Scamming IS Everyday!

What are the chances that you will be connected to a foreigner with whom you cannot understand?

You are delinguent on your taxes and the IRS wants you to pay.

Your computer is not sending fraudulent codes that are seen by the government or by Microsoft.

You haven't overdrawn your Social Security and must return payment.

Your grandson or granddaughter is not in trouble and does not need \$.

Your iPhone and computer don't have a virus.

The FBI doesn't have a warrant for your arrest.

How Clever Does A Scammer Have To Be?

You Must Outwit the Scammers! Does he/she speak native English? Does it seem to be a random call? Is it something I have thought about? Do I have time to think about it? Are they wanting info from me? Do they put pressure / intimidate on me? Is money / credit card involved? Will they give me time to think about it?
