“QR” = Quick Response

**What's Your
Favorite App?**

Why Does “Automatic Updates” “On” Not Update?

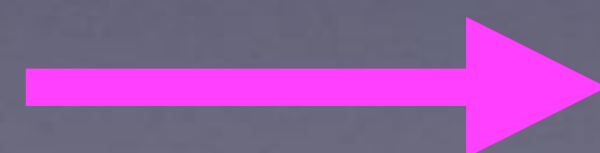

If you do things properly...
“Updates” will work!

iPhone & iPad Basics*

April 18 & 25, 2023

Welcome

*A class for all levels of understanding!

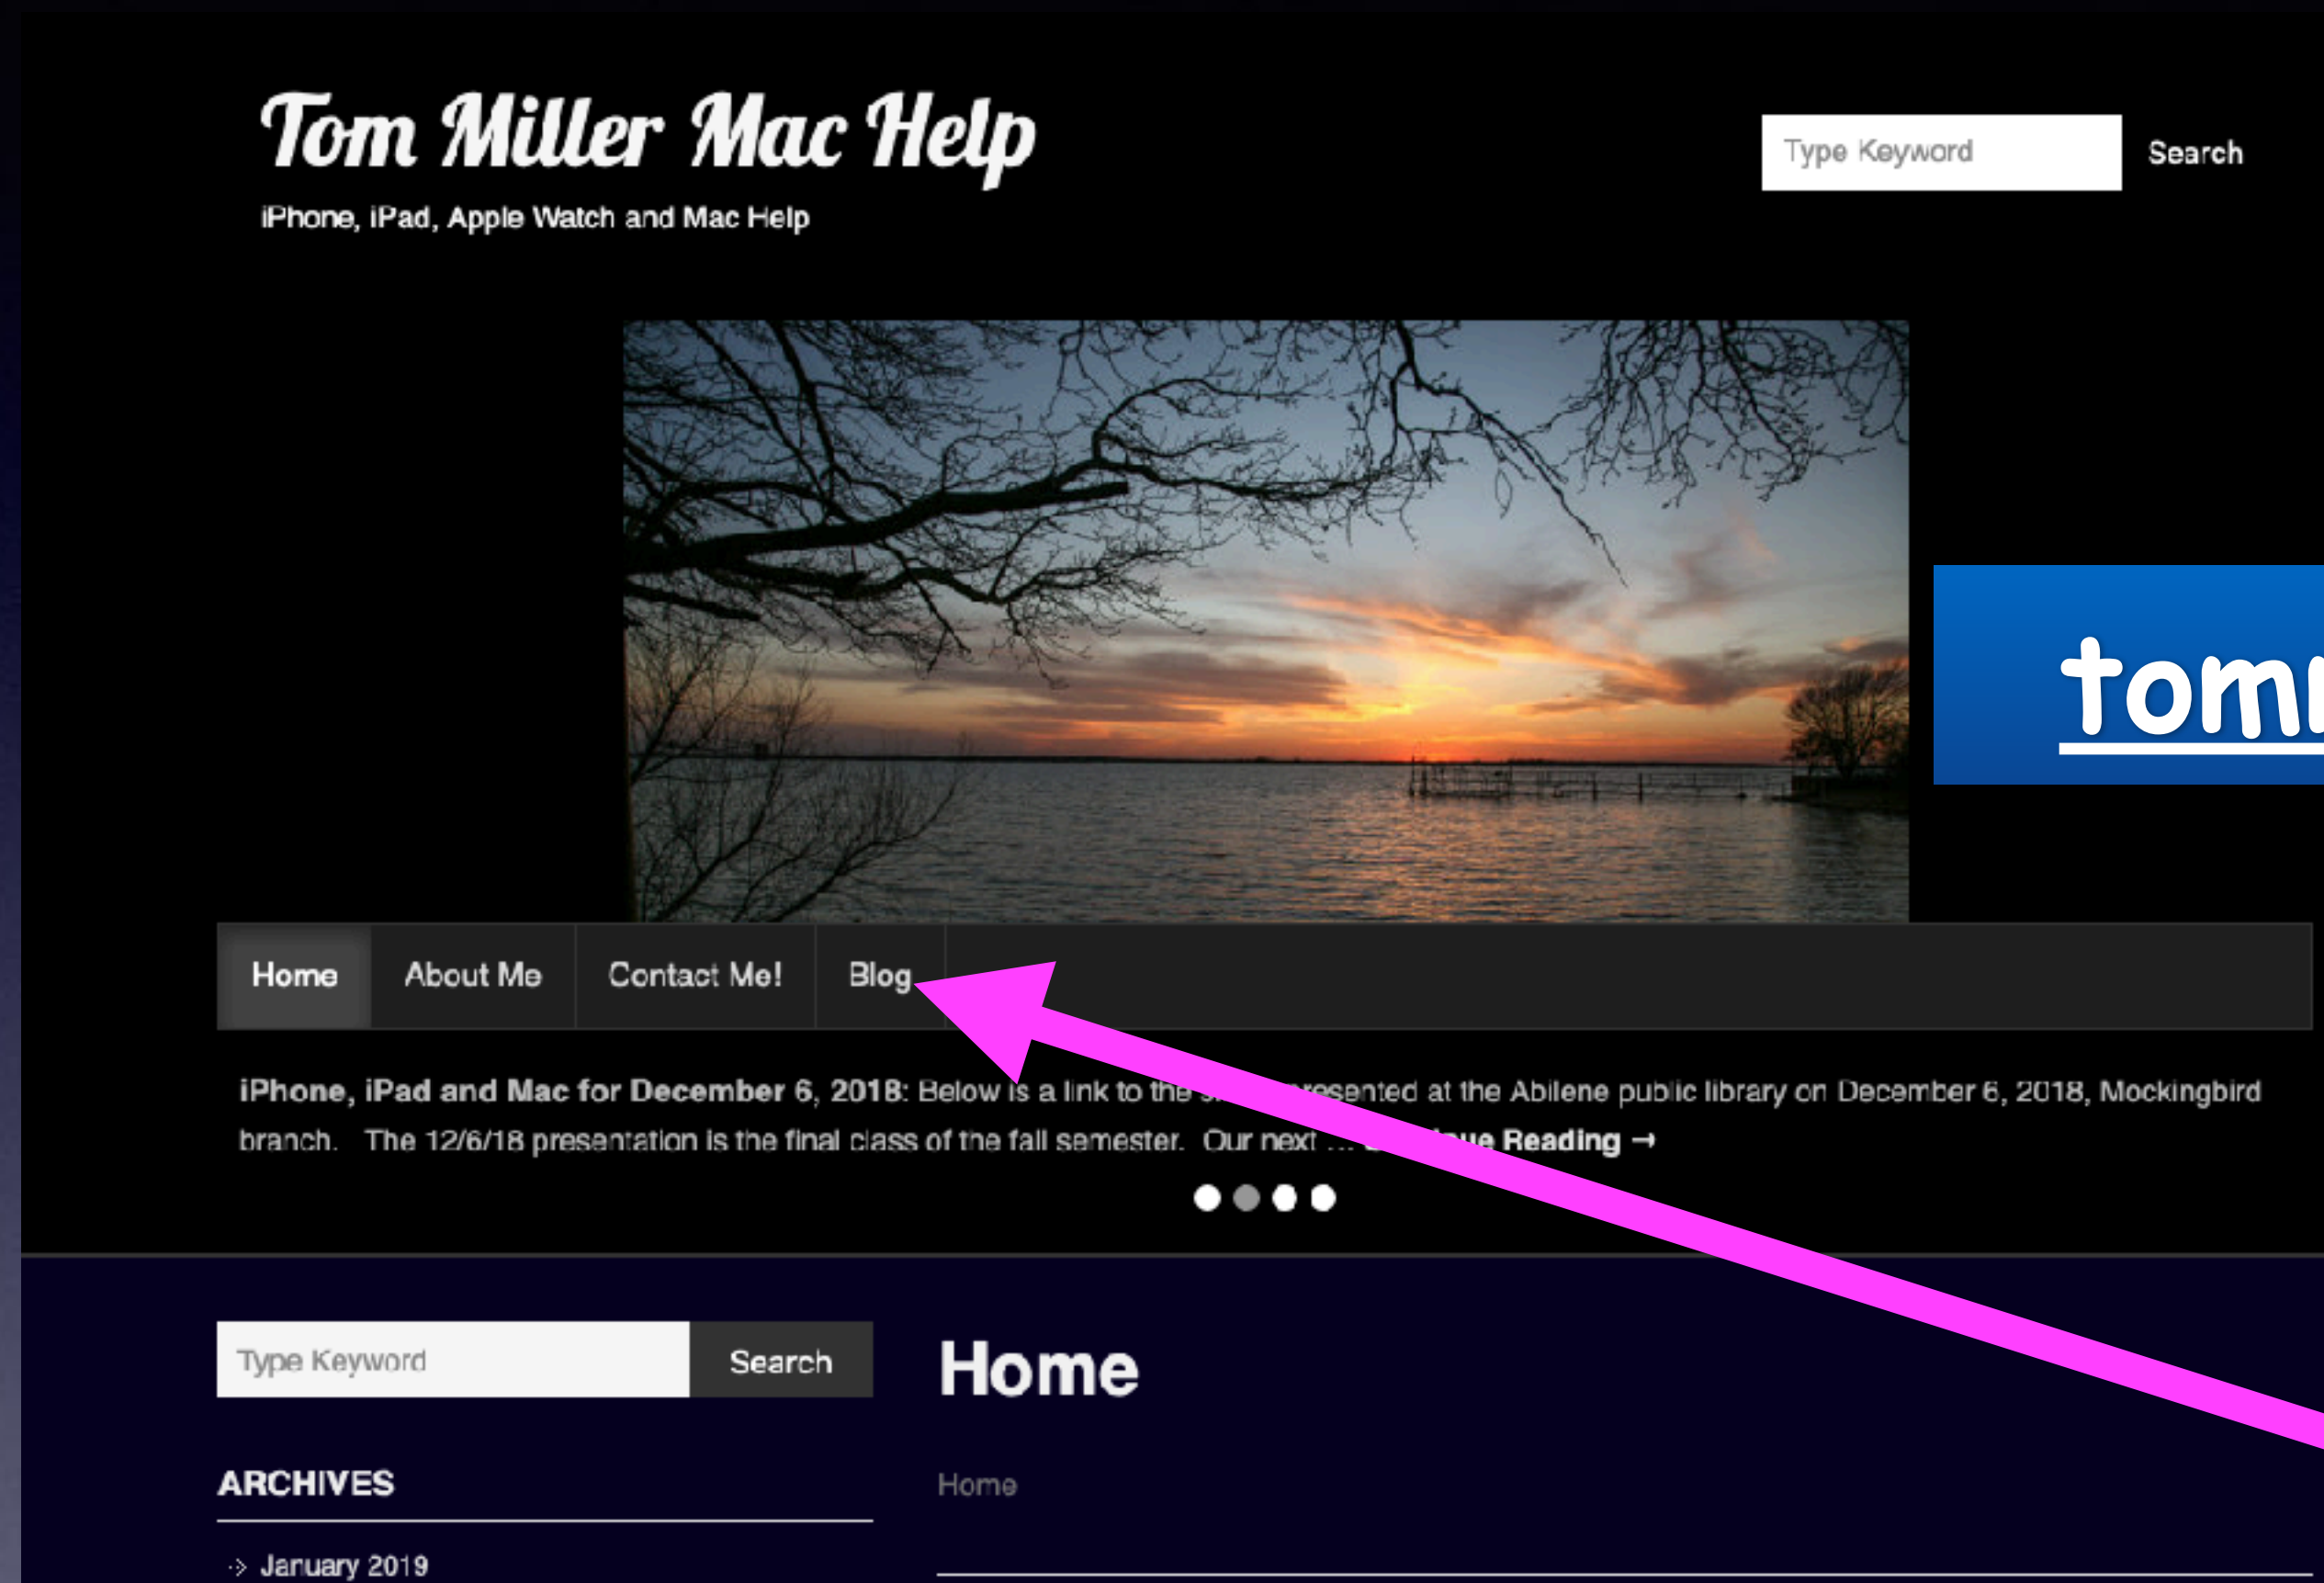

Call, Text, Email Me Don't Hesitate!!!!!!

My web site is on the top of my business card. Use the **web** address to see the slides that I present today!

*Call me anytime as long as you do not begin the conversation with, "I know this may be a dumb question..."

My Slides Are Available. Go to tommillermachelp.com and click on “Blog”.

tommillermachelp.com

Look for “Blog”!

**This is a learning class...somethings may be new to you.
Learning (a foreign language) is not easy.**

Remember, We are Not Serving Up Pablum Here!

This is a learning class
for people who
want to get the most
out of a very expensive
device!

Some people can't
handle the info!

“This is my iPhone!

**It is the best device of
its kind on the planet!”**

Can I Be Obnoxious?

I have not thought so.
I love my iPhone.
I think everyone should have an iPhone.
I take it everywhere.
It's in the middle of every conversation.
I think of it as something that "enhances"
a conversation.

When and where is it appropriate?

Why Am I An iPhone User? Over other brands...

This is ammunition!

10 Reasons Why You Should Switch From Android to iPhone

If you're looking to buy a new phone, consider an iPhone if you want a secure, user-friendly device that maintains its value.

BY ARIA TRICIA UPDATED OCT 18, 2022

10 Reasons To Switch!

The public knows that they retain their value!
Better security. Apple constantly upgrades their iOS.
Extremely user-friendly interface.
Apple care is the best device protection plan.
Apple has the best integrated eco system.

10 Reasons To Switch!

It's very easy to spot fake iPhones.
The photos taken with the iPhone are more natural and realistic.
When threats occur...Apple updates are immediate.
Apple pay is easier than other methods of payment.
Apps are easier to download and easier to use.

Is Switching From Android To An iPhone “Worth It”?

or

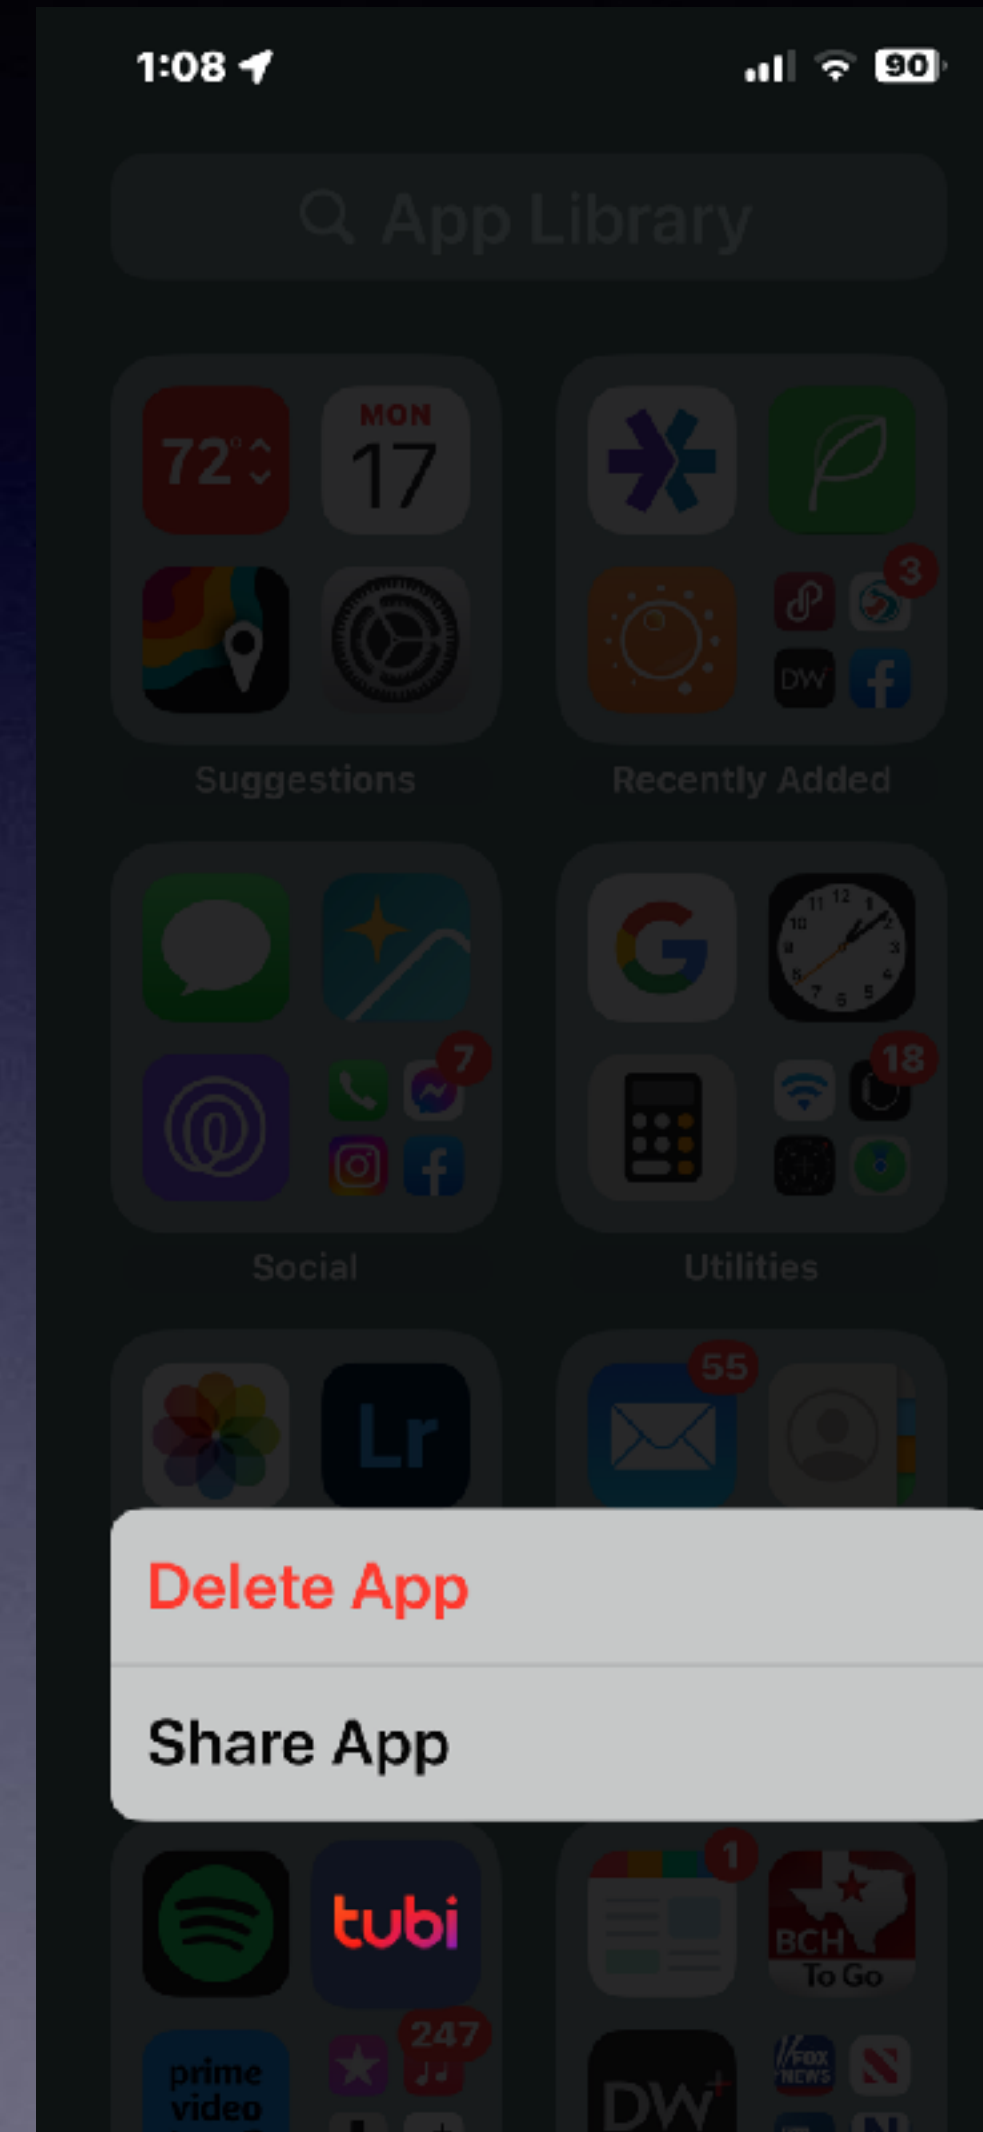

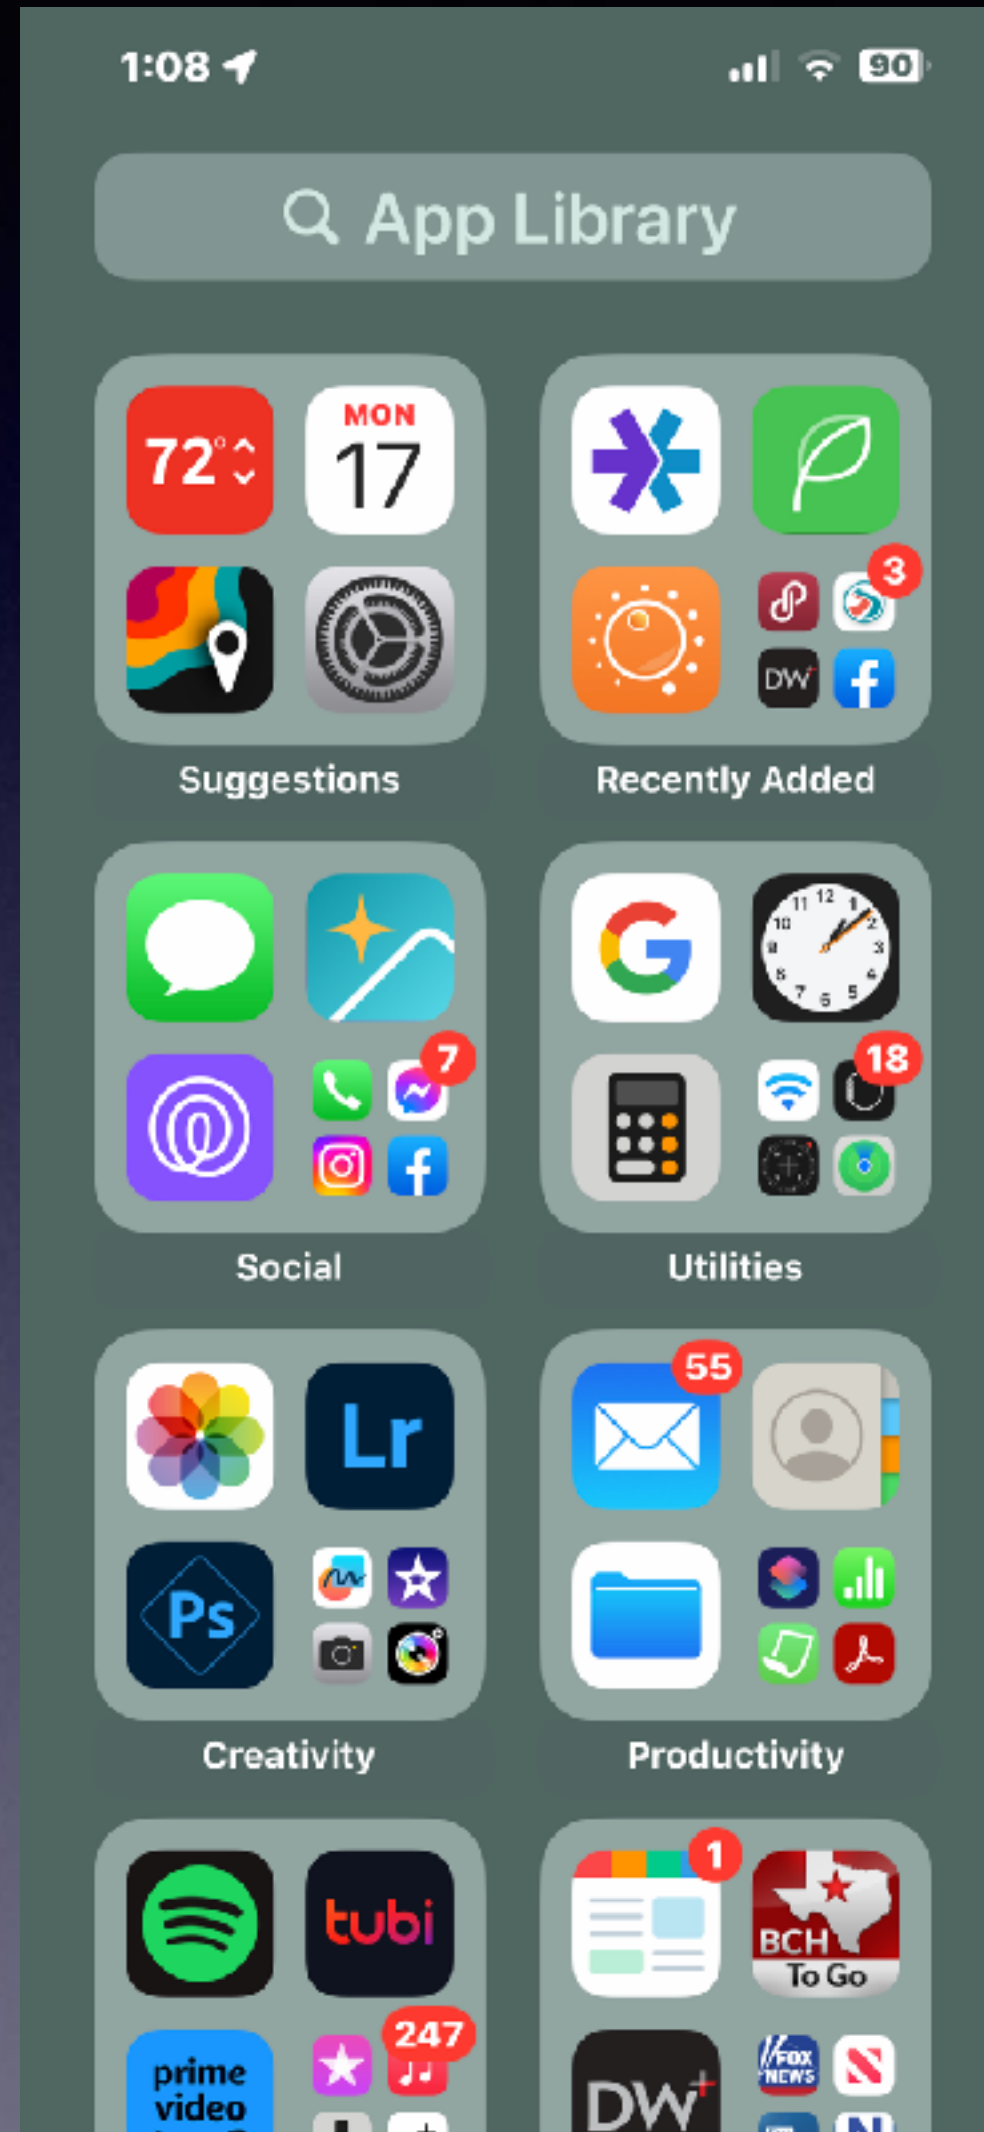

Should we try to convince someone to switch?

Using Different Brands... And Devices!

and a Chrome Book computer.

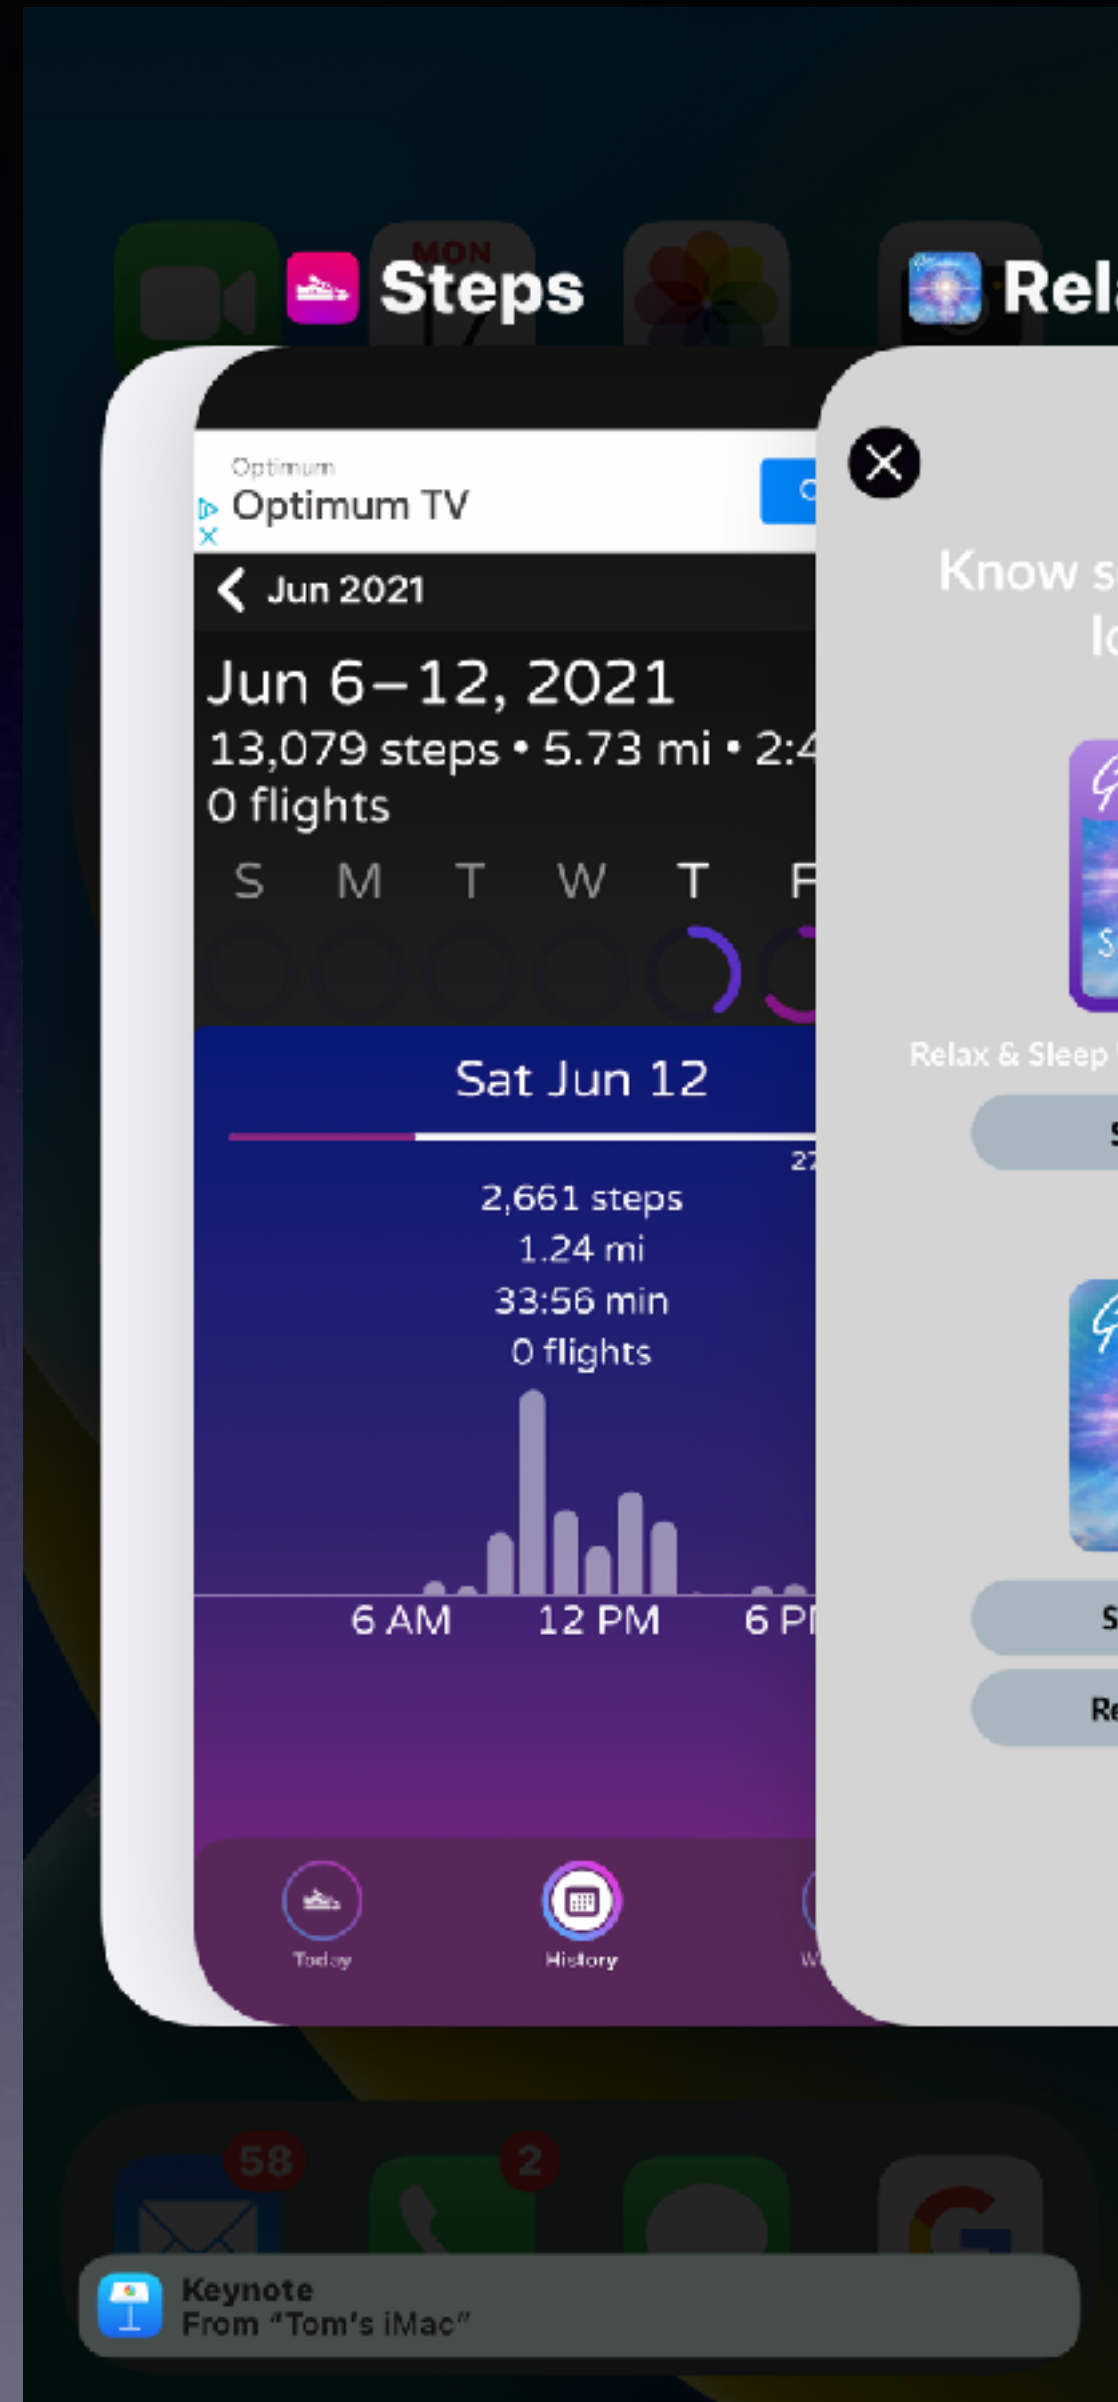

What Does Tap and Hold Mean? & What Is The App Library?

The Debate About Closing Apps!

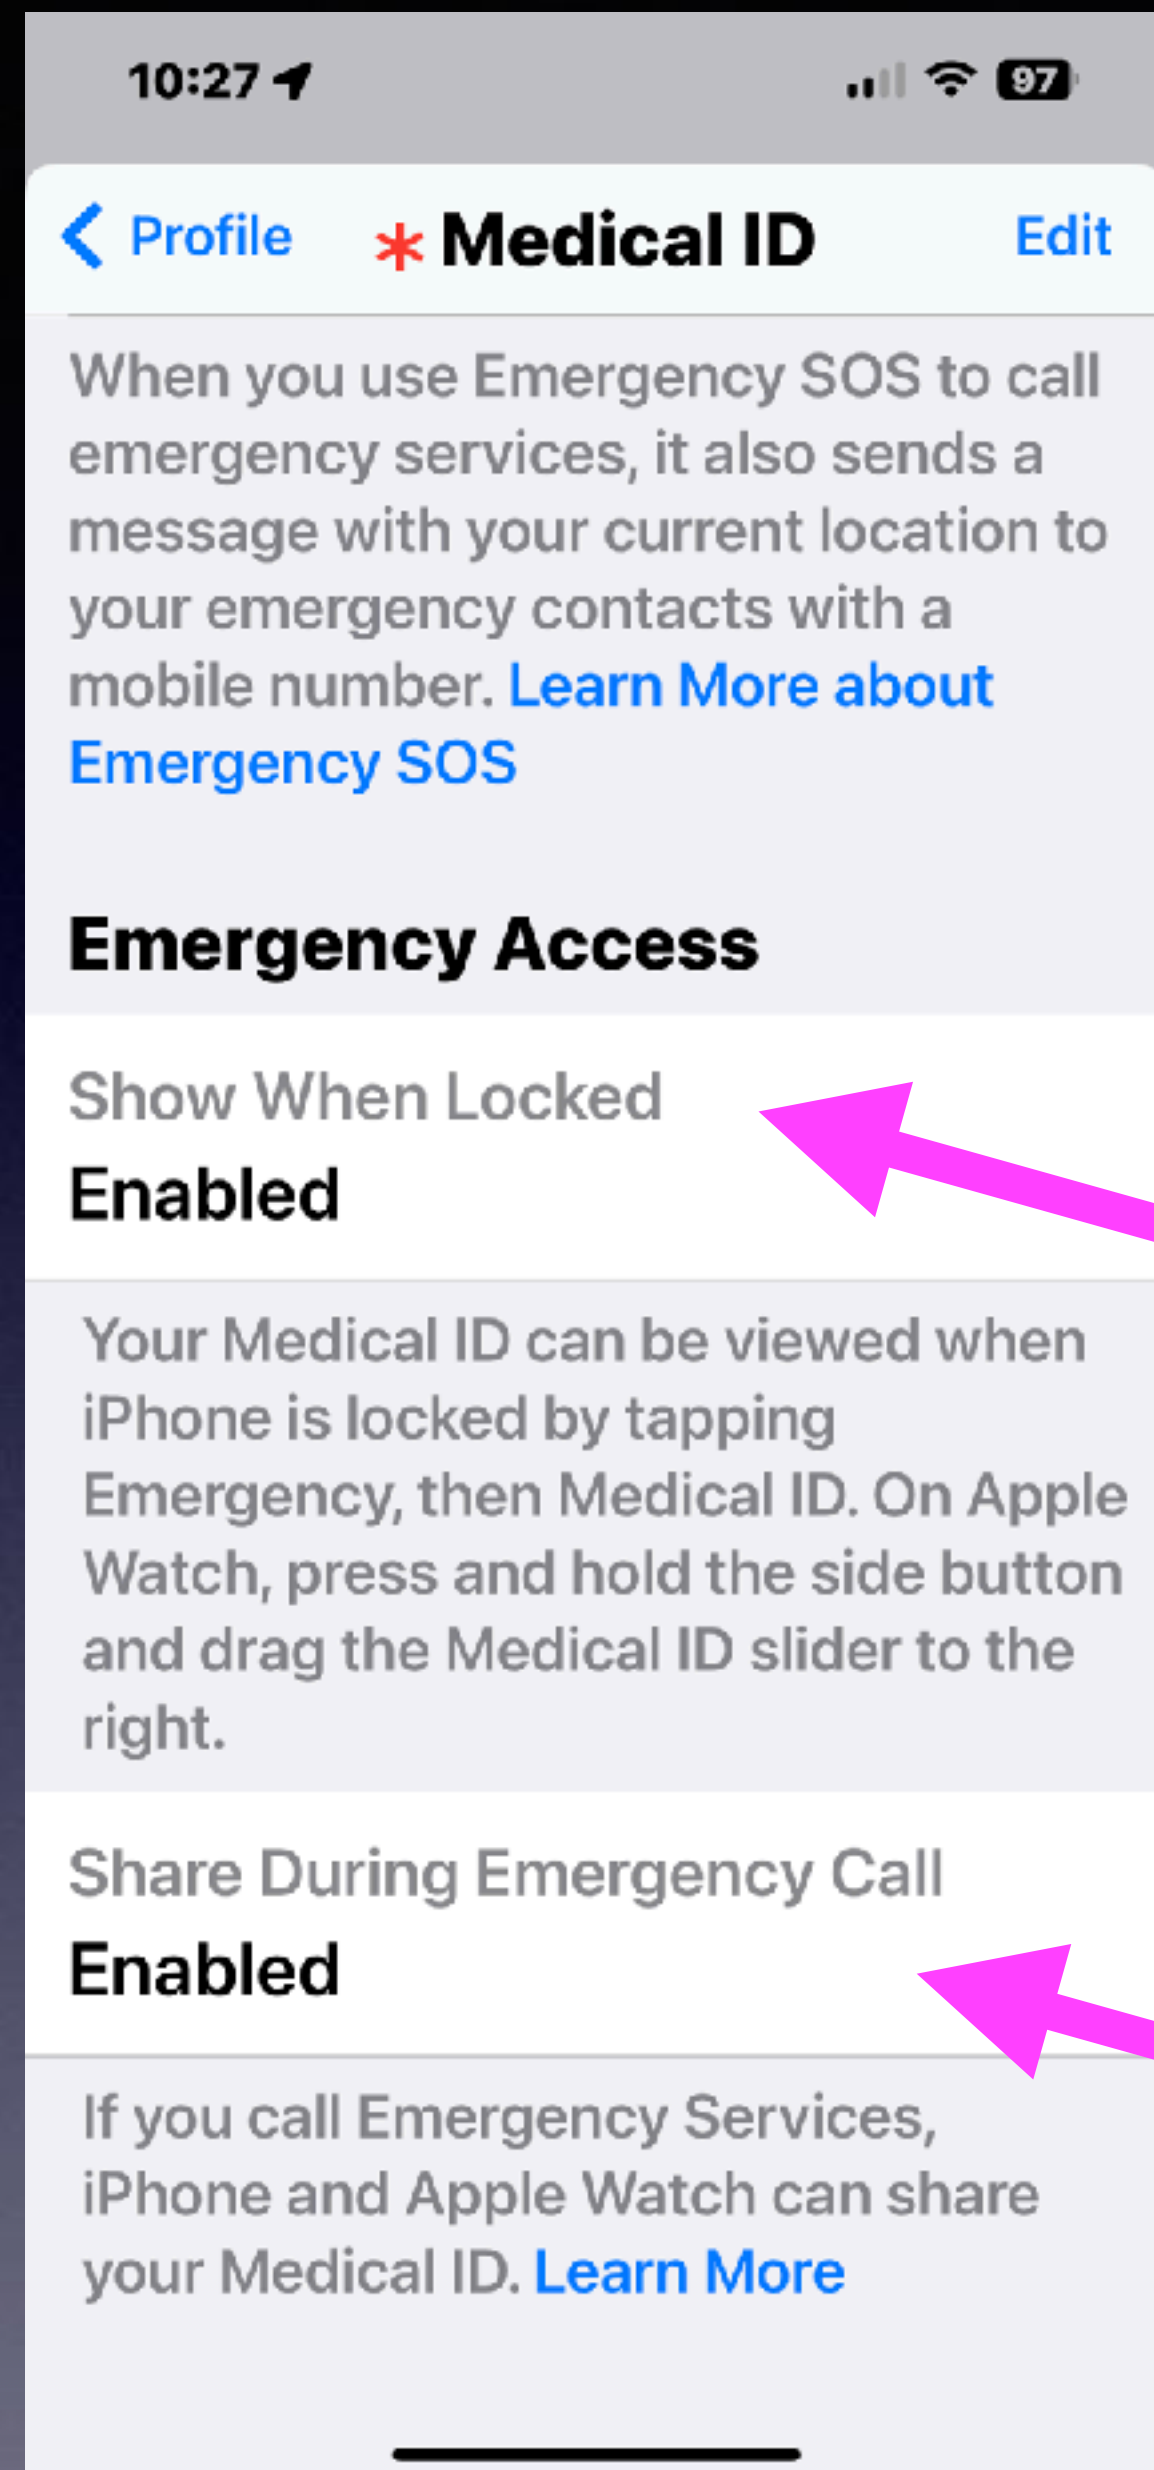

The App Switcher!

Accessed by tapping the
bottom and sliding
slowly to the middle
of the screen.

What Does Apple Say About Closing All Apps?

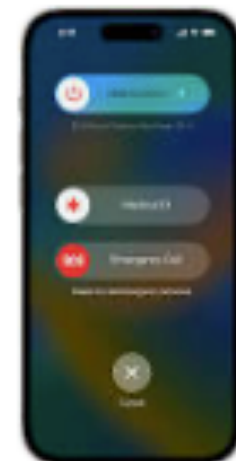

**Make Sure EMTs Can
Access Your Medical ID
When Your iPhone Is
Locked!**

What Happens When You Dial 911 Or Use SOS?

When Call with Hold and Release is turned on and you hold the side button and one of the volume buttons to make an emergency call, your iPhone begins a countdown and sounds an alert. If you release the buttons after the countdown ends, your iPhone automatically calls emergency services. Apr 3, 2023

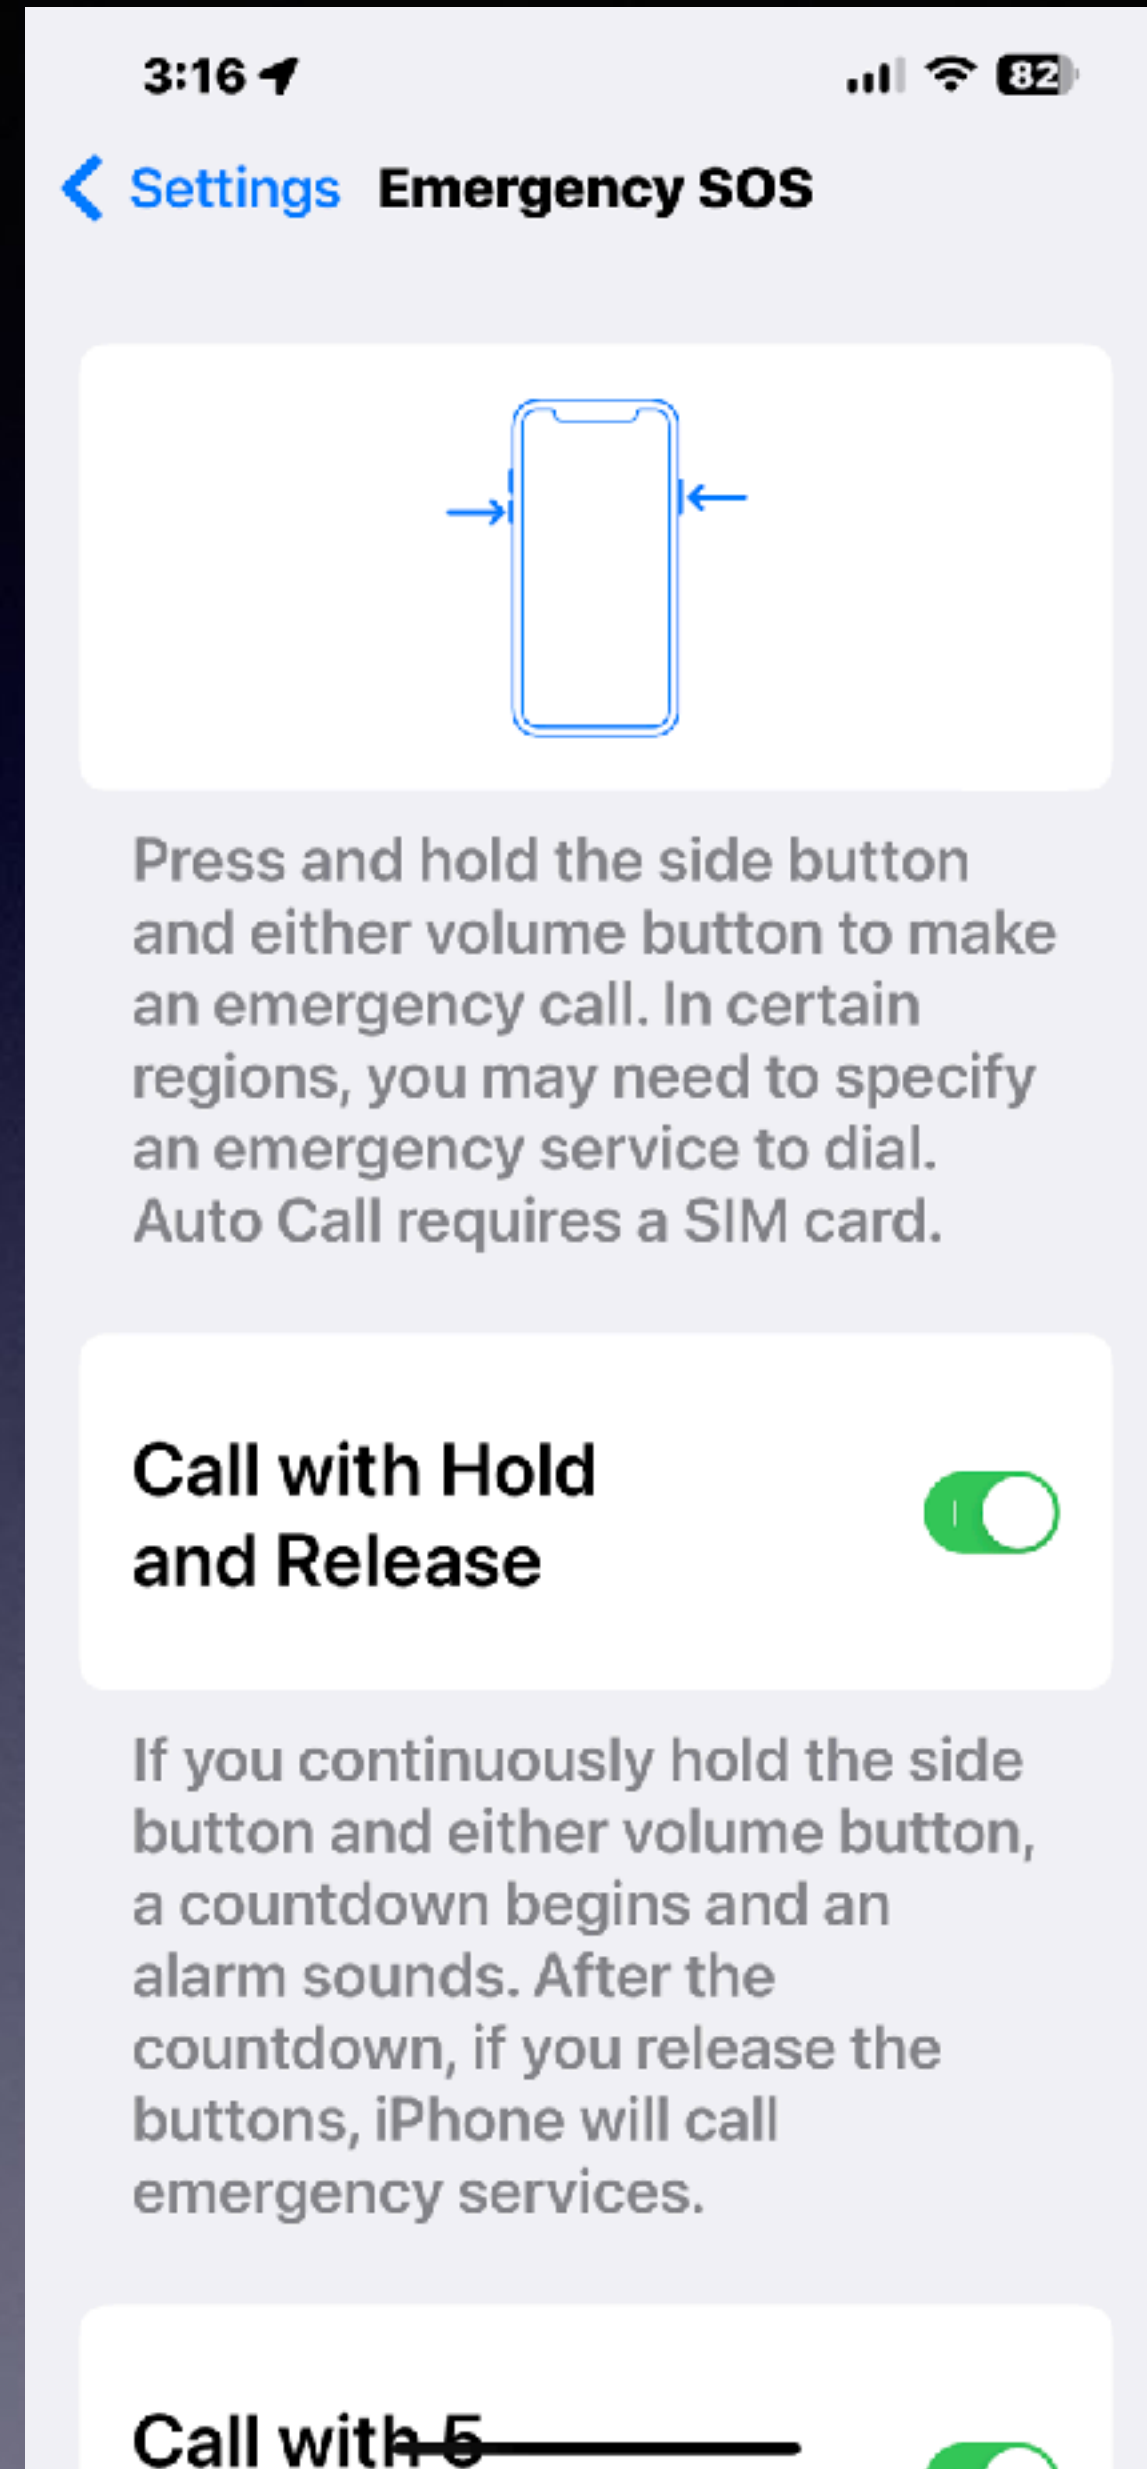

What Do Emergency Contacts See?

Your contact(s) get a message that says **"Emergency SOS. [Your Contact Name] called emergency services. [Your First Name] has listed you as an emergency contact."**

The iPhone & Apple Watch Can Save Your Life!

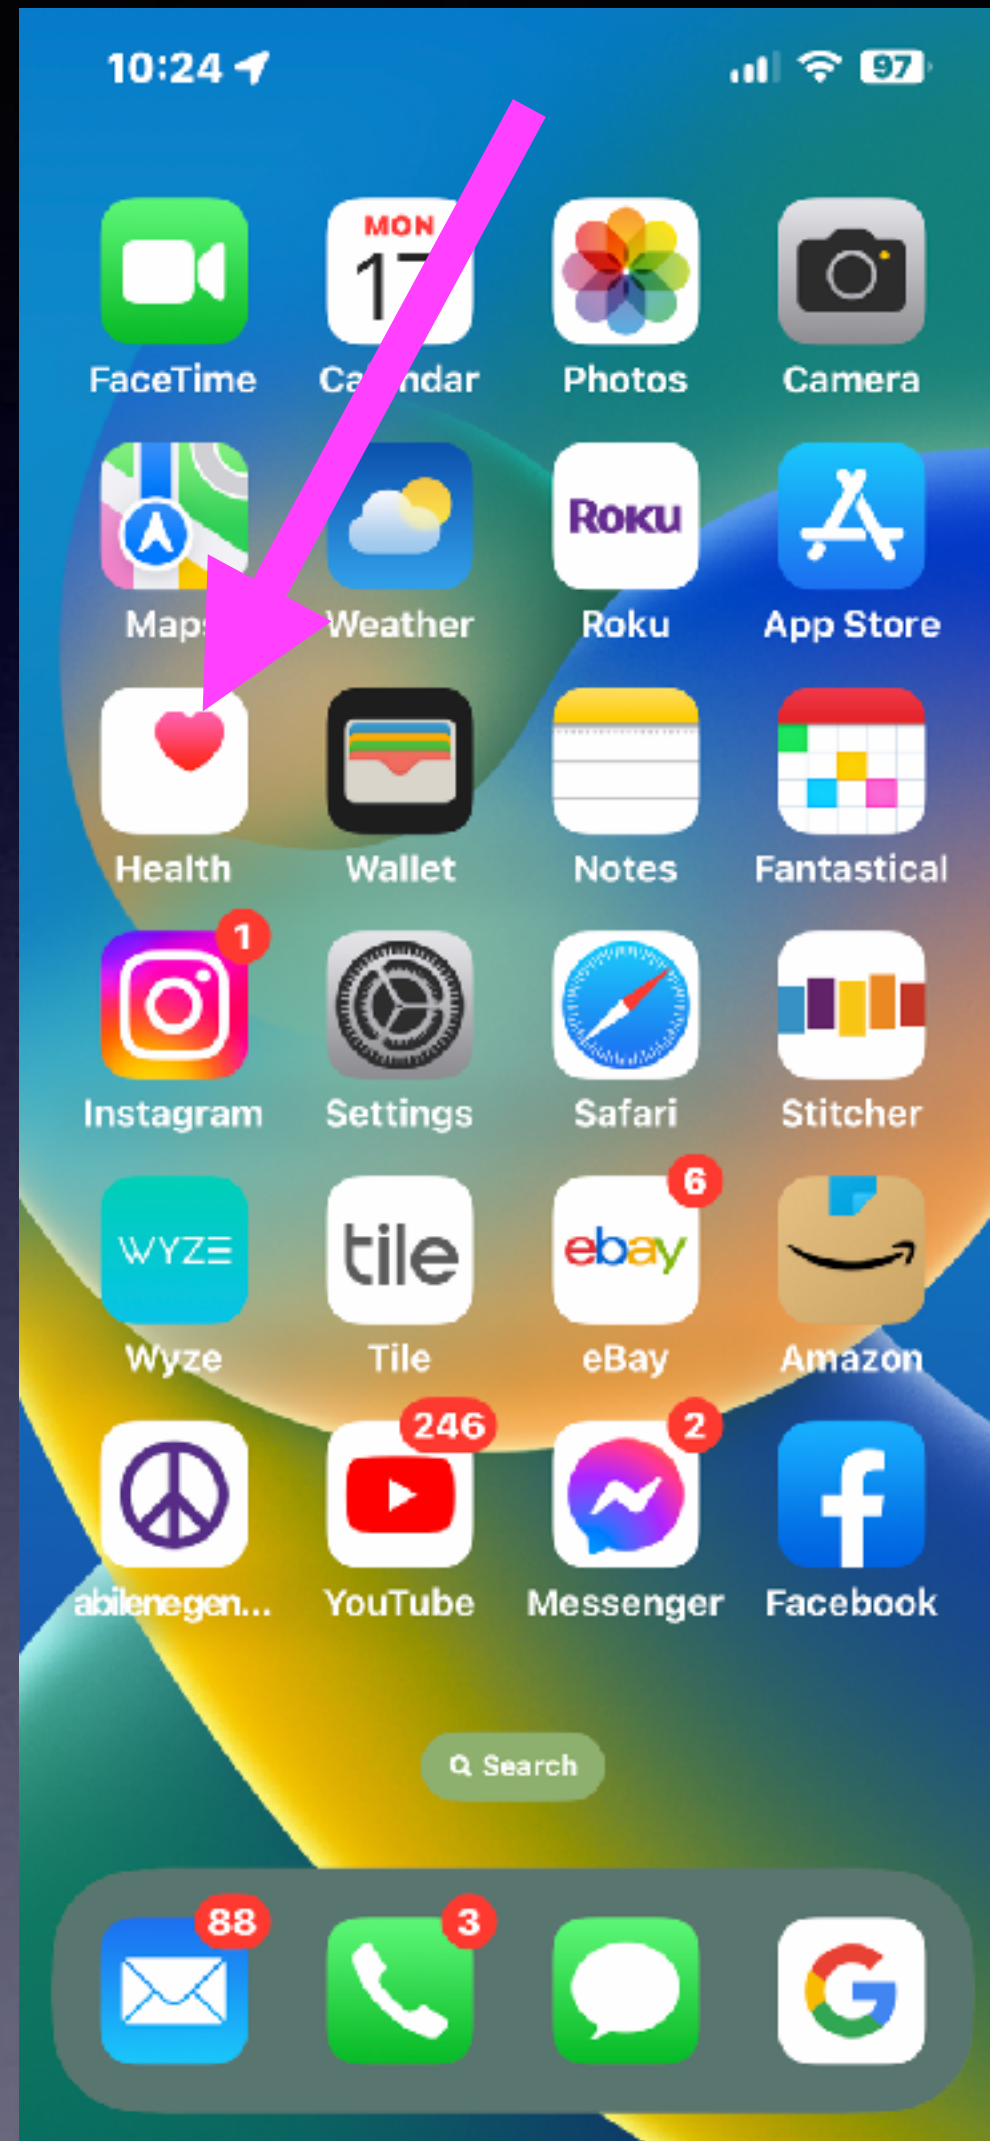

How To Reach 911!

If you have all your faculties...tap 911!

The other methods are there
if you can't see your iPhone!
or

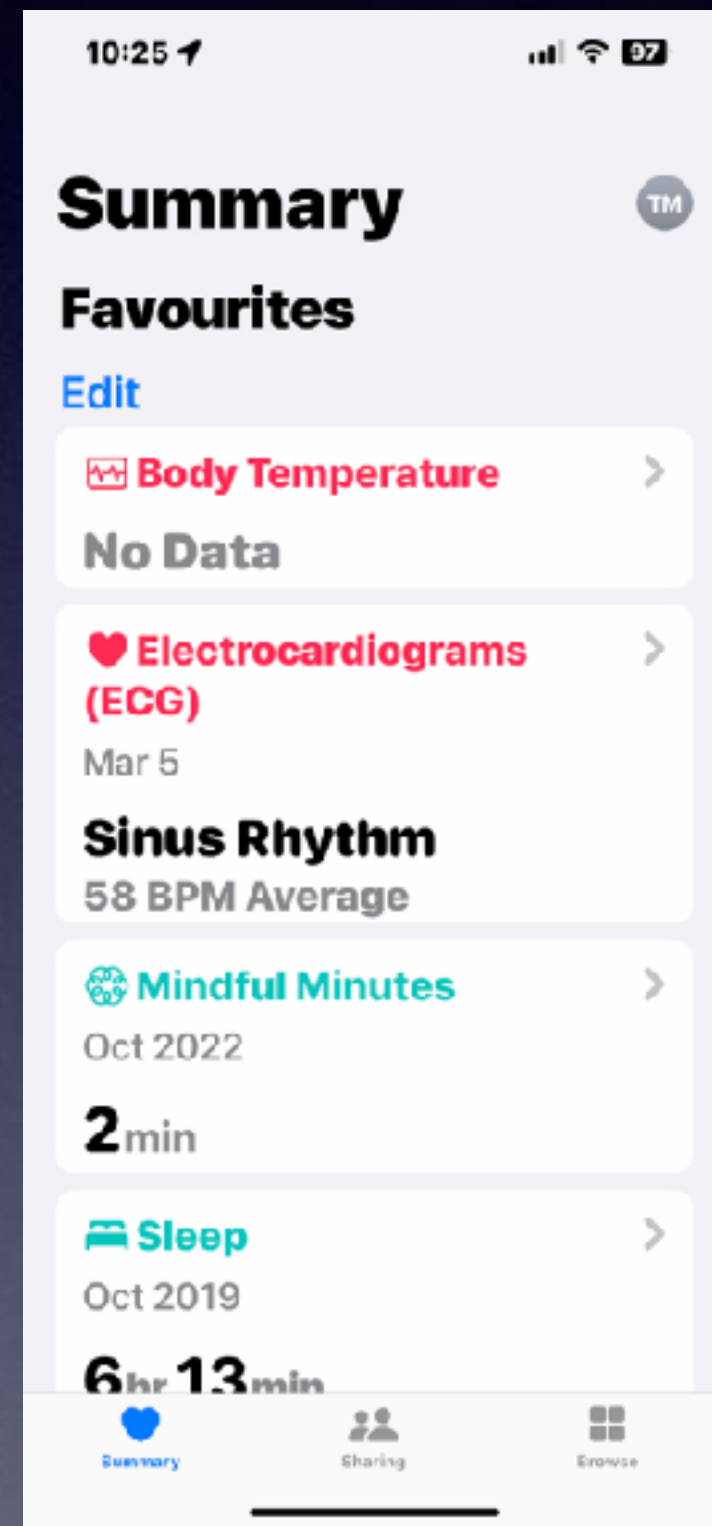

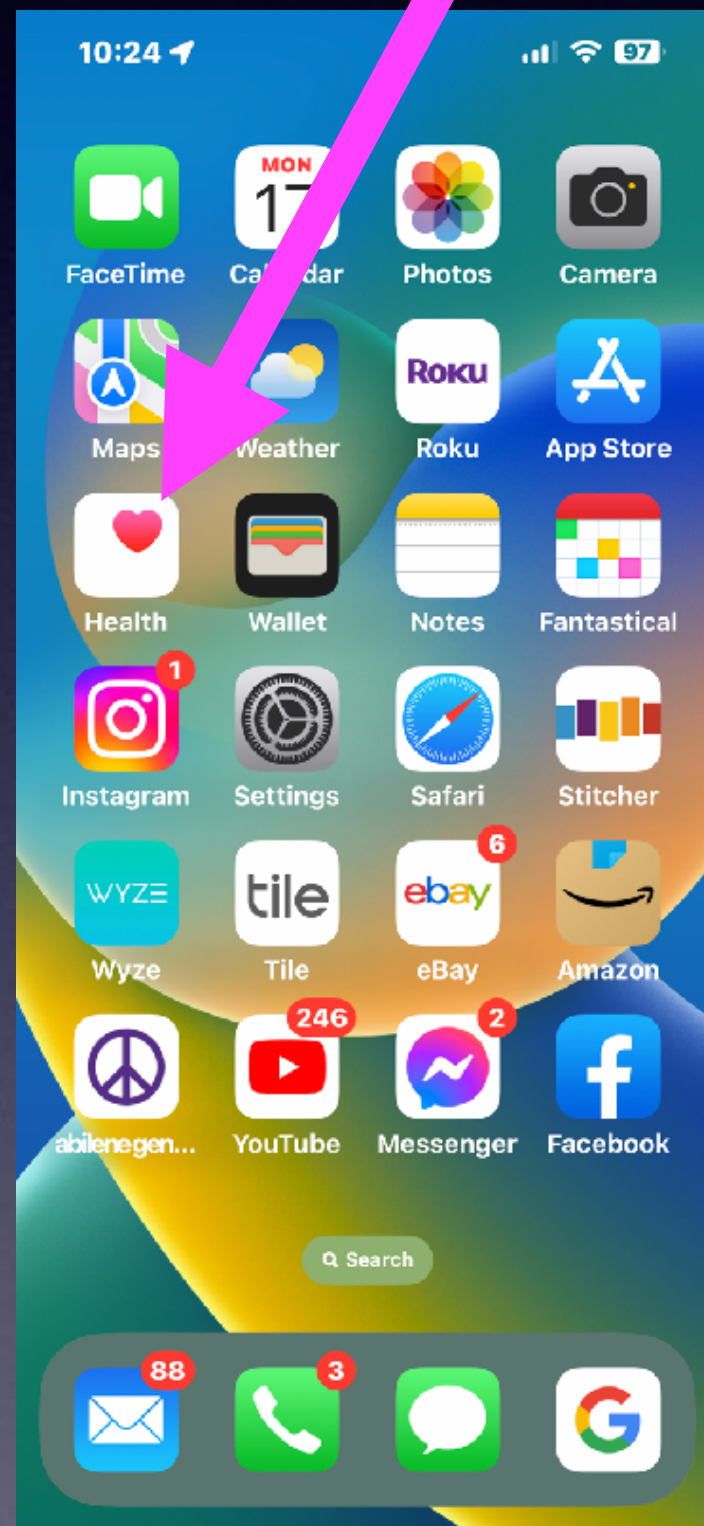

Can't touch the keypad.

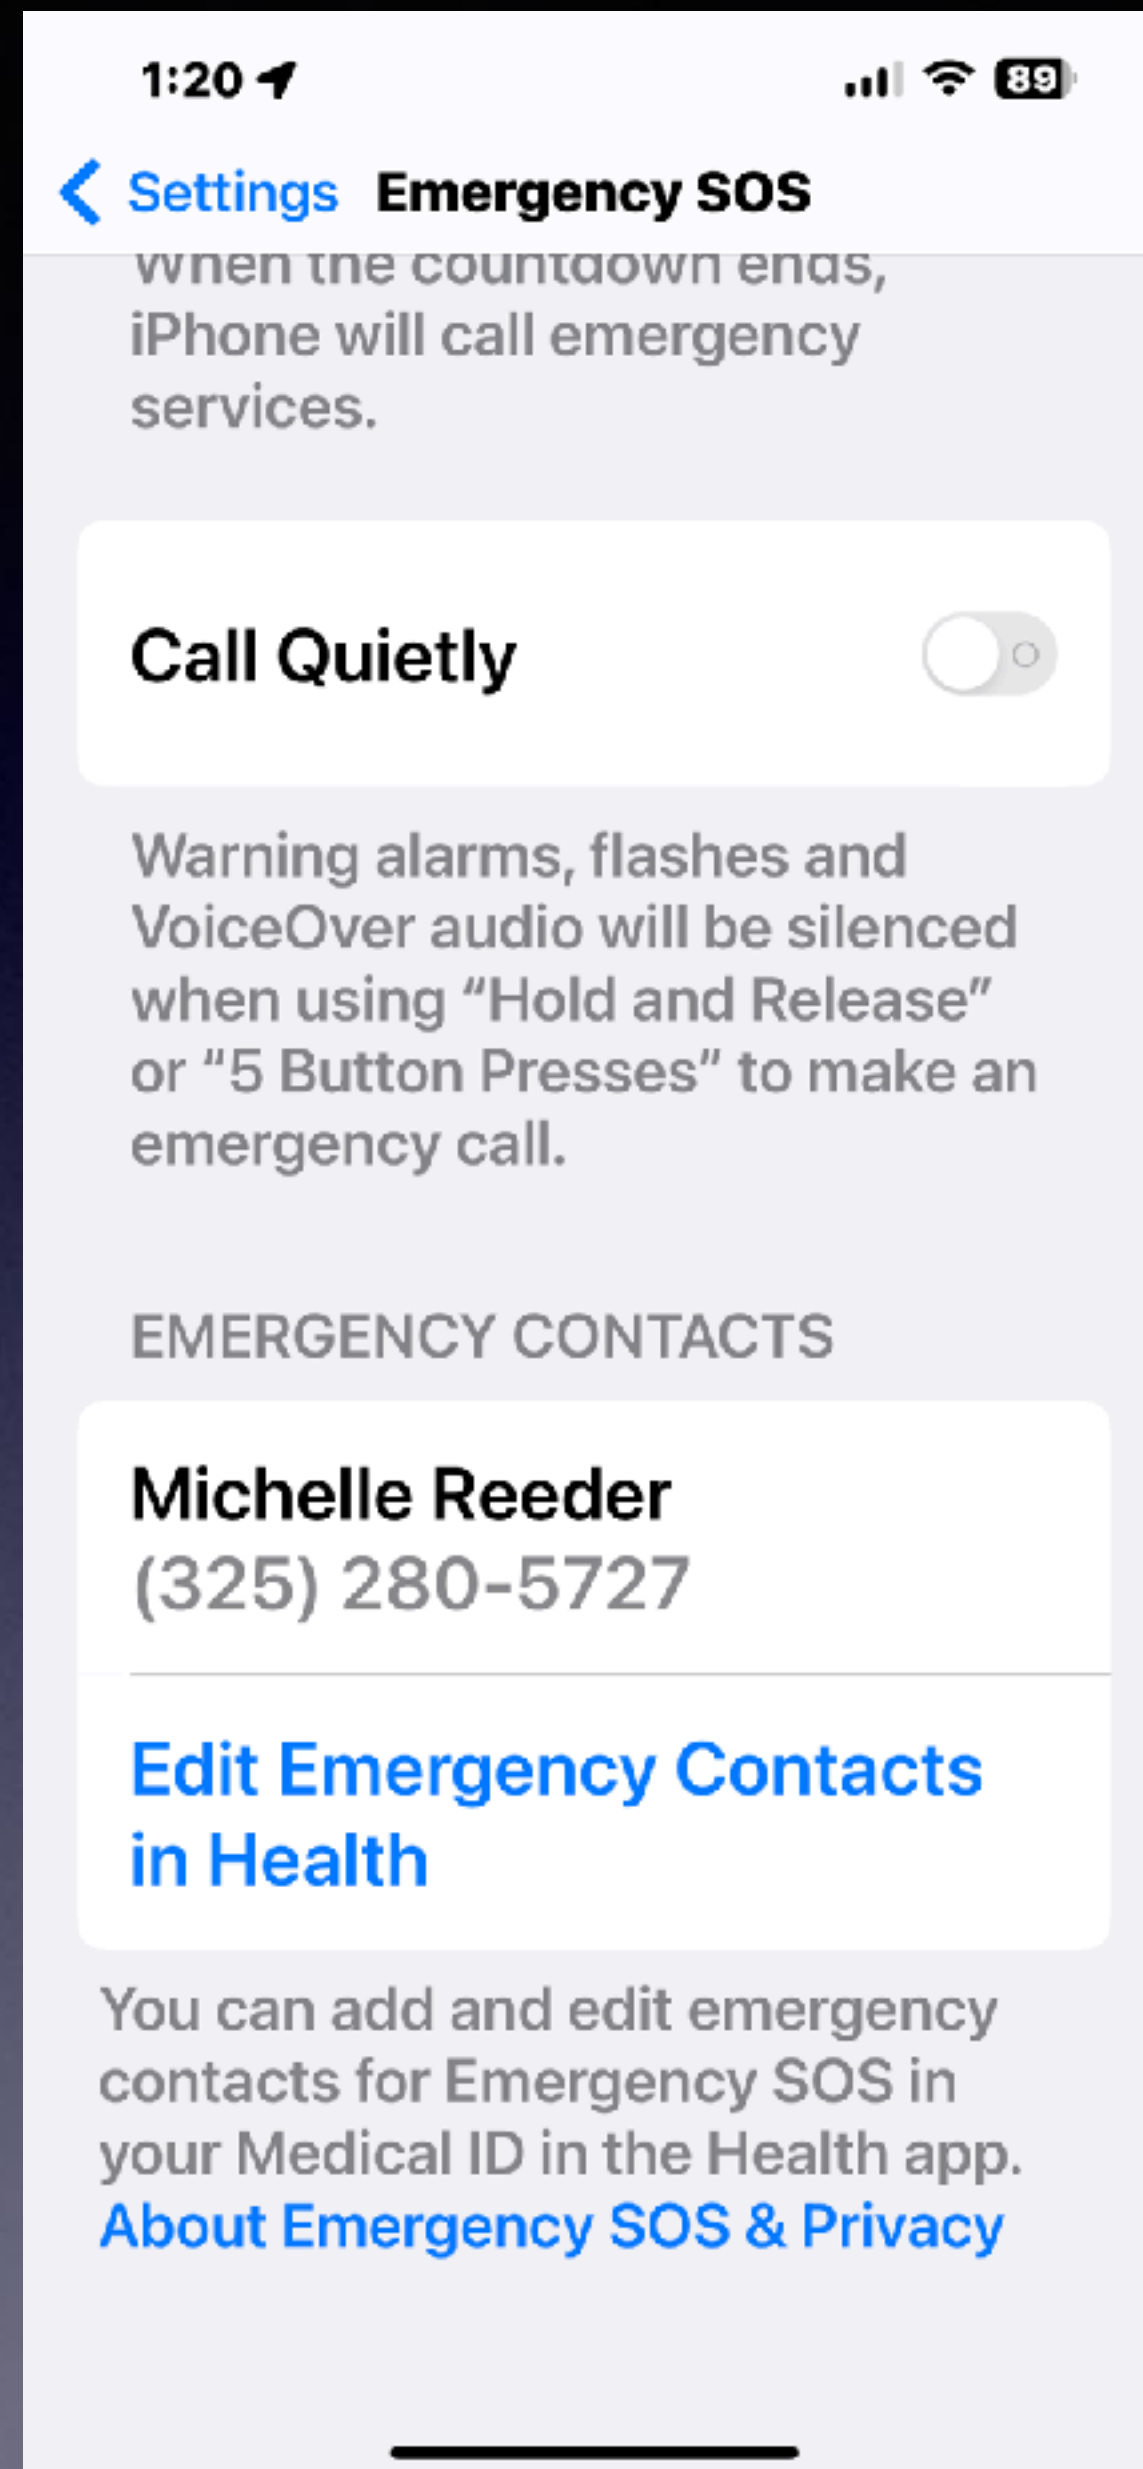

**The Health App
Can Save Your
Life!**

Add An Emergency Contact!

Use the edit button to make changes!

Add An Emergency Contact From The Settings App on Emergency SOS!

or

You can do it from the Health App!

**Reminder: With
The
iPhone, There is
more
than one way to do
many
tasks!**

What Do Emergency Contacts See?

That's it – in the beginning. Your iPhone will also use its location data to send a follow-up message as you move around.

It will say something like, "**Emergency SOS. The approximate location of [Your Contact Name] has changed.**" This will be followed by a link to Apple Maps that will display your location for your contact to see.

As you continue moving, Apple will continue sending periodic updates and new links to Apple Maps with your location.

Of course, you don't want that to continue once the situation is resolved.

- 1 Afterward, you can go into **Settings**.
- 2 Head to **Emergency SOS**.
- 3 Then select the message that will appear at the top saying **Stop Sharing Emergency Location**.

Send Your Current Location!

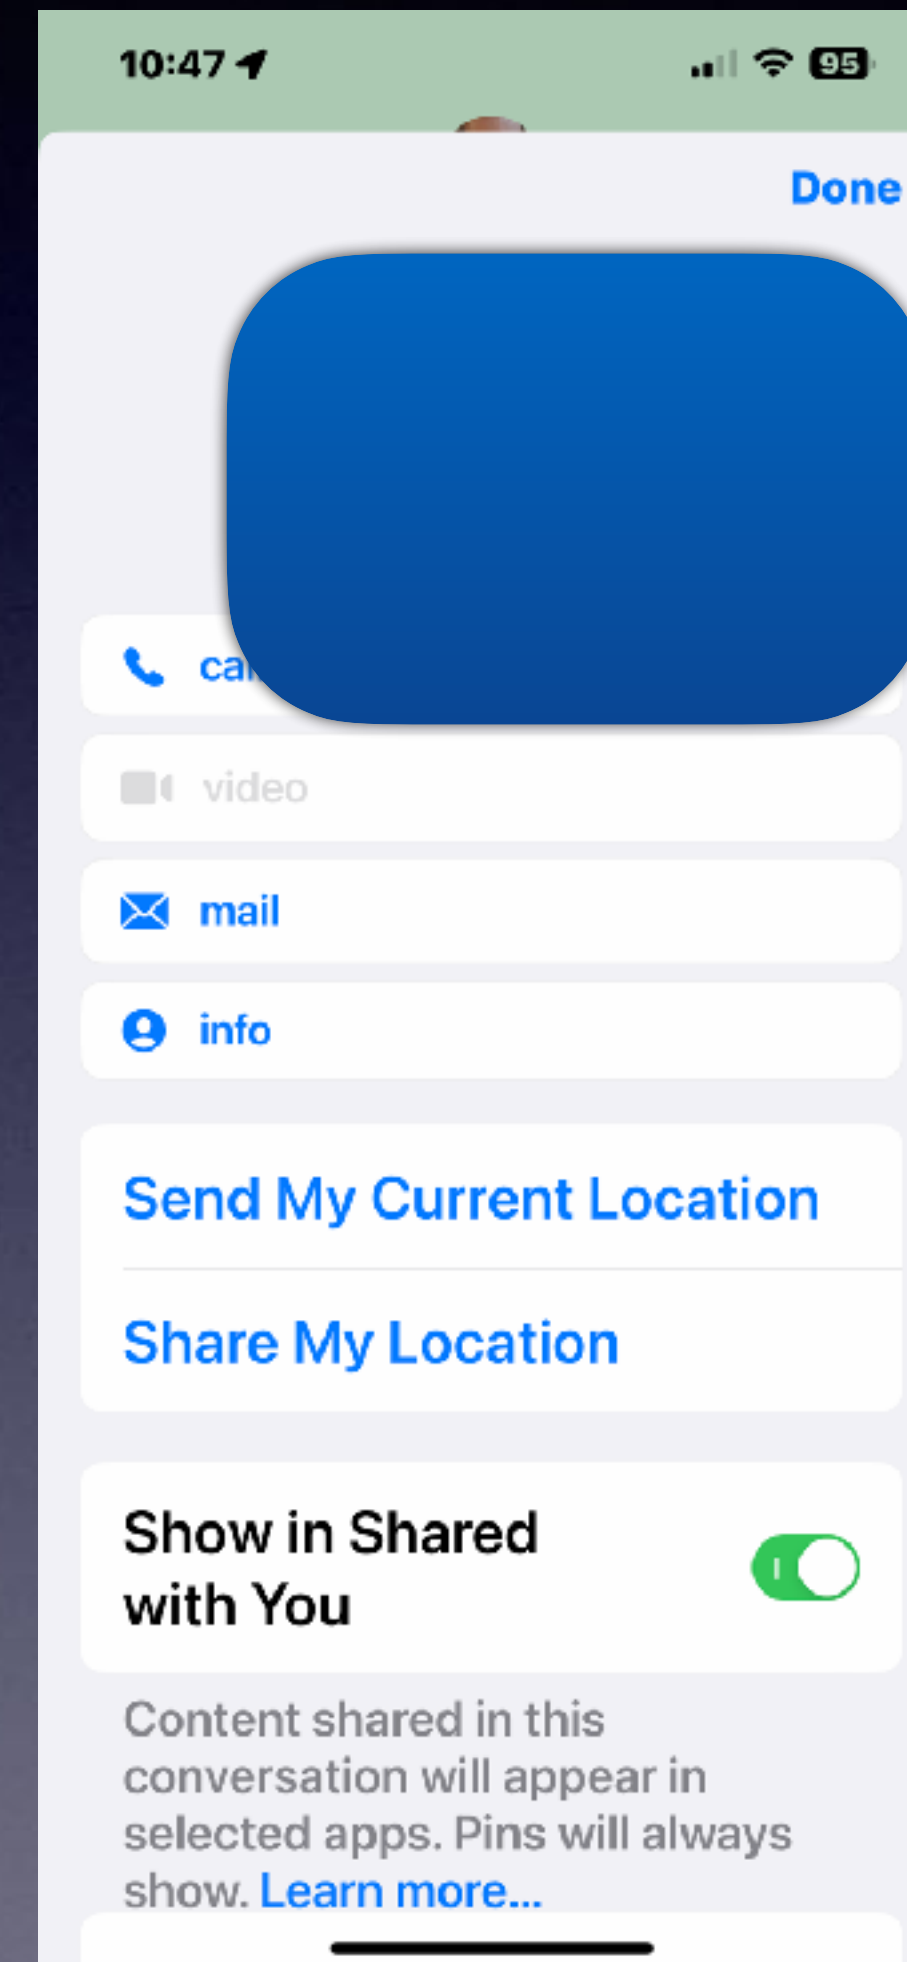

Temporarily!

Open the
Messages App.

Begin a Message
to see their name
or image.

Tap in the "Name"
field.

Then scroll down
to send current
location.

Share Your Location!

With those most important to you!

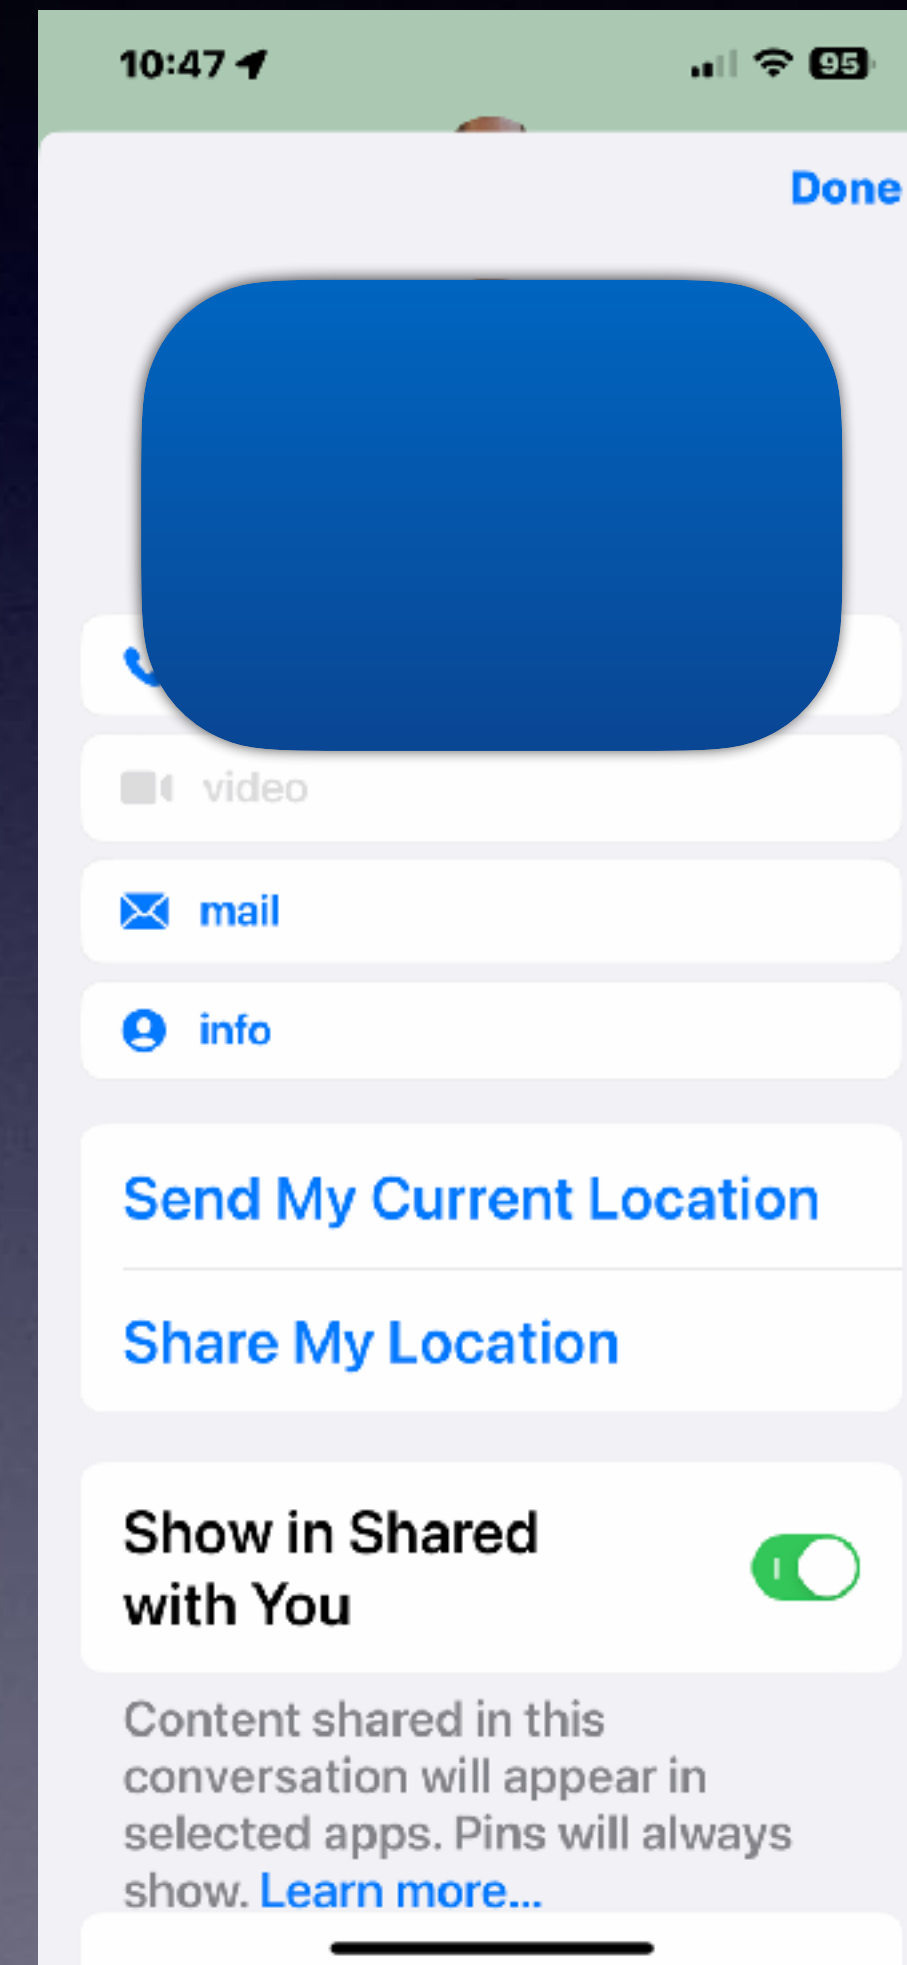

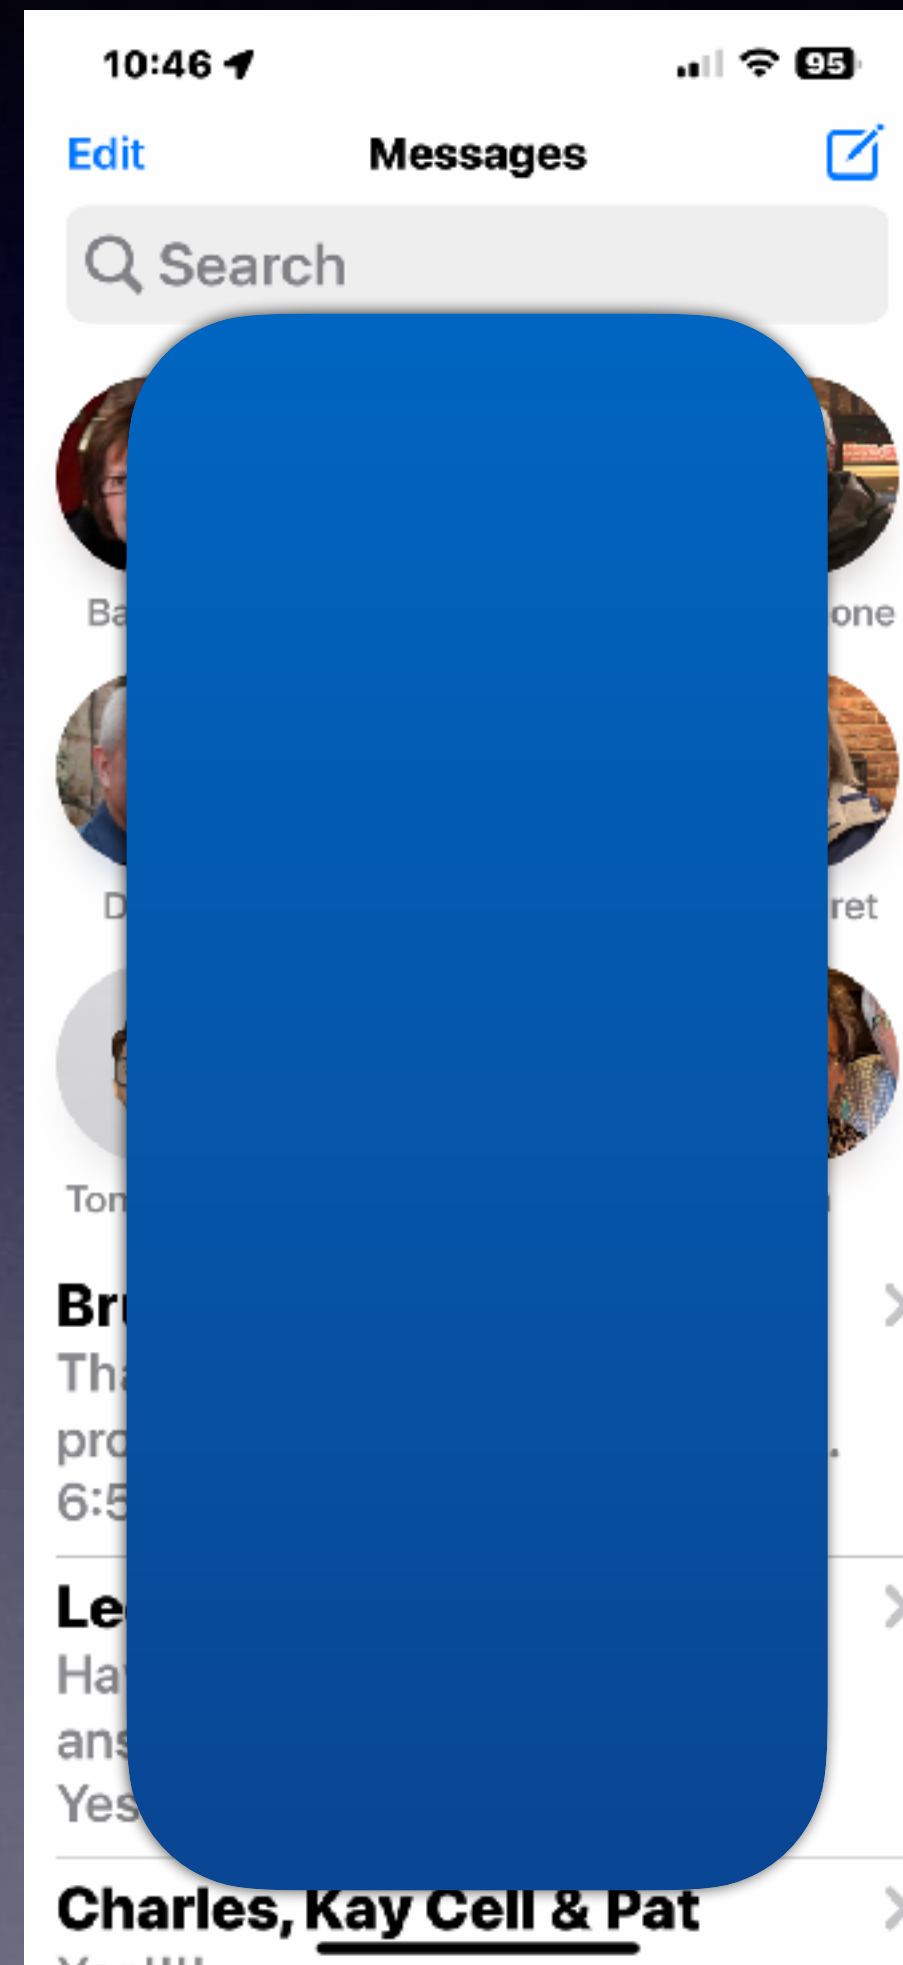

Permanently!

Open the
Messages App.

Begin a Message
to see their name
or image.

Tap in the "Name"
field.

Then scroll down
to Share my current
location.

Sharing is
"live"!

Find Your Car When You Forgot Where You Parked!

To find your car on your iPhone, simply open the Apple Maps app. Your map will always be updated with the current location of your car. Once you turn your car off, your location is documented on the app. The car can be found by clicking the search bar, and Parked Car. Nov 18, 2021
