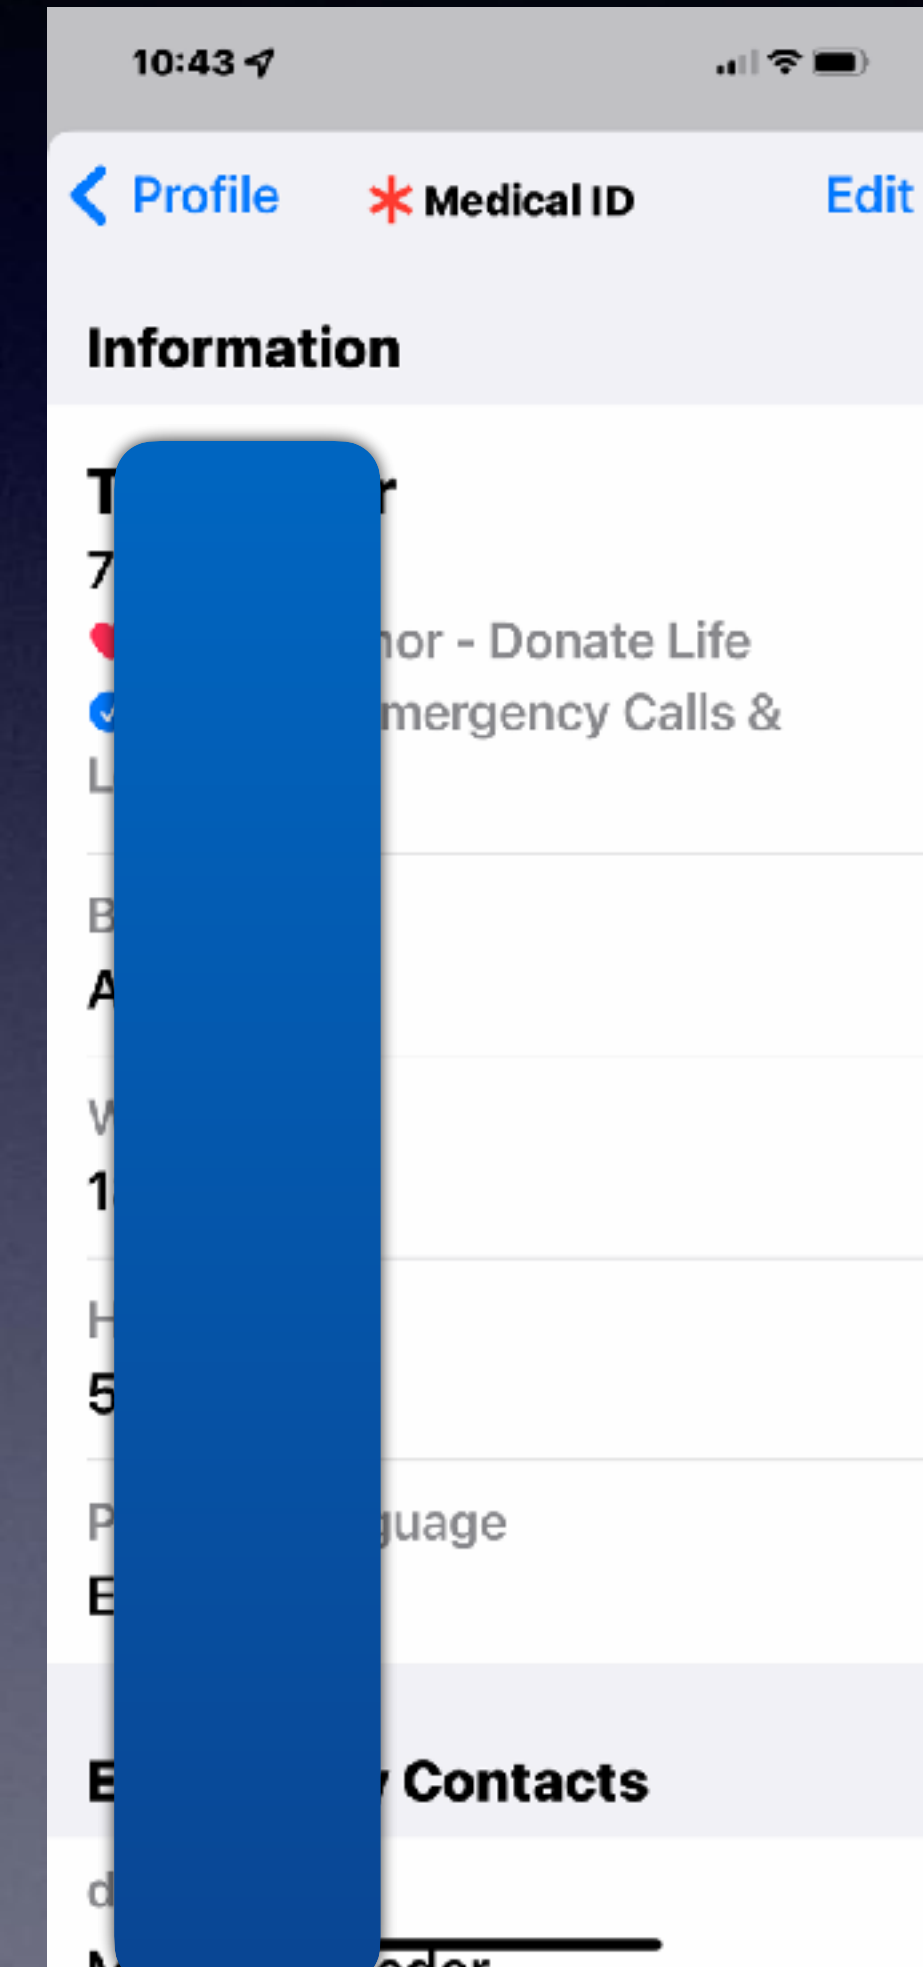

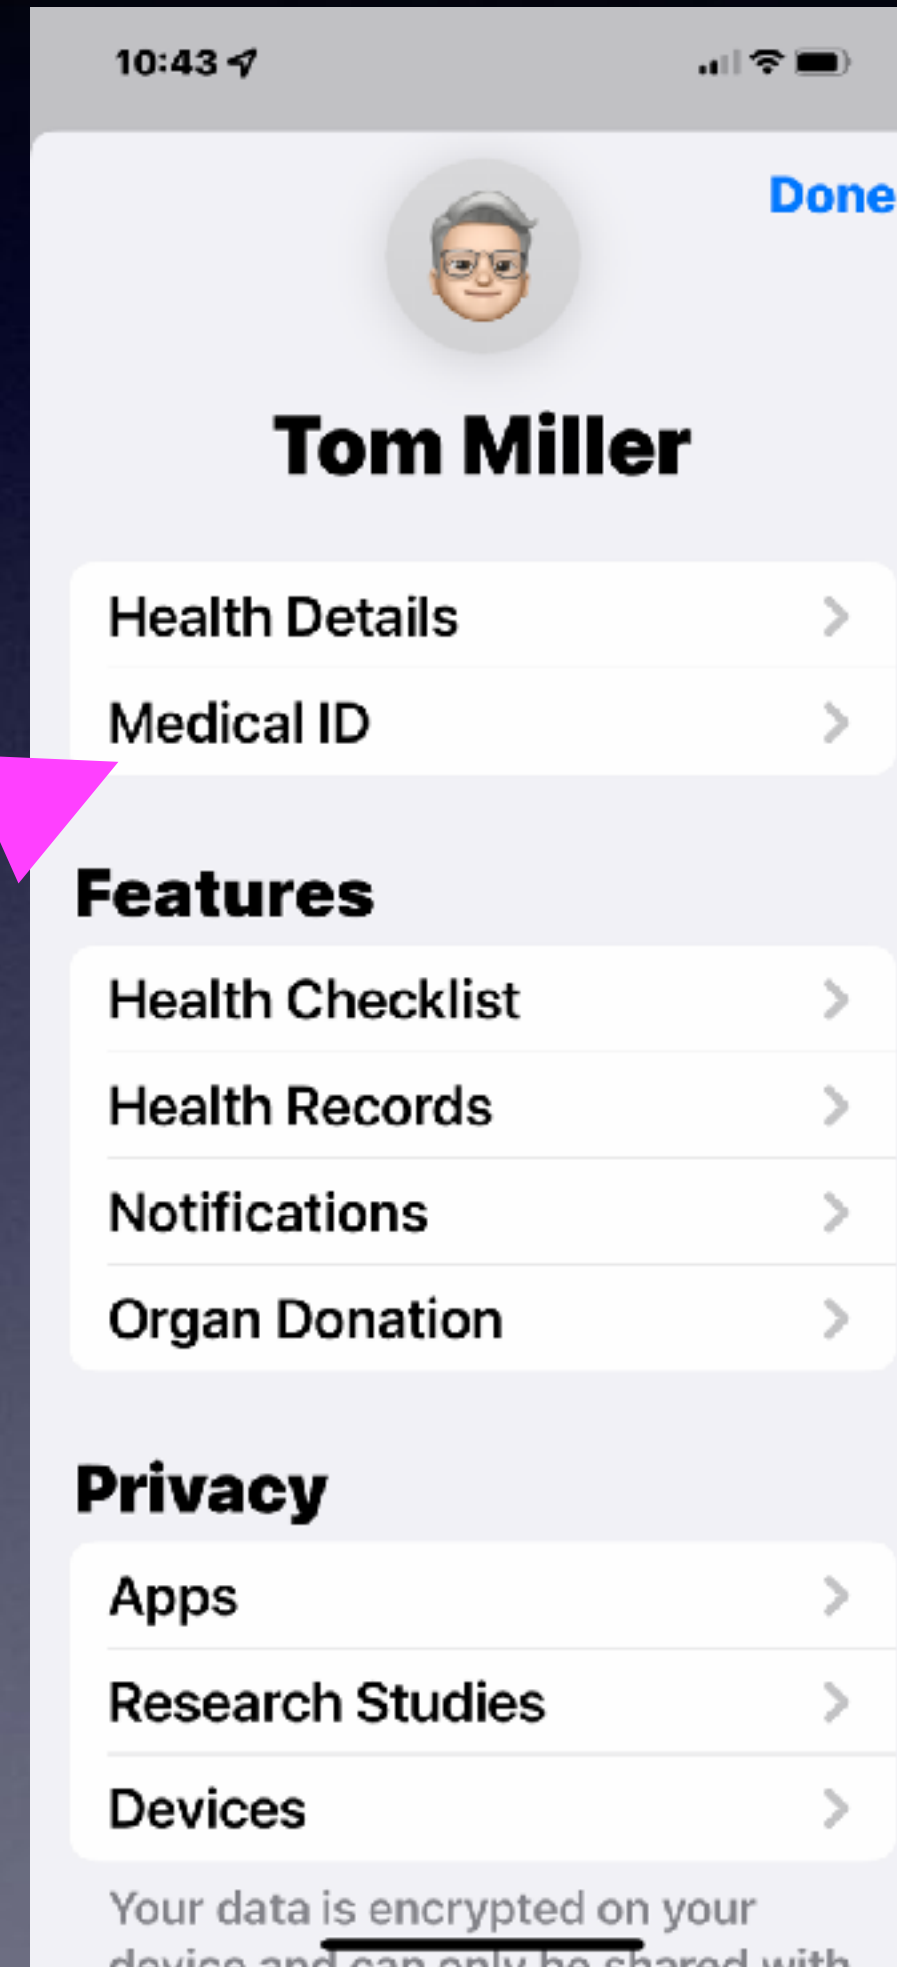

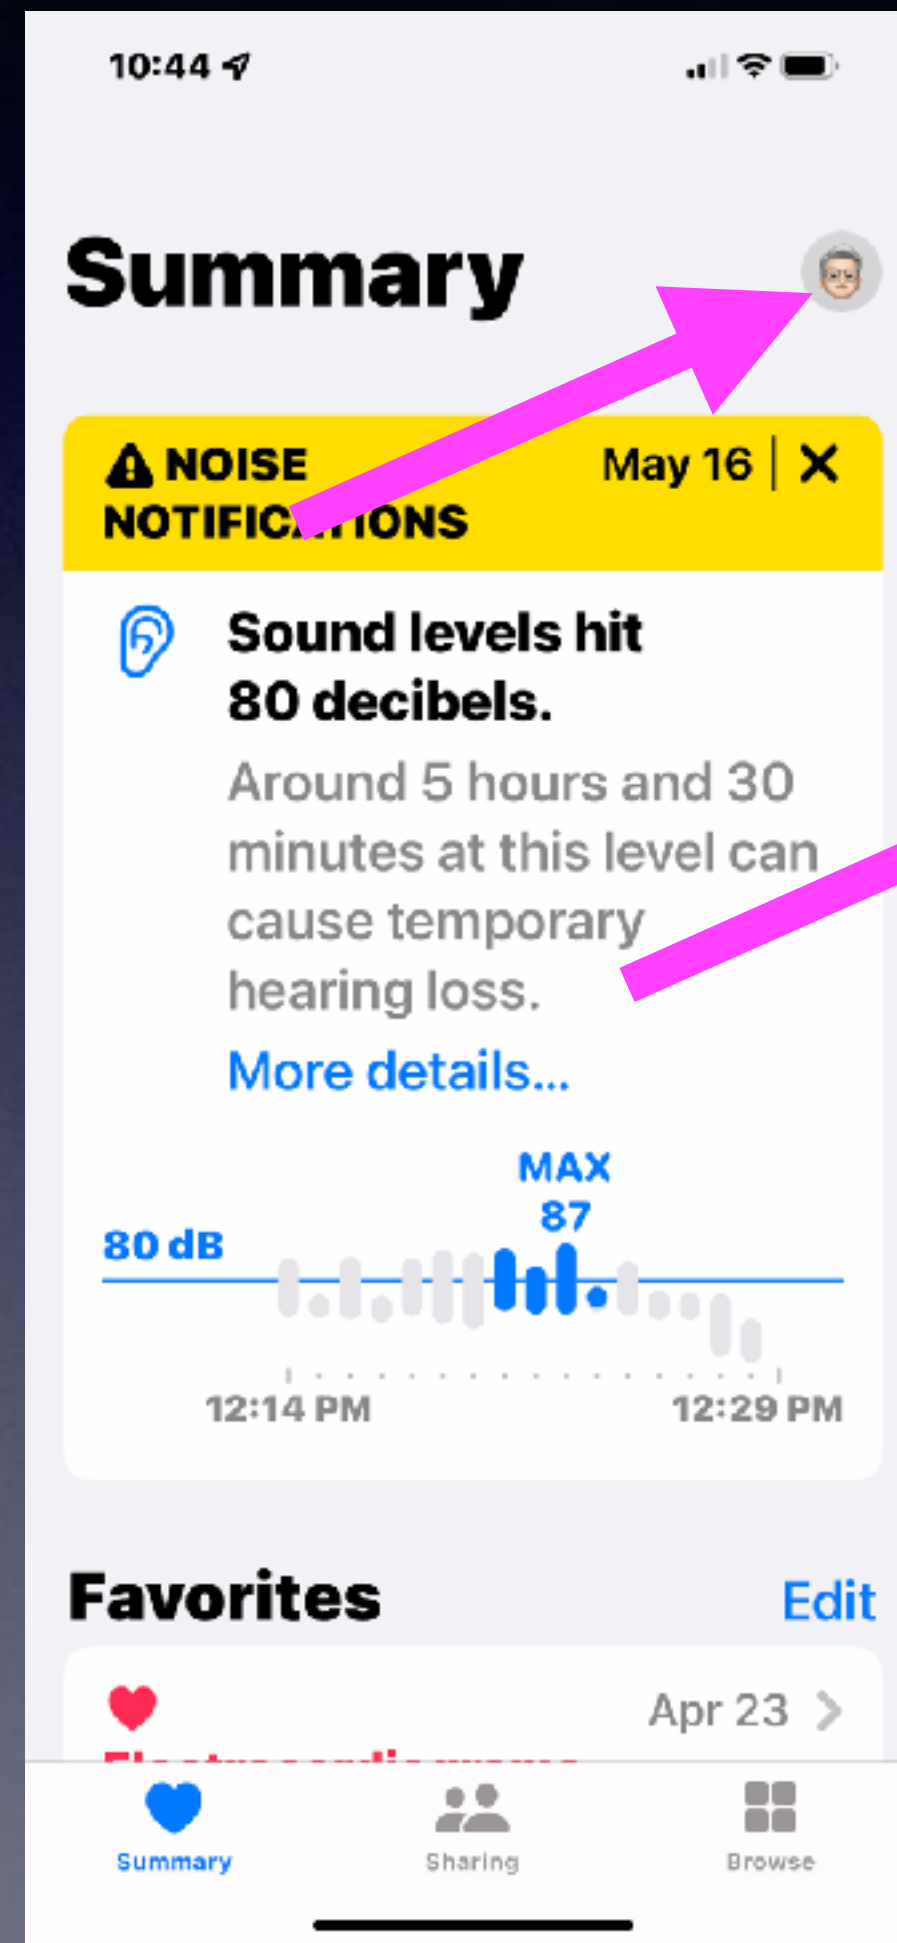

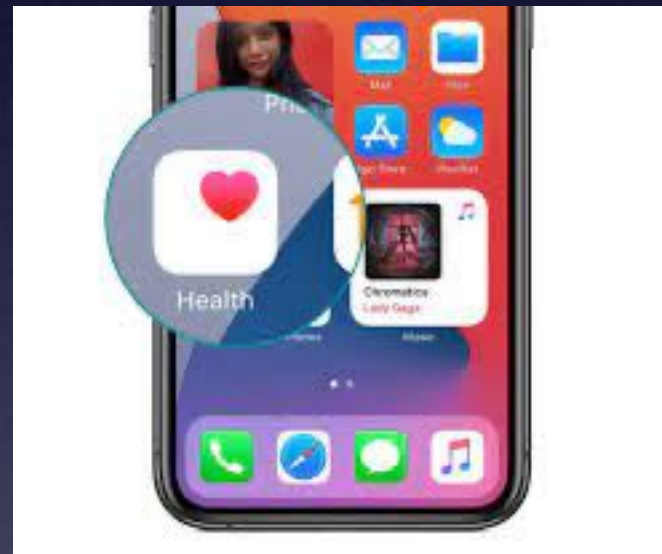

## 2. I Need To Keep My Health App Up To Date!

Is your iPhone set up in such a way that EMTs will know who you are,  
What medications you are on,  
Who are your emergency contacts,  
and will be able to treat you accordingly!

# Health (Continued)

Open the Health App and click on your profile!

# 3. Prepare Your iPhone For Emergencies!

Make sure you have setup your Medical ID!

Set up your emergency contacts.

Set up "Share your location".

If possible, use an Apple Watch to detect falls.

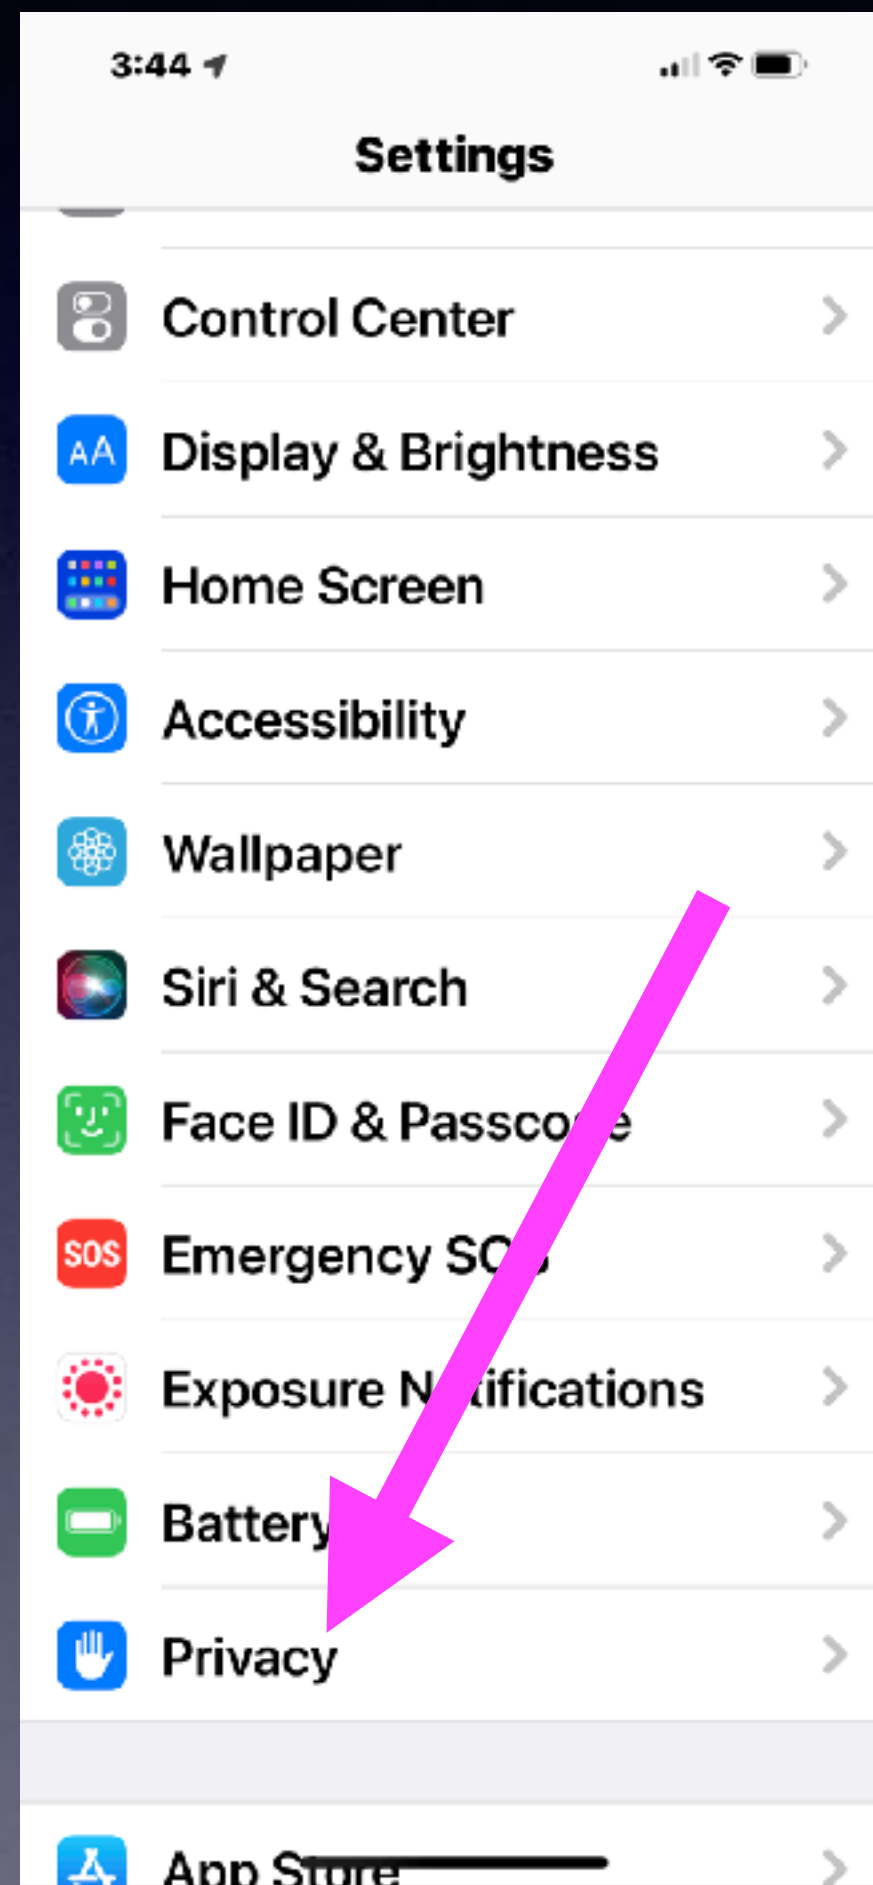

Keep your iPhone with you at all times.

Someone may need you & you may need someone!

Keep you iPhone charged and "On"!

# 4. Gain Control Of Your Privacy!

iPhone has an entire section dedicated to keeping you and your information private.

I have a strong password on my iPhone and on my Apple ID.

I want no one to track me.

I don't want Apple or anyone else to know where I have been. (Significant locations)

I don't want apps to track or collect my data.

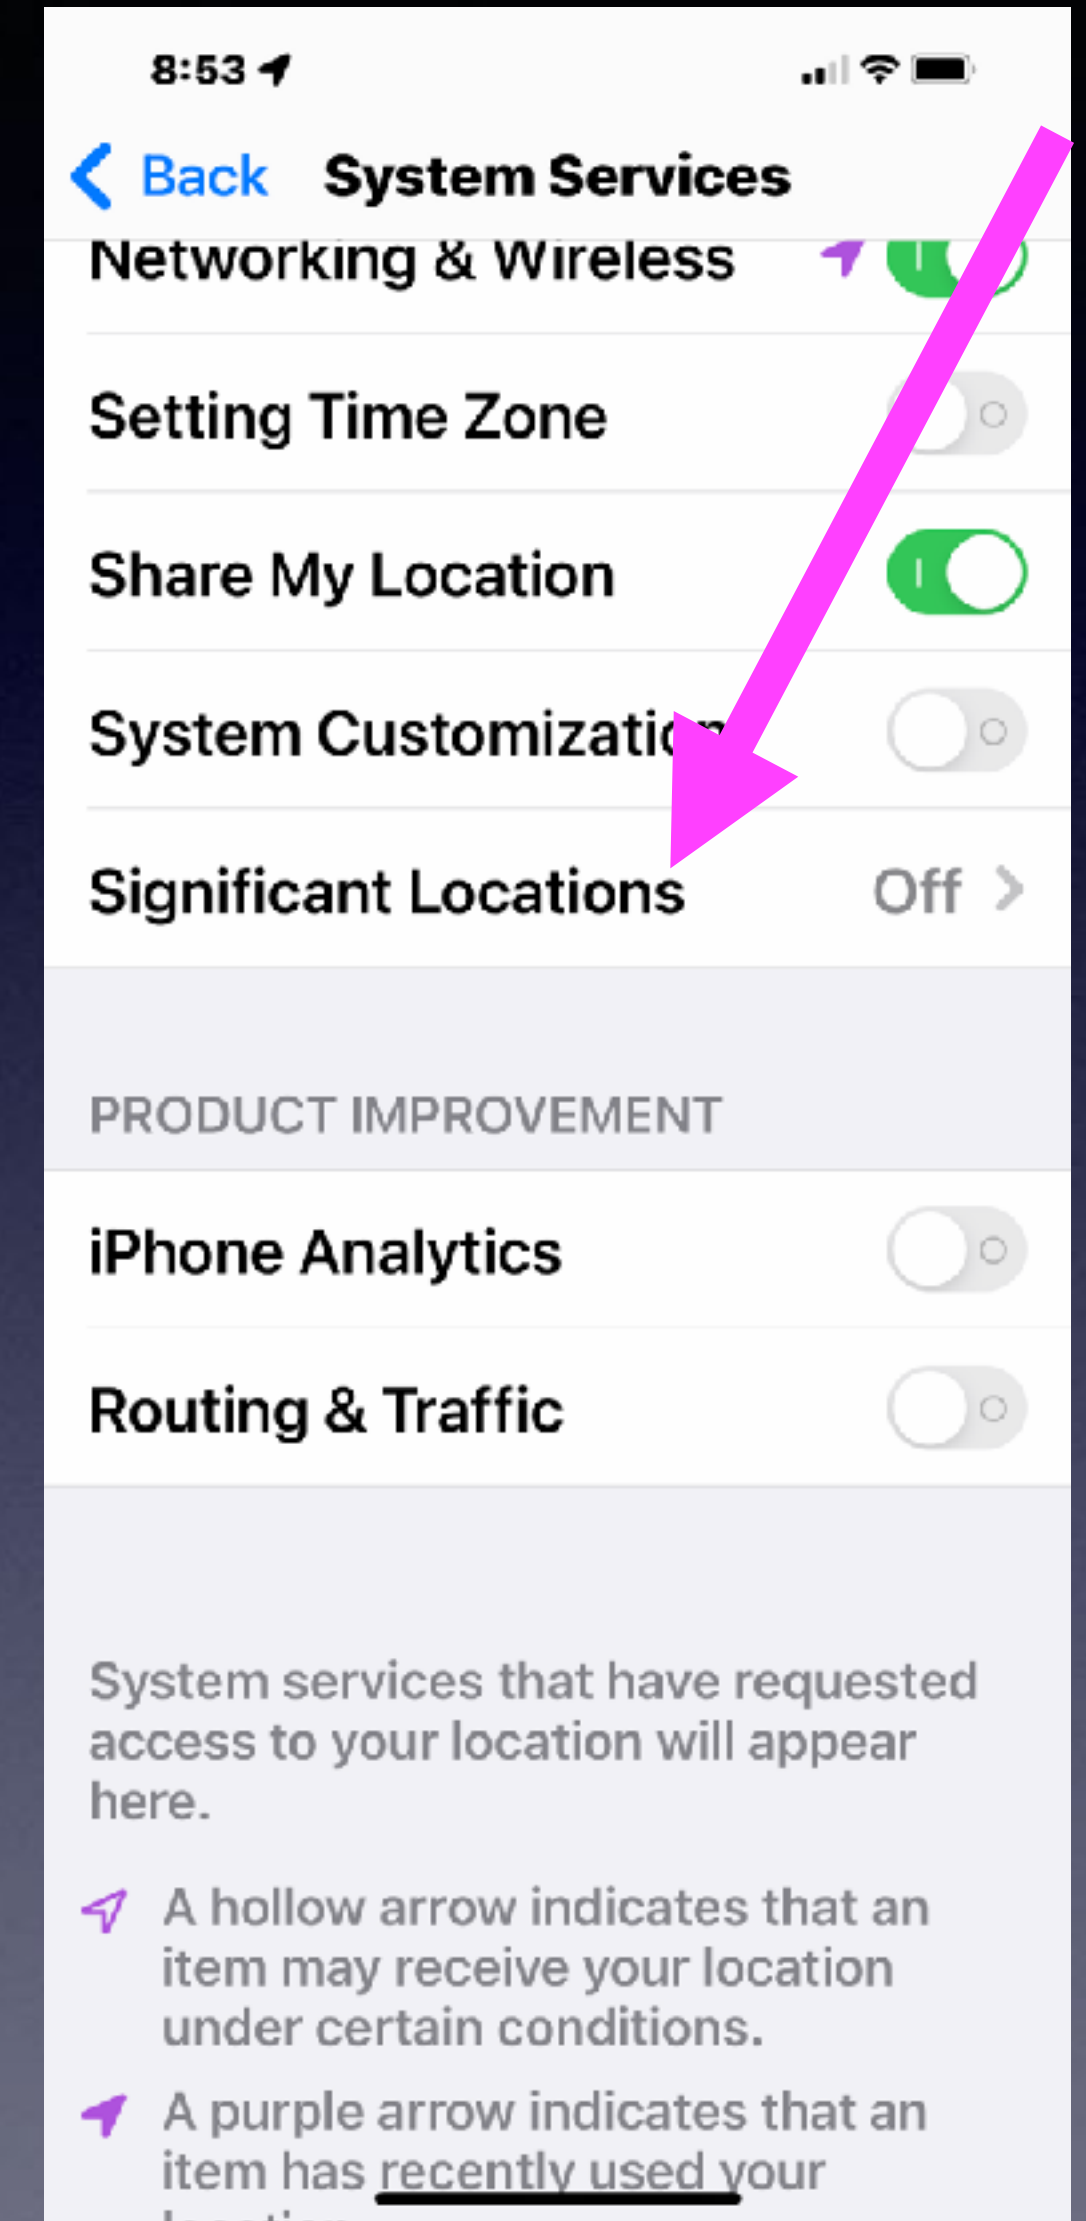

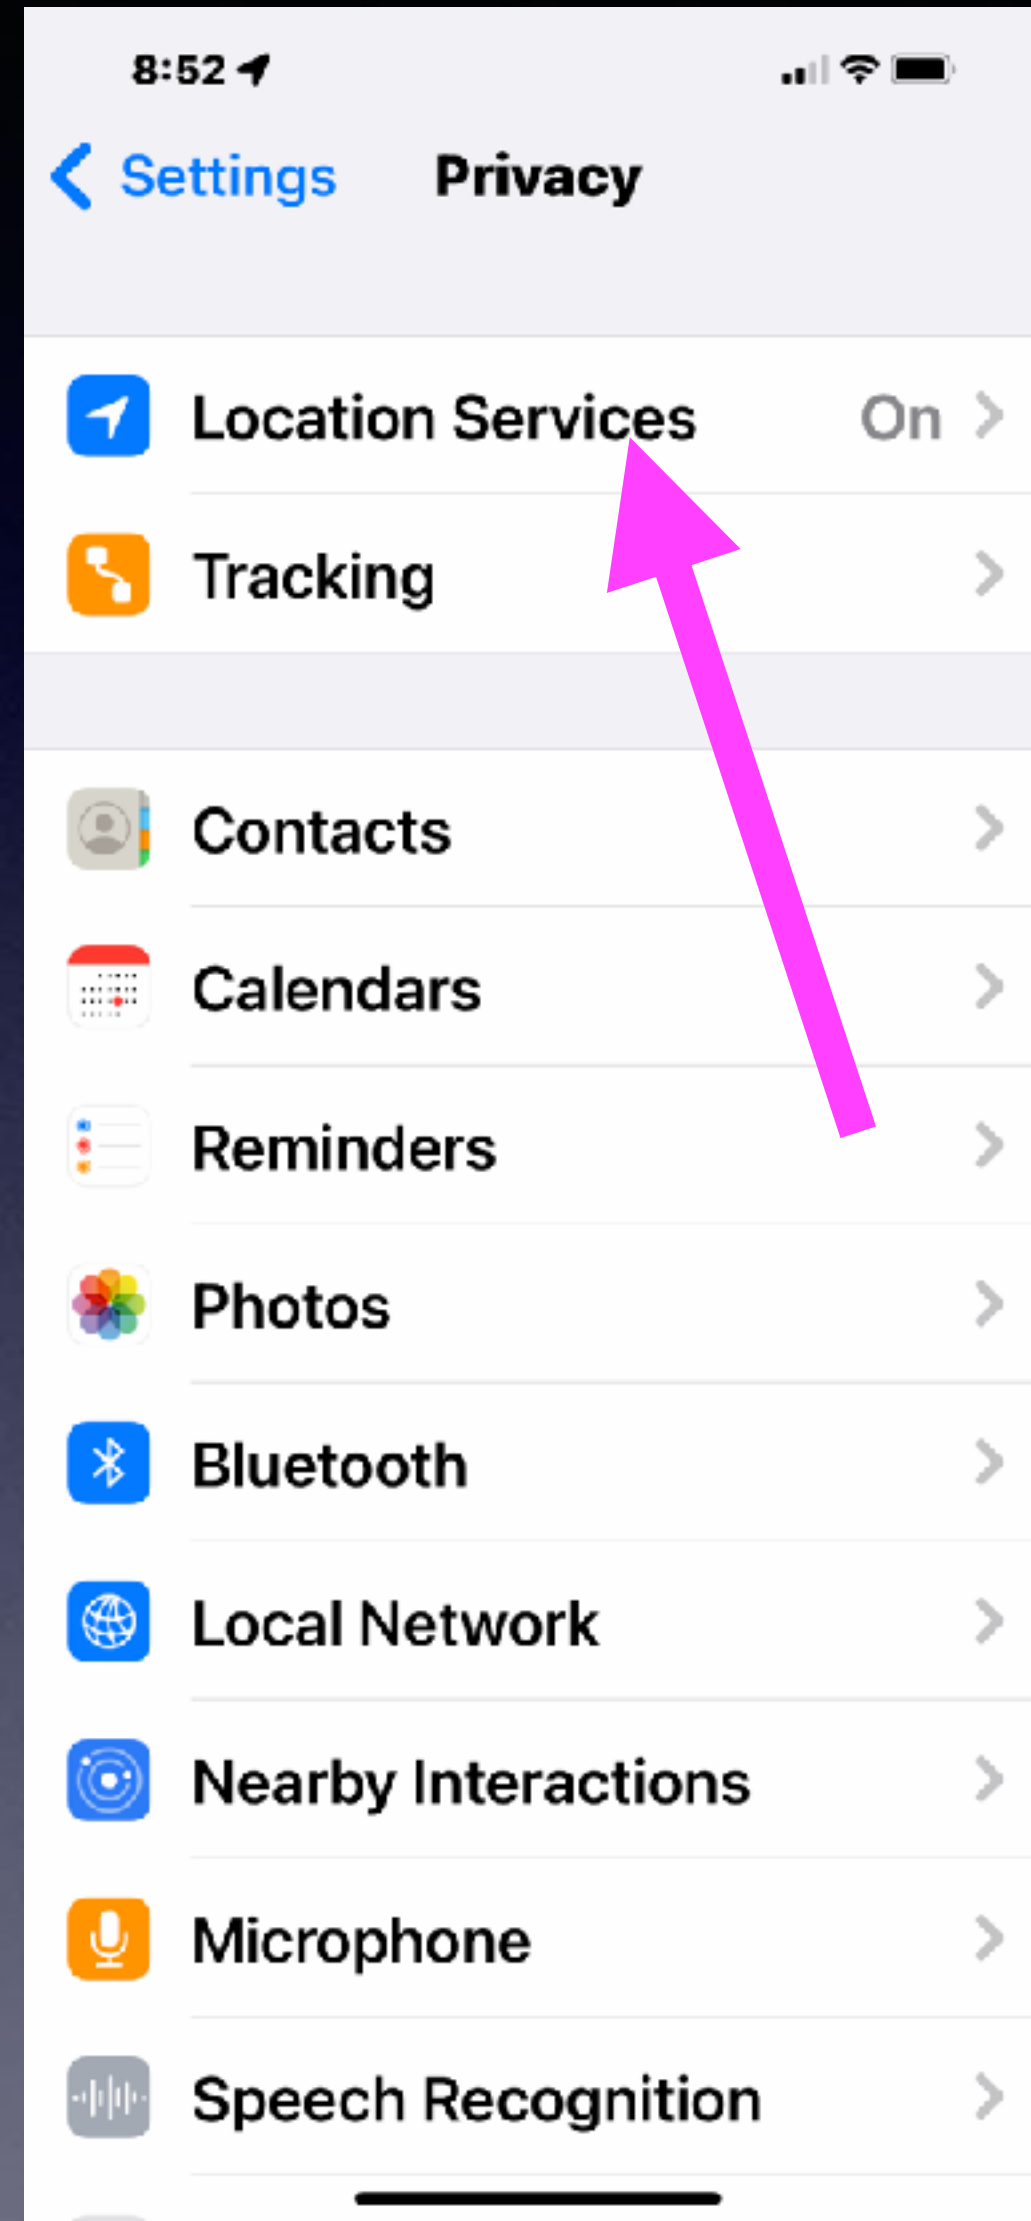

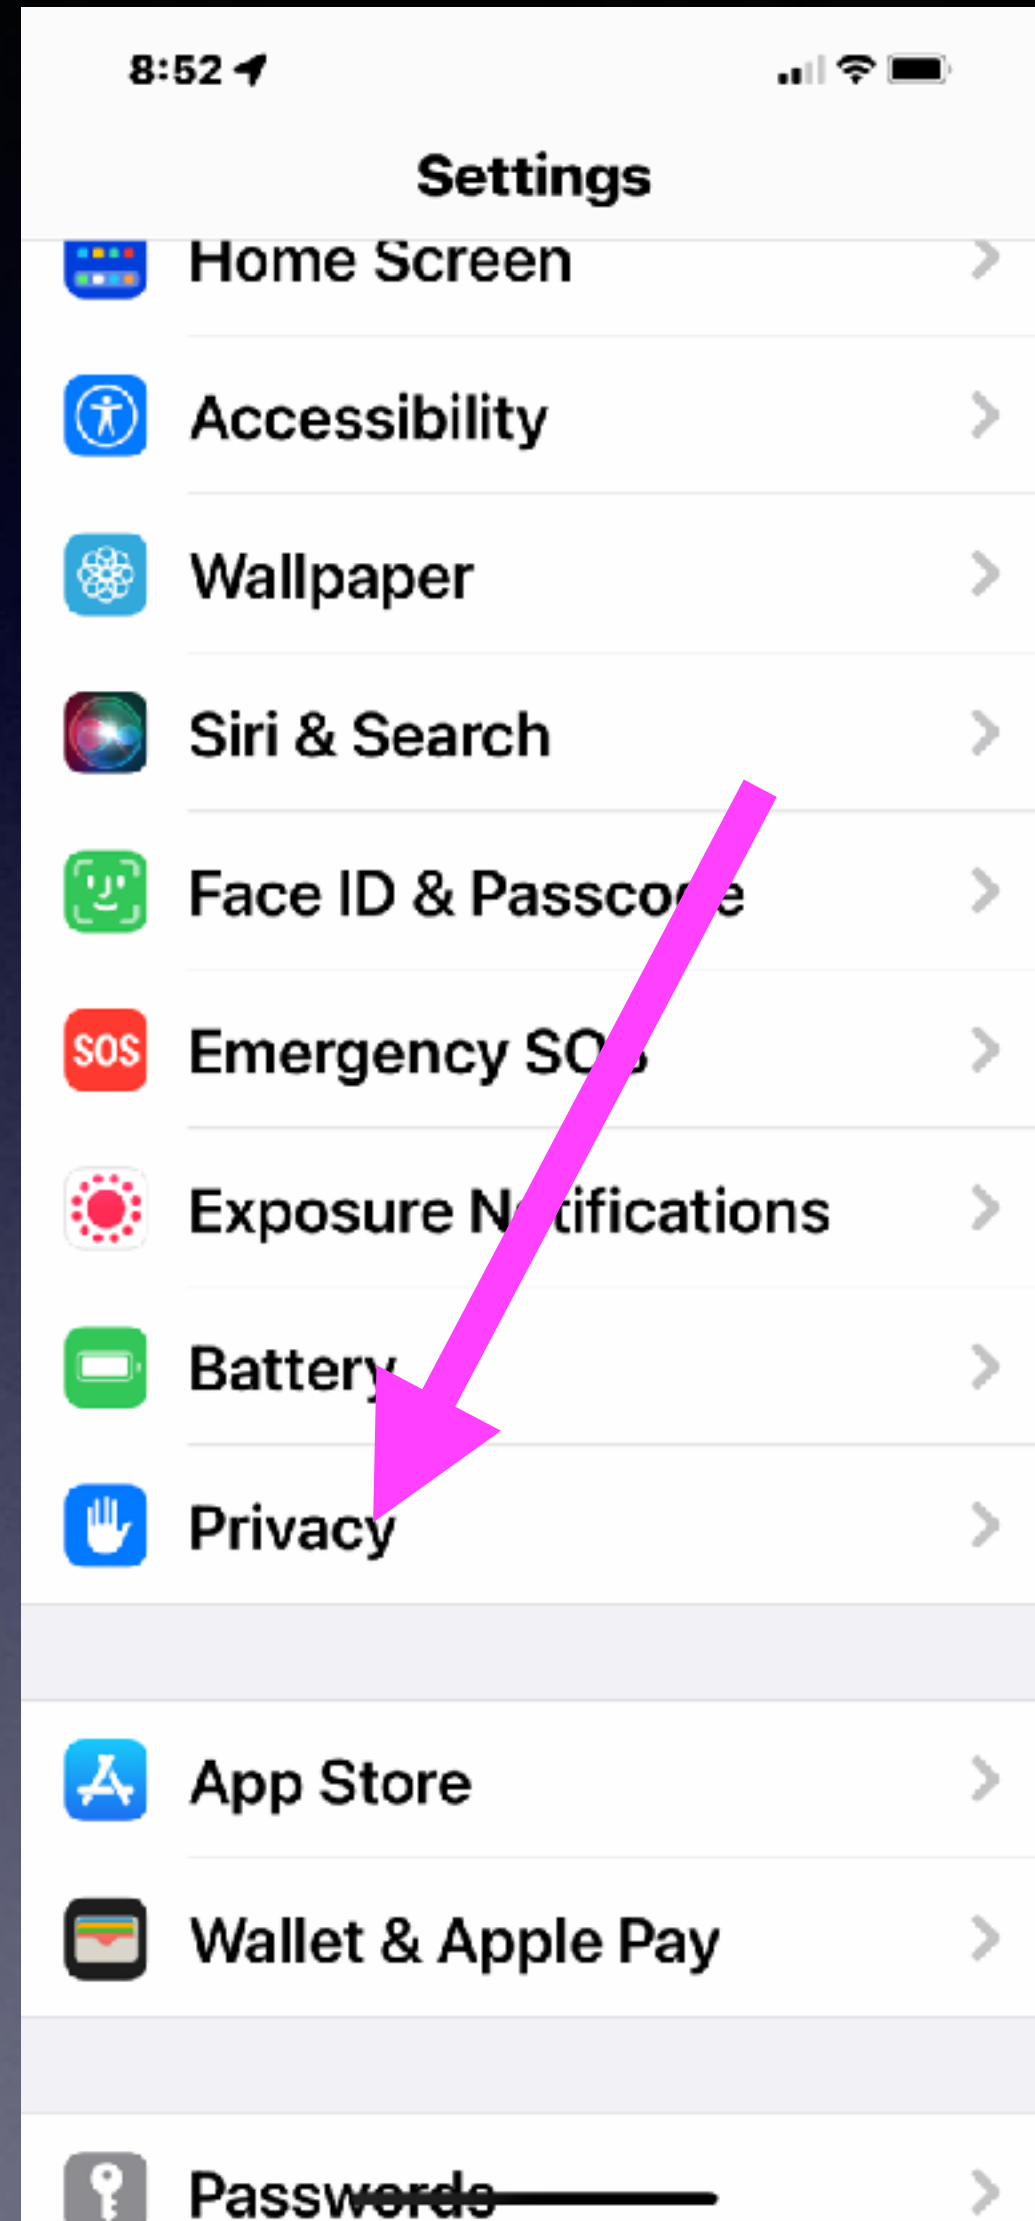

## My goal:

I don't want anyone to know what I look like, where I've been, what I do or what I own, who are my contacts, what I have looked at, what I plan on doing in the future.

# Don't Forget About Your Privacy; Turn Off Significant Locations!

# 5. You Can Answer Your Own Questions!

Questions usually start with:

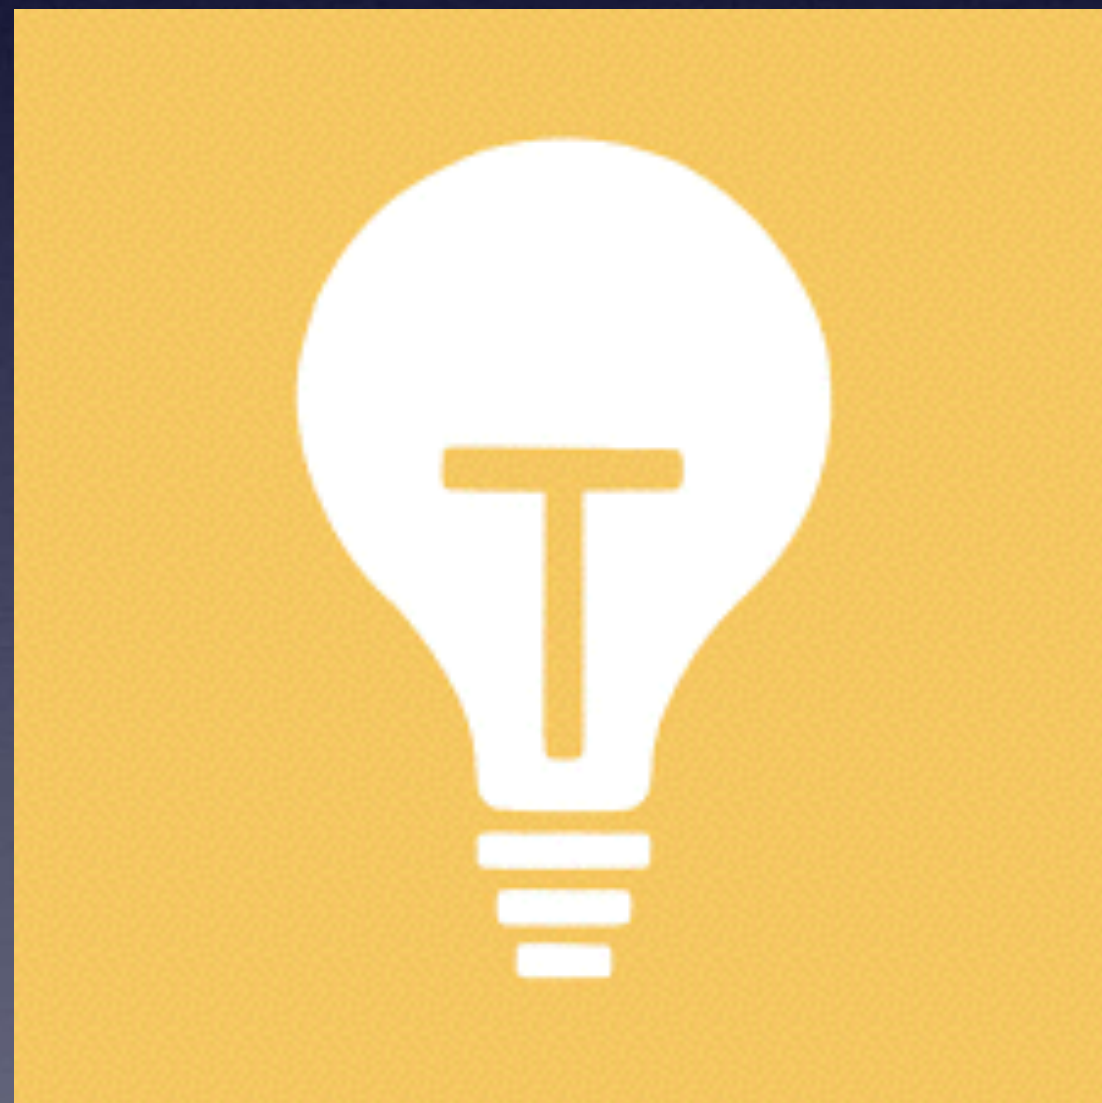

What is...

How do I...

Can I...

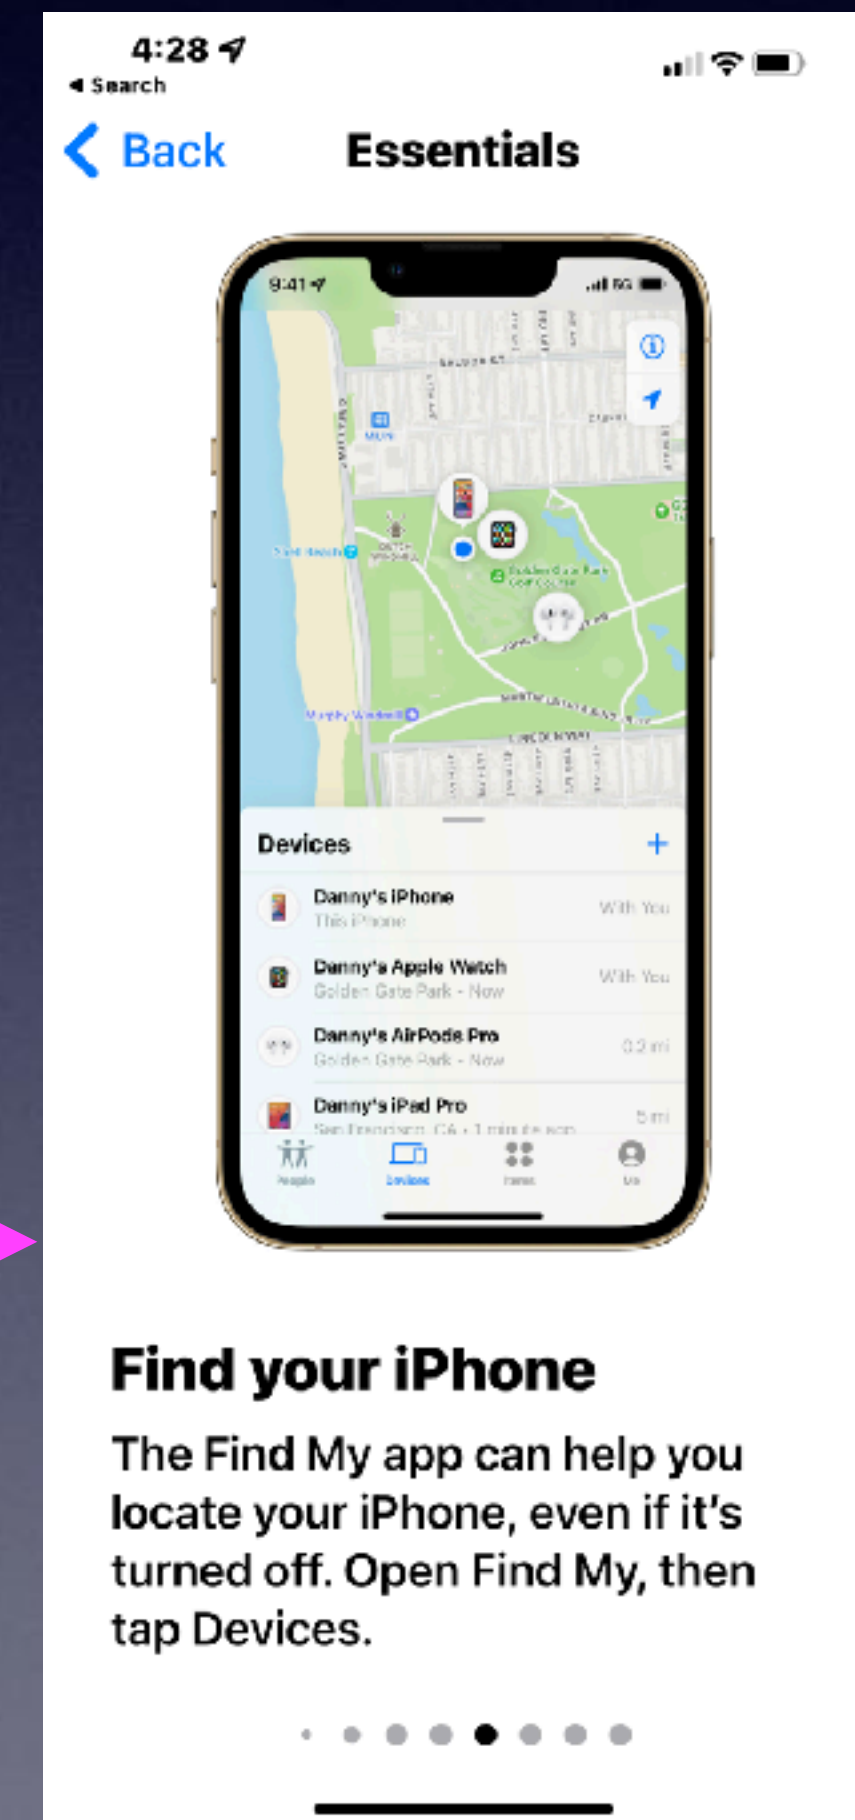

Why did Apple...

# 6. You Will Get Your \$'s Worth By Learning How To Use The Most Features Of The iPhone.

Use the "Tips" app daily!

This is one  
example!

# 7. Let Siri Do The “Hard Work” For You!

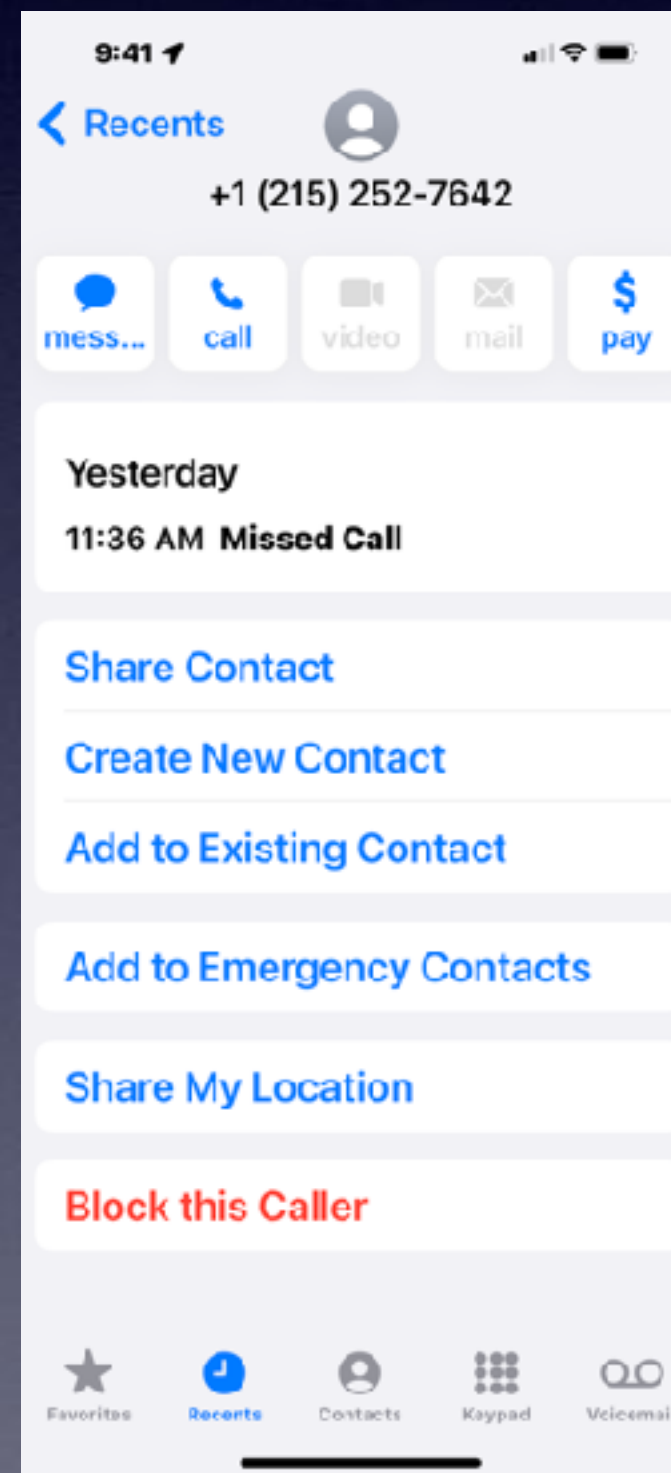

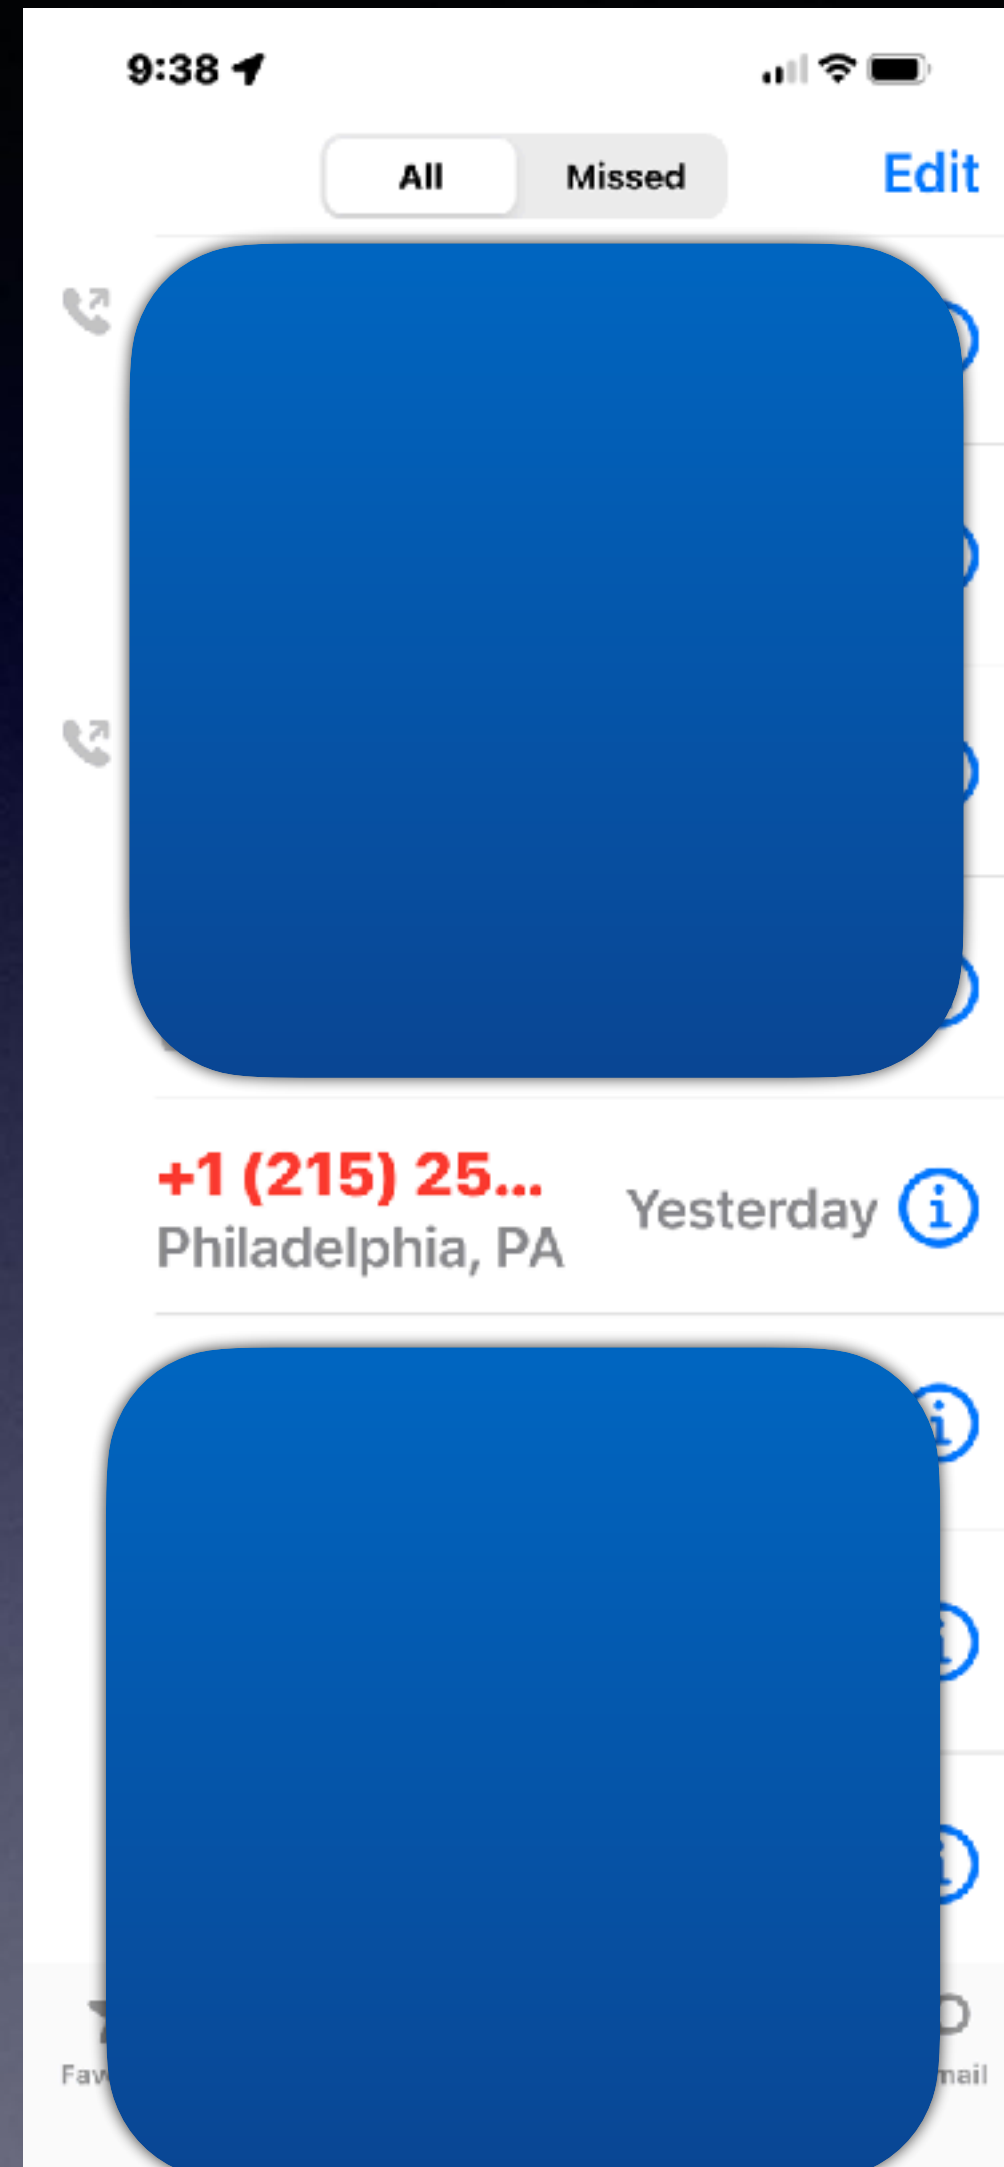

Hey, Siri, “Play my favorite Dion song”!

Hint: speak a complete phrase without stopping after, “Hey, Siri!”.

<https://www.newsweek.com/things-siri-can-do-1610898>

## 8. Block People You Don't Know & Keep Them From Knowing Where You Live!

Block people you don't know who email you.

Block people you don't know who text you.

Block people you don't know who call you.

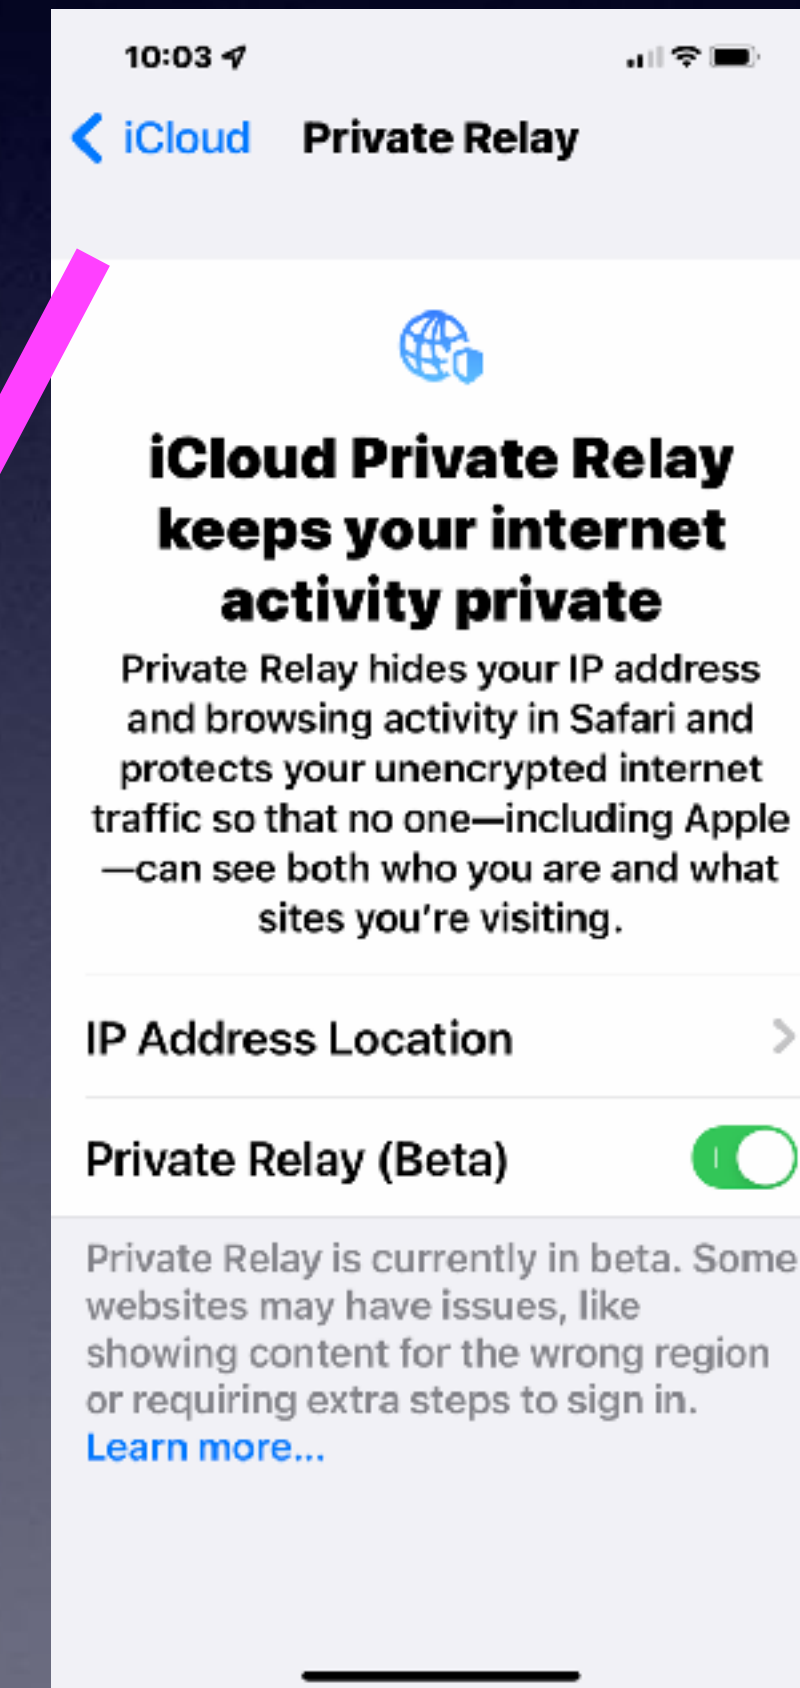

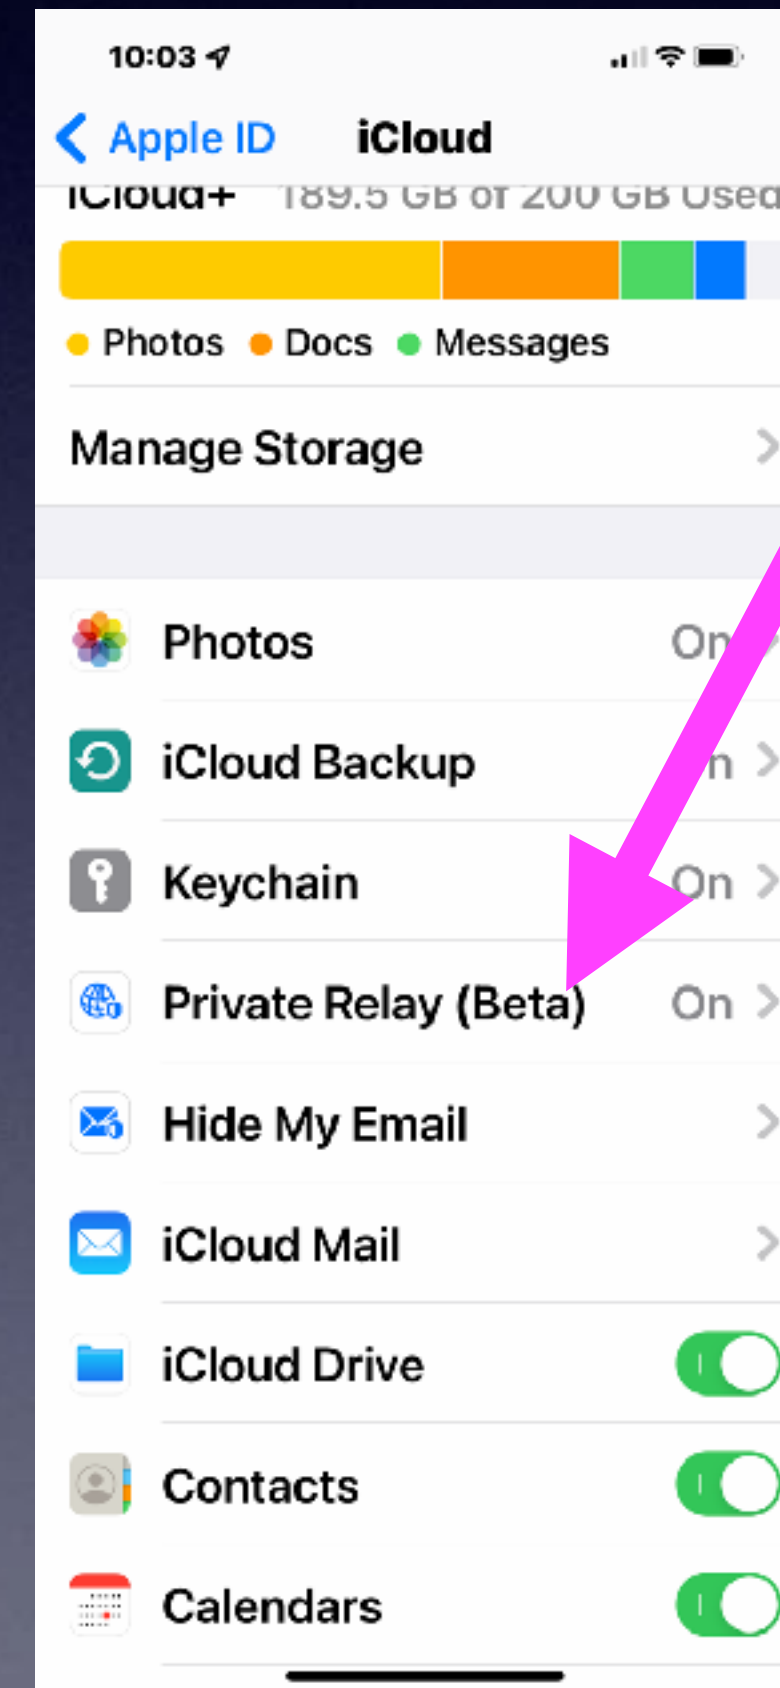

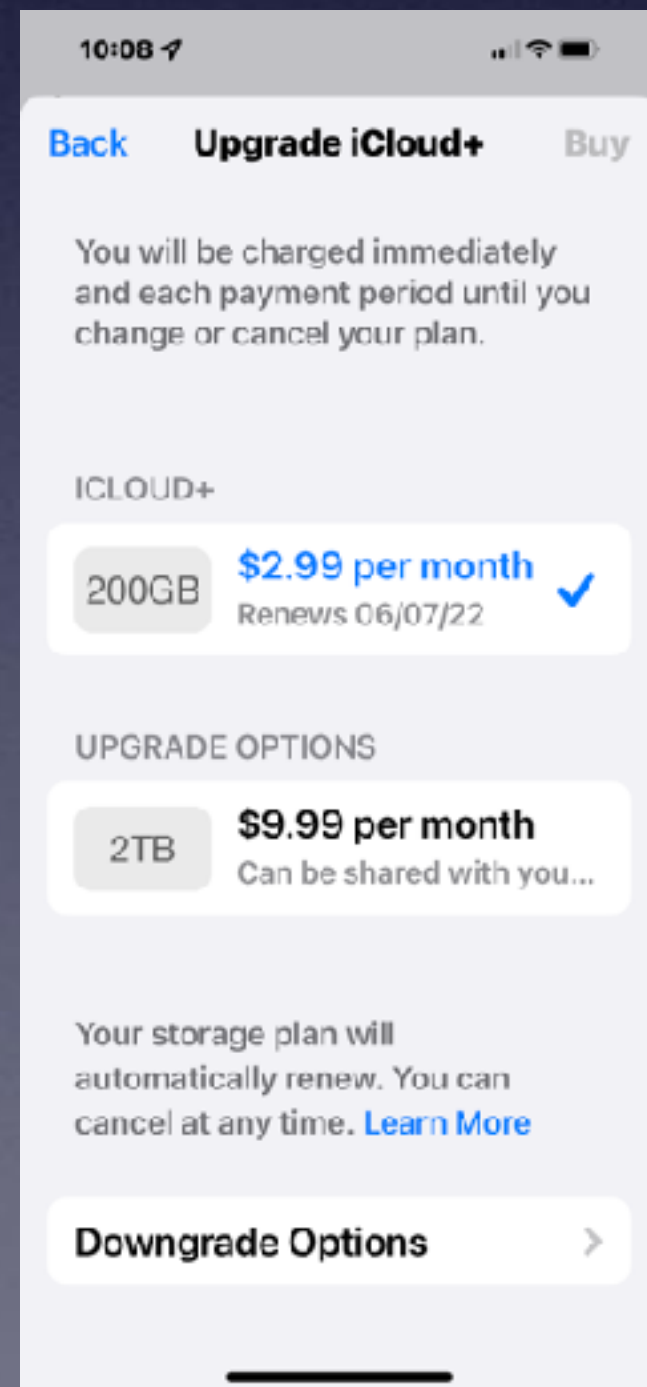

# 9. Hide Your IP Address!

When you go on the Internet, you share your device's address. Your iPhone has an address. Thieves, merchants, scammers can get your address.

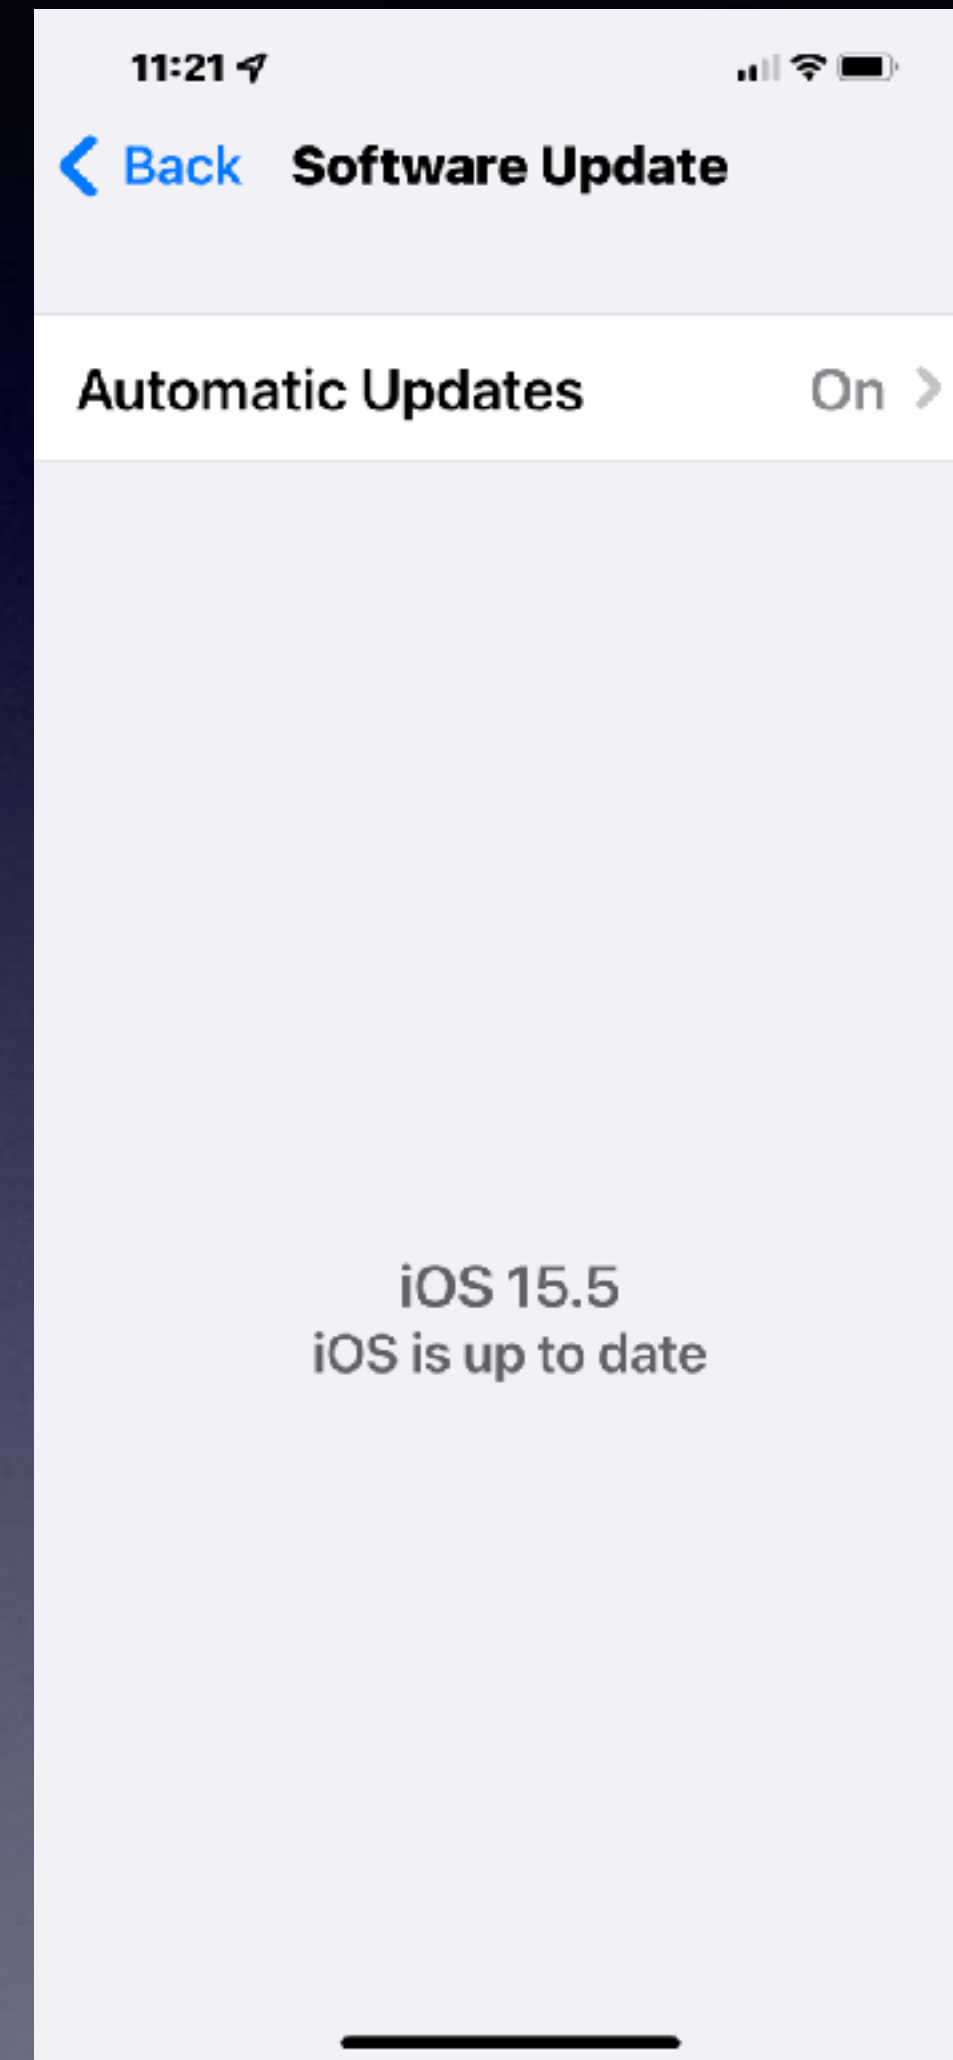

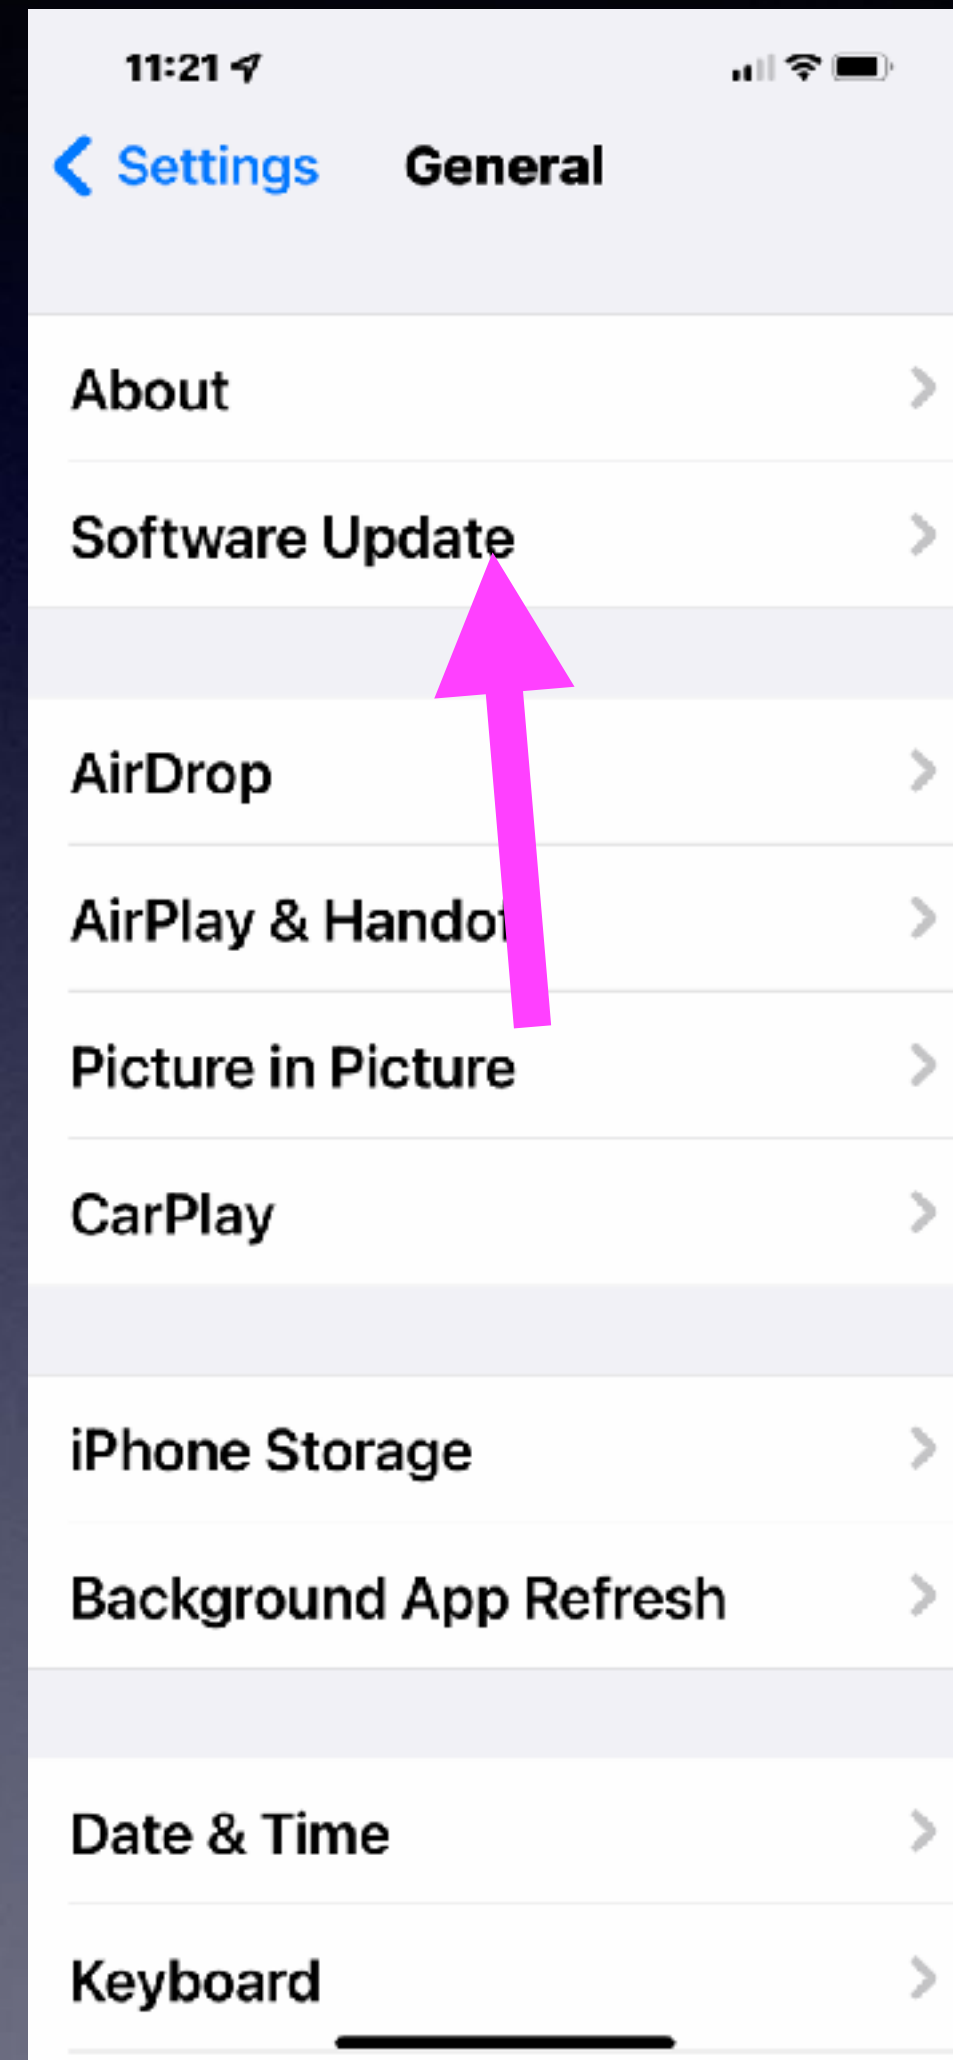

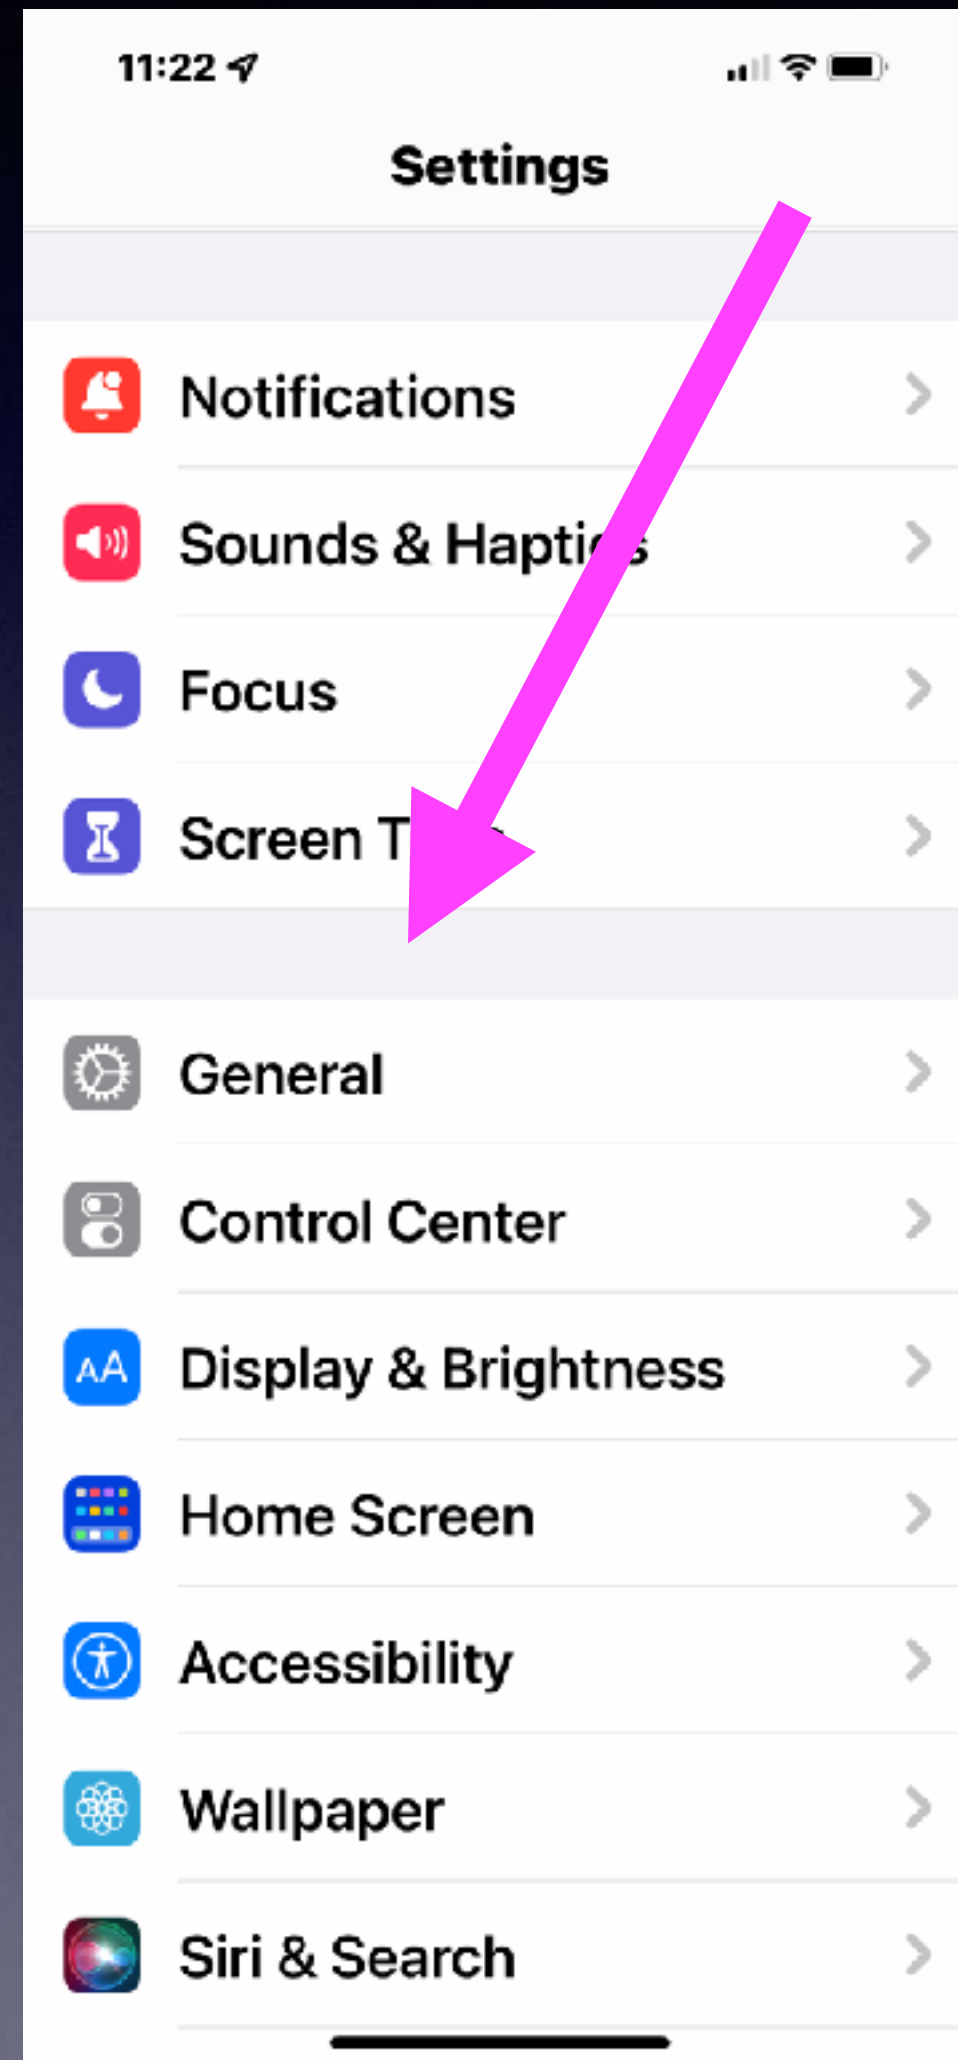

You must be paying Apple a monthly fee for backup storage!

# 10. Keep Your Software Up To Date! And Your Devices Up To Date!

Could it be time to purchase a new (you name the device)?

There is no such thing as a perfect iOS iPhone Operating System.

Apple is working diligently to secure our Internet experience.

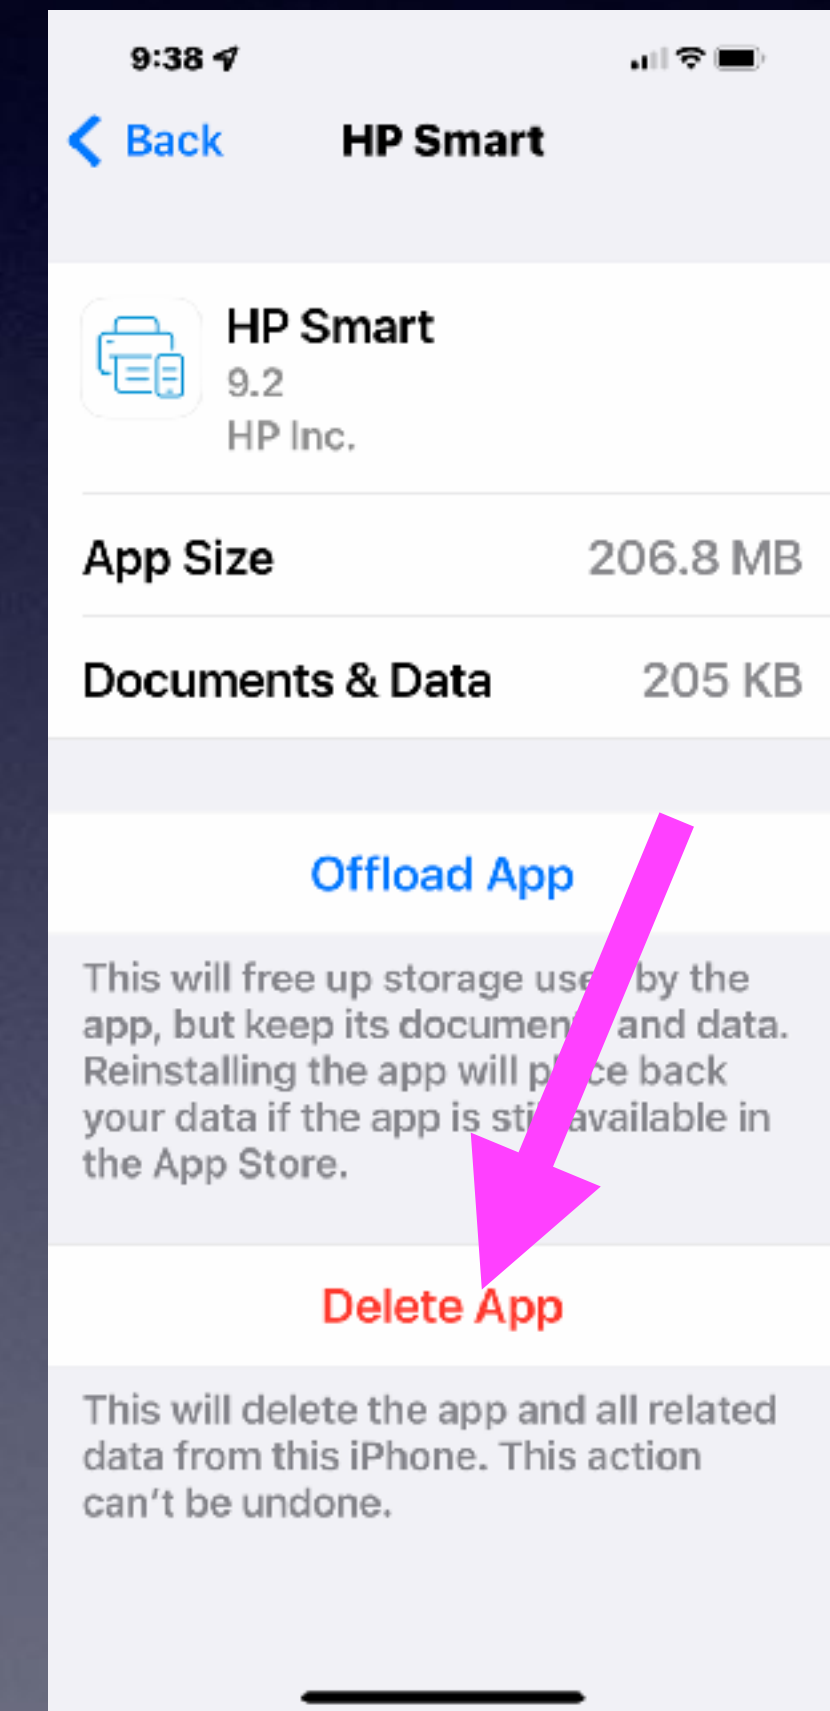

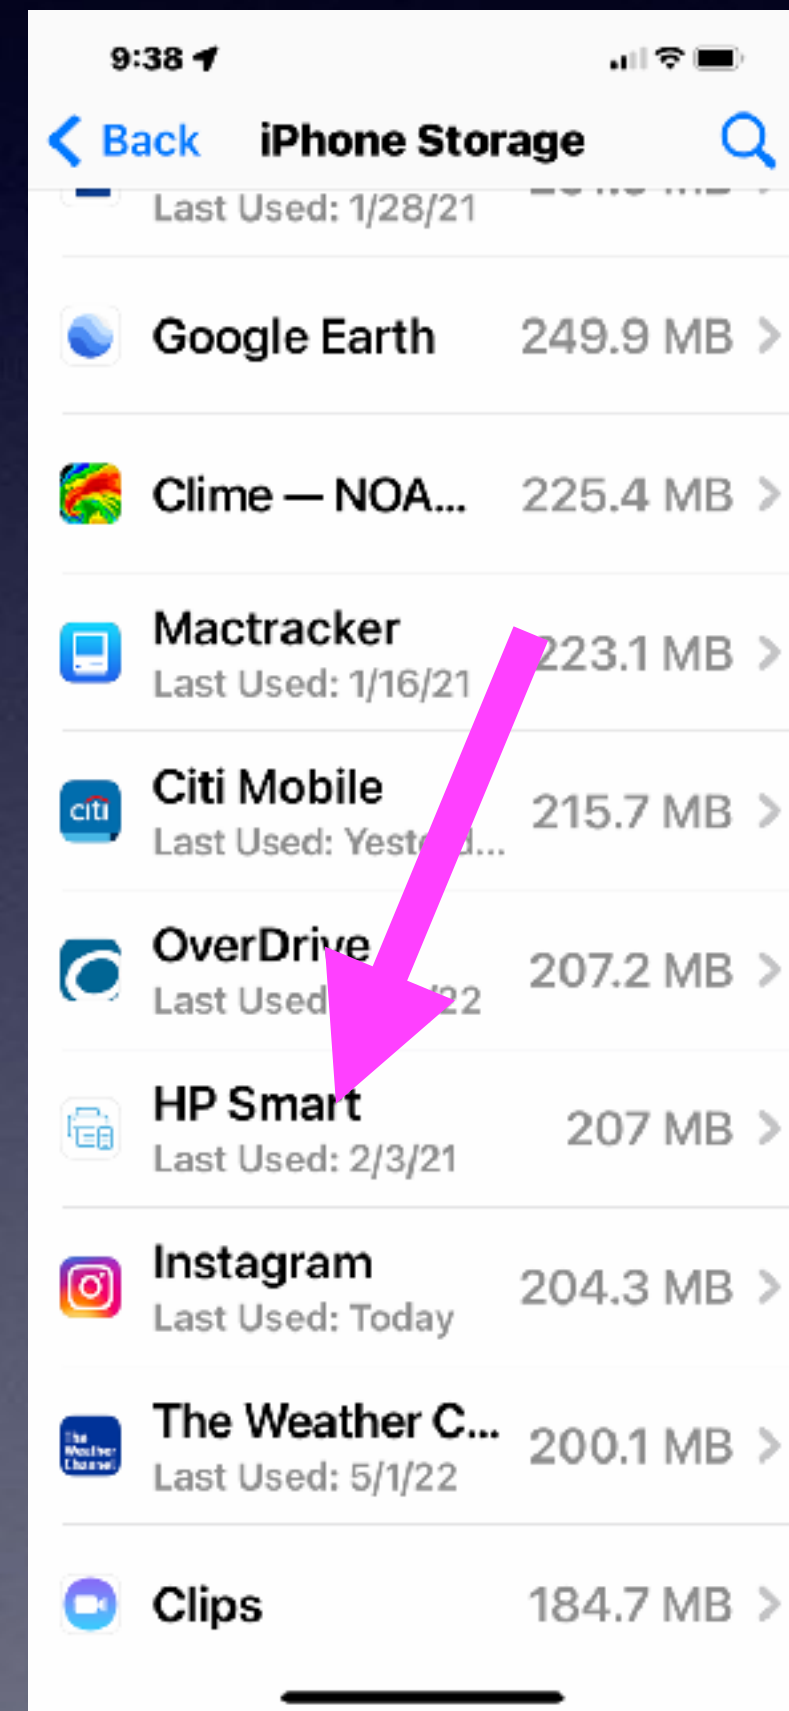

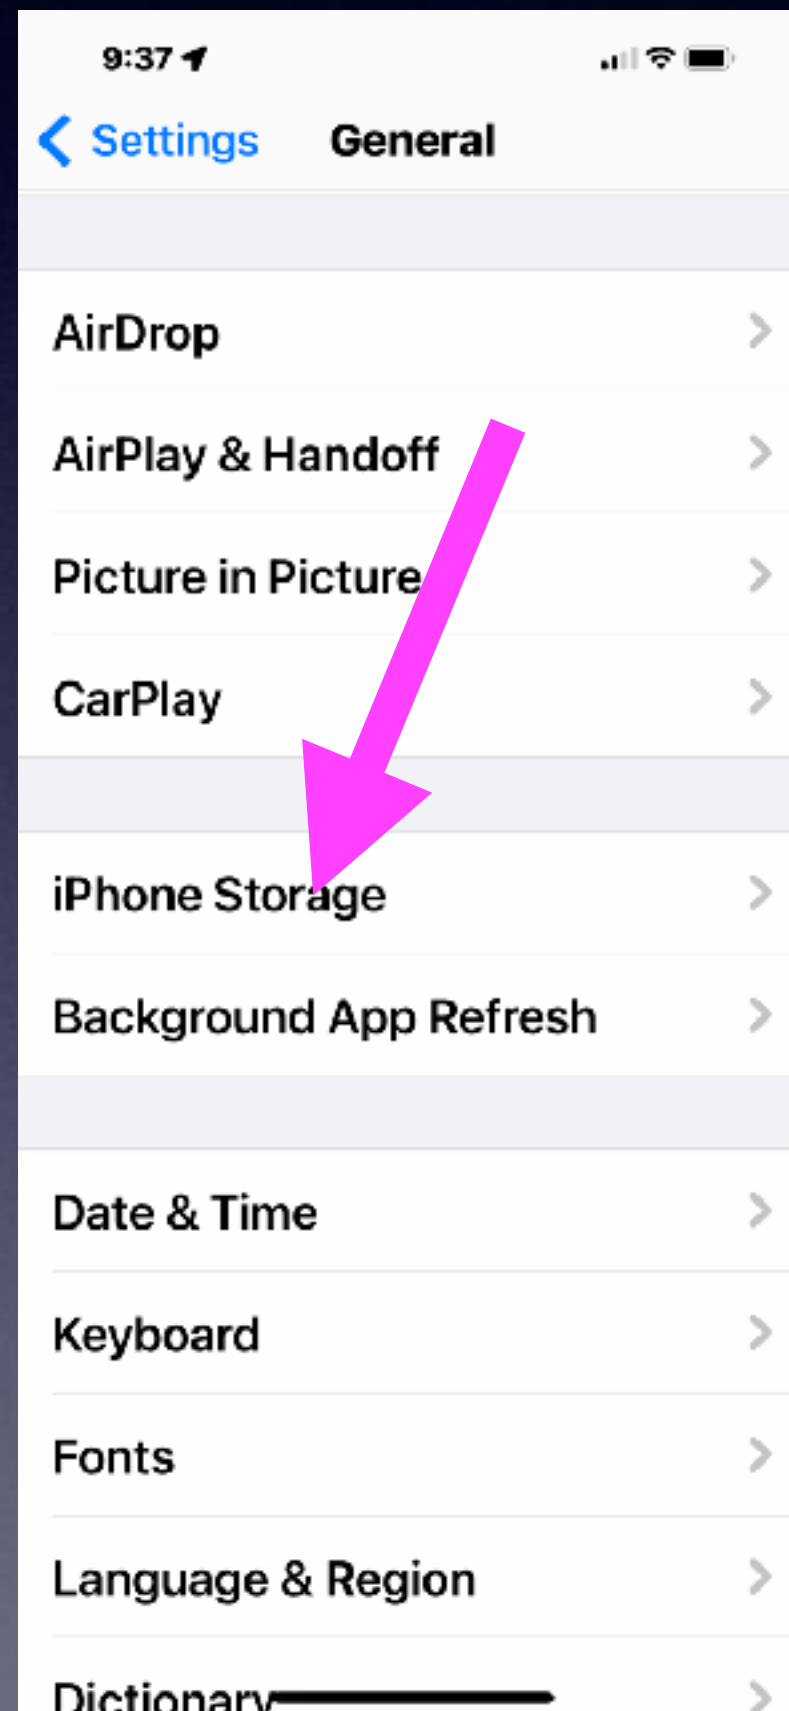

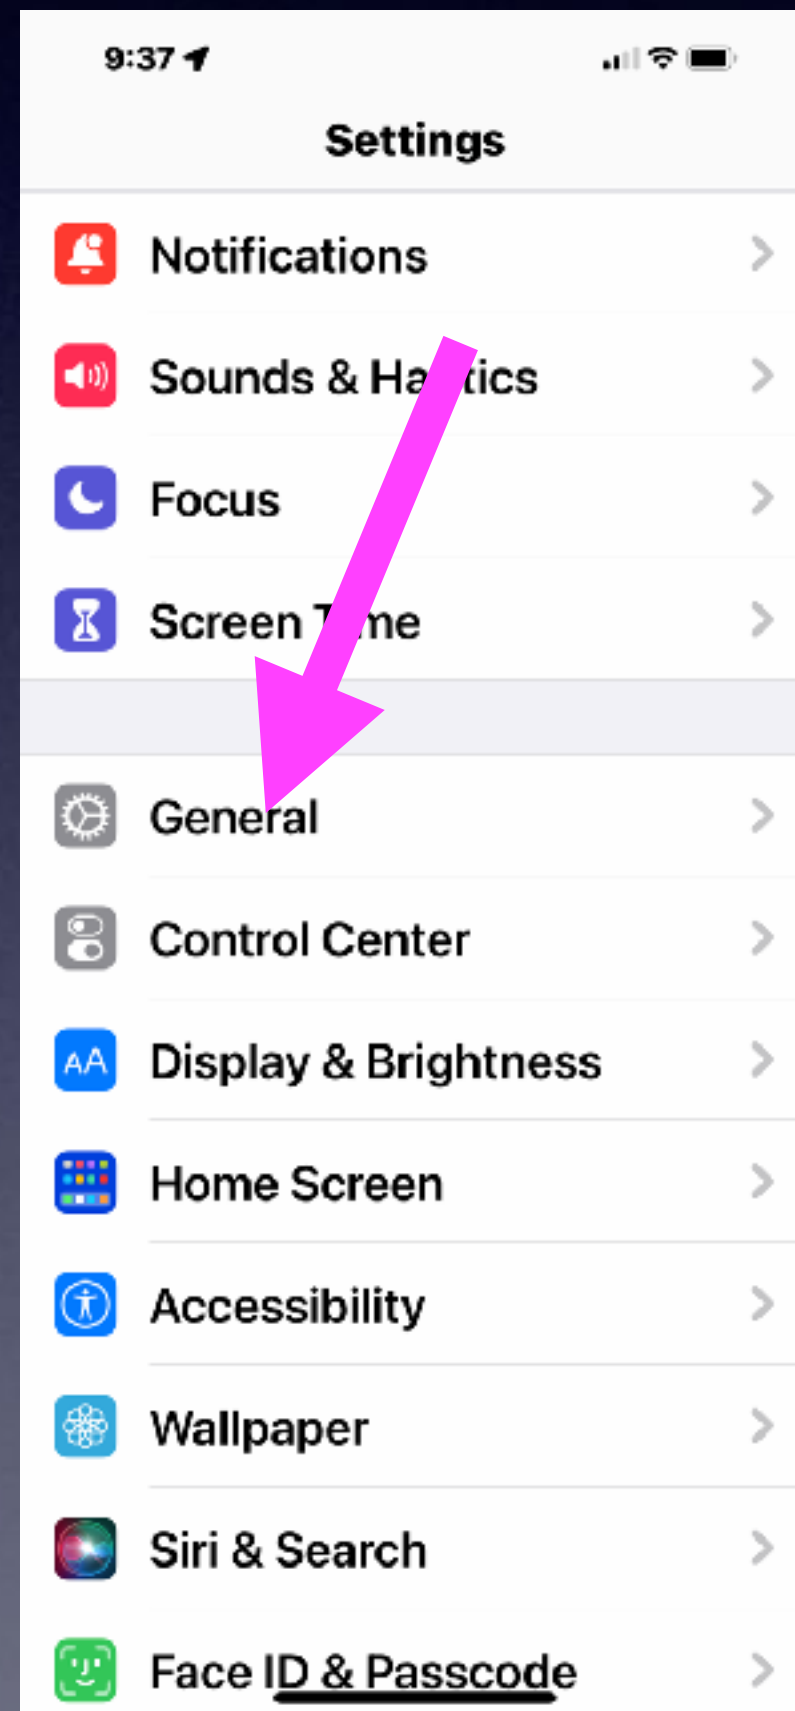

Engineers work on adding new features so you will buy iPhones rather than other products.

# 11. Clear Space On Your iPhone!

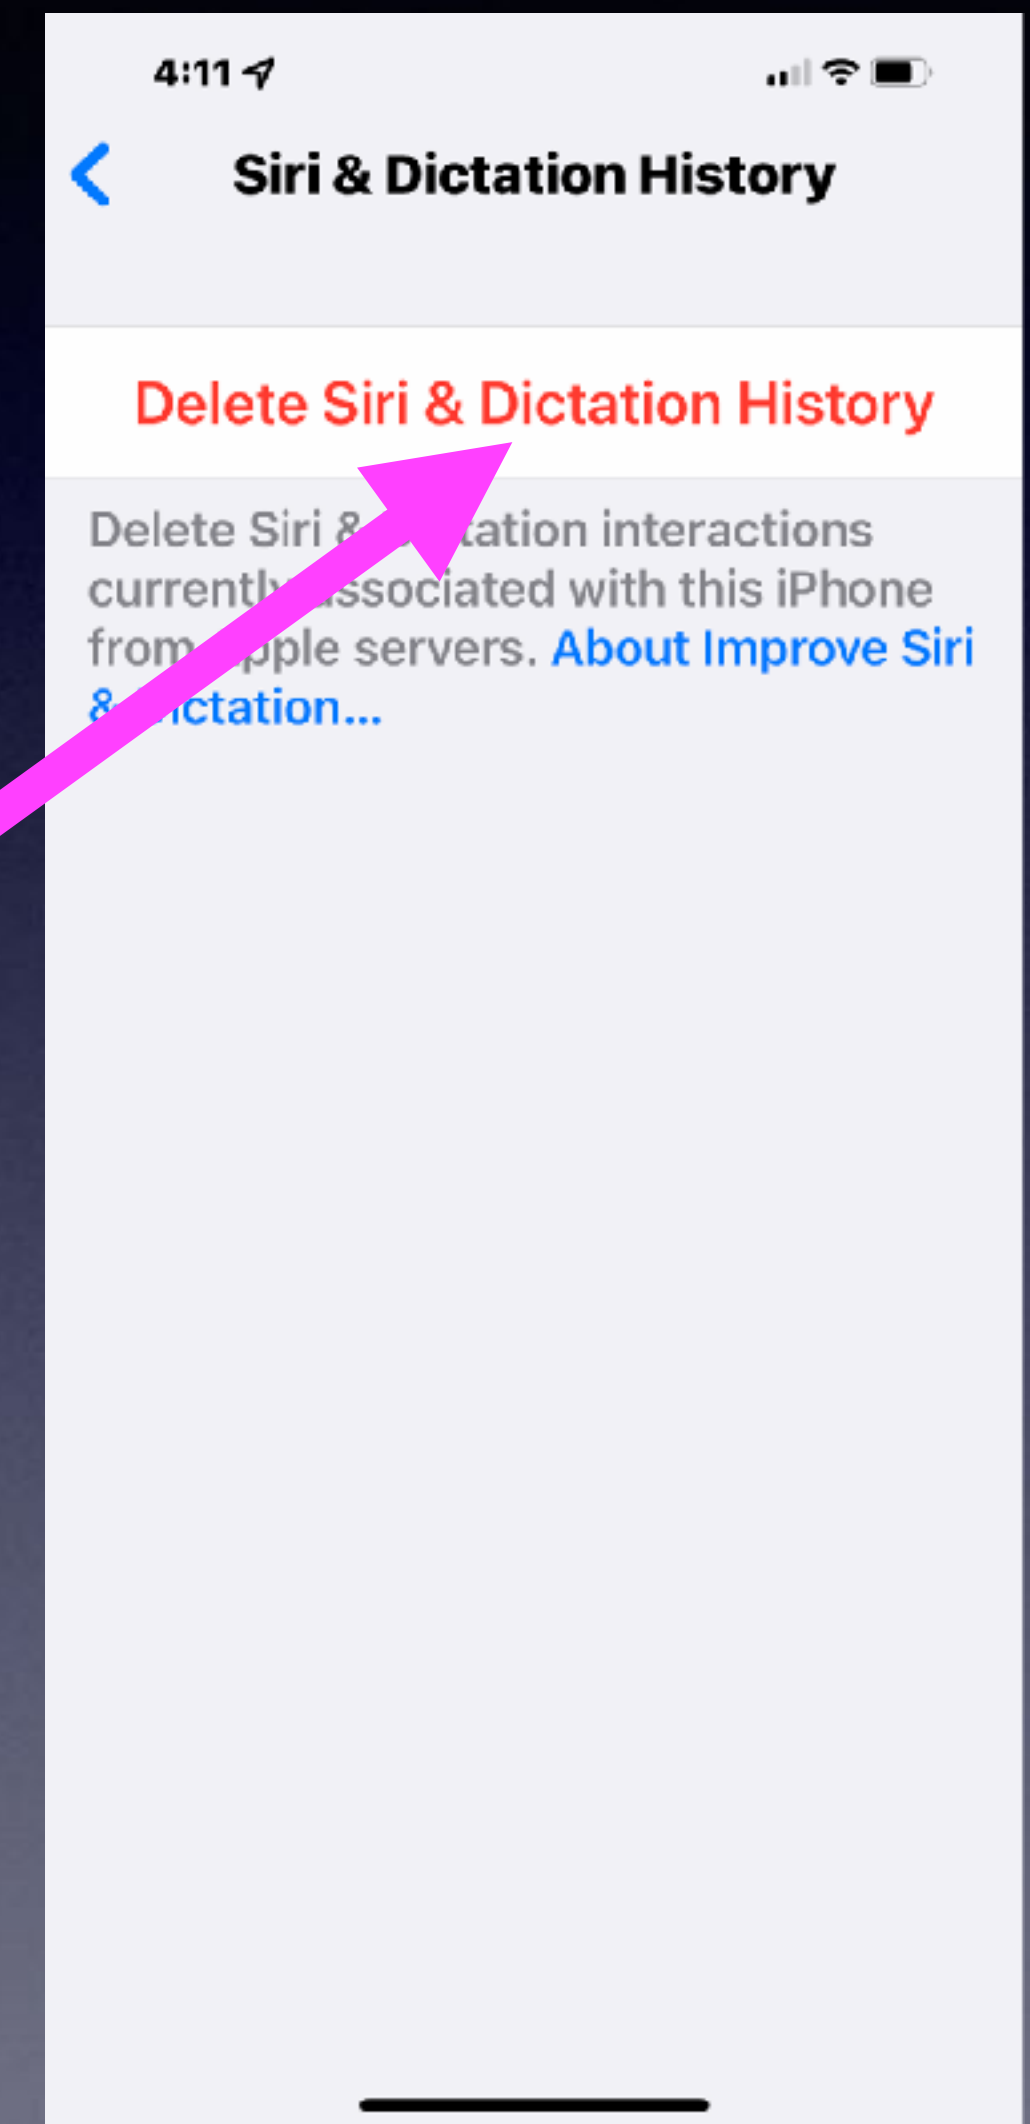

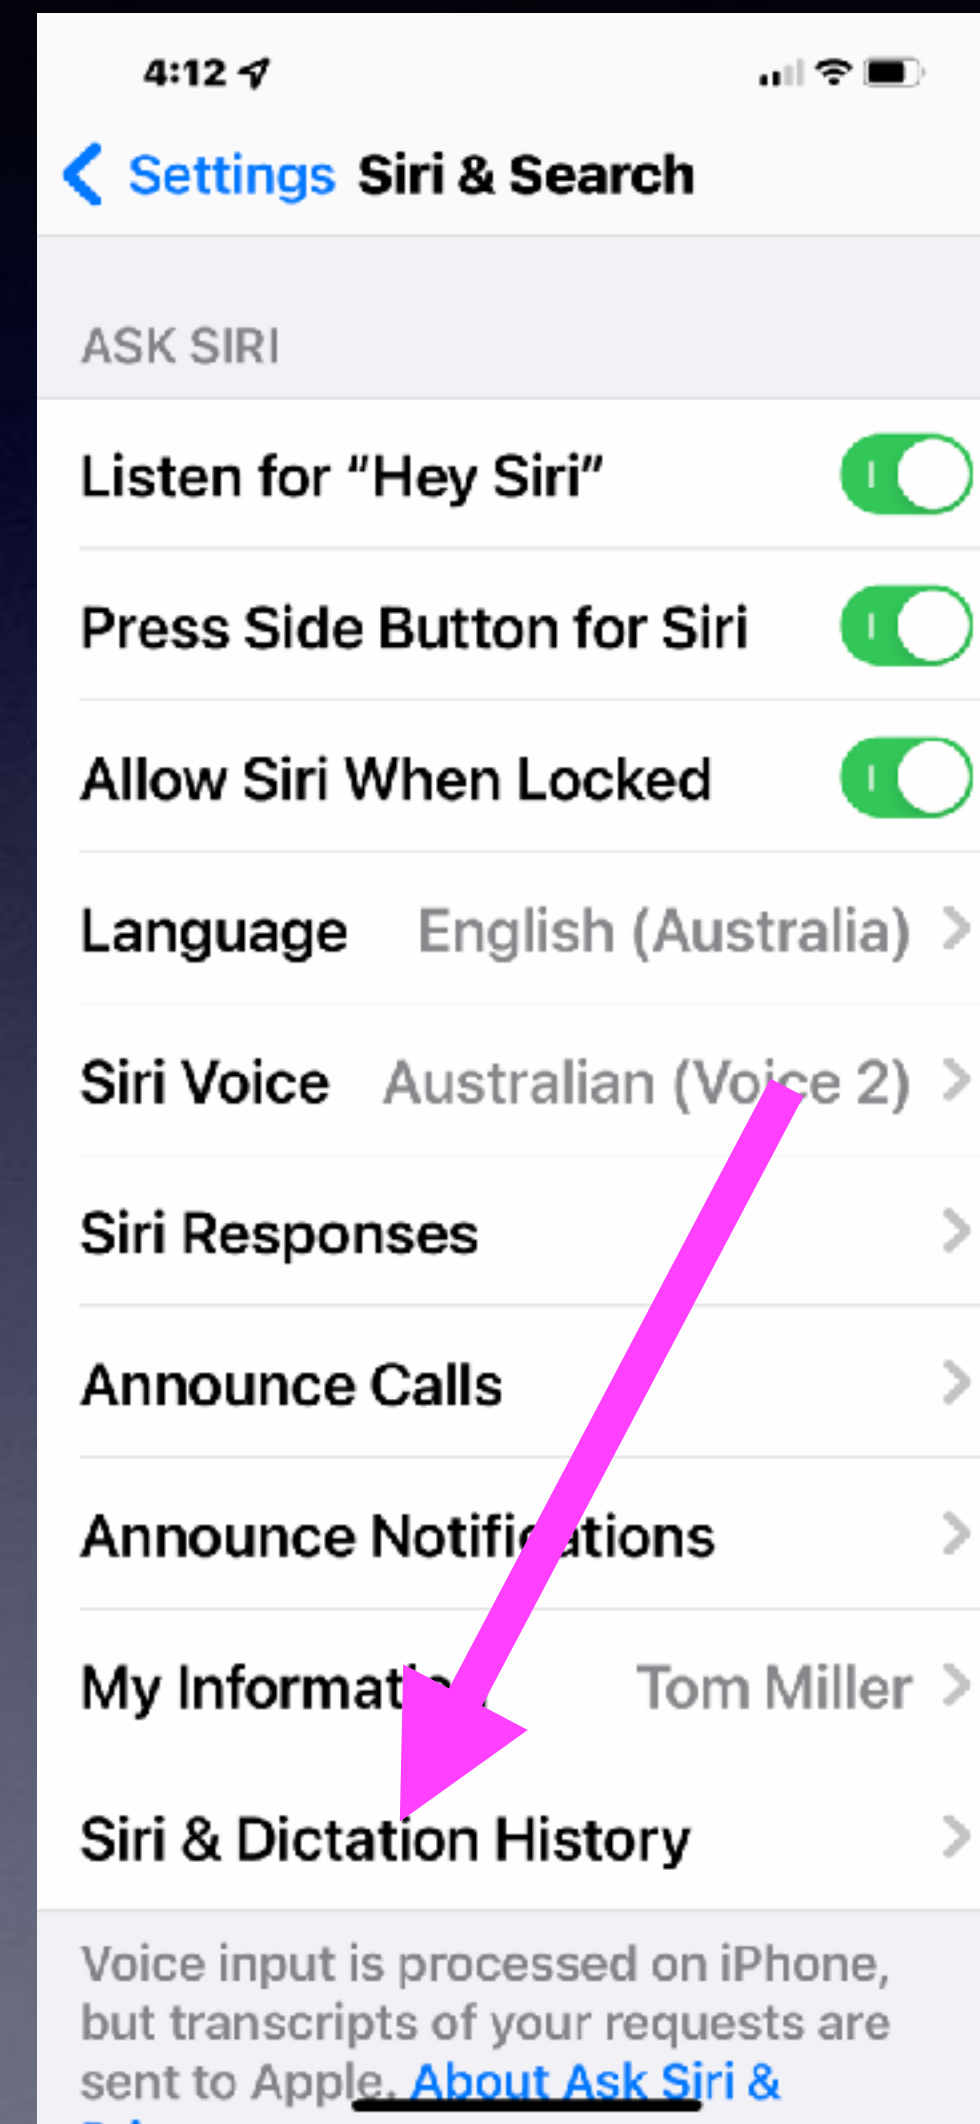

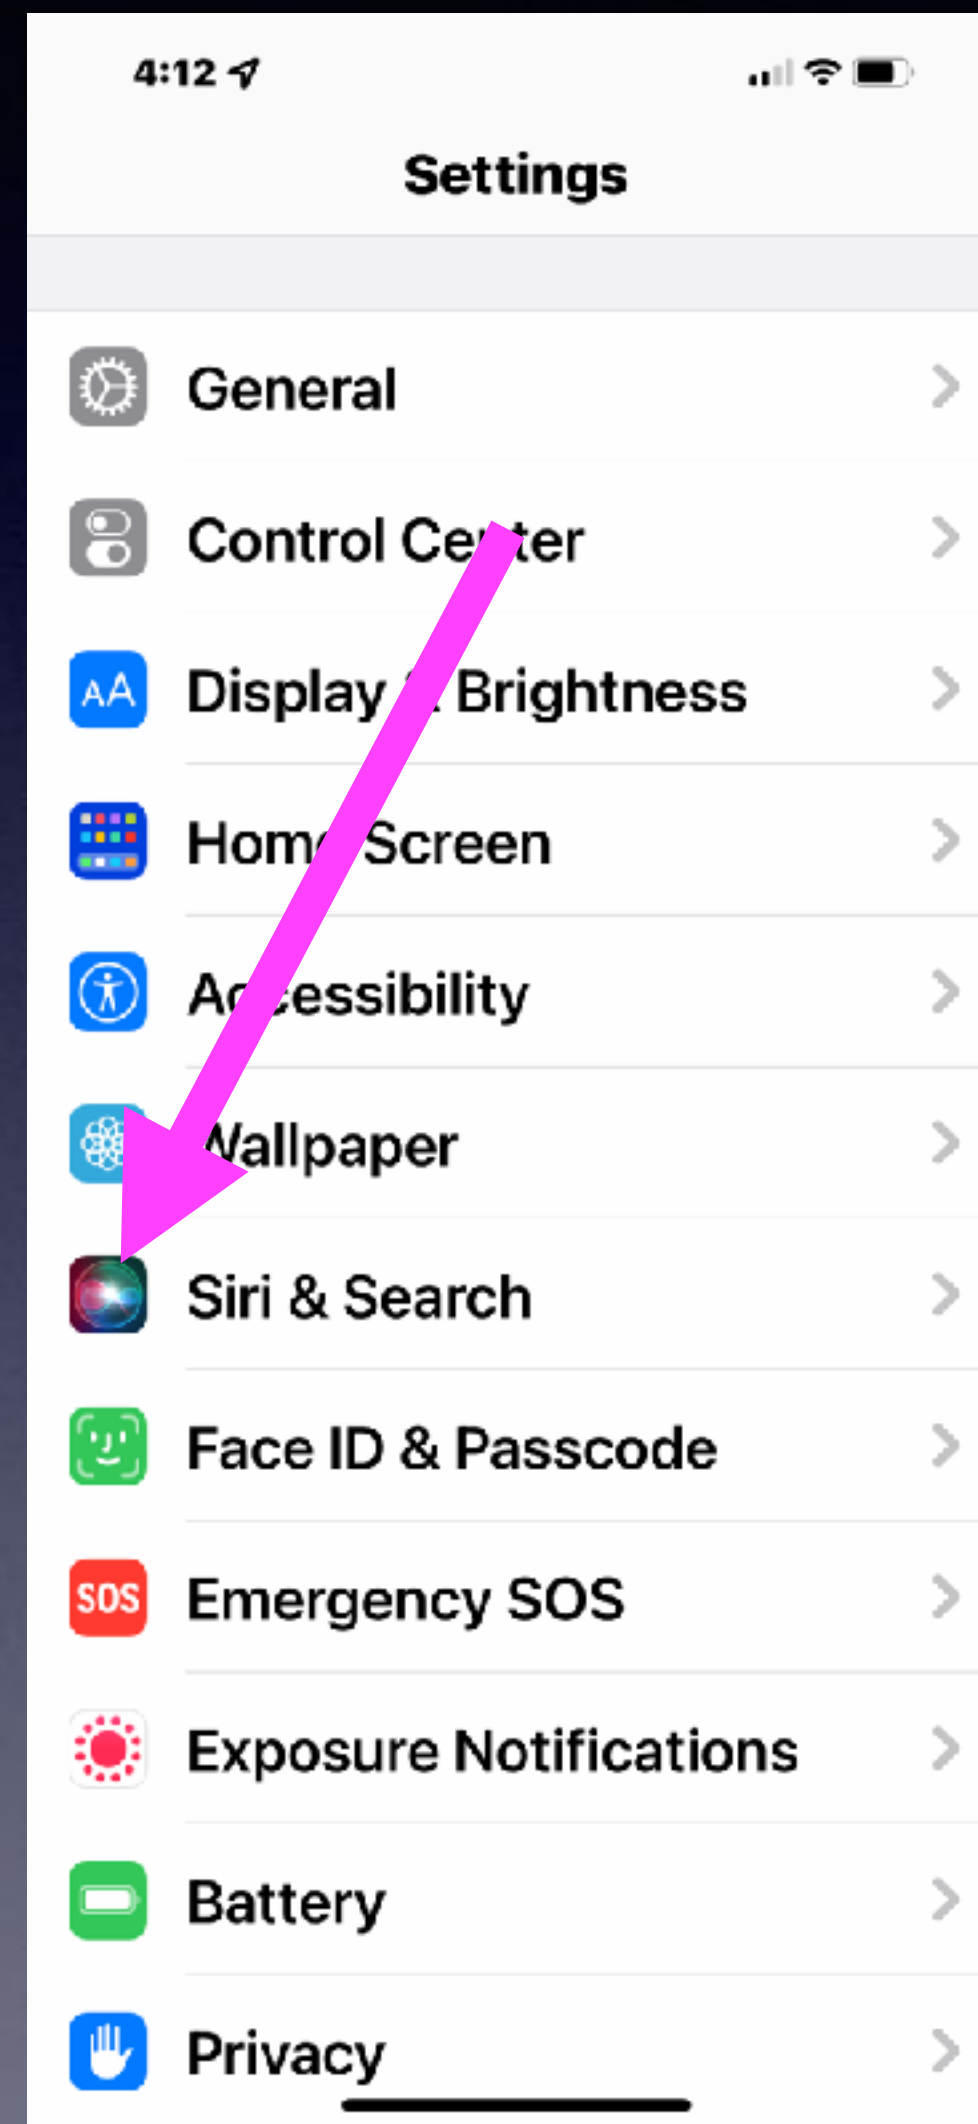

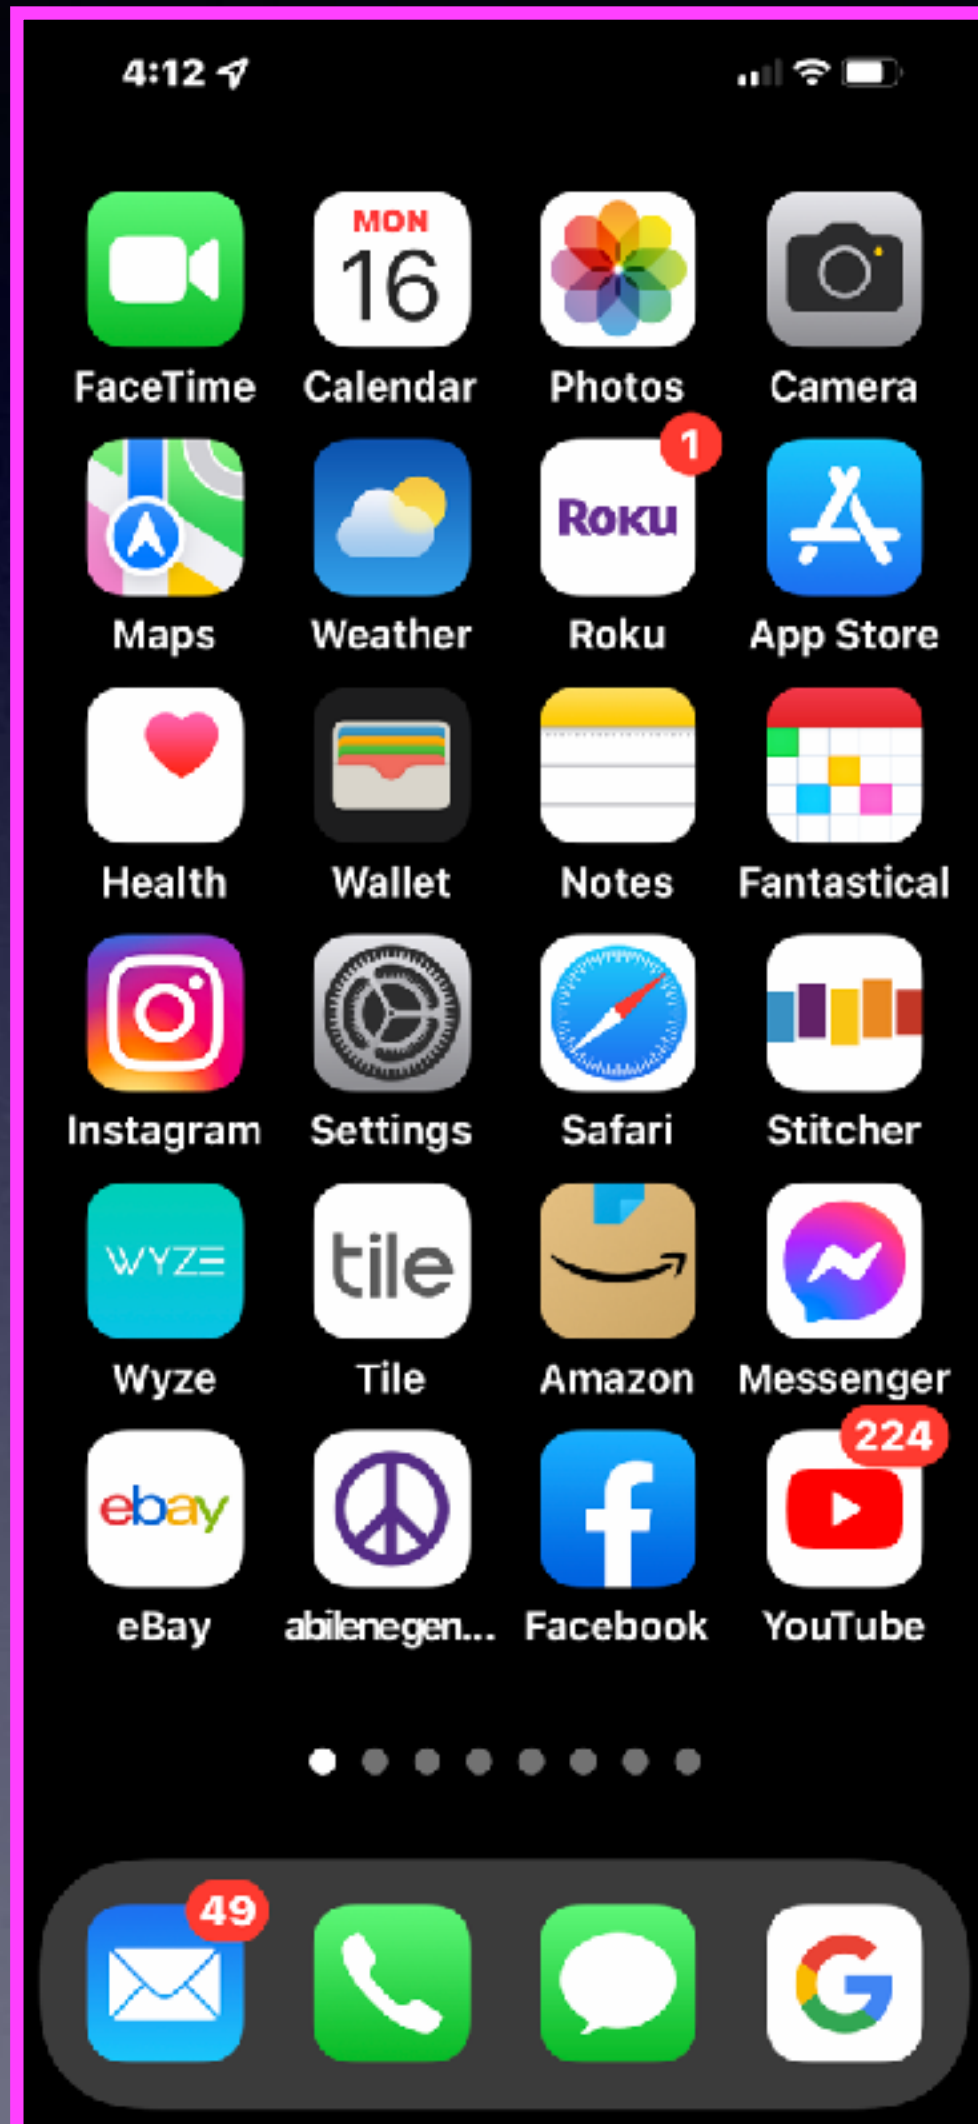

Be very careful when deleting anything!

Let me preface this by saying that you would be wise to purchase an iPhone with more storage than you think you need. You cannot add more storage to your iPhone.

# 12. Apple Saves Siri Dictations & Interactions. You Can Delete Them!

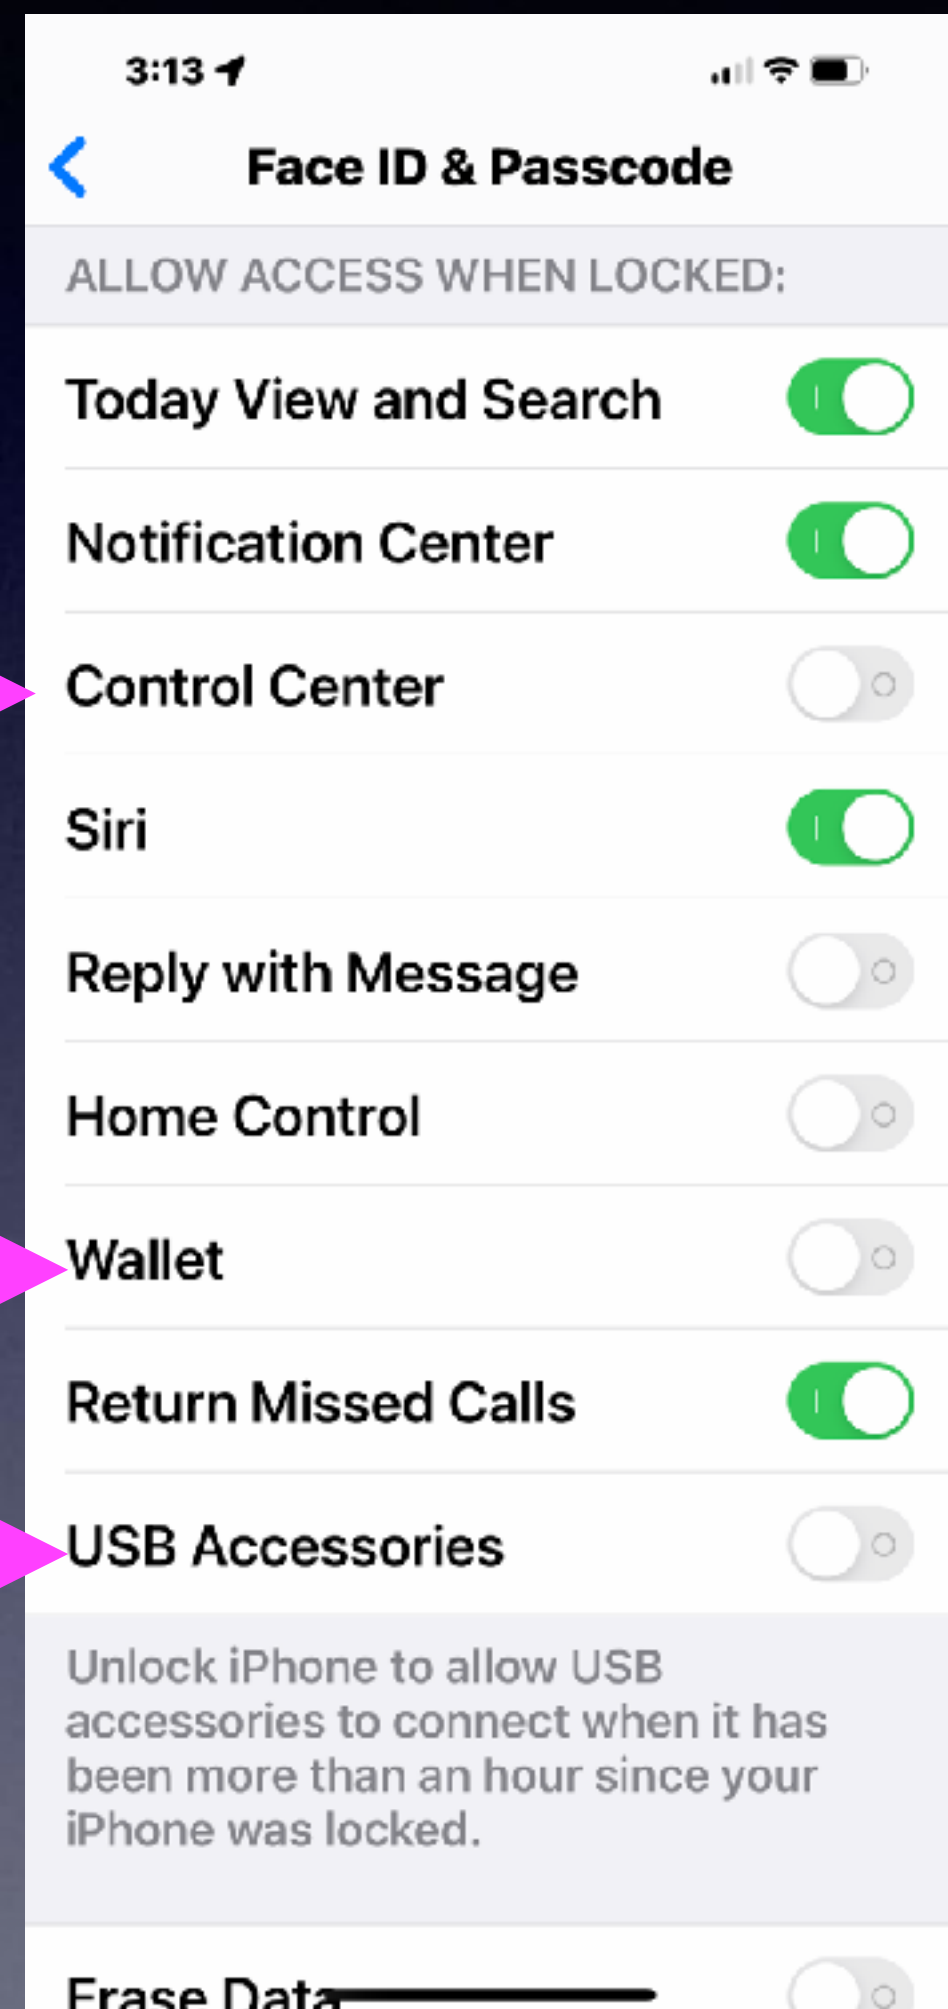

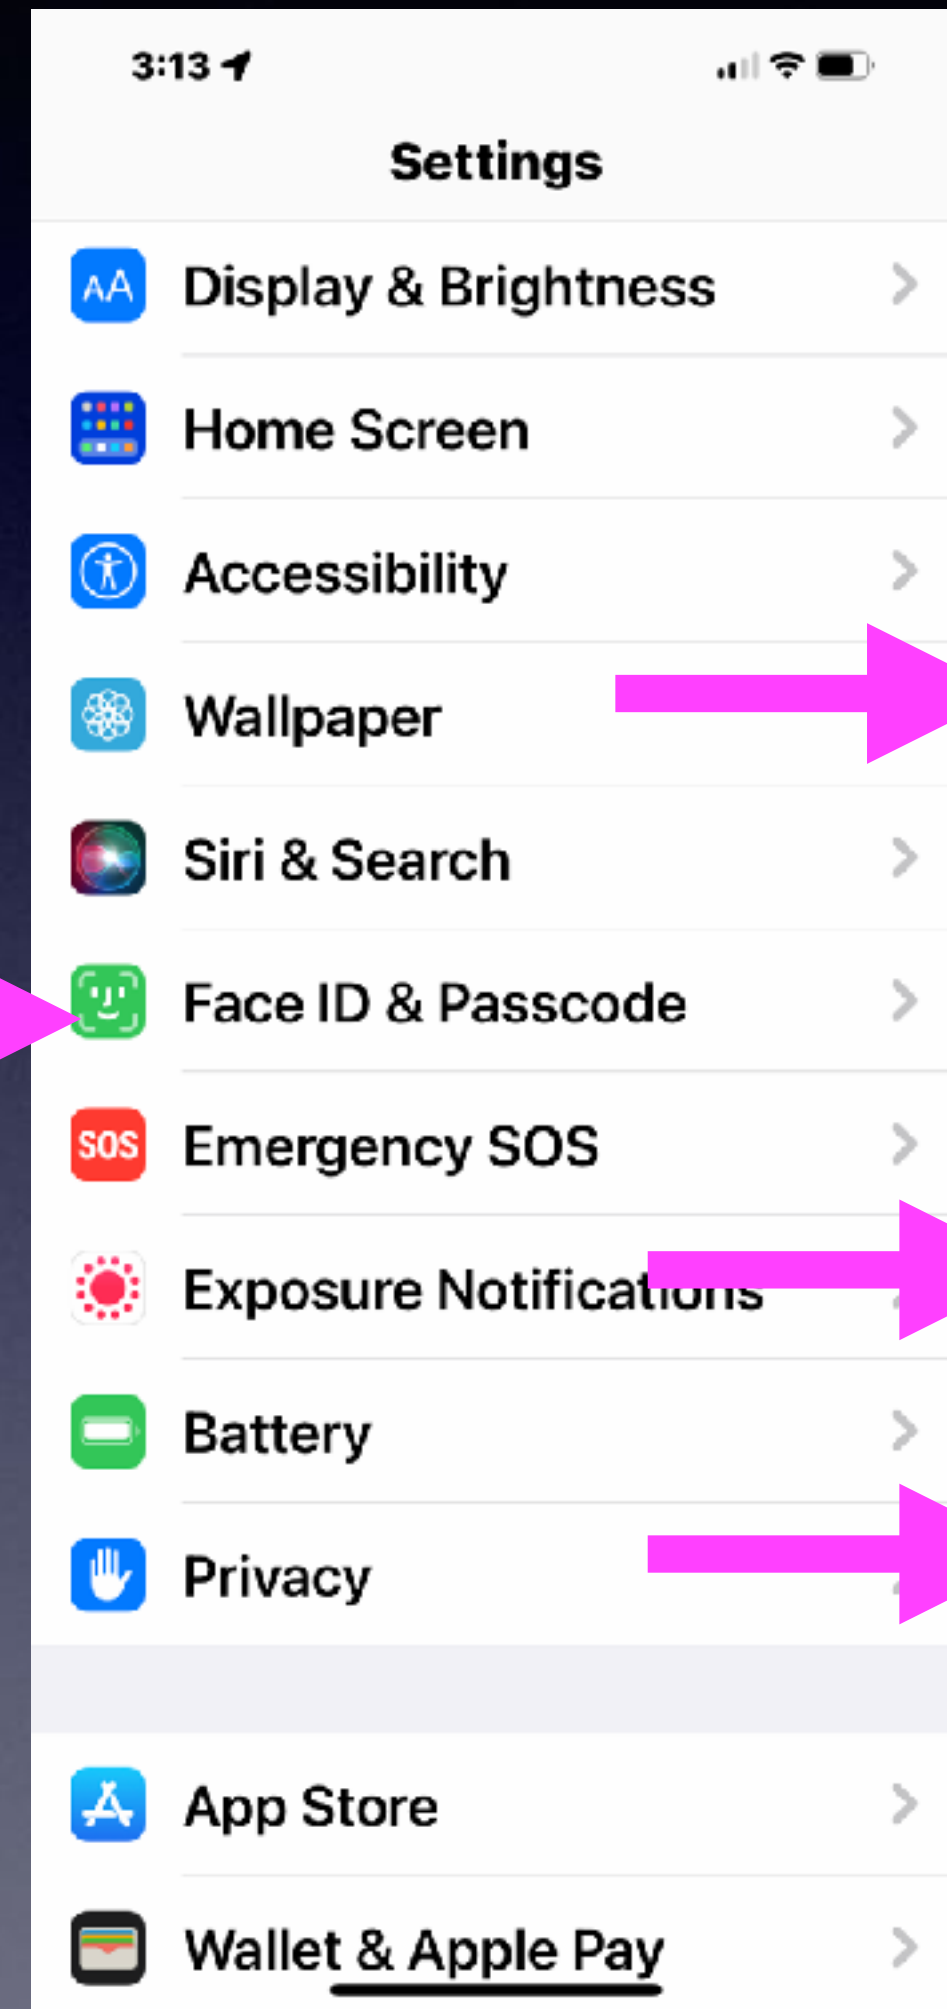

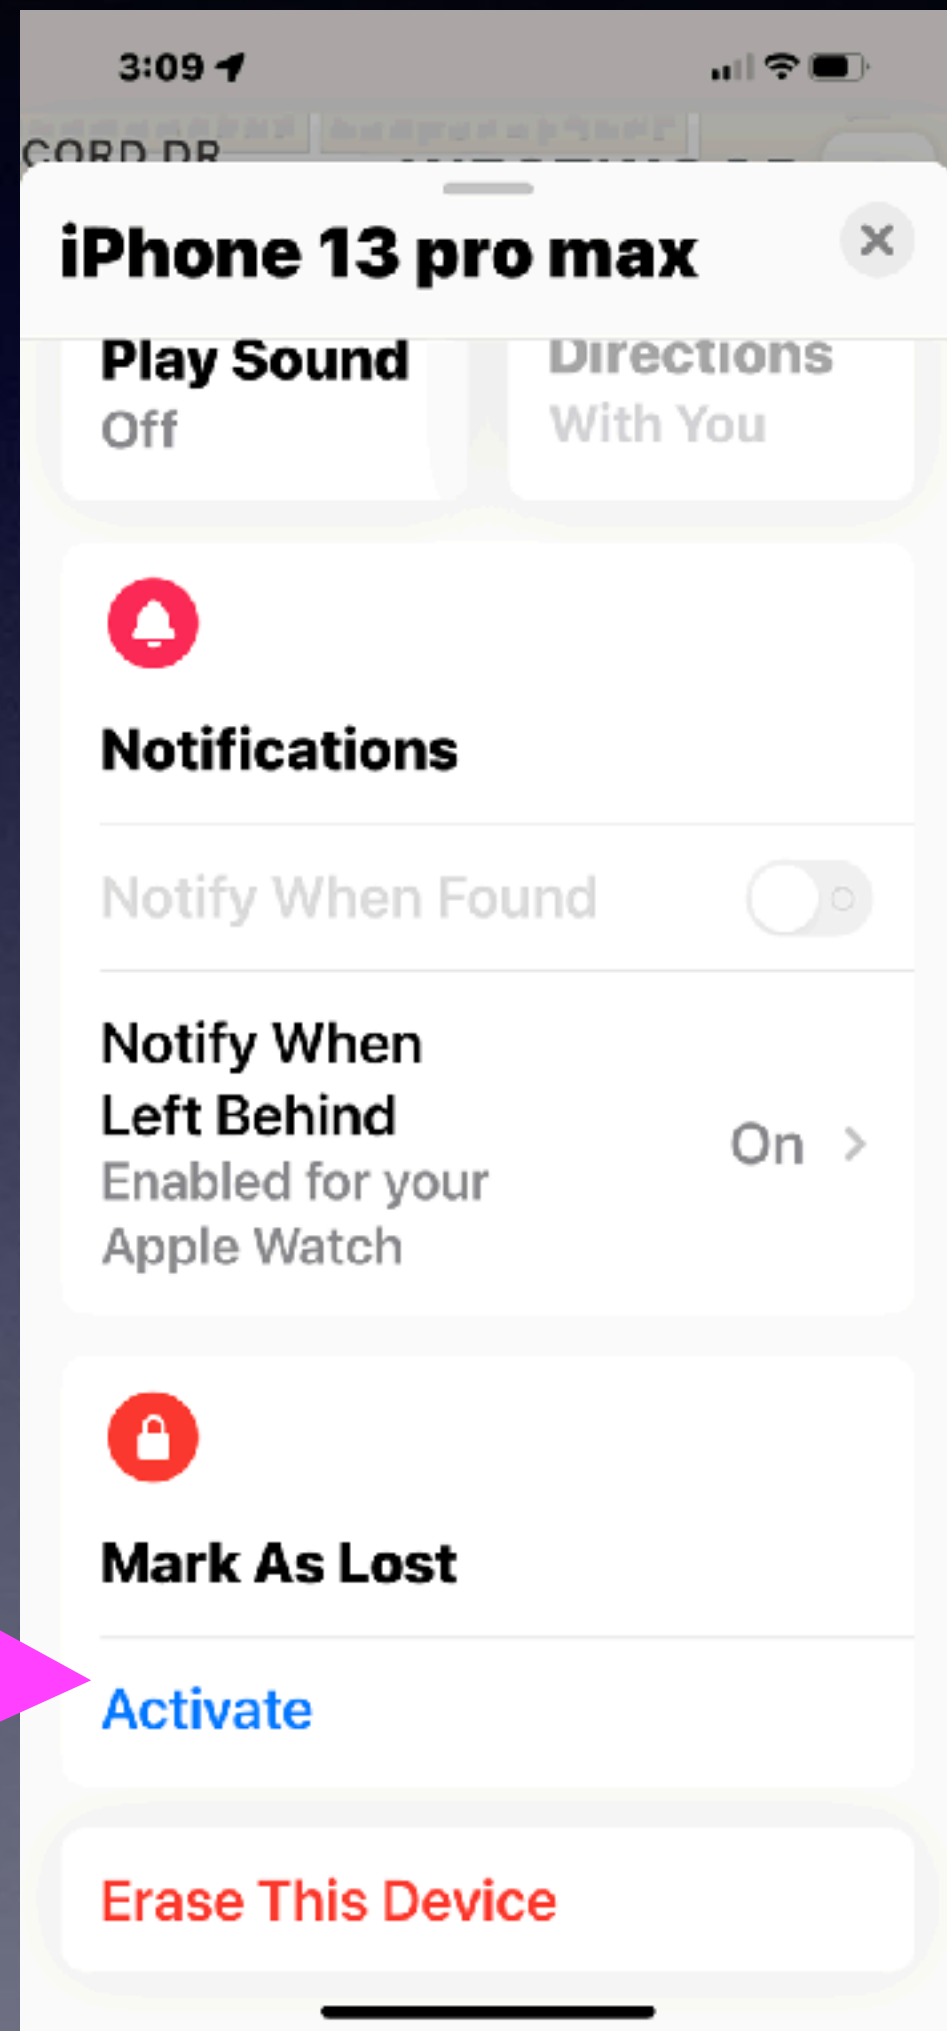

# If You Lose Your iPhone; There's A Good Chance You Can Get It Back!

The first things a thief does:

Turns off iPhone.  
Takes out the Sim Card.  
Turns on Airplane mode.

Use the "Find My Feature & Activate!"

You will need to do this on another device.

To make your iPhone really safe, you could allow no access to anything when your iPhone is locked.
