- 1. I can be wrong and am many times.
 - 2. I don't have all the answers.
- 3. Like you, I struggle with learning new stuff.
- 4. Yet, I love the challenge of learning new things.
- 5. I am eager to see what's new in the newest IOS.
 - 6. Wow! Can I be blindsided!

How tempted are you to pick up your iPhone while driving?

*The moment I learn how to use it...Apple upgrades the iOS!

What don't you like about the iPhone?

I don't like getting robo calls. I don't like getting junk emails. I don't like seeing the trash that is now available. Especially when children are allowed to "play" with one. I don't like the expense of purchasing one. I don't like the cost of owning one. (monthly charges) I don't like the difficulty some have using one. I don't like it being a quick link to dangerous web sites. I don't like how easy it is for people to be duped. I don't like the preoccupation with it. I don't like the influence social media has over us. Young girls having unrealistic body image. Someone is always trying to sell me something.

Too many people are talking and texting while driving.

iPhones Have 100,000 Times More Processing Power Than Apollo 11 Computer

Andrew Orr @andrewornot

iPhones have over 100,000 times more processing power than the Apollo 11 computer; with 4GB of RAM they have over a million times more memory, and with 512GB of storage they have over seven million times more storage.

Everyday, Someone Is Trying To Scam You & Me!

Screen doors Cars unlocked Gun racks in pickups with rifles and shotguns!

Very devious. Be very suspicious! It's <u>OK</u> to be suspicious! They want money. They want information. Use intimidation and not very kind. Trust your "gut" feelings. Is <u>OK</u> to hang up!

I'm just being <u>doubly</u> sure we all "get it"!

Being a little older, I am very fortunate to have someone call and check on me everyday. He is from India and is very concerned about my car warranty.

I, also, have someone checking on my computer to see if there are some corrupt files.

And to warn me about withdrawing illegal Social Security Payments!

The IRS will never call you! So their new scam is send a fake letter!

Set Up Your Medical

Setting up the Medical ID in the Health app on your iPhone

Medical ID helps first responders access your critical medical information from the Lock screen, without needing your passcode. They can see information like allergies and medical conditions as well as who to contact in case of an emergency.

How to set up your Medical ID

Open the Health app and tap the Summary tab. Tap your profile picture in the upper-right corner. Under Medical Details, tap Medical ID. Tap Edit in the upper-right corner. To make your Medical ID available from the Lock screen on your iPhone, turn on Show When Locked. In an emergency, this gives information to people who want to help. Enter health information like your date of birth, allergies, and blood type. Tap Done.
